Senator Wark was born in Londonderry, Ireland, Feb. 19, 1804. In 1825 he came to Canada, and for a number of years was engaged in mercantile pursuits in New Brunswick. He entered the political arena in 1842 as representative of Kent, in the New Brunswick Assembly, and in 1851 was appointed to the Legislative Council, where he remained until Confederation, when he was called to the Senate by Royal proclamation as one of the first Senators from that Province. From 1858 to 1862 he was a member of the Provincial Government without portfolio, and later became Receiver-General. When historians tell of the growth of the Empire and the fostering of a friendly patriotism between the colonies and the Mother Land, the work of Senator Wark will be found to figure prominently. Over half a century ago he moved a resolution which first brought about a measure of trade reciprocity between the Provinces of British North America. In 1897 he had a resolution adopted in Parliament favouring the drawing more closely of the ties binding the Dominion to the Mother Land. Not with voice alone did the veteran Senator aid the cause of free trade and helped to weld the Empire together. He wrote extensively in the press and the reviews in behalf of Imperial Federation and reciprocal trade relations between Canada and the United States. Ten years ago he published a word on "The Future of Canada and it's Relation to the British Empire." In 1897 he received the honorary degree of LL.D. from the University of New Brunswick. He was a member of the Presbyterian Church. He married 44 years ago a daughter of the late Isaac Burpee, of Sunbury, N.B. He celebrated his 100th birthday on Feb. 19, 1903, and was the recipient of an address of congratulation from the Senators, as well as of a message from King Edward.

EDITORIAL NOTES.

The Toronto Star is a nauseating punster. The other day it malevolently mixed up the visit of the British warships to Quebec with His Warship the Mayor. To fill the measure of iniquity fuller, last night it ventures the suggestion that the late Viceroy of India is Curzon the luck which deprived him of office. The Star might have added that Lord Kitchener and a Minto reasons for making the change.

Note the effect of precedent. In feeble imitation of the increased sessional indemnity to members, the wages of the musicians of Toronto theatres have been raised. These two increases will not be an unmixed evil — they will put money in circulation, and won't work much harm, unless they make the members of Parliament talk more, and the musicians play more to earn their additional stipend.

Town lots at Cobalt upon the Temiscamingue and Northern Railway, have sold at from $250 to $710, the same price as gilt-edged building lots in the city of Peterborough. Five years ago a square mile of this territory would not have brought these figures. It appears that these lots may be not only residence sites but the sites of valuable mines of cobalt, nickel or silver. Lots in Peterborough would take on a largely increased value if the purchaser could be reasonably sure of a rich mine in his back yard. A potato plot under such conditions would be diligently cultivated if there were a chance of turning up chunks of silver ore along with burrowing pota to bugs.

The Biological Department of the Ontario Agricultural College, Guelph, is preparing an exhibit of insect pests and fungus diseases which operate on fruit trees, to be exhibited at the Hamilton Industrial Society's show. This is practical work, which should yield good results. Fruit growers, who can see such pests will be better able to recognize them in action, and be better able to deal with them. Doubtless many of the insect scourges which infest fruit trees, are observed, but their noxious nature is not known, and they are disregarded till their ravages become apparent and the mischief is done, which could and would have been prevented if their character had become known.

MR. E. M. TAYLOR IN COBALT MINES

St. Louis Man Who Has Great Faith in Cobalt.

Is Interested in the Cobalt Properties in Coleman Township.

The article in yesterday's Examiner in reference to the Temiskaming Railway, and the very valuable mineral deposits which have been found in that district brought Mr. Ed. M. Taylor, of St. Louis, who has been visiting in the city for a few days, into the office to give some additional information in connection with that part of the province. Mr. Taylor is an American, but like many another shrewd citizen of that country, he has great faith in the future prosperity of this country. He has already shown that he appreciates the wealth of the region in the vicinity of Cobalt by purchasing an interest in a mining property there, and the company will this week be incorporated in Ontario, as the Coleman Cobalt Mining Company. Mr. Taylor is most enthusiastic on the prospects for mining in that section, and states that he learns from reliable sources that the enormous sum of $50,000 worth of ore is shipped out of that mining region every day. Those shipments are not all made from Cobalt, but from the different stations along the line of the Temiskaming Railway, and all from Coleman township. This is almost incredible considering the recent nature of the discovery, and in his opinion the Cobalt region will equal in wealth that of the famous Klondyke. At the present time there is a great rush into that part, every train being crowded, and the country is fairly black with prospectors.

If half of the claims turn out to be all valuable the wealth produced there will be greater than that of any other mining camp on the continent.

It is recorded that in two months the value of the exports of ore from Cobalt was $2,300,000, and this was mined entirely without machinery. So that one can have an idea of the richness of the minerals. The Wall Street News, one of the most conservative and reliable of the New York financial papers is authority for the statement that in the next five years there will be spent in Canada from $150,000,000 to $200,000,000, in the construction of the G.T.P. Railway, and this paper believes that Canada is on the eve of greater prosperity than it has yet seen.

Mr. Taylor shares in the belief of the News in the great future in store for this country, and is of the opinion that the Cobalt Mining region will yet prove the most valuable mining deposit in this country.

FUNNY STORIES BY FUNNY CLOWNS

Norris & Rowe's Circus Has Some Clever Mirth Producers.

What the comedian is to the theatre, the clown is to the circus arena. Both must be born funny men, it can hardly be acquired and unless they posses the true sense of humour and be able to appreciate quickly the ludicrous side of life, their efforts would go for nought in inciting laughter and the sense of the ridiculous. In the shadow of the dressing tents of a circus, many of the best stories are told, stories that seldom find their way into print. "Jim" West, principal clown of the Norris & Rowe Greater Circus, was recently overheard to tell several stories among which was the following:—Years ago he was with a small show that wintered in the south. At all the circus winter quarters, there is any number of men who loaf around doing odd jobs for their board and room until the show again takes to the road in the spring and they are once more placed on the salary list. One of these roustabouts approached the manager of the show one Saturday and the following conversation took place:—"Could I have $2.00, sir?" "$2.00", exclaimed the astonished manager. "Why, my boy, don't you know we never advance money until the band plays?" "Well, for Heaven's sake," explained the man, "Let the band play quick, for I need the money." It was said in such a tragic tone that it made even the manager laugh and he produced the $2.00 asked for. West tells another one on the same order. The manager received a letter one day which read like this:—"When does the show open? Can I have my old place back? I don't care where it opens, where it goes or where it closes. I don't care what the salary is. I am simply eager, anxious and ready for the bell to ring". "One could well imagine," continued West, "that all this fellow saw was visions of the cook house, regular meals and a berth on the circus train." James West is considered by Norris & Rowe to be the very best clown they have ever engaged. He will be seen here when the Norris and Rowe Shows exhibit, on Saturday, August 26th.

THE DAY OF CONCRETE.

Nothing has attracted so much attention in recent years as the use of concrete in buildings. Concrete is a comparatively new thing, but it has come with a rush, and the purposes to which it can be economically devoted are rapidly widening. Toronto has been quick to seize the advantages of concrete. The extent of its utilization in that city was well illustrated in yesterday's Sunday World. An imposing bank building and a handsome private residence have been built of concrete as a building material in this city. But its usefulness goes further. It goes into railway construction, forming the most permanent foundations for bridges known to the contractor. It is beautifying city streets in sidewalks and pavements, and altogether opening up a new field to contractors and builders. Concrete has clearly come to stay, and one of its chief lines of expansion is likely to be as a material for the construction of private dwellings.—Hamilton Herald.

In connection with the uses of concrete it may be mentioned that concrete was first used on the Trent Canal for the construction of locks, piers, dams, etc., the celebrated hydraulic lift lock being entirely constructed of concrete—thousands of tons—and steel.

Test the Kidneys.

Allow the urine to stand in a glass vessel for twenty-four hours, and if at the end of that it is clouded or has left a sediment in the bottom of the vessel you may be sure that your kidneys are diseased. As a means of invigorating the action of the kidneys and making them strong and healthy, there is no preparation so prompt and none so thorough as Dr. Chase's Kidney-Liver Pills.

Band and new moving pictures this week at Jackson Park.

Persons desiring to compete for best reults in beautifying premises, will please send in their names and street numbers to the committee may inspect premises next week. H. S. Beal, secretary. 3t

LANG & MAHER'S BIRTHDAY BANQUET

This Young Firm Entertains Staff of Employes.

On Saturday felt the anniversary of the first year's business of Messrs. Lang & Maher, the young and enterprising Peterborough street merchants. In recognition of the anniversary, and in a spirit of gratitude for the signal prosperity that has come to them during the first year of their business life, and in generous recognition of the extent to which their staff of employees has contributed to that success, the firm banquetted the latter at McCallum's Restaurant on Saturday night. This is a circumstance creditable alike to the employers and employed. It exhibited a most desirable condition of harmony, which speaks volumes for both. The young firm will stand higher in the public esteem, because they stand high in the esteem of those who know them best — those who are familiar with their business methods. It stands to reason that the man or firm which wins the respect of its employees is more worthy of the esteem of the public. If he or they are fair and just to one, they will be the same to the other.

WILL THE EXHIBITION ESCAPE THE STORM?

Hicks, The Weather Prognosticator, Prophecies Storms for Sept. 27-30.

If Prof. Irl Hicks is a true weather prophet, the directors of the Central Exhibition have luckily selected the dates, September 25th, 26th and 27th. Prof. Hicks says that we shall have far-reaching storm periods from the 27th to the 30th of September. Thus the directors are assured of two days anyway of good weather, with a chance that the storm period will not begin promptly on the 27th.

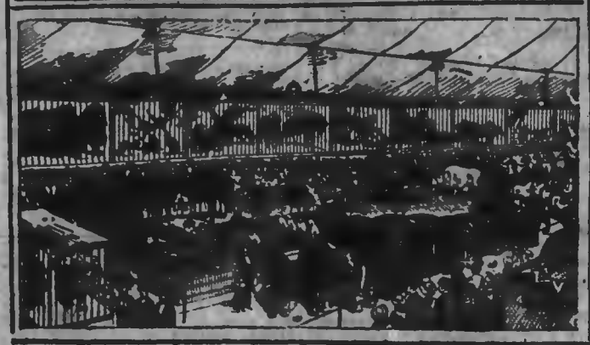
NORRIS & ROWE'S



A SOCIETY WHICH PROMOTES BUILDING

The Peterborough Workingmen's Building and Savings Society Held Its Regular Meeting Last Night—One of the Financial Concerns of the City, of Which But Little is Known—Its Objects and the Good Work it Has Done--One of the Most Useful Institutions of Its Kind in the City.

Last night the Peterborough Workingmen's Building and Savings Society held its regular meeting, and the usual business was transacted. Money was loaned to ten persons who had made application for it. Mr. T. B. McGrath presided at the meeting.

This Society is of great benefit to the working man, but it is not very widely known. The Society has been in existence for seventeen years, and during that time has proved a profitable medium of investment for those wishing to save money, and has also helped a number of workingmen to build and own houses by the payment of a small sum monthly.

The officers and directors of the Society are:—

President—T. B. McGrath.
Vice-President—James Lynch.
Treasurer—James Murty.
Secretary—John Corkery.
Directors—Geo. Ball, John Clancy, M. Coughlin, Dr. McNulty, F. McFadden, H. LeBrun, A. Murty, J. McGrath, E. A. Peck, L. Minnola, J. McCabe, R. Sheehy, all of this city.

The chief objects of the society are to procure a profitable investment for the individual investor, and to inculcate habits of thrift. Subscribing for instalment stocks, payable monthly, is the first step towards saving money. The subsequent payments of a shareholder lead to the accumulation of money which is continually earning interest. The opportunities of this society enable it to promptly lend the payments received from its shareholders, and such advantages are not within the reach of an individual lender.

How the Money is Invested.

The funds of the society are loaned as fast as received, and only on first mortgages on improved real estate. The persons composing the society, who are stockholders, pay into the treasury every month $1.00 on each share they own, until their shares, through such payments and the accumulated profits reach their par value, or, as it is technically termed, "mature." The stated paymnets (called dues) continue to be paid until a par value of $200 is reached, when the shares mature, the assets in the treasury are divided among the shareholders. The shares are issued in successive "series" beginning in January and July of each year, the present value of the shares of each series being kept equal, the funds of all being loaned together and the profits being apportioned among the different series according to their age. Just as fast as the money is paid in it is offered in the shape of loans to the members—and to the members only—the security taken being a mortgage on real estate and an assignment to the society of the borrowers' stock.

The amount which a member is entitled to borrow equals the par value of his or her shares. Thus a member who wants $5,000 must own five shares. The interest is paid monthly, and the interest money with the dues and any other receipts goes into the treasury to be loaned at once. It is apparent, therefore, that the Loan Society, whose money is in demand, not only receives interest constantly on its loans, but that it

Compounds This Interest Monthly.

Herein lies the chief secret of the profitableness of this system of investment.

Exactly how long a series of shares must run to reach maturity cannot be calculated precisely in advance, because it is impossible to foresee the rates of interest, the expenses, the number of withdrawals, etc. The first of the series in this society matured in July, 1900, having run for 139 months, or 11 years and seven months, having begun in January, 1889. Thus the member having five shares and saving $5 each month paid into the funds of the society a total saving of $695, receiving back $1,000, or a profit of $305 as interest. In this series there were 62 shares, returning the shareholders $12,400, or $200 a share.

Mr. Roy Kingsbury has returned to city after spending a few days in Belleville.

Mr. and Mrs. Wm. Taylor left this morning for a visit with friends in Streetsville.

Mrs. W. S. Belcher and son Arthur, of Port Hope, are visiting with Mrs. H. Rush.

Miss Edith Finley, of New York City, is the guest of her friend, Miss Minnie Craig.

Mrs. J. Bell, of Montreal, is visiting her brother, Mr. White, of the White House.

Master Donald Carmichael of Toronto, is visiting Mrs. J. McCullough, McDonel street.

Mr. C. Blewett, real estate agent, was in Garden Hill and Perrytown yesterday on business.

Miss Sadye Bennett, of Toronto, is the guest of Mrs. W. T. Abbott, 115 Lake street, for two weeks.

Mr. and Mrs. John Wallace, of Rochester, are spending a week at South Beach House, Young's Point.

Miss Florence Davis, Albert street, is visiting Miss Dorothy McMullen, Peterborough.—Belleville Intelligencer.

Mr. Moses Giroux, of Montreal, is in the city visiting his brother, Mr. George Giroux, after five years' absence.

Mr. Geo. Jackson has returned to the city after spending a few days at Stony Lake. He will go to Toronto to-morrow.

Miss Flo Carswell, of Oshawa, and Miss M. E. Thomas, of Prince Albert, are guests of Mrs. W. C. Thomas, Rubidge street.

Mr. R. P. Dormer, late of the tool department of the C. G. E. Works, left this morning to accept a position in Buffalo, N. Y.

Mrs. Edward Carswell, of Oshawa, has returned home after spending a week with her brother, Mr. W. C. Thomas, Rubidge street.

Mr. A. Johnson, of Guelph, after spending a few days in the city the guest of Mr. J. W. Green, 213 Brock street, left for home this morning.

Mrs. Dr. Maher, who has been visiting her mother, Mrs. O'Connor, returned to her home in Kingston this morning, accompanied by the latter.

Rev. Dr. Gardiner and wife have left the city to visit relatives at Peterborough, Fenelon Falls, Hamilton and other places.—Belleville Intelligencer.

Mr. G. H. Tovey, formerly of town, now with the General Electric Company of Schenectady, N.Y., is spending his vacation with his parents, Ald. and Mrs. G. J. Tovey.

Miss Katherine Herbert will leave on Thursday by C. P. R. for Montreal, where she will take the Allan Line steamer Tunisian for Londonderry, Ireland.

Mrs. Wellington Edwards, of Toronto, and Miss Edwards, of Carleton Place, her sister-in-law, are in the city the guests of Mr. and Mrs. J. W. Green, 213 Brock street.

Mr. and Mrs. Herb. Dawson, of Port Arthur, have been visiting at the former's father, Mr. Alex. Dawson, Dufferin street. Mr. Dawson went to Toronto to-day to spend a few days.

Mr. Jas. Dorris has returned home after spending the week with friends in Lindsay. He is accompanied by Mr. Jack Hurley, who will remain with him for the balance of the week.

The Sunday World, Toronto, prints a group photograph of the graduating class of nurses at the Western Hospital, Toronto, in which is seen the portrait of Miss Mary Sawers, Peterborough, who has successfully completed her course.

Rev. Dr. Torrance preached in the First Presbyterian Church, Port Hope, on Sunday, and the Guide says: "In the morning the service was conducted by Rev. Dr. Torrance, Peterborough, who preached an eloquent an instructive sermon from Jeremiah 48, 12, 'Moab hath been at ease from his youth and he hath settled on his lees and not been emptied from vessel to vessel, neither hath he gone into captivity; therefore his taste remaineth in him, and his scent is not changed.' The sermon was highly appreciated by the congregation."

TELEPHONE TALKS.

TO TELEPHONE USERS AND THE GENERAL PUBLIC,—

At the beginning of the investigation by the Parliamentary Select Committee the following statement was presented in evidence:—

"There is no doubt that the over-capitalization of THE BELL TELEPHONE COMPANY OF CANADA is the cause of the high rates charged to Telephone subscribers in the Dominion."

This statement was made one of the principal objects of investigation by the Committee. By the sworn testimony of the President of this Company, backed by financial records presented in detail the charge was demonstrated to be absolutely without foundation in fact.

The President in giving his evidence presented the following statement of the Company's capital expenditure:—

Exchange Capital per subscriber	$ 92.00
Toll line capital per subscriber	21.00
Real estate capital per subscriber	18.00
Total capital investment per subscriber	$141.00

A comparative statement on a similar basis of the capital expenditure of several of the larger independent Telephone Companies of the United States was also presented, showing their investment as follows:—

	Per subscriber.
Cuyahoga Tel. Co., Cleveland	$349.00
Pittsburgh & Allegheny Tel. Co.	$60.00
Kansas City Home Tel. Co	$80.00
Home Tel. Co. of Louisville	$57.00

Not a single authoritative record, either by comparison or otherwise, was presented in support of the charge that this Company is over-capitalized.

The facts as demonstrated by the most general comparisons and by experience of all practical Telephone men are entirely to the contrary. The capitalization of the Bell Telephone Company of Canada is, upon every basis of comparison, the lowest of any general system, whether corporation, government or municipal, of which records have been produced.

The charge of over-capitalization which has been persistently made has therefore been most effectually refuted.

THE BELL TELEPHONE COMPANY OF CANADA.

Good to the Last Bite!
aptly describes the tender, juicy, fine flavoured boss sirloin steaks we furnish. Lots of other good things in the meat line, too — roasts of beef, lamb and mutton; turkeys, chickens, ducks; ham, fresh and cured, etc., etc. Those who know, speak well of our meats — you will if you try them.

LARGE CONGREGATION
AT SERVICES SUNDAY
AT JUNIPER ISLAND

Heavy Rain Storm Interfered With Saturday Night's Dance—Many Will Go to Chemong—Flower Thieves in Evidence—A Camp-Fire "Limerick"—Many Peterborough People Spend Sunday at the Lakes—Personal Items of Interest.

The crowd at Saturday night's dance at the Juniper Pavilion was a somewhat smaller than usual, owing to the heavy storm which took place during the evening. A charming time was spent, however, by those who were present.

Services at the Pavilion.

Yesterday's services at the pavilion were largely attended by campers and cottagers.

The morning service was conducted by Rev. Mr. Bates, of New York, who preached an able and convincing sermon. A solo was sung in good voice and with beautiful effect by Miss Canfield.

A Camp-fire Echo.

The Cheerful Idiot became inflated with the divine afflatus of the Muse, and in a reckless moment contributed the following to the conversation around the camp-fire under the title, "Pouring Water on a White Duck's Back."

There was a young man from Boschihk,
Who, unfortunately, fell in the [illegible]
The season, 'tis said,
When [illegible] stays in bed,
Is—his socks disappeared in the [illegible]

Vandalism at Stony Lake.

That flower-thieving is by no means confined to the city, where numerous instances of it this summer have caused great annoyance, was shown last week. A prominent cottager, who is somewhat of an enthusiast along horticultural lines, had under cultivation near his cottage, a small fernery, which had, under his attention, become very beautiful and added greatly to the appearance of the surroundings. Last week the bed, which was surrounded by stones, was visited by some unknown marauders, who carried off the ferns, and have apparently appropriated them to their own purposes. Should further offences of this character occur, action will undoubtedly at once be taken to protect those who seek to beautify the surroundings of their homes in this way, [illegible] are [illegible] difficulty.

Chemong Excursion.

The prospects are that the Chemong regatta to-morrow will draw an immense crowd from Stony Lake, and all available space on the steamer Stony Lake, which has been engaged to carry the excursion, will undoubtedly be required to accommodate the party. The moon boat trip up to Stony Lake to-morrow has been cancelled, owing to the excursion.

Personal Notes.

Miss Faint, Miss Beatty, of Peterborough, and Mr. Jackson, of Toronto, are among the recently arrived guests at Kilkenny.

Mr. and Mrs. Gordon J. Smith, and Mr. Morson Smith, of Paris, are at Scotia.

Mr. W. H. Meldrum spent Sunday at his cottage Stony Lake.

Mr. V. C. Edwards, of the Bank of Commerce staff, spent Sunday at Stony Lake.

Mr. Clayton Chown came down to the city this morning.

Lieut.-Col. E. S. Edwards came down from his cottage this morning.

Mr. R. Rogers, of Toronto returned home from his cottage this morning.

Mr. Thomas Barrie spent Sunday at the lakes.

Mr. Joe Tolvin returned this morning after a pleasant two weeks' holiday at Kilkenny.

Mr. A. Percival Earle, General Manager, Reliance Life Assurance Company, of Pittsburg, returned home this morning after a two weeks' holiday at Stony Lake.

Mr. J. S. Knapman went up to his cottage on Saturday.

Mr. F. S. Schneider spent Sunday at the lake.

Mr. Rupert Bradburn came down this morning from Victoria House, Stony Lake, where he has been spending a week.

Mr. Lyman, of Buffalo, landed a 5 1-2 pound bass on Saturday at Eel's Creek.

Mr. Geo. and Mr. Wm. Cochrane came down from the lakes this morning.

Mr. E. M. Best returned this morning after spending a few days at the lakes.

Mr. E. VanWyck, of Toronto, is a guest of Mr. Sutherland, at Inglestone.

Mr. Ross Cameron went up to his cottage on Saturday for a two weeks' holiday.

Miss A. Moore, of Toronto, is at Grassy Island.

Mr. E. Keefe, of Rochester, is at Mount Julian.

Mr. and Mrs. McCabe, of Richmond, Ind., is a guest of Dr. Piper, at Kimo.

Mrs. R. J. Weir and Mrs. James Burnett are guests at Bonnieastle, of Mr. and Mrs. John Sawers.

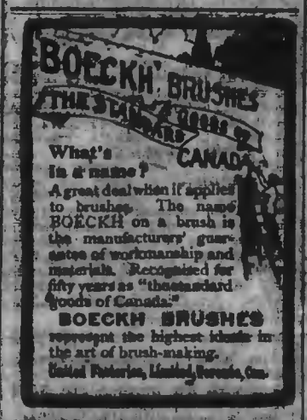
Miss Laura J. Davidson, is a guest at The Anchorage.

Mr. and Mrs. W. Vance and Miss Vance, of Millbrook, and Mr. Darner Neill, of Whitby, were guests last week at Mr. R. Neill's cottage.

Mr. G. A. Stewart, of Toronto, is at Sweetlia, Eel's Creek.

Mr. Bert Hoston has returned home from Stony Lake.

Miss Sike, of Rochester returned home this morning after a three weeks' stay at Kilkenny.



LATEST SPORT

MIDLAND PLAYS HERE TO-MORROW

Fast Baseball Game at the Riverside Park

An Excursion Will Be Run Here From That Town.

Arrangements have been made by which there will be a baseball game to-morrow afternoon at the Riverside Park between Midland and Peterborough. There will be an excursion from the former town and a fast ball team will accompany it. At three o'clock the game will be called, and it is expected that it will be one of the fastest of the season.

BASEBALL.

The next game for the Pirates is a home game when Port Hope is scheduled to play here on September 2nd.

BOWLING.

Two games were played last night on the Brookside Lawn as follows:—

J W Higgins	J W Garvin
D Patterson	J Cunningham
D H Moore	J Tittersell
R Cotterell, sk 13.	W H Isaacs, sk 9.
Dixon, sk 8.	Medd, sk 7.

RUGBY.

The Hamilton Tigers, champions of the Senior O. R. F. U., held their annual meeting on Saturday night, and from all accounts they will again hold that honour this season. All last year's players and several new ones are available and the Tigers are not only going to aspire for the championship of the O.R.F.U., but they want the Dominion championship as well. All of the chief officers were unanimously elected, only one or two minor changes being made. It was proposed to start a rowing club in connection with the football club, but it was thought that though a rowing club might be formed it would not be affiliated with the football club.

All the teams in the series promise to be stronger than ever this year and the Tigers will not have another walk over.

Elopment and Result.

William Braun, a farm hand, near New Brunswick, N. J., persuaded Louisa Gessler, 15 years old, a pretty housemaid, to elope with him, but Mrs. William Hahn, of Metuchen, by whom the girl was employed, suspecting all was not right, kept the girl in her room. In trying to get out, the girl jumped or fell from a second-story window, and injured her spine so badly that she may be crippled for life. She is now in the hospital, and Braun is in jail. He takes the whole affair as a joke.

Are You in the Rush and Bustle?
While we join in the rush and bustle of this busy world, overtaxing our energies and making our systems, many of us are mercifully subjects of reckless disregard of health, strength and fitness. Then perhaps the health breaks down—and we seem doomed to long periods of pain and depression. Our whole life is destroyed.
YET THERE IS A REMEDY AT HAND
Hundreds and thousands of ailing men and women have found that
BEECHAM'S PILLS
worthy "make life worth living."
They Purify the Blood, and right the Stomach, Liver, Bowels and Nerves, Quicken the Digestive Action, Regulate the Kidneys, and thus Restore Perfect Health to the Whole System of the previously sick and ailing.
The simple words and never-failing effects of
BEECHAM'S PILLS
have been fully proved during a period of nearly sixty years, and they have remained as the
Most Successful Remedy without any Nervous Attacks.
The most satisfactory evidence of the universal manner in which BEECHAM'S PILLS are held is found in the fact that the
Sales Have Very Greatly Increased
Throughout the World.
Prepared only by Thomas Beecham, St. Helens, Lancashire.
Sold everywhere in Canada and U. S. America. In boxes, 25 cents.

BANK OF COMMERCE TO BE REORGANIZED

Report That It Will be Strengthened and That Capital Stock Will be Increased to $20,000,000---Hon. Senator Cox Is to Be Made Honorary President--The Enlarged Capital Will Place it in a Position to Rival the Strongest Financial Institution of Its Kind in Canada.

The Canadian Bank of Commerce is to be so reorganized and strengthened as to place it in a position rivalling the strongest institution of its kind in the Dominion, if a project now under way be brought to a successful issue, says the Montreal Witness.

The head of the corporation by whom this project is being promoted

HON. SENATOR COX,
President Canadian Bank of Commerce

is the Hon. Senator Cox, of Toronto, who, it is said, will be the honourary president of the reorganized bank, while Mr. Robert Kilgour, of Toronto, will be the president, Mr. B. E. Walker the managing director.

The proposal is to increase the capital to $20,000,000. At the present time its paid up capital amounts to $8,700,000, with a rest of $3,500,000, making a total capital of over $12,000,000.

The head office of the bank is at present in Toronto, Mr. B. E. Walker being the general manager. It is believed to be the intention, under the new scheme, to establish the head offices in Montreal, probably on St. James street, at the north-east corner of St. Peter street. The property on that site comprises the Canada Life and the Temple buildings, and these will probably be remodelled so as to make them into a bank building of magnificent proportions and imposing appearance. As Senator Cox, the president of the Bank of Commerce, has already acquired the Temple building, and as he is the president of the Canada Life Assurance Company, there seems to be a warrant for the belief that this is the site selected.

The business of the bank has been growing rapidly of late years, and it already has branches distributed throughout the provinces of the Dominion, and doing a large and profitable business.

The earnings of the bank for the past year have been even more satisfactory than usual, and after writing off for bank premises $127,806.41, and making a contribution to the pension fund of $25,000, the directors have been able to add five hundred thousand dollars to the rest.

During the year the bank has opened new branches in the city of Winnipeg, in the Northwest Territories, at Lloydminster, in Saskatchewan, Moosejaw, in Assiniboia, and Nanton, in Alberta. Since the close of the bank's year a branch has been opened at Claresholm, in Alberta, and arrangements have been made to open in the near future at Melfert, in Saskatchewan.

The financial general statement of the bank on November 30 last, the date of the annual meeting, was as follows:

LIABILITIES.

Notes of the Bank in circulation		$ 7,680,947.58
Deposits not bearing interest	$18,068,420.09	
Deposits bearing interest, including interest accrued to date	$52,455,931.37	
		70,459,351.46
Balances due to other banks in Canada		138,705.50
Balances due to other banks in foreign countries		242,681.88
Dividends unpaid		88,642
Dividend No. 75, payable Dec. 1		304,500.00
Capital paid up	$8,700,000.00	
Rest	$3,500,000.00	
Balance of Profit and Loss Account carried forward	28,736.39	
		12,228,736.39
		$91,055,798.31

ASSETS.

Coin and Bullion	$ 2,501,336.19	
Dominion Notes	5,501,682.00	
		$8,102,018.19
Deposit with Dominion Government for security of Note circulation		400,000 00
Notes of and cheques on other Banks		3,635,085 29
Balance due by other Banks in Canada		10,632 50
Balance due by agents in Great Britain		5,394,905 42
Balance due by agents of the Bank and other Banks in foreign countries		2,107,565 34
Government bonds, municipal and other securities		7,313,648 34
Call and short loans		10,460,082 59
		$37,919,987 67
Other current loans and discounts		51,458,168 16
Overdue debts (loss fully provided for)		305,293 38
Real estate (other than Bank premises)		43,327 15
Mortgages		320,626 86
Bank premises		1,000,000 00
Other assets		88,519 09
		$91,055,798 31

The directors and officials of the bank are: The Hon. Geo. A. Cox, president; Mr. Robert Kilgour, vice-president; Mr. James Crathern, Mr. Matthew Leggat, Mr. Wm. B. Hamilton, Mr. John Hoskin, K.C., LL.D., Mr. Joseph W. Flavelle, Mr. A. Kingman, the Hon. L. Melvin Jones, Mr. Frederic Nicholls.

Mr. B. E. Walker is the general manager, and Mr. Alex. Laird assistant general manager.

Word was received in the city yesterday afternoon from Toronto that Hon. Senator Cox will pay a visit to Montreal during the course of the next week in connection with the scheme.

Later.—Senator Cox has denied the report that the head office of the bank is to be moved to Montreal.

Brutal Outrage Was Committed at Stirling

Partial details have just come to hand of a terrible affair which happened near the village of Stirling a few days ago, says the Belleville Intelligencer.

It seems, so we are told, that two respectable young ladies, daughters of farmers in the vicinity, left the village one day for a walk. They were followed by two men on bicycles, who caught up and viciously assaulted them in the most brutal and cowardly way. The young ladies were beaten into insensibility, and their clothes literally torn from their persons. Graver charges are also made.

The unfortunate victims, on recovering consciousness, attracted attention and help by their screams. Every attention was shown them, and they were taken to their homes.

Efforts are being made to find the guilty parties, and it is likely that swift and well-merited punishment will be meted out to them if they are apprehended.

Great feeling has naturally been aroused in the neighbourhood.

DON'T BE HYPNOTISED,
Hoodwinked, hoodooed, or over-persuaded into accepting a substitute for Doctor Pierce's Favorite Prescription with the record of nearly 40 years, embracing hundreds of thousands of cures of woman's peculiar ailments. It's the only remedy for woman's ills sold by druggists, that is not full of "booze"—poor whisky, or bad alcohol.

A guarantee of $1000 is offered that "Favorite Prescription" contains no alcohol, opium or other harmful drug. Keeps in any climate.

"Favorite Prescription" is a powerful invigorating tonic, and imparts strength to the whole system and to the womb and its appendages in particular. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," housekeepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.

It's an insult to your intelligence for a dealer to attempt to palm off upon you an alcoholic substitute for this world-famed medicine. You know what you want. It's his business to meet that want. When he urges some substitute, he's thinking of the larger profit he'll make—not of your welfare.

$50,000 GIVEN AWAY, in copies of The People's Common Sense Medical Adviser, a book that sold to the extent of 680,000 copies a few years ago, at $1.50 per copy. Last year we gave away 200,000 worth of these invaluable books. This year we shall give away $50,000 worth of them. Will you share in this benefit? If so, send only 21 one-cent stamps to cover cost of mailing only, for book in stiff paper covers, or 31 stamps for cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

If out of health, write to old Dr. Pierce. He will send you good, fatherly, professional advice without charge.

These sugar-coated little Pellets are the smallest, the easiest to take, and the easiest in the way they act. No griping, no violence, no disturbance to the system, diet or occupation. They are the Original Little Liver Pills, first put up by old Dr. R. V. Pierce, over 40 years ago. They have never made a sick one ever since. They're tiny sugar-coated granules, about as large as mustard seed, but never gripe. They operate in vials, always fresh and reliable; a convenient vest-pocket remedy.

LAKEFIELD TEAM'S EXCITING DASH

Broke Away Last Night and Were not Recovered Till This Morning.

A team attached to a carriage broke away last night from the G. T. R. station, where they were left standing untied upon the approach of a train.

The animals bounded away at a whirlwind clip, which continued till they brought up in a fence corner some two miles out in the country. A diligent search for the team was made by the owner, who is a Lakefield man. This, however, proved unavailing until this morning, when the missing animals were recovered.

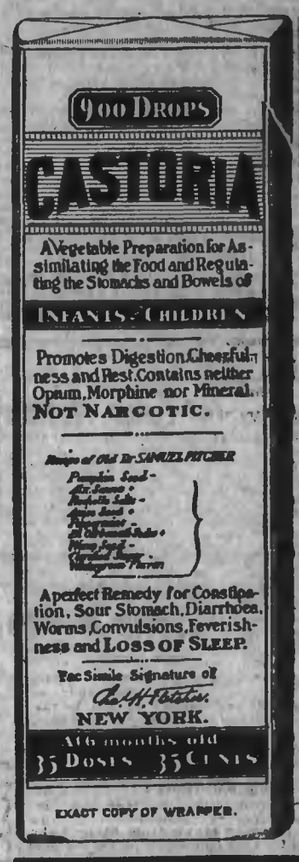
A 45 Days' Fast.

Because Edward Dandois, of Green Bay, Wis., after a 45-days' fast, still declines to eat and is upheld in that strange decision by his family, he will be taken to Cit. Hospital tomorrow, regardless of the revolver which his sister pointed at Attorney Silverwood to-day, when he went to the house to investigate the case. Two weeks ago it was announced that Dandois had become paralyzed and could eat nothing, so that death in the near future was a certainty. He could drink a little water, but could take nothing else. To-day was the forty-fifth of his fast, and city authorities were notified that fast was a method of suicide, not a case of paralysis.

Counterfeits.

Read what one of the GREATEST NEWSPAPERS IN AMERICA has to say on this subject:

"The manufacturers of Castoria have been compelled to spend hundreds of thousands of dollars to familiarize the public with the signature of Chas. H. Fletcher. This has been necessitated by reason of pirates counterfeiting the Castoria trademark. This counterfeiting is a crime not only against the proprietors of Castoria, but against the growing generation. All persons should be careful to see that Castoria bears the signature of Chas. H. Fletcher, if they would guard the health of their children. Parents, and mothers in particular, ought to carefully examine the Castoria advertisements which have been appearing in this paper, and to remember that the wrapper of every bottle of genuine Castoria bears the fac-simile signature of Chas. H. Fletcher, under whose supervision it has been manufactured continuously for over thirty years.—*Philadelphia Bulletin.*



CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhœa and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS
Bears the Signature of
Chas. H. Fletcher.

City Council Will Probably Duplicate County Grant

To-morrow night there will be a meeting of the Committee of the Whole, and among other things to be discussed at that meeting will be the proposed grant to the Eastern Dairyman's Association, in the event of their holding their next convention in this city.

Mayor Best states that in all probability the city council will grant the same amount as the county, viz., $100. The Mayor recognizes that the dairy industry is one which is of the utmost importance to the county and city, and it will give it an incentive to secure the inspiration and assistance which the convention being held here will give.

A number of other matters will be discussed at the meeting to-morrow night, and it promises to be of considerable importance.

ROUND THE WORLD

Facts About the Routes—The Canadian Pacific Railway—The Pioneers.

Few great corporations have shown a shrewder appreciation of human nature than has the Canadian Pacific Railway Company, and not the least shrewd of its perceptions was the idea of pushing Round-the-World Tours. People journeyed round the world before ever the C.P.R. came into existence, and in fact, there were comfortable steamers traversing the North Pacific before the now familiar "Empresses" took up their station at Vancouver to replace the late Sir William Pearce's old liners.

But launching oneself into space on one side of the globe and returning on the other was still at that time regarded as a somewhat serious business. In short, the public had not been educated into the subject. Then the C.P.R. came upon the scene. With a boldness justified in the importance of the other C.P.R. interests Round-the-World travel over its system tended to promote, the Company advertised its tours of this kind in a handsome manner, and handled the traffic with so much skill and care, that before people had realized the change, it came to be accepted that somehow thanks to the C.P.R., it is possible to travel round the globe and see most of the places worth seeing in comfort and safety for a comparatively small sum of money.

Without dwelling needlessly upon the real and imaginary advantages of going round this world, over going half-way round and back again—the virtual doubling of the opportunities for seeing new sights and having new experiences and the satisfaction of being able to proclaim oneself a fully fledged traveller—(it is a fact, which any passenger agent will confirm, that the issuing of a return ticket to the East is becoming more and more the exception, while Round-the-World business is always on the increase.

As a Convalescent Food.

Mr. Wyman N. Thomas, Ompah, Addington Co., Ont., writes: "My wife had congestion of the lungs along with other troubles, and became very weak and run down. By the use of Dr. Chase's Nerve Food she was made as strong and well as ever. Of course, I had a doctor, but she was weak, and it was Dr. Chase's Nerve Food which built her up."

The Latest Happenings At Jubilee Point Resort

Jubilee Point, Aug. 22nd.—Cosy Nook Lodge is occupied by a jolly party consisting of Mr. and Mrs. A. O. Sawyer, Mr. and Mrs. G. R. Browning, Misses Lottie Browning, Eva Nesbitt, Ethel, Mabel and Jia Sawyer. The gentlemen of the party are catching plenty of fish, while the ladies are getting lots of bites (mosquitos).

An impromptu concert was held Saturday afternoon at the pavilion, the bill of fare consisting of vocal and instrumental music, etc.

"Sunny Jim" Holland was much in evidence with his fine gramophone. The affair was much appreciated by the campers, guests, and visitors from all parts of the lake. In addition to the settlement of campers, there arrived on Saturday, "Casey Corner Camp", on the south side of the points consisting of Messrs. Bruce Rickey, Len Naylor, A. Cranfield, and H. J. Jeayeris, and "Harmony Camp" with Messrs. Arthur Seward, H. J. D. Drake, Percy Mowry, and Sunny Jim Holland.

A lively game of baseball was played Monday morning, the teams being made up of girls and boys from the different camps. The Shady nine winning by 35-23, the battery for the winners being Misses Browning and E. Sawyer, and the losers E. Nesbitt and M. Sawyer.

A camp fire is on the tapis for Tuesday evening, and large doings are in order.

Only One Of a Dozen Preachers In The City During Summer

Said a gentleman to the Examiner to-day, "The preachers of this town evidently do not take very seriously the work of soul-saving, granting that this is the business they are supposed to follow. A man was telling me the other day of his difficulties to secure the services of a minister for someone in his family, and this set me thinking, and I found as a result of investigation which I instituted that every one of the dozen or so preachers in the Protestant churches in this city was out of town except one, and he, poor fellow, was doing the work of two parishes in addition to his own, while he also was called in to see the sick of two or three other congregations, the shepherds of the flocks having left them in his care.

"In case this man had decided that he needed a rest, the town would have been absolutely without an ordained Protestant preacher.

"It seems to be a deep-seated conviction with the majority of the ministers of the Gospel that it is essential to their health that they take a month's holidays in the summer, and regardless of the fact that there is just as much wickedness rampant in the summer as in any other season of the year, and also regardless of the fact that there are in every congregation hundreds of men who work far harder than their ministers and for much less money, to whom a holiday is unknown. They take their month and leave the work of their churches to amateurs.

Police Magistrate Dumble Decides to Take Holiday

Mr. D. W. Dumble, Police Magistrate, left to-day on an extended vacation, accompanied by Mrs. Dumble, who, her many friends will regret to learn, has not been enjoying good health for some time past. Mr. Dumble has appointed ex-Ald. H. Rush, J. P., to act as Magistrate in his absence, with the official acquiescence of the Attorney-General of Ontario.

FUNERAL OF THE LATE RICH. PRUST

Took Place Yesterday and Was Largely Attended.

The funeral of the late Richard H. Prust, who died in Toronto on Thursday, August 17, took place yesterday at two o'clock from the family residence, Blackstock, and proceeded to the Methodist cemetery for interment.

The cortege was the largest ever seen in that place, numerous friends and the Grimsby Lodge S. O. E., of Blackstock, and Old England Lodge, of Port Perry, attending in a body. The services at the church were conducted by Rev. A. D. Delve, assisted by Rev. R. N. Phelan, of Blackstock. Rev. N. D. Drew, of Pontypool, and Rev. W. Kenner, of Port Perry, were also present.

The late Mr. Prust was 67 years of age, and had been postmaster of Blackstock for twenty-five years, and was also very active in church and society circles. He was choir leader in the Methodist church for thirty years, and was also superintendent of the Sunday school for a long time during that period.

Big Excursion From Midland

A big excursion is being run here to-morrow from Midland and Victoria Harbour, and the management of the local ball team being anxious to make up for Saturday's disappointment have arranged a game with the fast Midland nine, champions of the Northern League last season.

The northern team will be well supported and all those who were disappointed on Saturday will be given an opportunity of seeing the game yet.

The line up of the local team is still uncertain but it will be a strong one as the locals wish to show the superiority of Midland League play over the play in the Northern League.

The Hamilton Evening Times of August 14 contains the following regarding a well-known local vocalist: Miss Florence Hall, of Peterborough, sang "In the Eternal City" with pleasing effect at the evening service in Wesley church. Miss Hall is the possessor of a very sweet soprano voice of exceptional range. Wesley congregation will be delighted to hear her again should she visit the city at any future time.

IT'S A FACT NEVERTHELESS

We have been in business one year and we thank our many friends and patrons for their liberal patronage for the past year, and assure them that we will put forth every effort to serve them better in the future, if possible.

We say most emphatically, and we won't take it back, that 'SOVEREIGN BRAND' are the best suits for the money that ever honoured the tables of a clothing store. If you know a doubter bring him in and watch us convince him.

SPORT NOTES.

Apropos of the Regatta season a local canoeing enthusiast who in his younger days was an active and successful participant in the regatta racing events took occasion yesterday to remark to an Examiner representative regarding some phases of the sport in which he believed an improvement might be made. His views upon the subject are certainly worthy of consideration, containing as they do many suggestions of practical value.

In reply to a query as to whether he considered the air-chamber as of practical value, he exclaimed in positive accents, "Of value! Why, so much so that I regard it as a crime to go without them." After instancing a number of occasions in which their value in the saving of human life had come under his observation, he entered upon an explanation of the various phases of their usefulness. "I regard a canoe," he said, "properly equipped with air-chambers as being fully as safe a boat as a skiff. It has sufficient buoyancy to float with it's occupants for any length of time, the weight of the occupants being equalled by the displacement of water."

In connection with the subject he also strongly condemned the practice of many canoeists, who, with a feeling of over-confidence in their swimming abilities, leave their boat when upset in an attempt to swim to the shore. This is a dangerous practice, and one which under no circumstances should be resorted to, as the records of boating fatalities show that these are almost invariably the result of abandoning rather than remaining with the boat.

With regard to regatta events he strongly favoured the prohibition of racing canoes, which in his opinion are strongly detrimental to the best results, and in fact destroy largely the purpose in view in holding the regatta. The prime object in doing so is the development of art of canoeing in its practical features. No canoe, he believed, less than 30 inches in width can be considered as a safe and suitable boat for general utility, and to secure good results in this particular is more desirable than the carrying off of prizes by the use of "racing machines" from 12 to 15 inches in width, which cannot be considered as of practical service. The gentleman quoted, also pointed to the decrease in the number of starters occasioned by the use of "racing machines." Many summer residents at the lakes as well as others who paddle merely for exercise or pleasure often acquire a tolerable amount of speed and dexterity, and would be felt certain enter frequently in racing events were they not handicapped by being placed in competition with lighter canoes designed solely for speed purposes.

POST CARD CORRESPONDENCE.

In this column will be published communications upon post cards only. It will remain open for the use of readers, who are invited to contribute suggestions, inquiries or replies. Anything of a scurrilous personal nature will be prohibited.

To the Editor of the Post Card Column:

Dear Sir,—The remarks of "Wheelman" regarding the powerful headlights at present used by the Radial Railway Co., in last night's Examiner meet with my hearty approval.

There is no necessity for searchlights on a street car and besides they are a nuisance to all who have occasion to use the roadway.

One night I nearly collided with a horse and rig standing at the curb, owing to inability to see anything in front because of an approaching car.

We are all glad to see the company use the most up-to-date appliances, but we fear a serious accident will be the result of continuing the use of such strong lamps.

Yours etc.
ANOTHER WHEELMAN.

To the Editor of the Post Card Column:

Mr. Editor,—Can you tell me why the street authorities neglect Charlotte street, one of the most travelled streets in the city? Why is it left filled with mud holes when the town has a drill full of good gravel? Do the aldermanic heads contain brains? Yours, etc.,
DRIVER.

To the Editor of the Post Card Column:

Dear Editor,—At noon to-day I crossed Aylmer street, and as far as I could see north and south the dust was rolling in clouds before the gale, and there was no sign of the water waggon having visited the street that morning. The water waggon may avoid watering the street, but one may bet his hat the tax collector will not fail to demand the amount of assessment for water which is not supplied. Have the street watering contractors got the aldermen by the neck, as the Light and Power Company in the matter of lighting Chamberlen street?
Yours very truly,
DUSTY.

To the Editor of the Post Card Column:

Dear Sir,—I read the letter from "Wheelman" in your P. C. column, last night, and I agree with him, that steps should be taken to remove the nuisance referred to. I do not see the necessity of such powerful headlights, and think them dangerous to the travelling public.

"Another Wheelman."

Peterborough, Aug. 22, 1905.

WM. McGREGOR'S APPEAL CONSIDERED

By the Barbers' Union Last Night, But the Fine Still Remains.

At a meeting of the Barbers' Union held last night an appeal from William McGregor was considered. Mr. McGregor kept his shop open on the first of July, contrary to a by-law passed by the union at its last meeting held before the holiday and was in consequence fined $5.

Mr. McGregor claimed that as he had had his "Union Shop" sign removed the evening before the first of July, the control of the union over his shop ceased, and it could not levy the fine. But the union says its control over the shop did not cease by the mere act of removing the sign and the fine of $5 still remains to be paid by Mr. McGregor before he can conduct a union shop.

When You Feel Out of Sorts

Look for the Symptoms of Torpid Liver and Biliousness.

Biliousness is caused by the failure of the liver to filter the bile and other poisonous impurities from the blood. The result is a clogging and poisoning of the whole system.

Indigestion, headache, languid, melancholy feelings, irritability of temper, constipation, alternating with looseness of the bowels, pains in the muscles and bones and a pale sallow complexion, are among the symptoms.

Fortunately there is a prompt and certain cure for biliousness and torpid liver in Dr. Chase's Kidney-Liver Pills.

They cure by thoroughly cleansing the filtering and excretory organs and awakening the action of the liver to renewed energy and activity.

When you feel out of sorts and notice any of the symptoms of torpid liver and biliousness put Dr. Chase's Kidney-Liver Pills to the test and you will then understand why this great medicine is considered indispensable in the great majority of homes.

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

OUR
American Visitors

THE Golden Lion extends a Canadian Welcome to American visitors and Summer Tourists who are spending their holidays at our charming lake and river summer resorts.

The Golden Lion is filled with every description of fashionable and seasonable Goods representing every need for home or personal use. Being large direct importers of European Dry Goods, receiving the full benefit of the Canadian Preferential Tariff, we can offer such special inducements to American visitors as will make it worth their while carrying something home with them—particularly these:

Pure Irish Linens, Damask Tablings, Table Cloths, Napkins, Doylies, Huckaback Towels, Towellings, etc.

Imported Silks, Black and Coloured, French, Swiss and Italian Silks, Dress Suitings, French Printed Flannels, Scotch Tartan Steamer Rugs

CANADIAN Don't return home without something Canadian from Fair's. We recommend for honesty of quality texture and manufacture, our Homespun Tweeds and Suitings, Canadian Flannels.

American can save 25 to 35 per cent. by buying Fine English and Canadian Goods at Fair's.

Parcels, bags and wraps taken in charge and delivered to hotels, boats and trains.

Look for the Sign of the Golden Lion (couchant) over the entrance. No. 393 George St. Undergoing Improvements.

AT 85 YEARS OF AGE DRIVE 57 MILES IN A DAY

Mr. Christopher Leary, of Peterborough, accompanied by Rev. Mr. Langfeldt of the same place, drove here from that Town yesterday, starting at 6 a.m., and reaching here a little after 5 p.m. Mr. Leary has been in a critical state of health for some time but is now much improved and was anxious to visit his old friends here, so Mr. Langfeldt undertook to accompany him on his long drive and they got through very comfortably, but both of them mighty tired, it being quite an undertaking under the circumstances for a man like Mr. Leary who has passed the octogenarian mark some five or six years.—Minden Echo.

YACHT CLUB HOUSE TO BE ERECTED AT CHEMONG

A meeting will be held at Mr. H. M. Dennistoun's cottage Chemong, to-night at nine o'clock for the purpose of forming a Yacht Club at Chemong. In all probability the Club House will be erected this fall. All those interested are invited to attend.

The recent revival in sailing at Chemong, has doubtless been responsible for the determination to form a Club, and there is good reason to believe that the proposal will meet with popular favour.

LARGE NUMBER OF MEN ENTER EMPLOY OF PULP MILLS

Thirty-three men left the city last night for Markstay in the Nipissing District, where they will be employed in Mr. Alex. Hamilton's pulp mills. Another party also left for Wahnapitae to engage with Messrs. Holland & Graves, in lumber operations. The men were engaged by Mr. John Ryan, and will be in charge of Mr. Giles Stone.

Mr. T. Cavanagh expects to leave for Montreal in the course of a week or so, to secure men to engage with the W. and A. McArthur Lumber Co., of Beaverstone, which have its mills at Little Current, Ont. Mr. Cavanagh, who each year takes out about 500 men, expects to secure 100 employees upon this trip.

CHEMONG REGATTA WAS ONE OF GREATEST SUCCESSES ON KAWARTHA WATERS

Racing Events Were Closely Contested and Interesting—Record Breaking Crowd in Attendance—Social Features Greatly Enjoyed—Large Attendance From Outside Points—Dance and Presentation of Prizes in the Evening.

All roads as well as all waters appeared yesterday to lead to Chemong Park, where what was probably the most signal triumph in the history of aquatic sports upon Kawartha waters was scored at the annual regatta. The different elements which united to bring the affair to the highly successful issue attained are each a matter of gratification, for while its athletic features were very properly most prominent, the aesthetic and social phases of the successful outcome were all that could be desired. The park was beautifully decorated for the occasion by Mr. A. Kingscote, and the lavish profusion of colour lent an appropriate touch of gayety to the beauty of the landscape.

A pleasing feature of the affair was the large attendance from the outer waters of Stony Lake, from which place, beside the large number of private yachting parties, about three hundred arrived upon the excursion by steamer Stony Lake. The attendance of summer residents from Sturgeon Falls was somewhat of a disappointment, which was, however, more than compensated for by the large number who came from Peterborough and Lakefield. The visitors did not either remain inactive spectators of the interesting programme of events of the day, but became active participants, who proved "foemen worthy of their steel." From this it should not be inferred that the result of any of the different events was in any way a "steal," for they were almost without exception closely contested and interesting, and some remarkably hot and exciting finishes were in evidence.

For the majority of the events the atmospheric conditions were almost perfect, though in some of the canoeing events a somewhat calmer sea would have been desirable. These, however, passed off without any untoward incident, and were of a highly interesting character.

It is estimated that fully 2,000 people witnessed the events from the vantage point upon the high perpendicular bank of the shore, which affords an excellent view of the course. The sailing races were watched with keen interest, and were in every respect the interesting exhibitions which the entry list presaged. The wind was steady, and of about a proper force for the class of boats engaged.

The arrangements for the regatta were perfect in every particular, and the committee in charge are worthy indeed of the warmest congratulation upon the manner in which the affair was conducted. The racing programme was proceeded with without a hitch, and the events followed each other in quick succession without the accompaniment of the tiresome waiting intervals, which frequently characterize regattas.

The starters in the different events were Mr. W. S. Davidson and Mr. A. E. Dickson, while the following gentlemen officiated as judges in a strictly impartial manner, which gave general satisfaction: Commodore McComb, Mr. Alex. Elliott and Mr. C. B. McAllister. The racing events and respective winners were:

1. Canoe Sailing Race—
For open canoes, limited to 75 feet of sail area.
1. Reid Munro, Stony Lake.
2. Fred. L. Roy, Chemong.
2. Canoe Paddling—Men's Tandem.
1. Simpson and Gordon, Lakefield.
2. Roy and Weekes, Chemong.
3. Canoe Paddling—Ladies' Tandem.
1. Misses Helen and Gwen. Hall, Stony Lake.
2. The Misses Allen, Sturgeon Point.
4. Canoe Paddling—
Boys, 16 years and under.
1. Eakins and Rice, Stony Lake.
2. Dennistoun and Matthews, Chemong.
5. Canoe Paddling—Mixed Tandem.
1. Miss Alfan and Mr. Fred. Roy.
2. Miss Gwen. Hall and Mr. Delafosse.
3. Miss Vieva Hunter and Mr. Jim Eakins.
6. Rowing Skiff—Men's Single.
1. "Doc" Shaw.
2. Art. Weekes.
7. Dinghy Race—
Special prize, offered by Commodore McComb.
1. Milne Hamilton, Chemong.
2. W. J. Hopwood, Chemong.
3. Hopkins Bros., Sturgeon Point.
8. Open Sailing Race—
For Chemong Lake Challenge Flag. Winner received a dated pennant.
1. R. M. Dennistoun, Chemong.
2. Milne Hamilton, Chemong.
3. J. S. Knapman, Stony Lake.
9. Canoe Paddling—Men's Single.
1. Gordon, Lakefield.

STILL ON TOPS
G. R. McCrae
Is Still in the Buggy Top Business
In the Wm. Yelland Block, Opposite the Y. M. C. A.

Ready at all times to furnish any kind of Carriage, Waggon or Sleigh Tops. Milkmen, Butchers, Grocers, Bakers, Liverymen and others will find him always equipped for this work. A record of over 25 years in Peterborough warrants him in asking your patronage.

TOP REPAIRS There are from 25 to 30 different pieces of wood and iron in a Buggy Top and no end to the variety of patterns. When one gets out of order it should be replaced with its duplicate. Mr McCrae keeps on hand all kinds of sundries for repairs. The present method of carriage building makes specialization a necessity in Top building. The large factories are too far away and the small ones do not keep the men or the material to do the work promptly enough and cheap enough.

Ten to one your carriage needs some fixing about the Tops—the Upholstering or Leather frequently. Mr. McCrae does it all and does it for hundreds of customers on the railways north, south, and east as far as Tweed, and as far north as wheels run.

IT PAYS to have your rips look well, instead of having them all bound up with binder twines, telegraph wire and bits of string. Now's the best thing to have repairs of this kind done. Bring them in when you come to town.

REMEMBER THE PLACE—The Wm. Yelland Block, opposite Y.M.C.A grounds—look for the big sign of the Top Cutter.

Floor Joist In Vestibule Was Rotten

And Contractor Bellegham Averted an Accident.

Waiting Instructions From Ottawa Before Proceeding With Work.

Mr. D. Bellegham, the contractor who has the contract for the improvements to the Post Office Building, made a discovery yesterday, which was fortunately made in time to prevent what might have been a serious accident.

In placing the new stone steps to the Hunter and Water street entrances, Mr. Bellegham discovered that the floor and joists under the tile floor in the vestibule are so badly rotted that they are practically of no use and only the concrete under the tile holds it up. This is the condition near the Hunter street entrance, which has been closed by reason of the dangerous condition of the floor supports. There is a hole eight feet deep under the vestibule, and it is fortunate that the discovery of the poor condition of the floor was made, because if sometime when the vestibule was full of people the floor gave away, someone would likely be hurt.

As soon as Mr. Bellegham saw the condition of things he called Mr. R. R. Hall's attention to it, and the later immediately reported the matter to Ottawa, and instructed Mr. Blackwell the architect to investigate.

It is expected that advice will be received from the Department at Ottawa at once giving instructions as to what course to pursue.

There is an air-tight space, eight feet deep under the floor and it is thought that the cause of the supports rotting is the fact that there has been no air circulating around them.

The floor has been propped temporarily.

Musician's Mother Has Passed Away

Mrs. Michael Ryan, Mother of New York's Greatest Bandmaster, Dead.

Mrs. J. A. Sharpe, of This City, is a Daughter of Mrs. Ryan.

The death occurred this morning after a years illness, of Mrs. Ann Murphy Ryan, wife of Michael Ryan. The late Mrs. Ryan had been ailing for about a year, though suffering from no special disease, and her death was due to old age. She had only been a resident of this city for about a year, though she had lived in Canada for the last 25 years, coming here from Ireland, where she was born.

The deceased had one daughter in Peterborough, Mrs. J. A. Sharpe, with whom she has lived since she came here. Four sons and two daughters are left to mourn her loss, Prof. Michael Ryan, one of the most distinguished musicians in New York City, and Bandmaster of Vanderbilt's famous million dollar band; James J., also of New York, connected with the Western Union Telegraph Company; William J., a traveller for Messrs. P. W. Ellis & Co., Toronto, now on the way to the coast and Thomas P. of Hamilton, Superintendent of the Malcolm Suitor Co. The daughters are Mrs. Blackwell, of Toronto, and Mrs. J. A. Sharpe, of this city, from whose residence the funeral will take place, though the date has not been decided upon at the time of going to press.

TO CURE DANDRUFF

It Is Necessary That the Dandruff Germ Be Eradicated.

"Destroy the cause you remove the effect." Kill the germ that causes dandruff, falling hair and baldness, you will have no more dandruff and your hair must grow luxuriantly. Herpicide not only contains the dandruff germ destroyer, but it is also a most delightful hair dressing for regular toilet use. No other hair preparation is on this scientific basis of destroying the dandruff germ, and none other claims to be, for the simple reason that it only recently that a destroyer of the germ has been discovered—Newbro's Herpicide, the only hair preparation that actually kills dandruff. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. Richmond & Walsh, special agents.

BIRTHS.

GILLESPIE.—At Burlington, Ont., on Saturday, August 19, 1905, to Mr. and Mrs. George Gillespie, a daughter.

Funeral notice later.

LOGAN.—At Nicholls Hospital, on Tuesday, August 22, 1905, Francis James Logan, aged 24 years, second son of Wm. Logan.
Funeral will take place from the family residence, 291 Brock street, Thursday, August 24th, at 3 o'clock.

Are you carrying unnecessary weight these warm days?

An ordinary tweed suit weighs nearly seven pounds. Our two-piece homespun suits weigh little over two pounds. Are you carrying about four pounds of unnecessary wool wrapped about you these warm days?

Semi-ready two-piece homespun suits are stylish and shapely. Lined in shoulders and sleeves only, and so tailored that they retain their fit and looks and press up as good as new.

They are made of our pecially made "Kilalo" and "Blunoz" Homespuns—found only in Semi-ready garments.

Prices, $12 to $15.

Semi-ready Tailoring
Crewman

A Re-union of Ministers in Minden

Rev. E. A. Langfeldt Participates in an Interesting Event.

Rev. Edgerton Ryerson Was Also Present—A Delightful Gathering.

During the past week there has been quite a gathering here of the gentlemen who from time to time during the past six years have participated in the missionary work of the Episcopal church in this place, says the Minden Echo.

Among those in attendance are Rev. Egerton Ryerson, who for the past five years has been a missionary in Japan, Rev. Mr. Rounthwait, of Brantford, Rev. Mr. Summerhayes of Gore's Landing, and Mr. Clark, of Apsley, besides the present staff of the Minden clergy house, Rev. Mr. Fenning, and Messrs. Carey and Ladbrook. On Tuesday evening last a very interesting service was held in St. Paul's church, Minden, in which all took a part, Mr. Fenning reading the prayers, Messrs. Rounthwaite and Summerhayes the lessons, and Mr. Ryerson preaching an eloquent and instructive sermon. The service was well attended, and the choir being unusually strong added greatly to the musical portion of the service, in which nearly the whole congregation joined most heartily. Considerable disappointment was felt at the absence of Rev. W. L. Evans, all of Toronto, and Rev. A. L. Trotter of Port Carling, who were expected to attend, but whose clerical duties made it impossible for them to get to Minden.

In connection with the re-union the ladies of the Women's Auxiliary of St. Paul's church and their friends, gave a tea and a reception to the visitors on Thursday evening on Mr. E. Noice's lawn, which was handsomely decorated for the occasion. A large number was present, and the affair was most successful in every particular. After tea an excellent programme was rendered, and several interesting addresses delivered, by Rev. Messrs. Ryerson, Rounthwaite, Fenning and Summerhayes.

Rev. Mr. Langfeldt of Peterborough, who drove from there yesterday with Mr. Christopher Leary, arrived at Minden a little before 5 p.m., and took part in the proceedings, delivering an excellent address. He returned to Peterborough by the four a.m. stage in the morning, the Revs. Ryerson and Rounthwaite leaving here to catch the afternoon train at Kinmount, and Mr. and Mrs. Summerhayes take to-morrow morning's train.

WORLD'S NEWS IN A FEW LINES

Short, Pithy Articles Telling the Latest News.

Red Hot Flashes Off the Wires—Canadian and Foreign Despatches

Fell Under Wheels.

M. O'Brien, a resident of Boston, Mass., aged 30, was killed at Maple Creek yesterday. He was stealing a ride to Calgary. When at Maple Creek the freight conductor put him off. He ran to get on again and fell between the cars and was cut into pieces.

Canadian Packers Beat.

For the first time the Canadian salmon packers on the Fraser river have this year beaten the pack of the Americans below in Pudget Sound. The total pack recorded the other side of the line was just an even 600,000 cases, and on the Canadian side it was 630,000 cases.

The Mayor a Matchmaker.

Ex-Mayor McGuigan, of Vancouver, received a letter from a young woman in England some time back asking to be placed in communication with a desirable person with a view to marriage. The right sort of expectant bridegroom was found and the young lady is coming out to be married at the beginning of the year.

Death in Mine.

Two miners, John Mauskay and W. Kolowkoski, were killed in the Canadian-American Coal and Coke Mine at Frank, Alta., on Saturday. They put in an overhead blast and retired. On their return, half an hour later, the coal gave way; one was carried down the chute and killed, and the other buried to armpits, so that he expired before being rescued.

One Baby a Year.

In connection with the announcement recently made by Dowie at Zion City that hereafter all faithful members of his church who marry must first have his written consent or else the marriage will not be recognized by the church, it develops that the First Apostle has gone a step further and means to direct to a certain extent the matter of Zion's birth rate. In order to show how he feels on the matter of race suicide which he touches upon frequently in his sermons, Dowie has issued a command that from now on every couple married in Zion shall lead a little lamb to the baptismal font each year.

A Pitiful Sight.

A pitiful sight was witnessed by farmers driving to Brantford from Cainsville yesterday, in the shape of a woman walking along with bleeding feet. On one foot was a light shoe and the other foot was unprotected and both feet were cut by the stones. She was without a hat, her hair was dishevelled by the wind and her light summer dress was ragged and torn. She was evidently suffering from injuries and exposure and was talking like one demented. High Constable Montgomery went out to bring her to a place of shelter.

Problem in Winnipeg.

In an article on the cost of living in Winnipeg, the Winnipeg Tribune says, summing up, that 'rents have increased about fifty per cent., the cost of staple articles about 10 per cent., and wages about 3 1-2 per cent. in the past five years. The question of how the working man is to make both ends meet, under present conditions is a serious one, but what will it be in a year or so, if the present indications for an advance in the cost of living, is fulfilled? The matter is one that will require the greatest consideration. The working man of to-day just exists; he is neither working for the landlord or existing for himself."

LOOKS NOW LIKE CHANCE FOR PEACE

Russia May Buy Back the Half of Sakhalin Island, Thus Settle Indemnity—Chief Japanese Envoy Said to Have Agreed to Make the Offer to the Russians—Encouraging Signs Are Many and Interest Revives in the Probabilities—Outline of the United States President's Plan.

Portsmouth, N.H., Aug. 23.—(2 a.m.) It is stated that Baron Komura at the session at 9.30 o'clock this morning has agreed to offer the President's compromise proposition.

Russian Reply Comes.

A long cable message from St. Petersburg, which is believed to be the Russian reply, arrived at 10 o'clock last night, and M. Witte's secretaries, M. Nabukoff and M. Plancon, immediately began deciphering it.

No confirmation of the rumor that Russia's reply is a negative can be obtained, and it must be accepted with all reserve. The lights in the rooms of M. Witte and Baron de Rosen were burning long after midnight.

President Roosevelt's Plan.

The suggestion of President Roosevelt for breaking the existing deadlock in the peace negotiations and rescuing the conference from failure, tersely stated, consists in an agreement by Russia to repurchase possession of either all or half of the Island of Sakhalin, now in the military occupation of Japan, for a sum the amount of which, if the two countries cannot agree, shall be decided by some method of arbitration, hereafter to be determined. The purchase money, together with the sum the Japanese would obtain from the cession of the Chinese Eastern Railroad and the maintenance of the Russian prisoners in Japan, would, it is estimated, about equal the amount claimed by Japan as her bill for the cost of the war. Practically, therefore, the solution offered by the President involves recession by Japan, under article 6 (the cession of Sakhalin), and recession by Russia upon article 9 (indemnity).

It seems practically certain, though this cannot be affirmed positively, that the President yesterday was able to give M. Witte substantial assurances that Japan would be willing to accept such a compromise.

This is apparently supported by the authoritative Japanese statement made to-day in reply to a question as to whether Japan had decided to make substantial concessions: "It all depends upon Russia."

The official announcement that the meeting of the conference, which was to have been held yesterday, had been postponed until to-day at 9.30 o'clock.

The public reason given was that the protocols for the submission at the sitting had not been completed.

Within Measurable Distance

London, Aug. 23.—The Morning Post, which throughout the war has strongly identified itself with the Japanese side, in a despatch from its correspondent at Portsmouth, published this morning, declares that "the peace of Portsmouth is within measurable distance."

The correspondent asserts that both sides will make substantial concessions for the sake of peace.

The Portsmouth correspondent of The Times states that there is real hope for peace, and that the Japanese are ready to arrange a settlement in a way that will save Russian dignity and honor.

Apparently, says the correspondent, the basis of this settlement is the retention by Russia of a portion of the Island of Sakhalin in consideration of a payment of money in lieu of indemnity.

New Names For Prisoners.

Tokio, Aug. 22.—The Imperial Navy Department has re-christened the captured Russian warships as follows: The Peresviet has been named the Sagami; the Poltava, the Tango; the Bayan, the Aso; the Pallada, the Tsugaru; and the Variag, the Coya.

PRINCE BATTENBERG TO VISIT TORONTO

Guest of Lady Kirkpatrick From 25th to 31st August—Opens Exhibition August 29—Guest of City and the Canada National Exhibition on the 28th and 29th—Banquet and Reception to be Tendered by the City--Not Much Ceremony at the Montreal Reception.

Toronto, Aug. 23.—The Mayor yesterday received a telegram from Flag Capt. Kerr at Quebec, in which it is stated that Prince Louis of Battenberg, in accordance with a long standing engagement, will be in Toronto from August 25th to the 31st as the guest of Lady Kirkpatrick. He adds that the prince will be disengaged on 28th and 29th only and will be disengaged for a dinner on August 29th, and will be delighted to see the Mayor and the citizens of Toronto on the 28th and 29th. On receipt of this message the Board of Control yesterday decided on the following program, subject to change:

Monday, Aug. 28.—11 a. m., civic reception. At 1 p. m., luncheon at R. C. Y. C. on the island. At 3 p. m., garden party at the R. C. Y. C. on island. Evening dinner at Government House.

Tuesday, Aug. 29.—Luncheon at noon at the Exhibition as the guest of the Exhibition directors. Afternoon, opening Exhibition and in the evening dinner at the Exhibition grounds as guest of the city.

MONTREAL'S WELCOME.

Prince Louis and the Bluejackets, and Their Reception.

Montreal Aug. 23.—Prince Louis, of Battenberg, accompanied by his staff arrived at Place Viger Station early yesterday morning from Quebec, where his second cruiser squadron is lying and was met by a civic and military deputation, but there was no guard of honor and very little ceremony. The party entered carriages and went to the Windsor, where his Serene Highness will be the guest of the city during his stay. At 11 o'clock the civic welcome to the Prince was extended at the City Hall, when an address was read by Acting Mayor Clerihue, in the absence of Mayor Laporte. Later in the day he drove out to the Forest and Stream Club, where he was entertained at luncheon. Last evening he was dined by the officers of the Montreal Militia Corps and later attended the naval tournament at the Arena.

300 Sailors Parade.

Three hundred sailors, under command of ten officers of the second cruiser squadron, commanded by Rear Admiral Prince Louis of Battenberg, lying at Quebec, arrived here yesterday morning and debarked at Westmount station of the C. P. R., and from thence paraded to the Arena, where they will camp during their two days' stay. They will take part in a naval tournament in aid of the city hospitals, and will be liberally entertained by the city and private corporations during their stay. In the afternoon the men were taken for an electric car ride to Lachine, after going around the city, and then boarded a steamer and made the run down the Lachine rapids.

Wanted at Windsor.

Windsor, Aug. 23.—An effort is being made to have Prince Henry of Battenberg visit this city, and unveil the fountain being constructed in memory of the Essex volunteers who lost their lives in the South African war.

INTERCOLONIAL CHANGES.

One Position Abolished and a Thousand Dollars a Month Saved.

Ottawa, Aug. 23.—Hon. Mr. Emmerson, Minister of Railways, has announced that among the changes to be made in the management of the Intercolonial Railway, the office of chief superintendent, held by the late J. E. Price of Moncton, will be abolished on the recommendation of the Deputy Minister and general manager, who advises that by this step about a thousand dollars a month will be saved in salaries, without in any way impairing the efficiency of the operation of the line.

It has been decided to place the track and maintenance of the way departments under the charge of T. C. Burpee, C. E., and all the other leading officials whose responsibilities are increased will be held accountable for the results in their respective spheres.

14-Year-Old Boy a Hero.

Walkerville, Aug. 23.—While playing on the dock, Eleanor Finnie, seven years of age, fell into the river. There were a number of people on the dock at the time, but no one made any attempt to rescue her until Arthur Kerr, fourteen years old, jumped in the river and brought her out safely.

NERVOUS?

Perhaps Sleepless, too!

You'll be a total wreck pretty soon, life will no longer be a pleasure. Just think of the days and nights of misery you must spend if not cured!

Won't you use Ferrozone? It's a nerve strengthener that really does cure. It acts through the blood. First, Ferrozone brings appetite—you eat plenty. This fills the blood with nourishment for the inner nerve cells.

FERROZONE

Instils strength into every part of the system. You get well—keep well—nervousness forever departs—because you have used Ferrozone. Avoid substitutes.

Price 50c per box, or six boxes for $2.50, at all dealers or by mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A. 18

Doctor Brigham Says

MANY PHYSICIANS PRESCRIBE

Lydia E. Pinkham's Vegetable Compound

The wonderful power of Lydia E. Pinkham's Vegetable Compound over the diseases of womankind is not because it is a stimulant, not because it is a palliative, but simply because it is the most wonderful tonic and reconstructor ever discovered to act directly upon the generative organs, positively curing disease and restoring health and vigor.

Marvelous cures are reported from all parts of the country by women who have been cured, trained nurses who have witnessed cures and physicians who have recognized the virtue of Lydia E. Pinkham's Vegetable Compound, and are fair enough to give credit where it is due.

If physicians dared to be frank and open, hundreds of them would acknowledge that they constantly prescribe Lydia E. Pinkham's Vegetable Compound in severe cases of female ills, as they know by experience it can be relied upon to effect a cure. The following letter proves it.

Dr. S. C. Brigham, of 4 Brigham Park, Fitchburg, Mass., writes:

"It gives me great pleasure to say that I have found Lydia E. Pinkham's Vegetable Compound very efficacious, and often prescribe it in my practice for female difficulties.

"My oldest daughter found it very beneficial for uterine trouble some time ago, and my youngest daughter is now taking it for a female weakness, and is surely gaining in health and strength.

"I freely advocate it as a most reliable specific in all diseases to which women are subject, and give it honest endorsement."

Women who are troubled with painful or irregular menstruation, bloating (or flatulence), leucorrhœa, falling, inflammation or ulceration of the uterus, ovarian troubles, that bearing-down feeling, dizziness, faintness, indigestion, nervous prostration or the blues, should take immediate action to ward off the serious consequences, and be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound, and then write to Mrs. Pinkham, at Lynn, Mass., for further free advice. No living person has had the benefit of a wider experience in treating female ills. She has guided thousands to health. Every suffering woman should ask for and follow her advice if she wants to be strong and well.

Killed on Track.

No. 2 fast express, passing Lancaster at 6 a.m. this morning, struck and killed a young woman named Margaret Dufresne, daughter of Charles K. Dufresne. She was walking on the track on her way to her duties as a domestic in the residence of a gentleman living about a mile and a half east of that place. When about a mile on her way the train overtook her, striking and throwing her off the track. Death must have been instantaneous.

Two Calf Stories.

A. M. Armstrong of Oxford County, Ont., is reported in the Galt Reformer, to have reared a calf, which at five weeks six days of age, weighed 240 lbs. W. Sage, of Bueno Vista Farm, North Dumfries, beats this with a calf of the same age which weighs 248 lbs., and has gained five lbs. a day since.

PILES Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. 60c. at all dealers or EDMANSON, BATES & Co., Toronto.

DR. CHASE'S OINTMENT.

Dr. Hugo's Health Tablets for

Women

They are the prescription of a specialist.

This is an age of specialists,—men who give all their time, study, and practice to some particular branch of medicine. There are specialists of the eye, specialists in diseases of the lungs, specialists in diseases of women. It costs something to get a prescription from a specialist, but it is worth all it costs, when you get it.

Dr. Hugo's Health Tablets for Women are the prescription of Dr. Hugo, of Paris, a specialist of forty years' experience in diseases of women.

It embraces the latest medical discoveries of the other skilled physicians in the world. It might be called a compound prescription of the world's best specialists.

No ordinary physician can prescribe such a remedy. The better the physician, the nearer will be his prescription to that of Dr. Hugo.

Thousands of women in Europe have paid $50 for a consultation with Dr. Hugo and got the same remedy. Considering the benefit they received from it, it was worth $50, but it costs women now only 50c. for six dozen tablets—enough for an extended treatment.

It is a compound remedy containing all the tonics and alteratives that any woman can need, no matter what her condition. For women suffering from a run-down condition, or any weakness peculiar to her sex, it is now acknowledged to be beyond doubt or question the best remedy available to-day. It makes healthy women.

50c. at dealers or by mail postpaid. B. N. Robinson & Co., Coaticook, Q.

STONY LAKE AND LAKEFIELD

STEAMERS STONY LAKE, EMPRESS AND MAJESTIC

For the week ending August 26th, the steamer Empress will meet the morning train from Peterborough, returning time to connect with the evening train.

The steamer Majestic will meet the noon train at Lakefield and return from the lakes in time to connect with the morning train from Peterborough.

The steamer Stony Lake leaves the lake in time to connect with the 4.30 afternoon train for Peterborough and returns to the lakes on the arrival of the 6.10 p. m train. from Peterborough.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba, or the Northwest Provinces, excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him.

Homestead Duties.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

Application for patent should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior

Phone 83.

THE Oxford Hot Water Boiler takes advantage of every known scientific point which will increase the generation and distribution of heat.

We have increased its power enormously by making the walls of the fire pot slant inwards above the fire. This gives a greater surface for the direct action of the rays of heat.

Oxford Hot Water Boiler

The first water section over the fire is double depth, with bell-shaped flues, which also increases the surface directly displayed to the action of the heat.

These are but two of the exclusive points which make the Oxford Hot Water Boiler the most economical and most efficient home-warming apparatus on the market. If you will drop us a post card we will send you our catalogue, which explains the whole system.

Grandfather's Name Was a Forged One

And Cayuga Youth Got $1,860 From the Bank.

Frank Thornton Arrested on Serious Charge—A Cayuga Sensation.

Cayuga, Ont., Aug. 22. — On Monday afternoon, Frank Thornton, 18 years of age, who was born in Cayuga, but whose home is now in Dundas, was on a visit to friends in Cayuga. His grandfather had a bank account in the Bank of Commerce here. Young Thornton went to the bank yesterday afternoon with a cheque for eighteen hundred and sixty dollars, having forged the signature of his grandfather, R. S. Thornton. They refused to mark the cheque without the bank book.

He then went back to his grandfather's, and by some means obtained the bank book, went to the bank, got the cheque marked and cashed, for $1860. He stayed in town until 7.18, when he took the train west.

The mistake was not discovered until between 7 and 8 o'clock, when the bank officials' suspicions were aroused. After he got the money, he showed it to several of "the boys" in Cayuga, but little was thought about it, as everyone knew him. When the discovery was made word was telegraphed for his arrest. He left the train at Simcoe, walked two miles into the country, and then paid a farmer five dollars to drive him to Waterford station, a distance of five miles. He then fell into the hands of the law.

Eighteen hundred and forty-six dollars were found on his person, he having spent fourteen dollars.

This morning he was brought back and is now lodged in the jail here. He is a very handsome appearing boy, quite tall and always well dressed. Last fall when the boy was with a few days of eighteen years of age, he obtained intoxicating liquor at one of the hotels in town. The hotelkeeper was convicted under the act of selling to minors. This conviction was quashed before the county judge on the grounds that to all appearance the boy was more than 18 years of age.

SOCIETY WRECKED HER LIFE.

A Pretty New York Woman's Recovery the Talk of Her Homeless Friends.

MRS. J. E. FINN.

Mrs. J. E. Finn, 83 East High street, Buffalo, N. Y., writes:

Peruna Medicine Co., Columbus, Ohio.

Gentlemen:—"A few years ago I had to give up social life entirely, as my health was completely broken down. The doctor advised a complete rest for a year. As this was out of the question for a time, I began to look for some other means of restoring my health.

"I had often heard of Peruna as an excellent tonic, so I bought a bottle to see what it would do for me, and it certainly took hold of my system and rejuvenated me, and in less than two months I was in perfect health, and now when I feel worn out and tired a dose or two of Peruna is all that I need."—Mrs. J. E. Finn.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O., for free advice.

Irl Hicks and His Weather Forecast For September

READING WANTED FOR THIS ITEM.

Prof. Irl Hicks, in his "Words and Works," for August, recently published, is to the front again with his monthly forecast for September. He says:

The last storm disturbances in August promise to reach into the first day of September. Earth's equinox is in force, the Mercury disturbance extends up to the 5th, and the moon is on the celestial equator, and in perigree on the 1st. On and touching Friday the 1st, no reader need be surprised to see or hear of a crisis in the elements — rain, wind and thunder, with equinoctial tempests in the south coast regions very probable. The disturbance at this time will in all probability be prolonged in cloudy, threatening, and possibly stormy weather, up to and through the 3rd, 4th and 5th. These are reactionary storm days, and they will bring a return of disturbed and stormy conditions, even if high barometer and fair weather should immediately precede them. Change to rising barometer, westerly winds, and clearing, cooler weather will touch most parts about the 5th to 7th.

The regular Vulcan storm period central on the 9th will be felt as early as the 7th or 8th, in falling barometer, change to warmer and growing cloudiness in western sections. As these conditions increase and advance eastward over the country, storms of wind, rain and thunder will visit most localities about Saturday the 9th to Monday the 11th.

There is always much tendency to prolonged disturbances during the immediate presence of earth's autumnal equinoctial, especially when full or new moon fall near the adding of storm periods. These phases of the moon in September, the equinoctial month, always find the moon on or near the celestial equator. Here we find the full moon on the 13th and moon on the equator on the 14th. The 13th to 15th are also reactionary stormy days. We may therefore look for decided storm conditions to continue over these dates. This is a period of probable tidal waves, and heavy equinoctial storms in the south. Barometric and other recognized indications of approaching hurricanes in all the gulf regions, should be carefully noted at this time. One of the most probable earthquake periods in September will be central on the 13th extending twenty-four to thirty-six hours before and after that day. A marked change to high barometer, westerly gales and much cooler will almost certainly follow general and severe storms at this time. Frosts in many localities, especially northward, between the 15th and 19th, may reasonably be expected.

The next regular storm period is central on the 21st, this being also the central day's of earth's autumnal equinox. This period will express itself in falling barometer, rising temperature, threatening storm clouds, with rain, wind and thunder, the crisis falling on the 21st to 23rd progressively from west to east. It behooves all who navigate the lakes and high seas to keep eyes trained on approaching possibilities at this and other September periods. Another high barometer and change to decidedly cooler will come in from the northwest close behind these storms.

The 27th, 28th and 29th are reactionary storm days, not far from the centre of the autumnal equinox, and with the moon at noon and on the celestial equator on the 28th, and in perigree or nearest the earth on the 29th. We predict that within the period embraced between Wednesday 27th, and Saturday, 30th, many wide sweeping and violent storms will visit various parts of sea and land all around the earth. Localities exposed to the ravages of high tides, and violent larushing of tidal waves should keep in mind the danger at this time. This same period is also one of maximum earthquake probability. Seismic disturbances and volcanic activity will be natural concomitants of all these phenomena.

They are all alike the product of universal, cosmic forces that are perturbed and out of a state of normalcy at this particular time.

There may be those who for personal ends will forcibly construe all this into false and sensational meaning. But the intelligent public understands us too well to be deceived by mercenary traducers. While every sensible person will know that risks and dangers arising from an excess of storms at this time are greatly increased, at the same time all will know that our forecasts and warnings do not imply anything out of the ordinary. "The ordinary," during the regular season of equinoctial storm and tempest, as all those who are most exposed to their fury know, is not a matter to be lightly laughed down and kicked aside. There may be seasons when these wild, equinoctial storms are reduced to a comparatively harmless minimum, but ten to one they will show up at more than one point, even on our own coasts and across our prosperous states, bearing in their desolating wings death to some and destruction to many.

Too many, alas, are unmindful of, and unwitchful against these stubborn facts, and to put them in mind of such probabilities, and name the periodic times when they are most likely to appear, is not sensational, but matter of duty and common sense. The idea that storms of unusual sweep and severity do not as a rule occur at this season—call them equinoctial storms or what you please—is a weather bureau subterfuge, laughed at and reprobated by people of all classes and conditions, especially those whose homes, possessions and lives are directly exposed to the West Indies' cyclones and hurricanes.

We predict that a decided, rushing high barometer will come down out of the northwest as the closing September storms are pushed eastward, and that high gales and change to very cool weather will be in transit from west to east at the close of the month. Indications are favourable for low temperatures and frosts over all central and northern sections, along with the changes that will follow this last September storm period. Let us hope and devoutly pray that weather conditions at this, or even previous periods in September, may be such as to arrest and destroy the pestilence of yellow fever, now ravaging much of our country.

As this is the last issue of the old form of Word and Works, we desire to say to our patrons and friends that we have laid our plans for great enlargement and improvement of every department of our magazine. It shall be our special pleasure and task to see that our astronomical and storm- and weather forecast departments are brought to the very highest degree of perfection and usefulness.

While we have no claim on the public, other than the fact that we shall strive with all our strength and resources to make our work a public blessing and necessity, we are nevertheless fully assured that we shall not kick for the sympathy and substantial patronage of the intelligent pubic. If we fail to merit, or give a full return for such sympathy and patronage, we will have no right to expect either; on the other hand, if we are freely and arduously devoting our strength and years and means to a work that carries its own proof of benefit and blessings, no ill-advised or envious attacks, misrepresentations or criticisms can rob us of our place in the hearts and confidence of our fellow countrymen. Saying nothing of the other departments of our enlarged magazine, if our work along astronomical and meteorological lines possesses even a small degree of truth and merit, it will commend itself as more than worth its cost to any subscriber. If we did not fully realize this fact we would feel that we ought to fail — we would not have the courage or desire to shoulder the largely increased expense and responsibilities of so enlarging our work. All we desire and ask is that we have fair play—that the people clearly understand us and have the right and the opportunity to judge as to the intrinsic truth and value of what we shall offer them. — Irl R. Hicks.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

OUR MINERALS.

Canada is generally regarded as especially conspicuous for the agricultural resources it possesses, and for its wealth of timber, of commercial and economic value. If recent discoveries are added to the discoveries of the past in the matter of mineral wealth, Canada can reasonably add another important item to her assets. The mineral wealth of Canada bulks rather largely. Canada's coal areas, though rather widely separated, are of large extent, the total area being 97,210 square miles, situated in the Maritime Provinces—Nova Scotia and New Brunswick, the Northwest Territories, and British Columbia. It is estimated that the productive capacity of the coal areas of Nova Scotia and New Brunswick foot up the immense total of seven thousand million tons. Our iron deposits are not by any means insignificant, and their known occurrence is being added to daily. Gold and silver are abundant in almost every province of the Dominion, except, perhaps, Manitoba and the new provinces. Quebec has a large wealth of minerals, whose total has been largely added to by the discovery of a new area of mineral-bearing rocks of large extent, in the northern part of the province. In the matter of nickel, it is a fact that Ontario possesses the most extensive nickel deposits known, and the recent discoveries of cobalt, conjoined with various other minerals, stamp the mineral assets of Ontario with the highest degree of importance. The varied character of the most recent considerable discovery of ore, is remarkable. It includes in its composition, cobalt, copper, silver, antimony, arsenic, bismuth and graphite. The importance of the cobalt mines of Ontario, both as to extent and quality, may be gathered from the fact, that since the discovery of the New Ontario deposits, the value of cobalt, affected by the operation of the law of supply and demand, has fallen 30 per cent. With a corner on cobalt and nickel in the world's possession of these articles, Ontario is able to look forward with complacency to future development of her large native resources in these, and other, minerals.

THE REPORTERS.

Speaking of the bad habit the Hamilton chief of police has fallen into, of putting obstacles in the way of newspaper reporters, the Ottawa Journal quotes from the Boton Globe, which say:—

We are inclined to the opinion, after a reasonably long experience, that those who resent the supposed intrusion of the reporter are usually men of mere momentary importance, and nearly always are they mistaken as to the function and the value of the reporter. They may be lifted up by the selection of the post which they command for an unusual purpose, or they may be gossiped of as the posible incumbents of a public office, or they may be concerned in a marriage or in a birth or in a death which for one reason or another, is justly and properly interesting to the public. The idea that possesses such persons of temporary interest is usually that their privacy is being intruded upon; that they are being annoyed and persecuted for the gratification of the curiosity of the reporter himself, whose unpleasant duty is to gether and present what the public desire to know. Such a person may rest assured, however, that the reporter is no more pleased with the task of visiting him and interviewing him than he is to receive the agent of the newspaper. The reporter is a very intelligent agent of the public. His duty is to find out what the public wishes to know about, and it usually has the right to know what he seeks.

To which the Journal adds this comment:—

This states pretty fairly the position and the claims of the reporter, and of the press and public which he serves. He is always an arduous task; it is frequently exceedingly distasteful to him personally, but he sticks to it, He has a right to complain when a purely trivial personal and unreasonable objection adds difficulty to the task of getting information which, by hook or crook, he must get before his day is done.

The reporter as a rule is not an inquisitive person. He rests best in an atmosphere wherein he does not need even to ask anyone the time of day. He is to be admired—in fact the civilized press of the world today, is to be admired—rather for reticence than garrulity. More of what the average reporter hears and verifies is suppressed than printed. He is doing a good work to the best of his ability, and it is gratifying to observe that the pettiness which opposes him in his efforts is day by day becoming more closely confined to the small and even inconsiderable classes of persons.

EDITORIAL NOTES.

Mr. John D. Rockefeller does not enjoy good health, much less does he enjoy bad, for he has "shaken" the doctors in an effort to get health by the nature cure. He has began walking, in his bare feet, through the morning dew. Many people think that if Mr. Rockefeller gets his due it wont be from the grass.

The new institution for epileptics under construction at Woodstock, and now nearly ready for the reception of patients, recently visited and approved of by Hon. Dr. Reaum, Commissioner of Public Works for Ontario, is another legacy from the Ross Government and another evidence of the intelligent interest taken in our public institutions by the late Provincial Secretary, to whose initiative the existence of the new building for epileptics is largely due. The provision of this institution will not only relieve the asylums of the province of a large number of inmates who are occupying space which should be given to the really insane, but will provide proper housing for epileptics, and the special care and treatment their peculiar ailment requires, for these persons are not insane in the proper sense of the word, but persons with disordered intellects produced by their physical affliction.

ONTARIO COLLEGE WHEAT HARVEST

Report Shows That Conditions Have Been Very Favourable.

The Different Varieties of Winter Wheat Compared—Other Agricultural Notes.

The wheat harvest has been completed at the Ontario Agricultural College. The weather conditions of the past year have been favourable throughout Ontario for the successful growth of most of the Autumn sown crops. The brief report here presented gives some of the principal results of experiments conducted at the Agricultural College and throughout the Province of Ontario.

Sixty-one varieties of Winter Wheat were grown in the Experimental Department during the past year. The five highest leading kinds were of the Dawson's Golden Chaff class, having beardless heads, red chaff, and white grain. The yields in bushels of grain per acre of these varieties were as follows:—Abundance, 62.7; No. 6, White, 61; Superlative, 60.1; Dawson's Golden Chaff, 59.5 and American Wonder, 58.7. In weight of grain per measured bushel, all the five varieties went over the standard of 60 lbs., the Dawson's Golden Chaff and the Abundance reaching 61 1-2 lbs. These varieties are all softer in the grain, but yield more bushels per acre than such sorts as Tasmania Red, No. 5 Red, Turkey Red, Crimean Red and Buda Pasth. Those varieties of red wheat which gave the highest yields of grain in the past year were as follows:—Imperial Amber, 58.2 bus.; Auburn, 57.5 bus.; Genesee Reliable, 57.1 bus.; Early Ontario, 56.8 bus. and prosperity, 55.9 per acre. The average yield of grain per acre in 1905 was 56.7 bushels for the eighteen varieties of White Wheat and 51.7 bushels for the forty-three varieties of Red Wheat. Generally speaking, the White Wheats yield more grain per acre, possess stronger straw, weigh a little less per measured bushel and are slightly softer in the grain than the red varieties.

Within the past few years, efforts have been made to improve both the quality and the yield of grain of some of the best varieties of Winter Wheat by means of systematic selection and by cross fertilization. There were forty-one new strains of Winter Wheat grown at the College this year as a direct result of the work done in plant selection. Some of these are very promising. Of twelve new strains of Dawson's Golden Chaff, eleven yielded better than the ordinary variety reported in the previous paragraph, and two yielded at the rate of fully 65 bushels of grain per acre.

Some of the most interesting crops of Winter Wheat grown at the College in 1905 were those obtained from crosses made between different varieties in previous years. Several thousand hybrid plants were grown, separately and are now being carefully examined, and classified and the seeds selected for Autumn sowing. These hybrids were secured by crossing such varieties as Dawson's Golden Chaff, Bulgarian, Turkey Red, etc. The object in this work is to secure new varieties which possess the good qualities and eliminate the poor qualities of the parent varieties. The results so far are very encouraging.

The results of twelve separate tests made at the College show an average increase in yield of grain per acre of 6.8 bushels from large as compared with small seed, of 7.3 bushels from plump as compared with shrunken seed, and of 3.6 bushels from sound as compared with broken seed. Seed which was allowed to become very ripe before it was cut produced a greater yield of both grain and straw and a heavier weight of grain per measured bushel than that produced from wheat which was cut at any one of four earlier stages of maturity. In 1897 and again in 1902, a large amount of the winter wheat in Ontario became sprouted before it was harvested owing to the wet weather. Carefully conducted tests showed that an average of only 76 per cent. of the slightly sprouted and 18 per cent. of the badly sprouted seed would grow and produce plants. Surely he is the wise farmer who will sow none but large, plump, sound, ripe seed of good vitality.

In each of the six years, experiments have been conducted in treating Winter Wheat in different ways to kill the stinking smut and the results have been very satisfactory. Untreated seed produced an average of 3.6 per cent. of smut in the crop of last year and 9.3 per cent. of smut in the crop of this season. Seed wheat which was immersed for twenty minutes in a solution made by adding one pint of formaldehyde (formalin) to forty-two gallons of water produced an average yield of grain per acre of 50.4 bushels in 1904 and 50.8 bushels in 1905, and that which was untreated produced only 46.6 bushels and 43 bushels per acre for the corresponding two years, thus making an average saving of nearly 6 bushels per acre. The treatment here mentioned was easily performed, comparatively cheap, effectual in killing the smut spores, and instrumental in furnishing the largest average yield of wheat per acre of all the treatments used.

In an experiment conducted at the College on four different occasions, winter wheat grown on land on which a crop of green peas was plowed under produced an average yield of wheat per acre which was 22.1 per cent. (6.5 bushels) greater than that produced on land on which a crop of green buckwheat was plowed under and 14.2 per cent. (4.2 bushels) greater than that which was grown on land which was worked as a bare fallow, having been plowed three times during the summer. The results of an experiment conducted in the year 1900 show that the winter wheat which was sown on red clover sod yielded 20.7 per cent. greater than that which was sown on timothy sod. Two years' results with commercial fertilizers show that 100 lbs. per acre of Nitrate of Soda increased the yield of winter wheat 7.3 bushels at a cost of about eighty cents per bushel. As a result of hundreds of inquiries we learn that in Ontario, about 28 per cent. of the winter wheat is sown on pea ground, 25 on clover sod, 11 on barley ground, 10 on timothy sod, 9 on summer fallow and 12 on land following potatoes, beans, oats, corn and roots.

Many tests conducted at Guelph indicate the importance of sowing about ninety pounds of winter wheat per acre on an average soil. This amount might be increased for poor land and decreased for rich soil. If the land is in a good state of cultivation it matters but little whether the seed is sown broadcast or with a tube drill, but if the land is dry or lumpy, that which is sown with the drill is likely to give the best results. The highest yields per acre have been obtained from sowing between the 26th of August and the 8th of September.

The average results for 6 years show a yield of grain per acre of 30. bushels for the Mammoth variety and 27.5 bushels for the Common variety of Winter Rye. The returns from Winter Barley in Ontario are uncertain as sometimes the yields are very high and sometimes they are very low. The two varieties grown in 1905 gave only 7.3 and 3.7 bushels per acre. Winter oats are a repeated failure at the College. The Hairy or Winter Vetches produced an average yield of 10.3 tons of green crop per acre in the experiments for four years and of 7.6 bushels of seed per acre in the tests for five years.

Results of Co-operative Experiments.

In the co-operative experiments conducted throughout Ontario in 1905, under the direction of the Experimental Union, the varieties of Winter Wheat gave the following average yields in bushels of grain per acre:—Dawson's Golden Chaff, 39.2; Imperial Amber, 32.3; Michigan Amber, 31.7; Buda Pesth, 31.1; Turkey Red, 30.1 and Banatka, 19.4. Winter Rye gave an average yield of 34 bushels per acre. The Winter Barley was badly winter killed throughout the Province. Hairy Vetches and Winter Rye gave 3.1 and 7.6 tons of green fodder per acre respectively.

Distribution of Material for Experiments.

As long as the supply lasts, material will be distributed free of charge in the order in which the applications are received from Ontario farmers wishing to experiment and to report the results of any one of the following tests:—1, Hairy Vetches and Winter Rye as fodder crops; 2, three varieties of Winter Wheat; 3, five fertilizers with winter wheat; 4, Autumn and Spring applications of Nitrate of Soda and common salt on Winter Wheat; 5, two varieties of Winter Rye. The size of each plot is to be one rod wide by two rods long. Material for members 2 and 4 will be sent by express and that for the others by mail.

FRUIT

As a Medicine.

Fruit has been used as a medicine for thousands of years. Every one knows its value as a laxative. The pure juice of apples acts on the kidneys and makes more urinary excretion than any other remedy in the world—but the patient must take half a pint three or four times a day. Apple juice is most curative in kidney disease. The juice of four large oranges taken before each meal and on retiring at night has more curative action on the skin than any remedy ever discovered. Orange juice clears and beautifies the complexion. Again, fruit acts on the bowels and makes them move—acts on the liver and makes more bile flow, which is the natural purgative of the body—and thus cures constipation. An Ottawa physician after years of labor has discovered a process of combining and concentrating the juices of apples, oranges, prunes and figs—and by forcing into the united juices one more atom of bitter from the orange peels, a new fruit is obtained which has all the valuable medicinal qualities of fresh ripe fruit and in a more marked degree. The new and stronger fruit is condensed into powder, made into tablets, with the addition of tonics, and sold under the name of "Fruit-a-tives" or "Fruit Liver Tablets." It has been proven in hundreds of cases that "Fruit-a-tives" are a positive cure for constipation, biliousness, headaches, kidney and liver diseases and all blood impurities. "Fruit-a-tives" are fruit, concentrated and made stronger than ordinary fruit. For sale at Druggists 50c. a box or 6 boxes for $2.50, or sent on receipt of price by FRUIT-A-TIVES LIMITED, Ottawa.

Band and new moving pictures this week at Jackson Park.

Persons desiring to compete for best results in beautifying premise, will please send in their names and street numbers to the committee may inspect premises next week. H. S. Beal, secretary. 3t

A Social Event of Local Interest

Mr. Geo. Agnew, of This City, Married at Lakefield.

The Bride, Miss Ina Millage of Lakefield—An Interesting Event.

A wedding of considerable interest will be that which will take place this evening at Lakefield, when Miss Ina Millage, the eldest daughter of Capt. Millage, of that village, will be married to Mr. Geo. Agnew, of Peterborough. The ceremony will be performed by Rev. T. W. Leggott, pastor of the Methodist church, in the presence of the immediate friends of the contracting parties only. The bridal party will stand under an arch of evergreens, and the bride, standing under a bell of asters, will be given away by her father.

Miss Agnes Wallace, cousin of the bride, will be bridesmaid, and Mr. Wm. Millage will act as groomsman. The bride's dress will be of blue grey crepe de chene over old rose silk. She will wear a hat to match, and will carry a bouquet of white bridal roses.

Miss Emily Martin, of Peterborough, will play the wedding march.

After the ceremony a dejeuner will be served, and Mr. and Mrs. Agnew will leave for Peterborough, and tomorrow morning will take the 5.10 C. P. R. train for Brampton to spend their honeymoon. On their return they will reside in this city.

CITY NEWS OF TO-DAY

—There was nothing doing at the police court this morning.

—A meeting of the Committee of the Whole is called for this evening at eight o'clock.

—A lady's black belt picked up at the station last night, may be had by the owner at this office.

—A lady's black silk belt was found at the G. T. R. station last night. The owner may have it on application to this office.

—Peaches and plums will be a record crop this year, and the prices for these fruits should be away down.

—Mr. E. J. McCarthy, contractor, yesterday purchased the residence owned by Mrs. Hiram Amey, 238 Hunter street.

—Mr. Walter Hay, foreman of the Dickson Lumber Company, has been in Minden during the past week hiring men to take back with him to the lumber camp, he and his men, numbering about twenty, leaving here yesterday.—Echo.

—Mr. H. H. Roat, 108 Aylmer street, has purchased the Oriental Hotel, Deseronto, and wants to dispose of an Idle Favourite Range and a 6-piece hair-cloth parlour suite, both new. These are to be sold by private sale before Monday next. 3d

—A number of the Midland excursionists visited Mr. "Wally" Parnell at the fire hall to-day. They admired the engine and reels, and the order in which everything is kept; and "Wally" was greatly disappointed that there was no fire to show them how they did it.

—For the Farm Labourers' Excursion on Monday, September 4, the Canadian Pacific Railway will run a special train, leaving Peterborough at 10.15 a.m. Secure tickets early from W. McIlroy, City Passenger Agent, 343 George street, Peterborough. 44-3t-2w

—Mr. R. R. Jamieson, general superintendent of the Western Division of the C. P. R., says that there will be about 55,000 cattle for export from Alberta this year. This will exceed the export trade of last year by 15,000 head. The cattle are reported as being in splendid condition, for they have been but little troubled with flies. There is abundance of water in the hotels in Southern Alberta, while in Montana to the south the water supply is exhausted and the pastures burned and bare.

—Rev. Iri R. Hicks, the noted weather forecaster of St. Louis, Mo., has for eighteen years past edited a monthly journal of national reputation, World and Works. We have received Word and Works at this office and can testify to its value as a family monthly. Prof. Hicks has just decided to change his family monthly to magazine form, and with the October monthly the number will be a beautiful magazine profusely illustrated with half-tone engravings. One of the early fall numbers of this magazine will contain Prof. Hicks' weather forecasts for the first six months of 1906. The January, 1906, number will contain the weather forecasts for the second six months of 1906. These two numbers of the magazine will take the place of the Hicks Almanac, which will be discontinued. The matter that has heretofore been published in the Hicks Almanac each year will now be found in the magazine, and much more. The price of the Word and Works Magazine is 10 cents per copy or $1.00 per year. Send 10 cents for a copy of the October number, which gives you full particulars of how the Hicks weather forecasts for a year in advance will now be given to the public. Word and Works Publishing Co., 2201 Locust street, St. Louis, Mo.

Peace Is Now Said to Be Fully Assured

Proposal Made That Russia Shall Buy Sakhalin From Japan.

Japan Will Also Withdraw Demand for the Surrender of the Interned Russian Ships.

(Special to the Examiner).

Portsmouth, August 23rd. — Peace between Russia and Japan is assured if the Mikado's Government make at to-day's session of the plenipotentories the concessions which it contemplates. Japan's proposition is this: If Russia will buy from her the Island of Saghalien, which is now in the possession of her army, Japan will waive all claims for a reimbursement of her war expenses, relinquish her demand for the surrender of the interned Russian ships, and withdraw her proposition for the limitation of Russia's naval strength in the Far East.

EXCURSION TO VISIT LIFT LOCK

Large Crowd Expected to Come Down Next Week.

An excursion will be run next week from Stony Lake over the Lift Lock by the steamer Stony Lake.

The trip will be conducted under the auspices of the Cottagers Association and it is expected that a large number of Canadian and American visitors will avail themselves of the splendid opportunity offered to inspect the wonderful mechanism of the gigantic structure.

TELEPHONE TALKS.

TO TELEPHONE USERS AND THE GENERAL PUBLIC,—

In laying the foundation for the investigation by the Parliamentary Special Committee it was claimed that Telephone conditions in Canada were not satisfactory because they do not compare favorably with European countries. In this respect statements were made and statistics presented, regarding telephone service in Great Britain, Norway, Sweden, Denmark, Holland, France, Germany, and other countries of Europe. The movement for municipal telephones in England and Scotland was specially commended.

We cannot adequately deal with all of these in the limits of one "Talk." The information presented to the Committee by men well versed in the prevailing conditions in Europe was exceedingly interesting, and a brief resume will we think, be acceptable to those who are following this series.

In Great Britain the conditions briefly stated are as follows: The telegraph business is a Government monopoly and this includes the telephone. But while the Government owns and operates all the telegraph lines and the long distance telephone lines, it has been "farming out," so to speak, the local exchange telephone service under a license system limited to a term of years.

The greater portion of the exchanges are owned and operated by the National Telephone Company.

In 1899 the Government passed an Act enabling local municipalities to provide exchange telephone service.

The Government itself established a telephone exchange in the City of London to compete with the National Company. Just before service was commenced, however, the Post Office Department decided to enter into an agreement with the National Company to charge the same rates, to exchange service between the subscribers of the two systems, and to restrict their operations as far as possible to separate areas in order to avoid wasteful expenditure in duplication of plant.

The Government has also established local exchanges at a number of small places. During the past year experiments have been made in a limited way in giving rural service, but the Government report states that "the receipts have not covered the cost of attendance and maintenance."

The National Company's exchanges, the Municipal exchanges, and the Government exchanges, each have a connection with the Government long distance lines on equal terms.

The Government has contracted to take over the National Company's business on the expiry of the present license in 1911, and it is expected that at the same time it will take over all other telephone exchanges throughout the country.

This briefly outlines conditions of telephone service in Great Britain at the present time.

With the results we shall deal in subsequent "Talks."

THE BELL TELEPHONE COMPANY OF CANADA.

LATEST SPORT

THE LOCALS WILL MEET WINNERS

Of Tie Between Uxbridge and Beaverton on August 25th.

The tie game between Uxbridge and Beaverton will be played on Friday, August 25th. The winners of this game will play Peterborough in the semi-finals.

This game will naturally be watched with great interest by the local enthusiasts, as both opposing teams are strong aggregations, and what will undoubtedly be the most exciting game of the season is certain to result when the locals meet the winners, whichever team it may be.

BOWLING.

Games played last night:—

A Bellegham	Mr. Ferguson
D Patterson	D H Kernaghan
H McBain	T E Pratt
A Moore, sk 7.	D H Moore, sk 18
Skip Waddell, 11.	Skip Dixon, 9.

There was also another game played, the score of which was not handed in.

The following was played Saturday:—

Mr. Higgins	W Purdy
Dr. McKercher	W. Isaacs
W S Robinson	F Cottrell
S Sharpe, sk 13.	G Stevenson, sk 6

Schedule for to-night:—

Robt. Kerr vs. W F Johnson.
G K Martin vs. Jas. Gibson.
K G Loch vs. T F Matthews.
J McClung vs. Dr. McClelland.
J McIntyre vs. A. Moore.

BASEBALL.

The Midland team broke their promise and failed to come down to-day. It was another disappointment for the local management.

The Port Hope Guide sizes up the situation as follows:—

There is going to be a pile of excitement in the Midland League before the championship is decided. Oshawa's default to Peterborough on Saturday places the latter on a tie with Bowmanville for first place, with six wins and three losses. Bowmanville has a home game with Cobourg next Saturday, and Port Hope goes to Peterborough on the 2nd of September. Port Hope holds second place in the league with 5 wins and 3 losses and a home game with Oshawa and one at Peterborough. Cobourg comes third with 4 and 3, and two games with Lindsay and 1 in Bowmanville. From present appearances there is very likely to be a tie. Bowmanville feels strong enough to trip Cobourg on Saturday and our boys think they can pull out a victory against Peterborough.

Mr. Victor Burnham, who has been pitching for Lindsay this season, left this morning for Kearney, where he will do the twirling for the remainder of the summer. Mr. Wm. Jordan, a Lindsay boy, catches for the Kearney nine, who have only one more game to play in the Northern League. They expect to land the championship of the league as they have now a end of three games, after which they will take a tour to Ottawa, Hull, Montreal and other places. "Vic" won his game last week for Kearney and twirled in good style. He is a youthful pitcher, but if given good treatment, a fair chance and good training will make his mark as a clever twirler.—Post.

Local Men at O. R. A. Matches

Secured Prizes at Second Day's Shooting.

Colour Sergt. Moore Made Eight Straight Bulls-Eyes— Many Prizes Won.

The second day of the O.R.A. matches at Long Branch brought out some good shooting. The wind was from the north, blowing from behind the marksmen. It veered, however, between north-west and north-east, and was very shifty. The light was rather bright, but much better than yesterday.

The results of yesterday's shooting show some excellent work by the local marksmen who represent the 57th Regiment at the matches.

In the Wheeler & Wilson Series Match, 200 yards, Colour-Sergt. W. H. Moore, 57th Regiment, made eight straight bull's eyes.

In the Macdonald match quick firing, seven rounds at 500 yards, target exposed for 11-4 minutes, Corp. J. Gibson, 57th Regiment, secured a $4.00 prize, score 35.

In the Stanley Match Corp. J. Gibson, 57th Regiment, won $4.00 prize, score 35.; Private Fitzgerald, 57th Regiment, $3.00 prize, score 35.

CHEMONG REGATTA GREAT SUCCESS

(Continued from First Page)

9. Simpson, Lakefield.

10. Canoe Paddling—Ladies' Single. Race did not take place on account of rough sea.

11. Canoe Paddling—Three Men.
1. Delafosse, Eakins and Gordon.
2. Simpson, Gordon and Crawford

12. Gasoline Launches. 66 ft. and under.
1. "Viking." Hopkins, Sturgeon Falls.
2. R. H. Grantham, Sturgeon Point.

13. Gasoline Launches—Over 18 ft.
1. "Foxy," Bates, Stony Lake.
2. Wilson, Sturgeon Point.

14. Boys' Swimming Race—16 years and under.
1. Main.
2. Cummings.
3. Ray

15. Oars Race—
1. Weekes.
2. Gordon.
3. Cummings.

16. Canoe Paddling—Three Ladies.
1. The Misses Allen and Miss Grantham.
2. The Misses Hall and Miss Collins.

17. Gunwale Race—
1. Shaw.
2. Hopkins.

18. Ladies' Skiff Race—
1. Miss Isabel Hay, Chemong.
2. Miss Gwen. Hall, Stony Lake.

19. Men's Fours, Canoe—
1. Collins, Hall, Eakins, Graham.
2. Roy, Weekes, Shaw, Currier.

A number of races in addition to those scheduled were put off. The sailing races were, of course, a chief centre of interest, the public appetite for this variety of sport having apparently been whetted by the keen competitions which have been in evidence throughout the season. Mr. Milne Hamilton again easily ran away with the honours in his apparently invincible dinghy. His work in handling the craft was superb, and won unstinted admiration. Mr. W. J. Hopwood, of Chemong, finished second, after sailing a good race, which consisted of two rounds of a three-mile triangular course. Mr. Hopwood got away in the lead, but was quickly overhauled by Mr. Hamilton, who maintained his lead without difficulty to the finish.

In the open sailing competition Mr. R. M. Dennistoun won in a good race, which was closely followed by the spectators. The canoe sailing race was won by Mr. Reid Munro, of Stony Lake, who secured a good lead over his opponent, Mr. Fred. Roy. The boats in the race were handled in a dexterous manner by the participants.

The men's tandem canoe race, as usual, was productive of much interest and enthusiasm. The race was entered by Messrs. Smoke and Jacobs and Nicholls Bros., all of whom were, however, disqualified on the ground of professionalism. The winners, Messrs. Gordon and Simpson, of Lakefield, displayed some speedy work and secured a lead which proved disastrous to their opponents, Messrs. Roy and Weekes.

The ladies' tandem canoe was an event in which an unusual interest centred, owing to the unavoidable abandonment of the race at the Stony Lake regatta, in which the same competitors were entered. The reputation of Stony Lake was nobly upheld by Misses Helen and Gwen. Hall, whose victory was a most popular one. The race was most exciting, but the Misses Hall led from the start, gradually increasing their margin of supremacy till, as the flags were approached, it was quite evident that their opponents were "out of the running."

The boys' paddling race was won by Eakins and Rice, who thus added several more scalps to the string taken into camp at Stony Lake.

The mixed tandem was won by about two lengths by Miss Allen and Fred. Roy, over Miss Hall and Mr. F. M. Delafosse, after an exciting race. The skiff race proved an easy win for "Doc" Shaw. In the men's singles Gordon won from his quondam partner, Simpson, in a race in which both displayed lots of speed. The men's threes was a close and interesting struggle, in which the winners, Messrs. Delafosse, Eakins and Gordon, won out from their opponents by a narrow margin. The gasoline launch races were interesting exhibitions, in which the course was done in remarkably fast time. The boys' swimming race was won by Mr. Jack Main, after an exciting struggle, from Mr. Cummings.

The crab race proved mirth-producing as usual, and marvellous stunts which were exhibited kept the crowd highly amused. The ladies' threes was a close and interesting race, in which the honours were evenly divided. It was a race all the way to the finish. Miss Collins and the Misses Hall being defeated, apparently, by Miss Grantham and the Misses Allen, by reason of a slight loss of control of their boat on the approach to the finish. The gunwale race was won without much difficulty by "Doc" Shaw.

The ladies' skiff race was won by Miss Isabel Hay, of Chemong, who also captured a similar honour at the recent Stony Lake regatta. The men's fours was keenly contested, and the three leading crews were rather closely "bunched" at the finish. The winning crew, however, consisting of Messrs. Collins, Hall, Eakins and Graham, continued to demonstrate their invincibility.

The members of "Camp Chinook," consisting of Messrs. Fred. Roy, A. Weekes, "Doc" Shaw and W. Currier, succeeded in landing altogether four firsts and eight seconds.

In the Evening.

In the evening the park took on a fascinating appearance in the countless coloured lights which sprang out mysteriously on all sides upon the approach of the twilight. The cottagers apparently spared no pains toward the adornment of their cottages in this manner for the occasion, and that their efforts were appreciated was amply evidenced in the expressions of delighted surprise heard upon all sides among the visitors present. The pavilion was crowded at an early hour to witness the presentation of prizes, which took place amid general enthusiasm as the lucky competitors secured the coveted emblems of their success. The prizes were presented by Mr. Walter S. Davidson. They were of a handsome and useful character, and will undoubtedly be highly prized by the recipients.

This pleasing feature of the evening's programme, was followed by a charming dance, for which delightful music was supplied by the 57th Regiment Band, which occupied a platform opening off the pavilion.

The arrangements for the dance were carried to a highly gratifying conclusion in every particular under the prize-taking management of the committee, of which Mr. Fred. H. Dey was honorary secretary. A pleasing feature was the serving of delightful refreshments which were prepared by the fair portion of the summer residents of the park.

AUGUST CHEESE REACHED
AT THIS MORNING'S MEETING
SEASON'S RECORD PRICE

11 9-16c. Paid for First Two Weeks in August Product—One of the Most Satisfactory Sales in History of the Peterborough Board—Only Two Buyers Figured on the Board To-day—Mr. Fitzgerald at 11 1-2c. Got Seven Factories, and Mr. Kerr, at 11 9-16c., took the Rest of the Board.

The salesmen for the different cheese factories represented on the Peterborough Board were made happy this morning, when one of the most satisfactory sales in the history of the local board was held. The top price of the season and for that matter, for several seasons, was reached, when, at 11 9-16 Mr. Kerr bought all the factories except seven, which had been previously sold to Mr. Fitzgerald at 11 1-2. This price was highly satisfactory to the salesmen and it will doubtless strike the patrons of the factories in much the same light.

Mr. Riddel, the secretary of the local Board attributes the present high price of cheese to the fact that last year practically all the manufactured stock was cleared out and this season started on the new cheese. Dairy products as a whole have gone up in price recently, and the cheese market is in sympathy with the general upward tendency.

There were 4,683 boxes boarded this morning, the cheese sold being for the first two weeks in August, and doubtless some credit for the high price must be given to the fact that the cheese has had about eight days to mature, and will now be in first class condition.

The buyers present were Messrs. Kerr, Fitzgerald, Cook, Whitton, Rollins, Wrighton, Martin, Gilleapie.

The following fatories boarded the number of cheese indicated:—

Warminster	140
Keene	195
Shearer	110
Central Smith	190
North Smith	175
Villiers	110
Warsaw	120
Weswtood	180
Oakdale	160
Missing Link	90
Daisy D.	90
Lakefield	120
Pine Grove	135
Peterborough	75
Otonabee Union	65
Maple Leaf	150
Myrtle	195
Ormonde	190
Young's Point	75
Lang	145
Fraserville	150
Indian River	155
North Dummer	75
East Emily	125
Trewera	130
Ballyduff	68
Benafort	155
Cedardale	80
Stony Lake	53
Mount Pleasant	80
Crown	135
Norwood	110
Brickley	100
Shamrock	95
Fleetwood	160
Dartford	125
Buckhorn	156
South Burleigh	37

Mr. Whitton opened the bidding at 11c. and Mr. Fitzgerald raised to 11 1-8c. Mr. Kerr said 11 3-16, and Mr. Fitzgerald, 11 1-4. Mr. Kerr again raised to 11 5-16c, and Mr. Fitzgerald to 11 3-8. After Mr. Kerr had offered 11 7-16, Mr. Fitzgerald at 11 1-2 had the call.

At that price he called Westwood, Buckhorn, Myrtle, Centre Smith, Fleetwood, North Smith, Cedardale, all accepting. Mr. Kerr raised to 11 9-16, and called Keene, Warsaw, Warminster, Shearer, Pine Grove, Lakefield, East Emily, Trewern, Young's Point, Lang, Indian River, Benafort, Mount Pleasant, Oakdale, Peterborough, Otonabee, Union, Maple Leaf, Fraserville, North Dummer, Missing Link, Daisy D, Norwood, Ballyduff, Brickley, Ormonde, Shamrock, Dareford, Villiers, South Burleigh, Stony Lake, Crown, all these accepted, and the Board was sold, the whole meeting lasting less than half an hour.

The question of inspection fees was discussed, and it was decided that each factory should remit the fees for inspection, also the market fees to the treasurer of the Board, who would send them to the provincial treasurer.

It was decided that in order to accommodate those members of the Board who might wish to attend the meeting of the Eastern Ontario Dairymen's Association when the place of meeting for the next convention will be decided, the next meeting of the Board would be held on Friday, September 8, instead of on Wednesday.

A NIGHTMARE

Gives point to the fact that excessive or irregular eating disturbs the digestion. Nightmare or night hag has its day time correspondence in the restless fulness after eating, with the belchings and sour or bitter rising so often experienced after too hasty or too hearty eating.

Dr. Pierce's Golden Medical Discovery cures dyspepsia or bad stomach. When the weak stomach is strengthened and invigorated the whole body shares in the increased strength derived from food properly digested and perfectly assimilated.

"I was a victim of dizziness and extreme nervousness induced by chronic indigestion and I felt heavy, tired and worn out continually," writes Miss Mary Smith, of 311 So. Western Street, Colorado Springs, Colo. "Dr. Pierce's Golden Medical Discovery was the only medicine which relieved me. Within a week after I began using it that heavy oppressed feeling after meals had left me and I found that I was able to work more than for months previously. My appetite was gradually restored, general system was toned up, nervousness became a thing of the past and I have now been in splendid health for over nine months."

Sometimes a selfish dealer tempted by the little more profit paid on the sale of less meritorious medicines will offer the customer a substitute as being "just as good" as the "Discovery." It may be better for him because it pays better, but it is not as good for you, if you want the medicine that has cured others, and which you believe will cure you.

1000-page Doctor Book sent free on receipt of 21 one-cent stamps to cover postage only. In stamps for cloth-bound copy. Formerly sold for $1.50 to extract of over 300,000 copies. Every family should possess a copy for ready reference in case of sudden illness or accident. It is illustrated with hundreds of wood-cuts and several colored plates. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pellets Cure Constipation.

SICKLY CHILDREN

More children die during the hot weather months than at any other season of the year. Their vitality is then at its lowest ebb, and an attack of diarrhoea, cholera infantum or stomach trouble may prove fatal in a few hours. For this reason no home in which there are young children should be without a box of Baby's Own Tablets, which promptly cure all stomach and bowel troubles. If the Tablets are given to a well child they will prevent these ailments and keep the little one well and strong. Mrs. Joseph T. Pigeon, Bryson, Que., says: "My little one was attacked with colic and diarrhoea, and I found Baby's Own Tablets so satisfactory that I would not now be without them in the house." These Tablets not only cure summer troubles, but all the minor ailments that afflict infants and young children. They contain no opiate or harmful drug, and may be given with equal safety to the new born baby or well grown child. There are imitations of this medicine and mothers should see that the words "Baby's Own Tablets" and the four-leaf clover with child's head on each leaf I found on the wrapper around each box. As you value your child's life do not be persuaded to take a substitute for Baby's Own Tablet — the one medicine that makes children well and keeps them well. Sold by all druggist, or you can get them by mail at 25 cents a box by writing the Dr. Williams' Medicine Co., Brockville, Ont.

The Ancient Foresters in Toronto

Annual Meeting of the Order is Now Being Held.

Order is Characterized as the Strongest in Canada.

District courts and district representation, with a view to concentration, will probably be the chief subjects of discussion at the biennial session of the Subsidiary High Court of Canada, Ancient Order of Foresters, which opened at St. George's Hall this morning. Mr. S. H. Kent, High Chief Ranger, of Hamilton, occupied the chair. Ninety accredited delegaets are in attendance, among them some of the most prominent men in Ancient Forestry, including Major Snelgrove, P.H.C.R., Cobourg; E. T. Perry, P. H. C. R., Montreal; D. L. Secord, H.C.M.E., Brantford; W. Williams, Permanent Secretary, Toronto; H.A. Griffiths, H.C.T., Toronto; Harry Chick, P.C.R., Toronto; A. Dymes, H.C.J.W., Hamilton; W. H. Benson, H.C.S.B., Chatham; W. G. Scott, H.C.S.W., Mount Forest; W. Mills, H.C.J.B., Ingersoll, and W. J. Vale, chairman Laws and Relief Committee, Toronto.

On behalf of the Mayor and City Council, Alderman Graham, Chairman of the Reception Committee, and Alderman Chrisholm, welcomed the delegates.

Strongest in Canada.

In replying, the High Chief Ranger thanked the civic representatives for their kindly references to the financial standing of the Order, which, he said, was stronger than any other fraternal organization in Canada. The civic visitors were dismissed with the Forestric salute.

Mr. Alexander Fraser, who, with Mr. William Banks, brought fraternal greetings from the Sons of Scotland, thanked the delegates for the example set by the A.O.F. in fixing the benefit department on a firm foundation. Fraternal organizations, he said, had a common interest. Conditions which affected one fraternal organization largely affected others. Mr. Banks also spoke of the admiration of the Sons of Scotland for the financial standing of the Ancient Order of Foresters. There was no work, he said, like fraternalism.

Major Snelgrove, in replying, recalled that thirty-four years ago today the first charter for Canada was granted by the parent body in England. On that day Court Hope, Toronto, opened its membership rolls at the old Gloucester Arms Inn, at the corner of King and Berkeley streets.

Greetings were also received by letter from Mr. John W. Carter, secretary of the Sons of England Benevolent Society.—Toronto News.

As a Convalescent Food.

Mr. Wyman N. Thomas, Ompah, Addington Co., Ont., writes: "My wife had congestion of the lungs along with other troubles, and became very weak and run down. By the use of Dr. Chase's Nerve Food she was made as strong and well as ever. Of course, I had a doctor, but she was weak, and it was Dr. Chase's Nerve Food which built her up."

Free Gifts of Toilet Soaps

Use SUNLIGHT SOAP and SAVE THE COUPONS.

IT'S A FACT NEVERTHELESS

We have been in business one year and we thank our many friends and patrons for their liberal patronage for the past year, and assure them that we will put forth every effort to serve them better in the future, if possible.

We say most emphatically, and we won't take it back, that 'SOVEREIGN BRAND' are the best suits for the money that ever honoured the tables of a clothing store. If you know a doubter bring him in and watch us convince him.

NEARLY FIFTY THOUSAND DOLLARS WORTH OF CHEESE

Were Sold on the Peterborough Board To-day—The Figures Will be About $47,953.92--Some Object Lessons on the Importance of the Cheese Industry--Peterborough Board Ranks With the Best Boards in the Dominion.

Who says that the dairying industry in Peterborough is not "the cheese?" At the cheese board meet-to-day 4,683 boxes of cheese were sold. This does not seem like a very large number, and in fact there have been larger boards this year here, but when one stops to figure it up, $47,953.92 is involved in the transactions at to-days meeting, not an insignificent sum of money whose approximate equivalent to be set in during the summer months.

This is one object lesson on the value and importance of this branch of agriculture, and shows that it is of such a nature that it should be encouraged.

To see forty or fifty men gather in the Ontario Bank chamber twice a month and spend half an hour or so there, one would have no idea that so much money was involved in the transactions which are made during those few minutes.

The Peterborough Board is reported to rank second in the Cheese Boards of the Dominion, and it has the reputation of being the most progressive and business like of them all.

Brutal Breach of Trust By Young Lady's Escort

An early morning complaint was received at the police court, when about two o'clock an indignant father telephoned regarding a case of attempted assault which occurred upon the Chemong Road.

The daughter of the gentleman, who is a most respectable and popular young society lady, it appears, according to the story narrated by the father, attended the regatta at Chemong yesterday, in company with a young man, also respectably known about town. The young lady arrived home at about two o'clock this morning, and was in a violent state of agitation and sobbing pitifully. In the midst of her tears she informed her parent of the details of the assault which her companion had attempted in a brutal and shocking manner.

The father was naturally in a state bordering upon distraction over the occurrence, and was uncertain as to what course to pursue with regard to the matter. Upon second consideration he, however, evidently decided that to prosecute would lead to results of a distressing character involving, as it would, undesirable publicity.

BABY GIRL'S AWFUL HUMOUR

Would Scab Over, Break Open, and Be Raw—Intense Suffering for Two Years—Doctors and Medicines Failed to Help Her.

CURED BY CUTICURA WHEN ALL ELSE FAILED

Writing under date of August 15, 1904, Mrs. L. C. Walker, of 5 Tremont Street, Woodfords, Me., says: "My sister had a terrible humour on her shoulder when she was eighteen months old, causing intense suffering for two years. We had several doctors, and tried everything, but in spite of all we did it kept spreading. One day it would scab over and then crack open and a watery matter ooze from it and the scabs would all fall off. It would be raw for a time, then scab over again. Some one recommended Cuticura, and we immediately procured a box of Cuticura Ointment, and a cake of Cuticura Soap. She was much better after the first bath with warm water and soap, and an application of the Ointment. Before it was half gone we saw a marked change for the better, and she was entirely cured, without a scar being left, by the one box of Ointment and one cake of Soap. Her skin is now entirely clear, and she has not had a sign of trouble since."

100,000 MOTHERS

Daily Tell Other Mothers

That Cuticura Soap is the best baby soap in the world for cleansing and purifying the skin, and that Cuticura Ointment is of priceless value for soothing and healing torturing, disfiguring eruptions, itchings, and chafings. A single application of Cuticura Ointment, preceded by a warm bath with Cuticura Soap, gives instant relief, and refreshing sleep for skin-tortured babies, and rest for tired, fretted mothers.

Cuticura Soap, Ointment, and Pills are sold throughout the world. Depots: London, 27 Charterhouse Sq.; Paris, 5 Rue de la Paix; Australia, R. Towns & Co., Sydney. Potter Drug & Chem. Corp., Boston, Sole Props.

DOG SPRINGS ON ITALIAN WOMAN

And as a Result the Woman Is in a Precarious Condition.

Luigi Repola the Woman's Husband Promises Trouble for the Dog at Least.

This morning Luigi Repola, an Italian labourer, who lives in the colony on Bethune street, came into the police station, and through his interpreter, Mr. Minocolo, complained that as his wife was passing along Simcoe street a dog ran out of one one of the houses, and jumped upon her giving her a very severe fright, but did not bite her.

Repola's wife is now suffering from convulsions; it is feared that she may have a premature confinement, and her condition is precarious.

Repola was told that he must first find out who owned the dog before any prosecution could follow. This son of Sunny Italy immediately set out with his interpreter and using some of their detective ingenuity succeeded in locating a Simcoe street citizen as the owner of the dog. Luigi promises that there will be trouble, especially for the canine.

Chief Rozel Now Wrestles With Mystery

Believes That There Has Been Double Theft of Wheels.

Ald. Mason is the Loser of a Valuable Machine—A Ladies' Wheel Left in its Place.

Chief Rozel has a mystery! It is not expected that it will eventuate into anything tragic, but it's a mystery just the same.

Ald. Mason, the finance minister of the City Council, is concerned in this mystery, too, but, of course, not to his discredit, for Ald. Mason is a man who troubles the police mighty little. In fact, he is so circumspect that he has not even been fined for displaying goods on the sidewalk, nor for allowing boxes to obstruct traffic. Yesterday, however, Ald. Mason had a hair-cut. To be more explicit, for the chief is strong on detail, the alderman had a shave and a shampoo, too, and during the time that he was in the barber shop which he happened to patronize, he left his wheel, a new one, by the way, alleviated with cushion frame and coaster brake, standing against the sidewalk in front of the City Hotel.

He was in the tonsorial artist's chair for some time, and when he came out his wheel was not where he had left it. In fact, it was nowhere to be seen; but in its place was a lady's bicycle of Crescent manufacture, 1901 style, but still new, the tires showing that it had been ridden only a short time.

Ald. Mason did not work this machine for, of course, he had no use for a lady's wheel; but he wheeled it in to the police station, where it now may be seen.

The chief has a theory as to the solution of this mystery, and when the chief propounds a theory it may generally set down that there's something in it.

He believes that the lady's wheel was stolen in the first place, from whom, of course, he does not know, for his theory does not go that far, and that the person who stole it "exchanged" it for Ald. Mason's, which was more suitable for a gentleman rider.

The chances are, however, that he will not keep it long for the matter is in the hands of the local police force, and if they cannot find it the only thing left to do then is to insert an ad. in the lost columns of the Examiner.

No one has as yet reported to the police that they have seen a wheel corresponding to that left in place of Ald. Mason's machine, but there is little doubt that it was stolen, and the man will eventually turn up.

Bass Fishing Gets Better At the Lakes

Some Good Catches are Reported From McCracken's Landing.

Many Interesting Personal Items—Guests Still Continue to Arrive at the Lakes.

Stony Lake, Aug. 22.—Rev. W. Leggott, wife and children of Lakefield, went up the lakes yesterday.

Mr. W. E. Puchen and wife of Toronto, who are spending the summer at Lakefield, accompanied by Mr. and Mrs. Elliott, took the round trip on the lakes yesterday.

Mr. and the Misses Aldridge came down from the lakes on Monday.

Mr. G. M. Jackson, formerly of the Dominion Express Co., is spending a week at Kilkenny.

Hon. J. R. Stratton came down from the lakes yesterday afternoon.

Crown Attorney Curry, of Toronto, passed through on Monday, on his way from "Bellevista".

Messrs. Hubert McBain, and S. O. Myers, came down from the lakes yesterday afternoon.

Mrs. Grills, of Lakefield, took the round trip on the lakes yesterday.

Mr. Wm. Crawford, of Lakefield, went to Bonchink yesterday to spend a few days with Mr. Hopkins.

Mr. P. Hetherington spent Monday at Stony Lake.

City Clerk Armstrong and son, are guests at the Victoria House.

Messrs. H. Hall and D. H. Moore went down the lakes on Monday afternoon.

Miss Stewart, of Toronto, Mrs. Robt. Leary, Mrs. R. Neill, Mrs. R. A. Hamilton, and the Messrs. Warne and W. McDonald, were among those who visited the lakes yesterday.

Mr. P. L. Hilton, of Toronto, was a week's end guest at Victoria House.

Mr. E. B. Edwards went up to his cottage on Juniper Island last night.

Mr. W. J. Walker, of Toronto, who has been a guest at the Victoria House for some time, is the guest of Mr. Acton, at Chateau-du-Lac.

Mr. and Mrs. Robert Bradburn are the guests of Mr. T. E. Bradburn, M.P.P.

Recent arrivals at Victoria House are Mr. J. Horton, Toronto, Mr. W. R. and Mrs. Jones, of Cleveland, O., Mr. Wm. Urquhart, Miss Ella Budd, Miss Oddie Brown, Miss E. J. Adams and Mr. E. Churchill Urquhart, Cleveland, Mr. S. R. Armstrong, Peterborough.

Guests at the Victoria House, are for the past week, been unusually successful with the rod and line. This week, however, bids fair to outclass any of its predecessors as on Monday Mrs. F. W. Sterling, of Toronto, and Miss Simon, of Cleveland, O., were successful to the extent of landing nineteen fine bass, one of which weighed 4 1-4 lbs.

On account of the rain and heavy sea, the gathering at the pavilion last evening was small.

The Cleveland Colony at Victoria House was reinforced on Monday night by the arrival of a party of five from that city.

POST CARD CORRESPONDENCE.

In this column will be published communications upon post cards only. It will remain open for the use of readers, who are invited to contribute suggestions, inquiries or replies. Anything of a scurrilous personal nature will be prohibited.

To Editor of Post Card Column:

So much is being said and written about our milk men selling inferior milk, which everyone who buys knows to be so.

How is it that those men can sell lots of butter and cream and still say they are scarce of milk for their customers? I for one would like to see a little cream on the milk sometimes.

Cereal Company's Flour Mill Will Operate on 1905 Wheat

It is learned that the plans for the extension of the works of the American Cereal Company, are likely to take definite shape in the near future. These plans contemplate the raising of the present warehouse and office building to the height of the mill, and the extension of the whole to Hunter street. Plans for this extension were made some months ago, but nothing further was done in the meantime, but it is stated that with the flour mill in operation, it will be absolutely necessary to provide more warehouse accommodation.

The daily output of the flour mill, which will be operated at full capacity as soon as the new wheat begins to come in, will be 600 barrels per day, and it will require considerable storage room to take care of the surplus stock, which it will be necessary to carry.

At the present time it is not expected that the company will do an export trade, the belief being that there will be a sufficient domestic demand to take the output of the mill.

Travellers will be placed on the road as soon as the 1905 wheat crop flour is on the market, and the manufacture of flour will be entered into extensively.

Maskinonge Biting Well For Jubilee Point Campers

The Harmony Club, consisting of Messrs. A. Seward, D. Drake, T. Mooney and J. Holland, have been very successful in their fishing this year. They made a large catch yesterday, consisting of six maskinonge, the largest one weighing 22 lbs., being caught by A. Seward. A number of bass were also landed.

A successful dance took place last night. Nelson Nurse of Rice Lake, was the floor manager, while Mr. J. Cecil Kylie was pianist. There were a number of selections on the phonograph by Mr. J. Holland. The pavilion was decorated with Chinese lanterns and a great many flags.

The Cozy Corner Camp.

This camp consists of Messrs. A. Cranfield, Bruce Hickey, Leonard Naylor and W. Thornton. They have had a pleasant time, chasing mosquitoes. They have caught three eels and fourteen catfish. Mr. Cranfield has gained a seat in the Cozy Corner with his phonograph, and numerous selections. Mr. Thornton has won a great reputation as a backstop in the ladies' baseball team, although the lawn tennis ball dislocated one of his fingers. Messrs. Rickey and Naylor are kept busy keeping the cow, which is very fond of vegetables, away from the camp.

Calamity Camp.

The cottage, or Calamity Camp, is occupied by Mr. and Mrs. Sawyers, the Misses Sawyer, Mr. and Mrs. Browning, and Mr. Nesbit and daughter.

They have been very successful in all their sporting events, and have landed several fine lunge.

A RECORD CORN IS STORY TOLD FROM INDIAN TERRITORY

A rather tall story, illustrative of the rate at which corn grows in some parts of the Western States, is told by a correspondent of the Cheestah, I. T., Times, whose veracity, the editor says, is beyond question. He says: "The terrible news comes from the western part of the Cherokee nation that a boy climbed a corn stalk to see how the corn was getting along, and now the corn is growing up faster than the boy can climb down. The boy is now clear out of sight. Three men have undertaken to cut the stalk down with axes and save the boy from starvation, but it grows so fast that they can't hack twice in the same spot. The boy is living on nothing but raw corn and already has thrown down over four bushels of cobs."

BLANCHE ROYAL ENDS HER CHEQUERED CAREER BY THE POISON ROUTE

Former Barnardo Home Girl Takes Her Life in Buffalo—Her Oft-Repeated Attempt at Suicide at Last Successful—Story of Her Life in Buffalo and the Details Which Led to Her Tragic End—Former Peterborough Girl, Whose Career Has Been Marked by Many Mis-steps.

Special Wire to the Examiner

Buffalo, N. Y., August 24th. — Pretty Blanche Royal, eighteen years old, who formerly was an inmate of the Barnardo Home, Peterborough, Ont., was picked up on the street here on Tuesday afternoon in an insensible condition, and died at the Emergency Hospital, twenty hours afterwards, of morphine poisoning.

Ordinarily a girl of average intelligence, with a fair amount of uncertainty regarding the things of the hereafter, a good digestion within, and a fair constitution without, does not court death as she would her lover.

But then there are different kinds of girls, and perhaps Blanche Royal did not realize what grasp the morphine drug had upon her.

Shortly after eight o'clock on Tuesday night the young woman entered a Main street drug store alone and gave some order to the clerk. While he was preparing her prescription she suddenly fell in a faint on the floor. Police and medical assistance was called in hurriedly by telephone, and the girl removed as soon as possible to the Emergency Hospital. For hours the physicians worked over her unconscious body, without any apparent result, and the young woman eventually expired last night, the doctors attributing the cause of death to morphine poisoning.

At first no one knew who the young woman was, and although the circumstances of the extraordinary affair were printed in the local papers here, together with a full description and a photograph of the girl, she lay for hours unidentified, and in the columns of the afternoon "yellows," became to be called "The Mysterious Woman in Black." It was not until half an hour before the doctors pronounced life extinct that friends turned up with the information that she was Blanche Royal, had been an inmate of the Barnardo Home at Peterborough and had at different times in the last three years created sensations in Toronto and Peterborough by frequent attempts to take her own life.

As far as can be ascertained Royal only came to Buffalo quite recently. She sought work daily, but without avail and despondent and tired, took to morphine to refreshen her spirits. The drug's influence was wonderful and day after day her portion became greater until the habit had so forced itself upon her so that she could no longer resist the temptation.

At last the young girl got employment. It was in a huge warehouse, where things of nondescript character were made and packed off to different parts of the continent. As for herself she became a slave to a huge monster of wheels and rollers, which whirled incessantly from early morning until late at night, throwing small cardboard boxes at her feet. These she had to pick up, arrange in tens, and place along the wall in immaculate rows.

The life was deadgery, and the girl's appetite for the morphine drug became greater. Her system became entirely saturated with it, and when she had a fainting spell in the drug store her constitution was such that she could never recover, and she died, almost unknown, and practically friendless.

BICYCLE ACCIDENT ON HUNTER STREET

Mr. Ira D. Moore Sustains Slight Injury in Collision.

An accident in which serious hurt was narrowly averted, occurred on Hunter street last night. The accident occurred about six o'clock last night when as Mr. Ira Moore of the American Cereal Company's staff, was wheeling west upon the street, he collided with another cyclist who had taken the wrong side in attempting to pass.

Mr. Moore sustained a severely sprained wrist and fingers, his wheel also suffering considerably. The other man escaped uninjured.

HIGH LIFES HAVE A HIGH TIME

Some Interesting News From Jubilee Point.

A member of the High Life's Social Club sends the following contribution from Jubilee Point, with a request for publication:

The High Lifes' Club is camping at Jubilee Point and Mr. E. Dillon and W. Crowley are chaperones by their absence. If the [illegible] does not run out they will be home for the circus. Morgan was trawling at midnight and the groans and moans were something awful when he landed—on a stump. Gunsolus was seen sailing the river (in his sleep) at 3.30 a.m., in a tangation tub, with a tap in it, looking for buttermilk. Knox woke up one morning and was so much eaten by mosquitoes that they all thought he was fighting with Aikens.

Lasobuer and Lynch are requested to have all the express rigs at the wharf when the High Lifes return home with their fish.

FUNERAL OF THE LATE CHAS. D. MOORE

Took Place Yesterday Afternoon and Was Largely Attended.

Yesterday afternoon the funeral of the late C. D. Moore, who died on Monday morning took place from the family residence "Moorevale", lot 9, concession 3, of Smith, and proceeded to the Little Lake Cemetery for interment. The deceased was widely known throughout the country, and the funeral yesterday was largely attended.

The pall-bearers were three brothers, Messrs. F. D. Moore, of Lindsay; W. H. Moore, and John K. Moore; two nephews, Messrs. Charles E. Moore, and Allan P. Moore, and a brother-in-law, Mr. George B. Hillett. In the absence of Rev. Mr. Potter, of St. Andrews, the services were conducted by Rev. Mr. MacKay.

Peach Crop Blighted

The hopes of an unusually plentiful supply of peaches at lower prices than usual excited by a recent St. Catharines despatch, are dashed to the ground by later information that although the yield is heavy, the acreage is much reduced owing to winter-killed trees and the ravages of the San Jose scale for some years past. Another point is that there has been a largely increased demand from the canners owing to the growth of the canning trade.

we sell if our excellent reputation is to be kept. We see to it that the Shirts we sell combine these qualities, and there is always a saving in prices.

Gentlemen's

YACHT CLUB WAS ORGANIZED AT CHEMONG

Erection of New Club House Will be Proceeded With at Once—Meeting Was Most Enthusiastic and Presages Successful Future—New Yachts Will be Added to Fleet Already There.

An enthusiastic meeting of the aquatic sportsmen of Chemong Park was held last night, at Mr. R. M. Dennistoun's Bungalow, when a Yacht Club was formed.

The organization, which will be known as the Chemong Yacht Club, comprises a number of the most prominent and enthusiastic yachtsmen on the Kawartha waters, and to judge from the lively interest manifested at the meeting, gives every promise of a bright and successful future.

The following gentlemen, who have in the past been prominently

Commodore Dennistoun, of Chemong Yacht Club.

identified with many forward movements in the realm of aquatic sports, sports, were elected as officers:

Hon. Commodore — Commodore McCombe.

Commodore—Mr. R. M. Dennistoun.

Vice-Commodore — Mr. G. Milne Hamilton.

Secretary-Treasurer — Mr. A. A. Hollingshead.

Executive Committee — Messrs W. R Hartshorn, Alex. Elliott, T. F. Matthews, J. Hopwood, G. H. Bull, W. N. Hill, W. W. Dean, Fred Roy, and Howard Hopwood.

The club colours will be blue and white and the club badge a crescent.

The peculiar appropriateness of the latter emblem is apparent when its interesting origin is understood. Lake Chemong by reason of its peculiar shape, was known among the Indians as "Shemamong," by which name it is also referred to in early court records), signifying "Lake of the Silver Bow Moon." Hence the particular local significance attaching to the crescent form of totem adopted by the club.

It was decided by the meeting to proceed to form a company at once, with the erection of a new club house, which will be situated below the bluffs, in close proximity to the pavilion. It is the intention of the club to have in the lower story sufficient accommodation for the boats, while upon the upper floor will be situated the club rooms, as well as sleeping apartments for the use of the members.

The architects of the new building are Messrs. Belcher & Heathcote, who are at present engaged upon the plans, which will be submitted at the meeting to be held on Monday next. The work of construction will be proceeded with at once and the Building completed during the fall.

The outlook for yachting at Chemong is brighter than ever before, and an increasing interest is being manifested daily. Six yachts were registered last night, and a number of new ones will, it is expected, arrive in the near future. Among others who, it is understood, will, with new boats, become active participants in the new sport, are Mr. Heathcote and Mr. Fred Roy.

The junior local regatta for summer residents of the park, will be held on Monday afternoon, when the fourth race for the Dennistoun flag trophy will be sailed.

Among the most active workers in behalf of the pleasant social and athletic events which have taken place at Chemong during the season, has been Mr. W. J. Hopwood, who, particularly with regard to the recent regatta, was most indefatigable in his efforts, which were much appreciated. Mr. Hopwood, together with Mr. Hartshorn, acted as starter for the different events.

TEAM HAULS LOAD OF FOURTEEN THOUSAND POUNDS

On Tuesday one of the teams belonging to the Peterborough Fuel and Cartage Company, hauled from the C.P.R. freight depot one of the heaviest loads ever taken over Peterborough streets. It was a large granite base for a monument which the Coughlin Monumental Works will erect at the grave of a late prominent local gentleman, and its weight was 14,000 pounds, or seven tons. The team was all that was required to transport the load to its destination. The granite was shipped from Bebec Plains, Quebec.

For particulars apply to Box 1021 Peterborough. eod15tf.

Local Unions Will Hold a Celebration

In 1906 the Biggest Demonstration in City's History Planned For.

Delegates From Trades and Labour Council to Congress Elected Last Night.

Last night the regular meeting of the Peterborough Trades and Labour Council was held, when it was decided to send a delegate to the annual meeting of the Trades Congress for Canada, which will be held in Toronto on Sept. 15th, and which will continue for ten days. Mr. C. P. Murty, President, was elected regular delegate, and Mr. W. D. Hall, Financial Secretary, alternate.

An informal discussion took place on the question of the organization of a gigantic labour demonstration in Peterborough next year and although no definite action was decided on it was the general opinion of those present that every effort should be made to hold a celebration here in 1906 which would be a credit to the importance of the labour organizations of the city.

It was regretted that it was impossible to hold a demonstration this year, but in all probability that to be held next year will surpass anything ever attempted here before.

Preparations will be started early in the year, so that everything will be well organized, and the Labour Council is determined that the next celebration will be in every way a worthy one.

TRIBUTES FOR LOCAL VOCALIST

Musical Journal Refers to Work of Mr. R. Norman Jollife.

Appreciative Comment From Fenelon Falls—Bright Promise of Successful Future.

The August issue of the Canadian Music and Trades Journal contains the following reference to the work of Mr. R. Norman Jollife, whose reputation locally as a baritone will require no further comment:—

Mr. R. Norman Jolliffe, formerly of Peterborough, but at present studying with Wilhelmj in Toronto, is a young singer with a bright future. His voice is of a very sympathetic quality, his enunciation particularly good, and his interpretation artistic. He will be heard in concert work during the coming season with pleasure by musical people. He has three essential qualities to popularity,—a good voice, a musical temperament, and intelligence."

The Fenelon Falls Star, of a recent date also pays a tribute to Mr. Jolliffe, in commenting upon a concert given a short time ago in Twomey's Hall in that place. The article remarks as follows:—

"Mr. Jolliffe who possesses a resonent baritone, won for himself great praise. His songs showed his voice to fine advantage and we predict for him a very brilliant career."

Mr. Jolliffe's host of Peterborough friends will learn with pleasure of his continued success.

RUSSIA BALKS AT SUGAR COATED PILL

Does Not Deceive Russia on the Indemnity Claim—Komura's New Proposal on the Line of the Roosevelt Suggestion, But Witte Turns it Down Without a Moment's Consideration—Peace Outlook is Black in Consequence, But Peterhof May Change Its Mind Quickly.

Portsmouth, N. H., Aug. 24.—The Japanese plenipotentiaries yesterday, at the conclusion of the afternoon session of the peace conference, threw the cards upon the table. The protocols involving agreement upon eight of the 12 conditions originally presented by Japan had been signed.

M. Witte sat silent and the move in the great diplomatic game passed to Japan.

Japan's Offer.

Baron Komura in a few words explained that Japan in her great desire for peace was ready to make certain "modifications" of the original articles in the hope that Russia could find it possible to accept them. He then presented in writing the compromise proposition which President Roosevelt had suggested. It offered to withdraw article 9, providing for the payment by Russia of Japan's bill for the cost of the war, on condition that Russia would accept article 5, which provides for the cession of Sakhalin, so modified as to include an arrangement for the repurchase by Russia of the northern half of the island for 1,200,000,0000 yen. In addition it offered to withdraw entirely articles 11 and 12 (surrender of the interned warships and limitation upon Russia's sea power in the Far East).

Not a Kopeck, Says Witte.

Without a moment's hesitation M. Witte explained that the modification proposed was merely a sham, a change of phraseology, a diplomatic attempt to "dorer la pilule" and ask Russia to pay war tribute under another name. He could not accept it. He told Baron Komura Russia wanted peace. She had given the proofs in accepting every article involving the issues upon which the war was fought, but she could fight, and money for tribute she would not pay—not a kopeck. He asked Baron Komura to withdraw all demands for tribute.

And so the plenipotentiaries separated, to meet again on Saturday, ostensibly to permit M. Witte to place in writing, as the rules of the conference require, his reply to the Japanese compromise proposition. In reality, the adjournment over the two days was to give each side an opportunity to consult its Government for the last time. The outlook is black.

End on Saturday.

The decision rests, therefore, as it has from the first, with Russia. Unless the Emperor agrees to yield between now and Saturday, the end is likely to come on that date. And the indications from Peterhof, instead of raising the chances of a change of heart on the Emperor's part, seem to indicate even a firmer determination to yield neither territory nor indemnity, sugar-coated though the latter may be.

Black as the prospect appears, however, the failure of the negotiations is not certain. The Russian camp is pessimistic to a man, but they all know the quick and startling changes of front that sometimes take place at Peterhof, and there are factors in the situation which might effect one of these sudden and inexplicable changes in the Emperor's attitude which have frequently astonished Russia. Private advices from St. Petersburg say that sentiment there and in Moscow and other large centres favors acceptance of the compromise.

Roosevelt's Last Effort.

Oyster Bay, Aug. 24.—President Roosevelt's final effort to induce a cessation of hostilities in the Far East is almost dramatic in its extraordinary interest. Through George L. Von Meyer, the American Ambassador at St. Petersburg, he yesterday made a direct appeal to Emperor Nicholas to permit the adoption of such measures in the pending peace conference as will terminate the war. A long cablegram was sent to Ambassador Meyer by the President late on Monday. As a result of the instructions he received, Ambassador Meyer had a special audience of Emperor Nicholas yesterday at Peterhof Palace.

Japs Get Another.

Tokio, Aug. 24.—The Japanese refloated the Russian torpedo-boat destroyer Silni at Port Arthur Tuesday.

DAIRYMEN'S CONVENTION WILL PROBABLY BE SECURED

To Meet in Peterborough in January—Grant of $150 Voted by City Council—Met Here Twelve Years Ago—Will be in Session for Three Days—Deputations Will Go to Toronto.

A deputation, composed of the following gentlemen, waited upon the Committee of the Whole Council at its meeting last night: Messrs. G. A. Gillespie, Geo. Fitzgerald, and Jas. Middleton, representing the local Cheese Board; County Councillors Moloney and Webster, and Mr. E. M. Elliott, representing the County Council.

A request from the deputation was presented by Messrs. Elliott, Fitzgerald and Gillespie, who asked the co-operation of the City Council in securing for Peterborough the annual three days convention of the Eastern Ontario Dairymen's Association, and also requested a grant of $150, towards the arrangements for the convention in the event of its meeting in Peterborough.

Mr. Gillespie spoke of the increasing interest which was being manifested in the work of the Association, which was of the most valuable character. The convention, he explained, that had not been held in Peterborough for twelve years, and it was thought desirable to secure it this year if possible. The city of Belleville, where the convention met last year, he pointed out, had voted upon that occasion the sum of $200, in addition to which there had been made a county grant of $100, and a donation by the banks of $100. A meeting, he explained, would be held in Toronto, on September 5th, to arrange for the convention which will be held, it is expected, on or about Jan. 9, 10, 11.

After some discussion it was moved by Ald. Hall, and seconded by Ald. Hicks, that any members of the Council wishing to go, be appointed as a committee to attend the meeting to be held in Toronto on Sept. 5th, to endeavour to secure the meeting of the convention here on January 8th, and that the city give a grant equal to that of the county, not to exceed, $150.—Carried.

Peterborough Cheese Prices Create Interest in Ontario

The high price obtained for cheese yesterday at the Peterborough Cheese Board calls forth the following reference from the Toronto News:—

The record price reached to-day follows an advance of similar dimensions at other distributing points, and some factorymen are looking for still higher prices, though the market has now reached a level where quite a number of big cheese operators are advising caution. The advance is primarily due to the unprecedented export demand and the growing popularity of the Canadian product in England, (where a great scarcity and unusually high prices have prevailed for some time past.

Speculation a Factor.

However, of late, a new element has entered into the situation, much of the recent buoyancy of prices being attributed in some quarters, to speculation and the inauguration of a manipulative policy by large holders, who have absorbed immense quantities of cheese at the country boards during the season.

It is claimed that these buyers have very large surplus supplies still to dispose of, and when they commence unloading the more pessimistic are inclined to look for a demoralized market.

Against this possibility is the fact that stocks in the hands of the local trade throughout Ontario were never before of such limited proportions. Ontario wholesalers have looked askance at the big rise, and have instead of stocking up, allowed exporters to take all the supplies, and the fact that they will have to replenish stocks for local consumption sooner or later is one very encouraging factor that may prevent for some time to come any excessive decline in the market.

Production is decreasing.

In the meantime production is decreasing and this fact has accelerated the recent rise taken in conjunction with the maintenance of an active export demand, shipments from the port of Montreal, for the year to date being in excess of 1,000,000 boxes, an increase of over 93,000 boxes, as compared with a year ago, and representing the largest exports of any season with one exception on record.

SCENERY FOR THE NEW THEATRE HAS ARRIVED

The scenery for the new Opera House has already arrived in town and has been stored for the present at the Bridge Works Building.

There is in all two cars which is now ready to be placed in position when the building is completed. It is said to be artistic and beautiful in colour and conception by those who have seen it, and will be in keeping with the handsome interior design of the theatre.

The Food That Builds

Maybe you think of Mooney's Sodas only as a toothsome tidbit. Don't overlook their food value

Mooney's Perfection Cream Sodas

are made of finest Canadian wheat flour, pure butter and rich cream. There's nothing else of equal size and cost that contains so much wholesome nourishment.

An ideal food.

All grocers have them—fresh and crisp in 1 & 2 lb. packages.

WHILE OLD ONTARIO SLEEPS COBALT MINERS MAKE MONEY

The Latest Addition to the Mining Wealth of Ontario--Mining Camp a Model With Its Good Order and Cheap Prices--Not Much Likihood of it Petering Out--Some Interesting Facts in Connection With the Rich Mineral Region of New Ontario.

The Toronto News, in special correspondence, deals most interestingly with the situation at Cobalt. It says:

If anything more were needed to prove the confidence of the experienced men who have invaded this country in its permanency, that lack was supplied by the prices realised at the sale of town lots here on Friday and Saturday last. At prices ranging from $300 to $700, half the lots in the town were snapped up eagerly after lively bidding, and it is to be noted with satisfaction that a large percentage of them are in the hands of business men who propose to use them. The speculator, although in evidence, was not prominent, evidently frightened off by the high bidding. There is going to be a town here, and a busy one, the men best qualified to know believe in it, and, most encouraging sign of all, they are backing their opinions with hard cash.

A visit to Cobalt is a succession of surprises. Toronto knows next to nothing of it, and for that matter Cobalt knows little and cares less about Toronto.

"They are all asleep down there," said a business man of North Bay to me on my way in. "People are pouring in from all parts of the world, and getting rich, but from Toronto the visitors are a few tourists and an occasional business man who comes up, looks about and does nothing."

He was right. In the hotel at that moment was an Australian prospector who had crossed an ocean and a continent to reach the new camp, two Belgians were there, and half a dozen Swedes, all men with experience, brains and capital. The midnight train brought up more Americans, all bound into the mining mines.

Unique Among Mining Camps.

Cobalt is unique. It is a mining camp pure and simple, with all the essentials thereof, but it has none of the frills usually associated with the new mining town. City prices prevail, cigars, tobacco, cigarettes and soft drinks can be bought as in Toronto, and all staple articles are on sale at the same rates as in New Liskeard, Haileybury and the older towns. This is probably due to the nearness of those places, but it is, nevertheless, surprising to hear men talking in millions and see them spending in nickels. Another feature is the quiet and order that continually reigns. Without a police force there is no disorder, and while liquor can be obtained at the one or two places of doubtful reputation, no trouble results. The majority of the inhabitants learned with surprise from the Toronto papers that the camp had been in the possession of a disorderly mob. It is true that there has been some "claim jumping," but it is of a very mild variety, and results in an appeal to the Commissioner instead of a clash of arms. Apart from these slight differences Cobalt is what you would expect. A few log shanties, half a dozen in all—marking the abodes of the first comers who put in the winter here, a dozen rough board shacks, mainly stores, and innumerable tents of all shapes and sizes constitute the town. Near at hand the bunk houses of the mines account for many of the crowd which is continually in evidence, and, further out, ranging for miles through the bush, are the prospectors' camps. The crowd is picturesque and varied. No costume, however weird, occasions remark. Natty business suits brush against overalls, and khaki shooting outfits mate with the dilapidated "store clothes" of the wanderer. But the talk is all about prospects, strikes, shafts, assays and shipments, while the war news is lost sight of altogether when it becomes known that so and so has "struck it rich."

Foundation of the Boom.

There is a solid ground for all this excitement. Five minutes' walk took me to the La Rose Mine, with its two shafts going ninety feet down into the solid rock, and its hundreds of feet of drifting. Here were sacks and sacks of ore waiting shipment and continually from the bowels of the mine come huge buckets containing the rich ore, $5 worth a minute. This was the pioneer mine. Near it is the Timmins Mine, and across from it Trethewey's property, which covers part of the Cobalt town site, and is, therefore, the cause of much contention. To quote more minds would be useless verbiage, but there are more, and in them, leaving out their future possibilities, and the region, yet unprospected, there are millions of dollars worth of stuff in sight.

The veriest green horn can see it—once it has been shown to him—the rich native silver, sometimes almost pure, running in seams through the rock. Through a region of two miles square this prodigality of nature extends, and there, so far as present knowledge goes, it stops.

What of the Future?

And now the great question is, will these mines last or will they peter out? The correct answer is any man's guess, and to the man whose guess is right, fortune will come even though he own not a foot of mining land. If the veins go on down a thriving town is certain. Thousands must come and go, for millions are coming out of the ground. A conservative estimate of the present monthly output is $250,000, and although a large percentage of this goes out of town, a lot of it must stay here, and the man on the ground will get his share. Men must eat and sleep, and wear clothes and be amused. There are 2,000 here now to cater to, and not a single hotel, and few and poorly equipped stores.

Pessimists Few, Optimists Many.

A common remark on Friday made as the bidding on the lots jumped rapidly up was, "These people are crazy. The ground isn't worth the money." But there arises the question: When will they be cheaper? True it is that some men—experienced men got about wagging their heads and prophesying an ending as sudden as the boom was swift, but there are others.

"They say it's going to peter out," said one man, whose life has been spent in the mines of the world. "I can't see it. The mines look good to me. I think they will last, and there will be more discoveries."

"Of course," he continued, "this is in Canada, and you can't gamble on a Canadian camp. I have seen good mines in this country abandoned simply because the men didn't have the nerve to put money in to take it out. But here you don't need capital. I came in here late, and have nothing of my own yet, so I have no interest in booming the camp or damning it, but I tell you straight, I believe in it."

This is the guess of an old hand. As he said, it is no better than the guess of the greenhorn, but the greenhorns with nerve are guessing that way, too.

G.

Croup Absolutely Cured.

"There is no remedy in my opinion that can act more promptly than Dr. Chase's Syrup of Linseed and Turpentine. It cured my son of croup, absolutely, in one night. We gave him a dose when he was black in the face with choking. It gave him instant relief and cure."—Mr. Wm. McGee, 49 Wright avenue, Toronto, Ont.

MANAGEMENT OF FALL FAIRS

Mr. H. B. Cowan Gives This as Reason for Features.

Some of the Suggested Remedies—Two Demonstration Fairs.

More poor exhibitions are due to poor management on the part of the directors, says Mr. H. B. Cowan, superintendent of Agricultural Societies, when to any other cause. It frequently occurs that the judges sent by the department are unable to find any directors in charge of departments, and have to take charge themselves. At the two demonstration fairs to be held at Peachtuney, October 4 to 6, and Simcoe, Oct. 10 and 20, special attention will be given to fair management. Each director will be assigned certain duties and fully instructed in regard to them and it will be the duty of the President to see that the directors are on hand promptly and attending to their duties. Both societies will probably have superintendents to see that the special features are promptly carried out, and announcers will keep the crowd informed about the programme. Arrangements for handling the crowds are in progress, and the judging rings will be fenced off. At the close the exhibition race tracks will be fenced across to prevent accidents to those passing over. A meeting of the delegates will be held on the first evening, when all matters relating to the exhibition will be discussed. It is expected that the question of management will be one of the most valuable points to be demonstrated at these fairs.

British Export Increase.

There was a continued increase in the month of July in British exports, amounting to $17,500,000, compared with July, 1904, and $10,250,000 compared with July, 1903. The total exports for July, 1904, reached $165,000,000, and for the first seven months of the year, $1,450,000,000, as compared with $1,055,000,000 for the same period of 1904. The month's imports reached $224,000,000 against $204,500,000 in July, 1904.

A Problem Solved

Ozone is ozone and in buying it the problem is to get the purest form. "Solution of Ozone (the coupon kind)" is the purest form in which Ozone is put up In addition each bottle contains a coupon entitling you to a package of "Celery King" free, and it is well known that you should take "Celery King" along with Ozone.

We put "Celery King" coupons in our Ozone bottles because no other firm can give "Celery King" with Ozone. By buying "Solution of Ozone (the coupon kind)" you get the purest and most concentrated form of Ozone, and in addition, you save the expense of buying "Celery King" to use with it.

No other kind of Ozone offers this advantage. Ask your Druggist for it, and if he hasn't it, write to the Public Drug Company, Bridgeburg, Ont. Sold by W. B. WARNE.

The Summer Visitors Go To the Point

Young's Point Budget of Interesting Personal News.

Concrete Piers are Being Proceeded With Rapidly—Other Late News.

From Our Own Correspondent.

Young's Point, August 23rd. — The weather has been delightful the past two weeks and the farmers have almost completed their harvesting. The majority are well satisfied with the season's yield.

Mrs. Joseph Moore and her two younger daughters are visiting at Mrs. M. Blewett's.

On the 12th inst., the True Blues of this place, and visiting brethren of Burleigh, celebrated here, and had a very pleasant time.

The steamboats are still busy taking passengers to and from the Lakes. This has been the best season in years for the boat men.

Quite a thunderstorm passed over here on Monday night, but we are glad to say that it did no damage. We noticed a large fire close to the Point in the midst of the storm, and of course some of our nervous citizens said it was some house or barn that was struck by lightning. It was nothing but a pea straw stack which some farmer had set on fire.

Mr. John McCauley of Treaton, is visiting his sister here.

Mrs. McEwin of New York, is on a visit to Mrs. Robert Young.

Mrs. Jas. Fanning and Miss Fanning of Peterborough, were at Mrs. Richard Heard's for a few days.

The work still continues at the large cement pier at the locks. Our old friend, Mr. Alex. Richardson, is doing good work.

The following guests registered at the Lake View last week: Chas. McGlauchin, John McNamara, Pittsburg; N. D. Kelly, Fred Joplin, Chemong; R. Shachy, Peterborough; W. H. Kelly, Chicago; Geo. H. Carley, Hamilton; Walter Phelan, Pittsburg; Miss Katie E. O'Brien, Toronto; Miss Mary F. O'Brien, Peterborough; Dr. Scott, Edwin Hill, Charles Grey, Toronto; Dr. H. S. Jewett, Dayton, Ohio; Miss Dorothy Jewett, Dayton, Ohio; Mrs. J. S. Huntoon, Lindsay; Mrs. Fred O. Moorehouse, Saratoga, N.Y.; Mrs. J. Werner, Theodore, Miss Helen, Charlie, Katie, Lottie and Maggie Werner, Rochester, N.Y.; Wm. Menzies, Robert McEwan, C. J. Olle, Miss A. Carr, Miss M. Mapse, Peterborough; Mr. and Mrs. W. H. Learned, Rochester; Mr. Joe Engel, Niagara Falls, Mr. and Mrs. E. G. Wegman, Rochester.

The Lake View House run by Mr. J. E. Kearney, has had a large number of tourists this season. It is situated in one of the prettiest spots on the Kawartha Lakes. One great feature of this resort is the fishing. There is a beautiful island situated right at the front door. You can always get a cool breeze on the island and fish right off the shore.

Pat McAuliffe Held for Theft In Windsor

Disappeared With His Companion, Hugh Darke, on Civic Holiday.

May Be Brought Back—Darke's Whereabouts Unknown and Parents are Anxious.

Chief Rossel is in receipt of a letter from Chief Constable Wills of Windsor, informing him that they are holding a young boy named McAuliffe for theft, and requesting him to see his uncle, Thomas Murray, who resides at 111 Rubidge street, and ask him to forward railway fare to have the lad sent back.

Young McAuliffe in company with another boy named Hugh Darke, disappeared on Civic Holiday, and have caused their parents considerable anxiety as to their whereabouts. Darke has not been heard of, and McAuliffe, it is charged, fell among thieves, and it is said, helped to steal some goods from a store near Windsor.

The following is Chief Wills' letter:

Windsor, August 22, 1905.

Chief of Police, Peterborough.—

Dear Sir, — We have in custody a young boy named Patrick McAuliffe or McCauliffe. He has informed us that his uncle, Thomas Murray, with whom he has been stopping, resides at 111 Rubidge street there, and his father Leonard McAuliffe, is a farmer, and resides about twelve miles from Peterborough.

He, Patrick McAuliffe, with two men, entered a country store about twelve miles from here, and stole therefrom about $2 worth of goods, and it seems too bad to have this young McAuliffe tramping around the country with tramps, who chiefly make their living by crime. Would you kindly ban his uncle, Thomas Murray, and ask him to forward the railway fare for him to Peterborough and I will place him in charge of a conductor who will pass him to his destination. I think half fare will be sufficient.

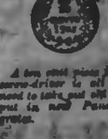
Hoping to hear from you at your earliest convenience.

Yours truly,
E. WILLS,
Chief Constable.

Did you ever have your range grates burn out?

If you did you will know what that means in common ranges — it means plumbers, delay, muss and big bills —because common ranges are built that way. As range grates must some time burn out you are certain to have that kind of trouble if yours is a common range.

If you have the Pandora you won't have any trouble, because you can take out the old grates and put in the new ones in ten minutes, and a ten cent piece for a screw-driver does it easier in the Pandora than a whole kit of plumbers' tools will do it in common ranges.



A ten cent piece for a screw-driver is all you need to take out old and put in new Pandora grates.

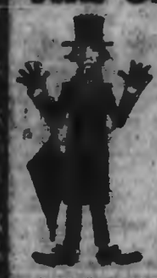
THE OLD FOGY DOCTOR.



FAMILY Doctors are all right as general practitioners, but they are not specialists. The sexual organs comprise the most intricate and important system in the human body and requires the most skilful treatment. You might as well expect a blacksmith to repair your watch, as a family physician to cure sexual complaints. We have made a specialty of these diseases for over 30 years, have invested tens of thousands of dollars and have every facility known to medical science to cure them. Every case taken with a positive guarantee. No Cure—No Pay.

BLOOD POISON—Whether inherited or acquired, is positively cured forever. The virus is eliminated from the system so no danger of return. Hundreds of cases cured by us 20 years ago and no return; best evidence of a cure.

NERVOUS DEBILITY—and other complications, such as emissions, drains in the urine, vital weakness, sexual weakness, etc., are cured by our New Method Treatment under a positive guarantee—$5 ONE—$20 FIVE.

We cure all curable men and women.

Consultation free. Books Free. Write for question blank for private Home Treatment. Everything confidential.

140 GRISWOLD STREET. DETROIT, MICH.

Mr. T. F. Best Came First In Athletics

Athlete Well Known Here Makes Record in Hamilton.

At the Annual Penthalon of Hamilton Y. M. C. A. He Came Out Ahead.

Mr. T. F. Best, of Hamilton, well known in Peterborough, and an uncle of Mr. E. M. Best, has been distinguishing himself in athletics in Hamilton. The Herald of Saturday, says of his achievements:—

"The annual penthalon of the Y.M.C.A. was held at the cricket grounds on Saturday. The rain somewhat dampened the enthusiasm, but the events were all keenly contested and it was demonstrated that the Y.M.C.A. has a force of excellent athletes. T. F. Best, although considerably older than the other contestants, was none the less agile, and captured the honours of the day with a total of 834 points. W. Jamieson came second with a total of 753 points and Ernie Chapman third with a total of 714 points."

The first contest was the 100 yards dash. Jamieson and Sutton did the distance in 11 seconds flat, T. F. Best in 11 1-5 seconds and the rest in 12 seconds. The contestants were allowed 10 points for every fifth of a second under 12 2-5.

Throwing the 12-pound hammer was where Mr. Best excelled. He hurled it 33 feet, but J. Sutton gave him a tough race by throwing it 79 feet. The contestants were allowed a point for every six inches they threw the hammer over 60 feet.

T. F. Best was again in the front in the mile run which he won in 5 minutes and 10 seconds. Jamieson was second and Chapman third. The contestants were allowed a point for every second under 6 minutes and 40 seconds.

PATENT REPORT.

Friday, August 18.

Below will be found a list of Canadian and American patents recently obtained through the agency of Messrs. Marion & Marion, Patent Attorneys, Montreal, Canada and Washington, D.C. Information relating to any of these will be supplied free of charge by applying to the above named firm.

Hermann Riss, Augsburg, Germany, method of treating distillation gases to obtain an illuminating gas in a highly compressed form suitable for transport.

Leon Ernest Lachal, Lyons, France, trucks or trolleys with sliding steerage wheels.

Charles F. Rockstroh, Brooklyn, N. Y., printing plate holders.

Thomas Edwards, Ballarat Vict., Australia, mechanically rabbled ore roasting furnaces.

Alexander Jacob, Vilvorde, Belgium, differentiator for steam generators.

Eugene Fulmer, Stiedla, Germany, drums for drum filters.

Messrs. Eltzman, Cunningham & Smeylin, Corinth, N. Y., paper for paper rolls.

Thomas P. Rudkins, Mitiamo, Vict., Australia, means for marking goods.

Chatham Now Has a Mystery.

London's man of mystery, referred to yesterday, is outdone by Erigau, which, according to the Chatham Daily News, has a still more mysterious person. Where he comes from, or who he is, no one seems to know, and his actions have been the puzzle of the cottagers for some time past. The stranger is rather good looking, dresses well, and is never seen except in the glamour of the evening. Another curious fact, he is seldom seen by other men, and it is usually some of the fair sex who tell of seeing his strange, silent figure in the eventide, in some of the more secluded spots. Young ladies are getting afraid of going out after dark without escort.

Chamberlain's COLIC, CHOLERA AND Diarrhoea Remedy.

A few doses of this remedy will invariably cure an ordinary attack of diarrhoea.

It has been used in nine epidemics of dysentery with perfect success.

It can always be depended upon, even in the most severe attacks of cramp colic and cholera morbus.

It is equally successful for summer diarrhoea and cholera infantum in children, and is the means of saving the lives of many children each year.

When reduced with water and sweetened it is pleasant to take.

Every man of a family should keep this remedy in his house. Buy it now. It may save life.

SIR WILFRID'S FISHING TRIP.

(Montreal Herald.)

The Mail and Empire is stirred to the depths of its being over Sir Wilfrid Laurier's treatment of the Prince of Battenberg. The Mail figures that, on the least calculation the Prime Minister has shown himself disloyal to the British Crown and lacking in all the attributes of a gentleman. Sir Wilfrid has so consistently failed to live up to the standards set for him by the Mail and Empire, never once in his now long career having done anything that met with its approval, that he probably does not worry too much over the criticism it has meted out on this occasion. Other folk, however, who do not share the Mail's view that it is impossible for Sir Wilfrid to do anything right, will be disposed to believe, without inquiry as to details, that it is quite impossible for Sir Wilfrid Laurier to act discourteously towards any one, even towards his most bitter opponent, much less towards a distinguished visitor. With that point settled, we can approach calmly and judicially the question whether it was open to the Prime Minister to go fishing at St. Elie, when he might have been putting his time to better use at Quebec dancing attendance upon Prince Louis. Grave as the doubt may be, it does seem to us the Prime Minister ought to be given the benefit. The Governor-General was there to do the honours for the Dominion, the Lieutenant-Governor for the province, the Mayor for the city. Why should Sir Wilfrid, who is a modest man, have had any desire to "butt in?" Surely, the Prince might derive reasonable certainty as to the cordiality of his welcome from the army of authorities naturally present. And if he and the jolly jack tars were assured of a good time, why shouldn't Sir Wilfrid go fishing if he wanted to?

It is unfortunate that it should be so, but the melancholy fact is that Prime Ministers are only human, and it is still more certain, and still more unfortunate, that presiding over a long session of Parliament is not nearly so invigorating as life on the rolling wave. Sir Wilfrid is thus compelled, much as he may dislike it, to take an occasional rest. He would probably plead, by way of extenuation, that he gives way very seldom indeed to such sybaritic promptings, and to tell the truth he did not do it at all until three years ago, and then only because his party spirit was aroused by the gloating of the Mail and Empire and other Tory spirits over his illness and probable resulting removal from the political arena. Nothing but an unbearable desire to disappoint his political opponents would have driven him even then to abandon work merely to seek recuperation. The same motive, the Mail is probably right in surmising, sent him to St. Elie to fish when he might have sweltered in a Quebec ballroom. Still, let us be charitable enough to note that the holiday is already over, and that Sir Wilfrid is back at Ottawa, where at this hour he is probably considering, despite all the protests of the Mail and Empire, the appointment of some more liberal as Governor of one of the new provinces. Can you blame the Mail for having a sour temper?

RUBBING IT IN.

There was considerable irony in the stipulation of one of the conditions of peace submitted by Japan, that the naval power of Russia, in Eastern waters, should be limited. Aside from the fact that Japan has practically, not only "limited," but annihilated, the Russian fleet in the East, point is given the irony by the further fact that Japan, herself, is perpetrating, the retention of Russia's naval forces in Oriental waters. Of the many Russian war craft Japan sent to the bottom, four battle ships and two cruisers, and considerable naval bric-a-brac, which, in the hands of the Japs can be made to do effective service, have been raised by the Japanese, repaired and refitted, and are now flying the sunburst standard of the Mikado. Command these ships with captains of the Togo type, and man them with men of the type that wiped out Rojestvensky in the Sea of Japan, and we shall have these expatriated Russian war craft, under Japanese colours, doing something, at last, that will justify their construction as warships, in a manner they have never done since they left the stocks in their quasi "native" ship-yards.

COLLEGIATE INSTITUTE BUILDING.

Galt is somewhat in the position of Peterborough in the matter of a Collegiate Institute building, only Galt is a stage further advanced—the walls of the new building are nearly completed. But the funds are running low, and the School Board is coming back to the ratepayers and asking by bylaw for $30,000 more to complete the building. It appears that in Galt the money was asked before plans and estimates were secured and the defenders of the Board of Education claim that it was impossible for them to gauge accurately the amount needed. Galt is to have a building costing $65,000 which is to include manual training and domestic science departments and be sufficiently well equipped to retain the Government grants, which is more than can be said for Peterborough's present Collegiate Institute building and equipments. Galt began its Collegiate Institute enterprise with $35,000 and has exceeded that by $30,000, in the cost of the proposed and partially completed building. The Peterborough Board of Education began with $50,000 for a site and building. They have expended $10,000 for a site and have only $40,000 for a building which tenderers wanted $80,000 to build. This leaves $40,000 short and the Board is asking for $50,000 to build and equip a new building which will thus cost $100,00, site included. And this would be less in proportion than Galt is expending. The population of Galt compared to Peterborough is about as 7 to 18, while the expenditure proposed for Collegiate Institutes is as 7 to 11. Therefore a $65,000 building for Galt is equivalent to $100,000 for Peterborough, while in proportion to population if Galt has a $65,000 institute, Peterborough should afford one twice as expensive, that is one for $130,000. Still while it is desirable that Peterborough should have a Collegiate Institute building that should last for half a century at least, and be a credit to the city, it seems that, in view of the reluctance of the ratepayers to furnish the money, a building of less cost than $100,000 would serve the purpose. A Collegiate Institute is the poor man's university. By its help the most humble citizen who has a clever son or daughter can have him or her educated up to professional standard at a small cost which there would be very few, unable to meet. On the other hand the wealthy are independent of a Collegiate Institute. If they wish they can send their sons or daughters to outside educational institutions. It seems therefore that in the interests of popular education, that a Collegiate Institute is a necessity, and in this view the attitude of the ratepayers is remarkable, and it is to be feared that their action is easily justified to themselves in view of their feeling that the Board has not shown the best business capabilities in dealing with the matter of a new Institute building. The Board appears to be doing nothing to educate the people upon their point, and if they intend proceeding with the work, should they allow the matter of taking steps to devise some means of bridging the gap now existing between intention and execution, a new Collegiate Institute building will be a thing of the distant future. Peterborough is a live city in many respects and the Board should guage its course of action in conformity with such a condition.

EDITORIAL NOTES.

On the 20th of August twenty-one years ago, remarks the Globe, Hon. W. S. Fielding became Premier of Nova Scotia. From that day until the present the career of the Dominion Finance Minister has been one of unchequered success. He held the Premiership of the eastern Province for twelve years, longer than any predecessor had occupied the office, and, being transferred by Sir Wilfrid to Ottawa in 1896, has had charge of the treasury of Canada for a longer period than any previous statesman. There are few Canadians who can show a more brilliant record. The surpluses of his nine years of office at Ottawa total $56,000,000, and represent each year, save the first, when he inherited a Conservative budget and a deficit. Mr. Fielding may well go down to posterity as the Minister of Good Times.

MR. WHITNEY AS A CABINET-MAKER

His Course Criticised by "A Life-Long Conservative."

He Regards "Neither Quantity, Quality or Availibity of Supply.

The North Bay Times prints the following letter from a "Conservative," describes himself, as a "life-long." Although the subject seems to be largely a family matter, yet as it involves the local colouring given the Premier's appointment of "Minister of Mines" and reveals the opinion of a friendly mentor as to the manner in which Hon. Mr. Whitney is filling the bill in filling Cabinet positions, the letter will be read with some interest:

"As a property owner in the District of East Nipissing, and a lifelong Conservative, I beg to make a few remarks anent the recent distinguished honour (?) conferred upon this constituency by the acquisition of a Cabinet minister. Nor is this the first time in its history that East Nipissing has had thrust upon her, or at least tendered her, honours of a similar nature. Rumour hath it that at one time one, W. T. R. Preston, then organizer for the Liberal party of Ontario, very tenderly broached the question of the overwhelming honour and dignity the Ontario Government were contemplating conferring upon East Nipissing in the shape of a minister of agriculture as representative—a project in which the member elect, Mr. John Loughrin, most heartily concurred, but to his credit reasoned that any honour to which East Nipissing was due could not be better represented than through her constitutional representative in the Legislature, the chosen of the people, but as this was not the object the organizer had in view, the scheme fell through. Whatever may be the ultimate value of the product of Mr. Whitney's skill as a Cabinet maker, it does not at present impress the ordinary citizen as the output of a master mechanic.

It is quite possible that too ordinary honest and unassuming medical practitioners who have never attained to the rank of distinction in their own profession may evince marvellous capability in administering the departments of education and public works. In selecting material for this wonderful Cabinet, the Premier seems to regard neither the quality, quantity nor availability of supply. The Minister of Education is already suggesting securing the services of an expert to do the work which he is paid to do. This would naturally carry with it the cancellation of his portfolio and a return to the very good system of former years. When under the direction of a superintendent of education there was less politics and more administrative ability shown in that important branch of the public service. But the strangest selection of timber yet made in the construction of this Cabinet has been the most recent — notwithstanding that the Premier on his accession to power boasted that he had material enough on hand to form three cabinets—and in fact, elevated three of his supernumeraries to the dignity of ministers without portfolios, who, it would appear, are more ornamental than useful.

This abundant supply of unquestioned material, guaranteed and stamped with the mark of the people's approval, in some cases to the extent of the double X and triple X standard, is all discarded in favour of the vendor of picks and shovels from Sudbury—whose only stamp is the political register is one unsuccessful attempt to carry his own constituency and a remarkable discretion in not attempting to repeat the appeal to public favour at the last general election.

The whole manoeuvre by which an obliging member elect was induced to resign his seat in favour of the new minister was celebrated at North Bay as an event which, for pure and unadulterated patriotism, will go down in history as an inspiration to future generations. It will surely no longer be said that "patriotism is the lowest refuge of rascality." Such noble instances of self-sacrifice as this ought to be fittingly rewarded.

The Premier himself has said it, and it must be so. The whole thing was so clever and patriotic that there is simply nothing more to be said about it. He first heard of the hardware merchant about a year or two ago, and he has had him so constantly in his "mind" that he was obliged to create a portfolio for him notwithstanding the claims of such stalwarts as Beattie Nesbitt, Dr. Willoughby, John Hendrie and Adam Beck.—North Bay Times.

VACCINATION AND DANDRUFF

There is as Sure Prevention of Baldness as There is of Smallpox.

It is now accepted that vaccination renders the vaccinated person exempt from smallpox; or at worst, he never has anything but the slightest kind of a case. Now as sure a preventive and cure for dandruff, which causes falling hair and baldness, has been discovered — Newbro's Herpicide. It kills the dandruff germ. C. H. Reed, Victor, Idaho, says: "Myself and wife have been troubled with dandruff and falling hair for several years. We tried remedies without effect until we used Newbro's Herpicide, two bottles of which cured us." Hundreds of similar testimonials. Sold by leading druggists. Send ten cents in stamps for a sample to the Herpicide Co., Detroit, Mich. Ormond & Walsh, special agents.

Youth Was Injured Last Evening

Peter Grant Fell Off One of the Jackson Park Cars.

Was Trying to Steal a Ride When Ordered Off—Was Not Seriously Injured.

Last night as the street cars were returning, crowded, from the entertainment at Jackson Park, a number of boys, as usual, tried to beat their way down to the first switch. But last night, as was sure to happen sometime, one of them came to grief.

Peter Grant, a youth of fifteen, was on the steps of one of the closed cars, trying to work his way, when the conductor proceeded to put him off. The boy fell on his stomach on the hard stony road, and was rendered unconscious for over half an hour. Dr. Greer and the Dan Spence ambulance were quickly summoned and the youth was removed to his home on Aylmer street, next to the Montreal House.

The boy is recovering to-day and does not seem to be any the worse for his mishap, but it should prove a valuable lesson to him and many others who follow the same practice, not to jump on the street cars to steal a ride, as a more serious accident will likely occur next time.

Band and new moving pictures this week at Jackson Park.

Persons desiring to compete for best results in beautifying premises, will please send in their names and street numbers to the committee may inspect premises next week. H. S. Beal, secretary. 3t

TIME'S UP

TAN SHOES MUST GO

We never carry over TAN SHOES. There's plenty of time to wear them but not so much time to sell them. So we have been through our stock and put

LETTER FROM REV. J. G. LEWIS

Thinks Each Pastor Made Ample Provision for Work During Absence.

To the Editor of the Last Card Column:

Dear Sir,—Your article re town ministers in Tuesday's issue was a surprise to me. As the minister who has probably been most in town during the summer your informant seems to seek sympathy for me as overworked and imposed upon. I have not sought nor desired sympathy for service done for a brother minister, nor have I made any complaint. I am sure the different congregations approve of the vacation given their pastors, believing that this time for recreation and reading will fit them for better work on their return. I think your informant will find too that each pastor has made ample provision for his work during his absence.

Yours etc.

J. G. LEWIS,

Mark Street Parsonage.

MR. J. J. COCKS BUYS BUSINESS

Purchased Grocery Stock at McDonel and Water Streets.

Mr. J. J. Cocks, who for the last seven years has been on the staff of Messrs. P. Connal & Son, general grocers, has decided to branch out into business for himself, and has purchased the grocery stock and good will of J. E. Henderson, at the corner of McDonel and Water streets, and has already taken possession of the business. Mr. Cocks is an energetic and progressive young man, and is a thoroughly experienced grocery man, and will no doubt make a success of his new venture.

TELEPHONE TALKS.

TO TELEPHONE USERS AND THE GENERAL PUBLIC,—

Those who formulated the basis of the investigation by the Parliamentary Special Committee assumed as an indisputable fact that the enormous development of telephone service in the United States during the past ten years was due to the efforts of the Independent Telephone organizations. The statistics employed were from the most populous States in the Union compiled four years ago by people who were interested in competing Companies and prepared especially for the promotion of that movement.

The figures given do not represent present conditions. Many of the Companies referred to have since failed, others have been absorbed by the American Bell Telephone Company systems and the great majority of those which still survive have been endeavoring to increase their rates in order to maintain an existence. It is admitted that most of these Companies have been living upon capital and the inevitable result is now being realized. Scarcely a day passes but the press chronicles the disappearance of one or more Independent Telephone Companies in the United States. Millions of dollars have been lost through such failures and as was admitted in the statement presented to the Committee, hundreds of these Companies are now being driven into amalgamation and re-organization for self preservation.

The comparison of telephone development in the populous States of Ohio, Indiana and Michigan, with sparsely settled Canadian Provinces was manifestly unfair.

But if the comparison had been fairly made it would not have been disparaging to Canada and the enterprise of Canadian Companies.

The official reports of the Bell Telephone Company of Canada show that the number of Exchange subscribers has doubled in the past five years, while the mileage of the Long Distance Lines has also been very nearly doubled in the same time. It, cannot be said that this record development was under the stimulus of competition.

The Company has this season thirty-six gangs of men employed in construction outside the Cities and Towns. Thirteen of these gangs are building Rural Lines. Nearly five hundred subscribers are being added weekly to the service. The Company's factories are just now being doubled in capacity and every provision is being made to keep pace with the demands of our growing country. This policy will energetically maintained until every person in the territory in which we operate, who requires a Telephone, will be supplied with good service at a reasonable charge.

We assert with some national pride and satisfaction that no Telephone Company on this continent is increasing its service more rapidly in proportion to its available field than we are doing in Canada.

THE BELL TELEPHONE COMPANY OF CANADA.

LATEST SPORT

Lindsay Ball Players are Up for Sale

They Lost a Game Wednesday and The Post Roasts Them.

Once Famous Red Birds Badly Beaten by Cobourg—Score 16-9.

The Lindsay Post will not stand for anything but a winning ball team. The "Red Birds" lost a game the other day to Cobourg and this is the way the home paper roasts them:—

FOR SALE.—Nine or twelve wood-en men, will be sold at once, without reserve, for $9 per dozen, 99 per cent. off. Known as the champion Lindsay Red Birds. Rejected, but still in the ring. For reference apply at the second-hand junk "diamond."

Who said there was a ball game yesterday?

NO you're right, old chap, there was no ball game at the diamond yesterday, it was simply a game at the new-fangled "graft."

The Lindsay Red Birds went down to defeat yesterday to their old rivals, Cobourg, for the first time in four years, and was it easy for Cobourg? Well, say, just ast them. It's this way:

Cobourg ... ...021280120—16
Lindsay ... ...000000010— 1

The least said of the uninteresting and tiresome game the better, perhaps, but "Butch" is a blessing to some people. There was never anything put into a bottle that did so much good as those amazing little bromine tablets, put up by Dr. Sure-cure.

Anyway, it was not the game of the season as advertised, but was the opposite, the poorest. Cobourg came have no license to win from Lindsay, but took a win on their merits yesterday. The locals were all off colour, couldn't bat, couldn't field. A good-sized crowd were present, but about half left the grounds and received their "rain checks." It was a very poor game and wearisome.

LACROSSE.

Mr. Jas. McCabe, will referee the Uxbridge-Bowmanville Lacrosse game to-morrow in Lindsay.

BOWLING.

The following games were played last night:—

A Bellingham	J H Fergusson
D Patterson	Dr. Marshall
E Fralt	J J Fitzgerald
D H Moore, sk 21.	D Bellingham, sk 17
J Cassidy	Mac Donald
W S Robinson	Mr. Green
H McBain	A R Kidd
A Moore, sk 16	G K Martin, sk 11
J Thorndyke	D H Kernaghan
W Bradburn	G Purdy
G E Elliott	F B Waldea
G D Stevenson, sk 14	A H Stratton, sk 11

A challenge game takes place to-night between a named rink by W F Johnson against all comers with D. Bellingham skip. It is said Bellingham will have to look out in this match as it is claimed he was beaten by the weakest skip on the club last night.

Schedule for to-night:—

D H Moore vs. W E Talbot,
G H Giroux vs. E Burnell,
F H Dixon vs. S T Medd,
E W Cox vs. W J Thompson,
A H Stratton vs. W G Ferguson.

RUGBY.

The Hamilton Tigers, champions of the province, have held their annual meeting on Saturday night and promise all sportsmen they will again hold that honour this season. All last year's players and several new ones available and the Tigers are not only going to try for the championship of the O.R.F.U., but they want the Dominion championship as well. All the chief officers were unanimously elected, only one of two minor changes being made. It was proposed to start a rowing club in

POST CARD CORRESPONDENCE.

In this column will be published communications upon any subject of interest to the city. It will be open for the use of readers, who are invited to contribute suggestions, inquiries or queries. Anything of a scurrilous personal nature will be prohibited.

To the Editor of the Post Card Column:

Dear Mr. Editor,—I hear this morning that the council last night voted $150 towards the entertainment of some Old Age Pensioners to come in the next year. Now I should like to know how the ratepayers are to get the benefit of votes out of the meeting of a convention in Peterborough. I remain,

Yours truly,
TAXPAYER.

DEATH REMOVES FAMILIAR PIGURE

In Person of Late John Kelly—Funeral To-morrow.

At four o'clock this morning death removed another of the city's familiar figures in the person of John Kelly, Maria street, East City. Deceased was born in Ireland, but came to this country as a young man, and has been a resident of the former village of Ashburnham for a number of years. Residing with his sister Miss Mary Kelly.

The late Mr. Kelly was 73 years old and unmarried. Death resulted from senility. The funeral takes place to-morrow afternoon at 2 o'clock to St. Peter's Cathedral, and will then proceed to the Roman Catholic Cemetery for interment.

The Niagara Falls Power Possibilities

It is Estimated to be Seven and a Half Million Horse Power.

Present Developed Capacity 500,000 Horse Power.

The Scientific American.

The Niagara River in its course from Lake Erie to Lake Ontario, falls a distance of 327 feet. A survey by the United States Government engineers who measured the flow of the river below the falls, shows that it discharges 230,000 cubic feet of water per second from the one lake to the other. By a simple calculation it appears that in its descent of 27 miles from lake to lake, Niagara River develops the equivalent of about nine million theoretical horse power. If the whole of this 230,000 cubic feet of water and all of its 327-foot fall could be utilized in hydraulic electric power plants, it must not be supposed that nine million horse power would be available for the various industries that might wish to use it. As a matter of fact only about four and a half million horse power would be available, the other fifty per cent of the theoretical horse power being consumed in overcoming the roughness of the river channel, friction in canals, sluices, penstocks, draft-tubes, etc., friction of the water turbines and losses in the process of electric generation and distribution.

The fall of the river from the commencement of the cataracts, about three-quarters of a mile above the Falls, to the river below the Falls, is about 210 feet, of which 50 feet occurs in the rapids, and 160 feet in the great Falls themselves. This is equivalent to 5 million theoretical horse power, or, say, 2 1-2 million horse power available for industrial purposes. Between the head of the Whirlpool Rapids and the lower end of the Whirlpool, there is another fall of 90 feet and it is estimated that the 230,000 cubic feet of water per second, in its fall through this distance, (most of which is included in the stupendous Whirlpool Rapids) has a theoretical capacity which if transformed into available power, would represent 1.1-2 million horse power. The total energy developed by Niagara River in its course from just above the upper rapids to below the Whirlpool, is equal to about 7 1-2 million theoretical horse power or, if we allow for losses by friction, electrical generation, etc., it represents 3,750,000 horse power that would be available for use in the industrial and for general power purposes.

At the present time, on both sides of the Niagara River, there are in operation or under construction electrical power plants whose combined horse power is about 500,000. If we include the amount of power for which charter rights have been granted, the total amount of power which will be developed at Niagara when the full limit of these charters has been reached will amount to over 900,000 horse power. In the Scientific American Supplemental of March 3, 1900, appeared a series of illustrated articles describing the development that had taken place at Niagara at that date. They included the 50,000 horse power plant of the Niagara Power Company, and the 20,000 horse power plant of the Niagara Hydraulic Power and Manufacturing Co., which at that date were the only installations of any note. So successful was the first installation of the Niagara Falls Power Company, that a "second power station" of slightly larger size was commenced, raising the total power developed by that company to 100,000 horse power. So quickly did these new ventures at Niagara establish their great economical value that in the brief space of seven years the total development has increased on the New York side alone from 75,000 to 450,000 horse power.

It was inevitable the time should arrive when the public would be roused to protest that Niagara Falls from the encroachments which were so rapidly being made upon it, and the fate of Bills that were introduced at the last Legislature, seeking further charter rights for the use of Niagara water indicated that the public is will able to protect this splendid scenic feature from the absolute extinction which threatened to overtake it within the present generation.

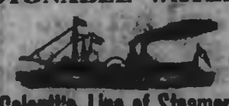
RICE LAKE AND OTONABEE WATERS



Calcutt's Line of Steamers

Time Table for June, July and August, 1905

Commencing Thursday, June 1st the

STR. CITY OF PETERBOROUGH

will run as follows:—

MONDAYS, TUESDAYS, WEDNESDAYS AND FRIDAYS, to Jubilee, Gore's Landing, (Harwood on flag) and Idyl Wyld. On the above days the steamer will leave the Peterborough wharf at 9.0 0a. m.; returning will arrive in Peterborough at 3.00 p. m.

(THURSDAY AND SATURDAY AFTERNOONS, the "City of Peterborough" will leave the Peterborough wharf at 1.30 p. m., for Jubilee and Gore's Landing; returning will arrive in Peterborough at 9.00 p. m.

STR. WATER LILY

will leave Harwood every Saturday morning at 6.30 a. m., calling at Gore's Landing and Jubilee, and all points on the river; returning, will leave Peterborough at 2.45 p. m.

Parties desiring to spend Sunday at Idyl Wyld or intermediate points may leave town on afternoon boat on Saturday and return Monday at 9.00 a. m. Special arrangements will, however, have to be made in advance at Mr. Calcutt's office for return steamer.

RATES.—To Jubilee, Gore's Landing, Harwood, and Idyl Wyld, 50c, good to return same day only. Children half fare. Books of Family Tickets $5.0 for points between Peterborough and Idyl Wyld.

Special arrangements made for Sunday School and other excursions on application.

H. CALCUTT,
Telephone 96. Peterborough.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the North-west Provinces, excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, or 160 acres, more or less.

Entry may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him.

Homestead Duties.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

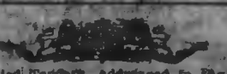
(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

Application for patent should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior



Sealed Tenders, addressed to the undersigned, and marked on the envelope "Tenders for Island No. 24" will be received until Monday, the 21st day of August next, at noon, for the purchase of an Island in the Township of Smith, County of Peterborough and Province of Ontario, comprising an area of 21.25 acres and known as Salmon Trout Island, No. 24.

The tenders should state the amount they are willing to pay in cash for this Island, and an accepted cheque for ten per cent. of the amount tendered should accompany each Tender, which the successful tenderer in the event of failure to complete the purchase within one month from the date of the award shall forfeit to the Department.

The highest or any Tender, will not necessarily be accepted, and the unauthorized insertion of this advertisement in any newspaper will not be paid for.

J. D. McLEAN,
Secretary.

Department of Indian Affairs,
24th July, 1905.

Had Diarrhoea so bad he had to give up work.

HAVE YOU EVER BEEN IN THIS POSITION?

If you have not been, but ever do be, remember that Dr. Fowler's Extract of Wild Strawberry is nature's specific for all Bowel Complaints.

It has been on the market for 60 years. Surely this is reputation enough as to its efficacy.

Mr. Henry Voll, Carthage, Ont., writes: "I have used Dr. Fowler's Extract of Wild Strawberry with the best of results. Last summer I had the Diarrhoea so bad that I had to give up work. A friend of mine persuaded me to give Dr. Fowler's Extract of Wild Strawberry a trial, which I did, and can say that it cured me entirely. I can recommend it to all who are troubled with Diarrhoea."

Be sure and ask for Dr. Fowler's and take no substitute. All dealers sell it.

PRESENT PROGRESS AND GREAT FUTURE FOR WESTERN CANADA

Rev. W. P. Goard, of Hartney, Man., Who is Visiting Here, Gives Some Interesting Facts—Believes That the Hudson Bay Will Eventually be the Grain Route to the Old World Markets—Some Wonderful Facts in Reference to the Greatness of the Western Heritage—Rapid Railway Development—Battleford Region Gives Great Promise.

Rev. W. P. Goard, of Hartney, Man., has been in the city for the last few days, his visit here having been for the purpose of performing an interesting ceremony, which has already been reported in these columns. Mr. Goard has been for a number of years in the Methodist ministry in the West, having been stationed in various places in both Manitoba and the Territories, and is, therefore, in a position to give accurate information in reference to the great western country. He has seen the rapid development which has taken place there during the last decade, and is of the opinion that the real growth of the West is only commencing. He predicts, and gives his reasons for reaching the conclusion, that inside of twenty-five years Canada will have a population of at least fifty million people, and the majority of them will be living west of the Great Lakes.

Mr. Goard is something of a journalist himself, having contributed articles to a number of papers relative to the conditions in the West, and one of his articles, published in the Christian Guardian some months ago, was commented upon by many of the leading daily papers.

For some years Mr. Goard was stationed at Lethbridge, Alta., and since it is in that section that the Mormon settlement has been taking place, he is in a position to give some facts in reference to it and its results. Speaking on this question, he said:

The Mormon Element.

The Mormons have settled chiefly in the southwest corner of Alberta, having the international boundary between Montana and Alberta as their southern boundary; the Rockies as their western, and the Blood Indian reserve as their northern boundary. A very heavy immigration from Utah has come and is coming this year.

They are purely Mormon in faith and practice. Not much polygamy has been practiced by them within this country, although I think that I know of at least one authenticated case. The groom, however, hustled his two brides quickly out of the country.

I do not think that the average individual among them displays greater, or as great, individual energy as the Canadian settler, or the "gentile" American. They have had long experience, however, with what they term "dry farming."

Their future? Well, they are here to stay. Most of them were born and raised Mormons, and have had no chance to know other things. They are open to, and will be affected by, educational and missionary influences.

What of the great irrigation schemes?

Artificial Aid.

They are good and will open much land for agriculture, but cannot hope to compete with nature.

Thousands of square miles of the prairie are naturally irrigated by the subterranean flow of water from the Rocky Mountain watershed. This underground flow varies in the depth it flows beneath the surface soil, but over immense areas it soaks right up to the grass roots and renders crops largely independent of rainfall. This is better than artificial irrigation, and these areas are the choice ones of the West.

What of railroad enterprise?

This is enormous, and surpasses the thought of the average eastern man.

The C. P. R. carries on large construction works every year. It is now building in half a dozen different places. Notably, it is building from Kirkella on the main line to Watuskewin, south of Edmonton. This line opens up a fine stretch of country all the way. Especially so south of Battleford in the Wamping Lake region.

The Canadian Northern runs regular passenger trains now to Battleford and west, and will soon reach Edmonton. The G. T. Pacific will traverse somewhat similar country to the C. P. R.

Are there many new towns building?

New Towns Arising.

Yes; more than I could remember or name, and the only limit to building in many places is the capacity of the railways to deliver material.

It is easy to forecast city locations in some instances. A seaport on the Pacific Coast at a terminal point of the railways is sure. It may not be on the site of the present Port Simpson, but it will be on that inlet, and will be a second San Francisco. A great manufacturing city will grow up on the west inlet of Lake Winnipeg, where there is an enormous power, and at a point where water connection stretches from the Rockies to the height of land east of Winnipeg. A great grain-shipping port will spring up on Hudson's Bay, which will be the Odessa of Canada.

There have been instances of sudden town growth. Take one such, Bank Head, in the Rocky Mountain Park, Banff. The C. P. R. have opened a magnificent deposit of anthracite coal there, and at the mines has been built a model town. Fine houses of individual architecture, each containing electric light, baths, waterworks and sewage. The streets are electric lit. The company has put up fine stores and rented them. Fine school, hall, etc., and have made it in every way a model of comfort. The houses are rented to the miners and employees at a nominal rental. No saloon is allowed there.

This large town was the outgrowth of a year. Fuel! Well, there are at least a couple hundred square miles of coal beds. This industry is increasing enormously, and is but beginning.

Population.

My estimate of increase of population. I believe that in fifteen years the major portion of the population of Canada will be west of the Great Lakes.

Yes. I certainly look upon this as the country for the young man to live in, and for the oldest man to invest in, that both alike may profit.

There is no boom on, generally speaking. Lands are intrinsically worth many times the value at present obtaining, and, of course, will go up till they reach their level.

Land Speculation.

Mr. Goard was questioned as to the land speculation, which everyone in the West who has money to invest seems to be engaged in, and he stated that the stories told of money turned over quickly, returning profits to the investor, were not exaggerations. Pressed for examples, he said that he knew of one young man who, seeing what he thought a good opportunity to make some money, and not having the available cash, he borrowed $250 from the bank for four months, and with this made the first payment on a quarter section of land. Inside of three months he had sold his holdings and had paid back the $250 a month before it was due, and had a profit of $250 on the deal. He invested the $250, paying it on a half section, and in three weeks he had turned it over and his profit had increased to $680. With this he made a payment on a whole section, and two weeks later he closed it out, pocketing $960. This he put into a three-quarter section, and to-day this property stands him at $5,000.

He states that this is not by any means an isolated case, but one which happened to come under his notice because of his intimacy with the young man in question. In his estimates the future of the West is absolutely assured, and nothing can check its progress.

WILL IT CURE ME?

That's the personal question a woman asks herself when she reads of the cures of womanly diseases by the use of Dr. Pierce's Favorite Prescription.

Why shouldn't it cure her?

Is it a complicated case? Thousands of such cases have been cured by "Favorite Prescription." Is it a condition which local doctors have declared incurable? Among the hundreds of thousands of sick women cured by the use of Dr. Pierce's Favorite Prescription there are a great many who were pronounced incurable by local doctors. Wonders have been worked by "Favorite Prescription" in the cure of irregularity, weakening drains, inflammation, ulceration and female weakness. It always helps. It almost always cures.

"I commenced taking your medicine, 'Favorite Prescription,' nearly a year ago for chronic inflammation of womb, and can truly say it is the only thing that ever did me any good," writes Mrs. L. C. Agnew, of 139 Maria Street, Toronto, Ontario, Canada. "I could not walk any distance before using it. After taking six bottles of your 'Favorite Prescription' I find I can walk without difficulty and am greatly benefited in general health. Would advise all suffering women to use Dr. Pierce's medicine."

Those 40 Original Little Liver Pills, first put up over 40 years ago, by old Dr. R. V. Pierce. They're tiny, sugar-coated, easy-to-take pellets. Regulate, purify, cleanse and invigorate stomach, liver, bowels and blood. One little "Pellet" a dose. Cure constipation, biliousness, sick and bilious headache, and all derangements of the liver, stomach, and bowels are prevented, relieved, and cured. Permanently cured, too. By their mild and natural action, these little Pellets gently lead the system into natural ways again. Their influence lasts.

Had Diarrhoea so bad he had to give up work.

HAVE YOU EVER BEEN IN THIS POSITION?

If you have not been, but ever do be, remember that Dr. Fowler's Extract of Wild Strawberry is nature's specific for all Bowel Complaints.

It has been on the market for 60 years. Surely this is reputation enough as to its efficacy.

Mr. Henry Voll, Carthage, Ont., writes: "I have used Dr. Fowler's Extract of Wild Strawberry with the best of results. Last summer I had the Diarrhoea so bad that I had to give up work. A friend of mine persuaded me to give Dr. Fowler's Extract of Wild Strawberry a trial, which I did, and can say that it cured me entirely. I can recommend it to all who are troubled with Diarrhoea."

Be sure and ask for Dr. Fowler's and take no substitute. All dealers sell it.

horse and buggy to drive to town on some business and his request was willingly granted. Strange, the thought suddenly struck the mistress of the house that a supply of groceries was very urgent, and she had better accompany the employee. She informed her husband of her intention (of buying the groceries) and he gave her a check for $21.00. The hubby hadn't the slightest idea that anything was wrong until the shades of night began to fall, and then he recalled the fact some two years ago this same wife had left their happy home and forgot to return. He listened all night for the rattle of the carriage wheels, and once his hopes were raised by the sound of a vehicle, but hurrying to the window he found that this, like $23 had vanished.

Thursday he came to town and informed constable Garbutt of the affair, and asked if possible to have the horse and buggy returned, as he felt this loss more than anything else. Constable Garbutt is at work on the case, but is unable to receive any information regarding the whereabouts of the couple.—Port Hope Guide.

BICYCLE MYSTERY HAS BEEN CLEARED UP

Ald. Mason's Wheel Taken by Mistake But Has Been Returned.

The bicycle mystery with which the local police have been wrestling for two days has at last been cleared up. It will be remembered that while Ald. Mason left his wheel by the sidewalk in front of the City Hotel while he was in the barber shop having his appearance improved someone rode off on his machine, leaving a lady's wheel in its place. The lady's wheel was left at the police station, and to-day a man named Sutherland brought in Mr. Mason's wheel, and claimed the lady's wheel as his.

It appears that Sutherland loaned his wheel to an employee in a local livery barn to ride home to dinner; but on the way home the young man felt an unquenchable thirst and dropped into the City Hotel to alleviate it. The effect of the draught or draughts was that when he came out he did not recognize the difference between the two wheels, and took the wrong one; but all this has been remedied, and Ald. Mason may have his machine by calling at the police station.

Local Preacher Spoke at Keene

Last night a delightful ice cream social was held at Keene in connection with, and under the auspices of the Presbyterian church of that village. Refreshments, including ice cream and cake were served and a programme was rendered.

Rev. W. M. MacKay, associate pastor of St. Paul's church, this city, was present and gave an address during the progress of the evening's programme.

The young people of the church managed the affair and deserve credit for its splendid success.

PILES Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. Rossmount is Excited Over an Elopment

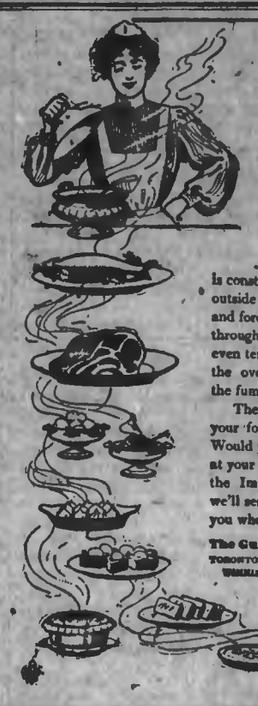
Interesting Case of Domestic Infelicity Reported.

Farm Hand Disappears With Wife of Employer—Took $26 and a Horse and Buggy.

Married life in the vicinity of Rossmount is not going along as smoothly as it might be. A few weeks ago a young lady at Bawdley took her flight, and since Wednesday of last week a Rossmount man has been obliged to batch it with four children, the youngest a year and a half old, but neither of the deserted men appear to be bothering themselves as to the whereabouts of their better halves. According to the story of the man from Rossmount, his lady left with one of the farm hands. It was on Wednesday, 16th of August that this employee asked that he might have a

"Blue Label," 40 cents per lb.
"SALADA"
CEYLON TEA. A 20th century luxury. Positively incomparable. Sold only in sealed lead packets. By all grocers. Steadfastly refuse all substitutes.



THE air in an ordinary oven is stagnant. It becomes saturated with the odors of the different dishes cooking—the strongest odor impregnates all. That is why you sometimes get pie with a flavor of onions and roast beef with a taste of fish.

The air in the oven of the

Imperial Oxford Range

is constantly changing. Fresh air is drawn in from outside the range by our patent oven flue, superheated and forced into the top of the oven. It circulates throughout the oven, keeping every corner at a steady, even temperature. The air is then drawn off through the oven ventilators carrying with it the fumes of the cooking dishes.

The Imperial Oxford Range cooks your food with pure, fresh, dry heat. Would you like to see this range? Call at your dealers. If he can't show you the Imperial Oxford, write to us and we'll send you full particulars and tell you where you can see it. 17

No furnace drudgery in the Bison

The most exasperating mystery a man can have is a cranky furnace. The dirt and soot, the ash sifting and draft worry of many heaters, make life a burden. With the new "Bison" hot water heater, there are no worries. Its drafts are so simple a child can understand them, the shaking down apparatus is operated with the slightest effort, shaking down and sifting in one operation. It is a clean, simple, economical heater, perfectly safe, as it burns its own gas no matter how the drafts are set. Write to H. R. Ives Co., Limited, Montreal, for an interesting booklet which fully describes it.

CITY BY-LAWS ARE AMBIGIOUS

And Many Cannot be Acted Upon by Police Magistrate.

Ald. Mason Gives Notice of Motion to Rescind By-law Regarding Sidewalk Obstruction.

The Committee of the Whole Council met last evening, the following members being in attendance: Mayor Best, chairman; Aldermen Adams, Johnston, Hicks, Hutten, Hall, Tovey, Crowe, Mason, Scott, Begley and McIntyre.

A deputation, consisting of Messrs. Dodds, Eyres, Rothwell and Davidson, was on motion heard regarding the construction of the granolithic walk on Antrim street from George street to the Railway tracks. It was decided to build the walk upon the north side of the track, and upon the south side to the residence of Mr. Doupe, which will be extended to the track, if agreed to by Mr. Doupe.

A communication was read from the Ofonabee Power Company requesting permission to erect poles upon a number of streets. It was decided to grant the request of the company to erect 16 poles each upon Bolivar and Chamberlen streets.

A communication was read from the American Society of Municipal Improvement which meets in convention in Montreal on Sept. 5-6-7, and the Ontario Municipal Association, which meets in Toronto on August 30-31, requesting the attendance of representatives of the council. The following members of the council were appointed as representatives to the Toronto convention: Mayor Best and Johnston, Hall, Hicks and the City Clerk. The Mayor, the City Engineer and the chairman of the Board of Works were appointed as representatives to the Montreal convention.

The matter of the appointment by the council of a member of the Court of Revision, was referred to by Ald. Scott. Under the City Charter the appointment of one member by the council to act in conjunction with an appointee of the Mayor and the Sheriff, becomes necessary.

It was moved by Ald. Scott, seconded by Ald. Tovey, that the Solicitor be requested to prepare a bylaw providing for the appointment of a member of the Court of Revision.

Ald. Hall stated that he was informed that certain bylaws were framed and worded in such a manner that the police magistrate cannot prosecute under them.

Ald. Begley remarked, with reference to the bylaw prohibiting minors from entering pool rooms, which was enacted some years ago, he was informed, could not be enforced.

It was moved by Ald. Hall, seconded by Ald. Tovey, that the Solicitor be requested to look into, and amend, where necessary, the bylaws in such a manner that they may be acted upon by the Police Magistrate.

Ald. Mason spoke with reference to the bylaw prohibiting the placing of goods upon the sidewalk, which he thought was in many cases impossible of enforcement, as it was often impossible to remove the goods. He thought that it would be a great hardship on merchants who were anxious to have the goods removed—when possible. The merchants between Charlotte and Brock streets were kept under a more strict surveillance than in other parts of the city. Ald. Mason by giving notice of a motion to be introduced at the next meeting of the council to rescind the bylaw.—Accepted.

Ald. Crowe spoke regarding the great nuisance to canoeists and others caused by the oil frowing from the gas works upon the river.

Ald. Hall spoke of the destruction to fish. It was decided to ask the City Solicitor to look into the matter and report as to the power of the council to act.

Ald Begley spoke with reference to the late arrival of the Toronto papers and expressed the opinion that were a resolution requesting an earlier service forwarded to the Postal Department, in conjuction with a similar one fro mthe Board of Trade this might be arranged. No action was taken.

THE BACON HOGS, GOOD PRICES

A Valuable Asset on the Ontario Farm.

This Year Producers Have Received Good Prices.

The live hog is an important asset on the Canadian farms, the prolific progeny maturing early when proper care is bestowed upon the hogs. There is no disputing the statement that this year the Ontario farmer has received all that was due to him for his good bacon hogs. In previous years there was ofttimes a big difference in prices received by a New York State farmer and an Ontario farmer. No amount of plausible talk would convince the latter against his will; he knew that his hogs were the equal often the superior, of his neighbour's to the south. In those years he failed to receive fair value. The United States Government customs report that in 1904-05 the number of live hogs that entered Canada was 32,-906; the same months in 1903-04 the number was 197; these would be the live hogs that settlers in Alberta were bringing with them for stock purposes. The large increase in some months was brought about through Canadian pork packers buying carloads of western hogs to keep their factories in running order.

The past week the markets at Chicago and Buffalo for live hogs have been firm with slightly higher prices. There is not sufficient margin to enable the Canadian pork packers to import hogs and pay the duty. The intelligent Canadian farmer is aware that our pork packers are ruled by the prices ouprent in Britain for bacon and hams. There seems to be a partiality for Canadian bacon and hams in Britain this year, and the longer the partiality lasts (when deserved), the better, as our competitors on the British markets are not able to crowd us out. The Canadian hog feeder is having a merry innings. He is making good off his own hats and pulling up the dollars.—World.

Galt is Puzzled.

A note was placed in an airtight box at the Galt Reporter office and dropped in the Grand River at Galt on March 13, 1902. On August 18, 1905, the note came back to the Reporter office with a communication signed Mary J. Stockholm, 177 John street, Hamilton, stating the writer had just picked up the tin with the note in it on the beach. The Reporter says: The problem now is how did the box find its way from Galt on the Grand River, to Hamilton on Burlington Bay? Look up the map and trace the probable course of the box to the lake. It will prove an interesting, not to say absorbing, question. That it should find its way from Galt to Hamilton via the water route is a real mystery.

Book Bargains.

Fifty and 75 cent titles for 25 cents; 25 and 35 cent titles for 10 cents. Just a midsummer flyer from the Peterborough Bookstore—where bargains are very numerous just now. A. H. Stratton & Co.

IT'S A FACT NEVERTHELESS

We have been in business one year and we thank our many friends and patrons for their liberal patronage for the past year, and assure them that we will put forth every effort to serve them better in the future, if possible.

We say most emphatically, and we won't take it back, that 'SOVEREIGN BRAND' are the best suits for the money that ever honoured the tables of a clothing store. If you know a doubter bring him in and watch us convince him.

Toronto Papers Can Reach Peterborough at 8:20

It appears that there is no good reason why the Toronto morning papers should not reach Peterborough earlier than 11.35 in the morning. In fact it is believed that there are many good reasons why they should.

Mr. T. A. S. Hay is the Examiner's informant that some years ago when he was secretary of the Board of Trade he took the matter up, and he discovered a way by which it was possible for the papers to reach this town at 8.30 by the G.T.R. train from Port Hope.

Mr. Hay found out that there were some fast freights which leave Toronto around four o'clock, coming east, on the main line of the G.T.R. These express freights as they were called had the right of track over all other frieghts, and one reached Port Hope before the train for Peterborough leaves at 7.20, so that if the papers were sent on one of them they should reach here early in the morning.

Mr. Hay believes that these trains still run, and he sees no reason why the people of this city should have to wait until noon for their papers. He points out that fifty years ago the same conditions prevailed as are in evidence now, as far as receiving the Toronto papers are concerned. They arrived here then at noon, and although we have grown into the dignity of a city we still have to wait until that hour before we can read papers which should reach us four hours earlier.

Bell Telephone Line to Buckhorn is Completed

The Bell Telephone line to Buckhorn (Hall's Bridge) has been completed, and yesterday for the first time, communication between Peterborough and that point was had. The line is hardly ready for commercial business yet, however, a few more details of construction remaining yet to be completed.

This line will be a great convenience, both to the residents of that part and those in Peterborough. It is connected with the Lakefield exchange.

WERE YESTERDAY'S CHEESE QUOTATIONS TOO HIGH?

The impression seems to be general that yesterday's cheese prices at the Peterborough Board were higher than the state of the market warranted. The Montreal Star, commenting on it, says:

The market continues very strong, the Peterborough Board being quickly cleared of everything offered at 11 1-2c and a fraction more. Of course, this cheese cannot be sold here at less than 11 3-4c, and even then the purchasers are not making any money. As a considerable quantity of the cheese held here now cost less than these figures, however, and as dealers are not getting too many orders from the other side, holders are prepared to accept less than present cost for moderate quantities, it is said. We quote all the way from 11 1-2 to 11 3-4c for finest Ontarios. It would seem to be hard to realize more than 11 3-8c for Townships, or more than 11 1-4c for Quebecs, and buyers are trying to make purchases at rather less than these figures.

Receipts reported on the Board of Trade this morning amounted to 21,-223 boxes.

COTTAGERS' ANNUAL MEETING HELD FRIDAY AFTERNOON

Stony Lake, Aug. 23.—Mr. and Mrs. R. J. Colville, of Toronto, returned home yesterday.

Mr. W. Hart, of Paris, Ont., is a guest at Shots.

Mr. John Hall, of Lakefield, is spending a few days at the lakes.

Miss B. Best is at the lakes, the guest of Mrs. Barrie at Ishpeming.

Miss Mabel Ackerill, of Belleville, and Mr. A. W. McPherson, of Toronto, are guests at Headlands.

Mrs. C. A. Wallace, of Campbellford, who has been a guest at Victoria House returned home yesterday.

Mr. Bruce Reid, of Dundas, is a guest on Grassy Isle for a few days.

Miss Ellen Lang, of Montreal, is at Gledhalken for a time.

Among the Montreal visitors at the lakes is Miss Jessie Watson, who is at Rockport, the guest of Miss Helen Routley.

The annual meeting of the Cottagers' Association will be held at the pavilion on Friday next, at 4 o'clock.

An illuminated parade of yachts and small craft will be held next Saturday evening. Everyone is invited to take part.

The excursion to Chemong Regatta on Tuesday was well patronized.

Mr. J. C. and Mrs. Edwards, of Lindsay, are guests at The Playhouse.

Among the arrivals yesterday at Victoria House were, Mrs. Best, Mr. G. L. McClennan, Peterborough; Mr. Alexander Stewart and wife, Chicago, Ill.

WAND PLANING MILL SOLD TO MR. EDWARD COOK

The planing mill known as the Wand Mill, and until recently operated by ex-Ald. Clinkscale, has, it is reported, been recently sold to a Buffalo man, formerly of this city. This gentleman is Mr. Ed. Cook, a brother of Mr. Fred. Cook, the well known local sign-writer.

Mr. Cook was Supt. of the Syndicate Steel Bridge Company and has been successful in all lines that he has undertaken.

It is expected that the business will be taken over and opened up at once.

Orders have already been secured for $1,200 worth of work, so that the new proprietor starts out with good prospects.

The plant is worth in the neighbourhood of $5,000, and the mill is equipped with the most improved electrically operated machinery. Sashes, doors and flooring will be manufactured by the new company.

The Board of Health Meets "Well and Often," and do Business

A letter appeared in one of this week's issues complaining that there has been no meeting of the Board of Health. Now this body is practically composed of Dr. Bingham and Chief Bransel, who at present do the work, and as the Chief puts it they meet well and often.

Reports as to any unhealthy conditions are always investigated promptly, and as our present comparative freedom from all kinds of sickness, especially contageous diseases, will show, any unhealthy conditions are always remedied.

This afternoon the Board took a drive to investigate some reported unhealthy conditions near the locks, and if any such conditions exist the Board can be depended on to see that they are remedied.

Regatta Will Be Held On River in September

Considerable discussion has arisen during the past few days among local aquatic sportsmen over the prospect of arranging for a regatta to take place on the river in the early part of September.

Many of the leading enthusiasts in this branch of sport are taking a lively interest in the matter, and the present prospects point to one of the most interesting exhibitions of aquatic racings events of the season. The event is one in which it is felt that local canoeists and oarsmen as well as many of those who have been identified with similar events at Chemong and Stony Lake will unite in assisting in.

A number of business men have already offered to donate prizes for the events, and the Street Car Company have, it is understood, also intimated their willingness to assist in the project by the presentation of a number of trophies.

The affair will, it is felt, lend a stimulus to the development of canoeing in town, in which the live interest of a few years ago, has fallen into decline through neglect. There are undoubtedly many speedy paddlers in town, whose return to racing condition is only a matter of practice, and who have expressed their intention to lend an active assistance in furthering the success of the regatta.

MIDNIGHT MURDER
BY A DUMMER MOB, OF
THOS. EDWARD HILL

Mabel Hill, a Sister, Shot in the Head and Dangerously Wounded---Mob on Vengeance Bent Invades Home of Thomas Hill, Dummer---Shots Are Fired and 12 Year-Old Son Instantly Killed---Bloody Termination of a Local Feud---Machinery of the Law Put into Motion.

Last night, at the fitting hour of midnight, the Township of Dummer was the scene of a tragedy, in which a lad, twelve years of age, was fatally shot, and his sister dangerously wounded. And this under circumstances which exhibit a deplorable social and moral condition, in what one would expect to find, a peaceful pastoral community. The scene of the tragedy was that part of Dummer Township lying about five miles from Warsaw, and about twenty miles from Peterborough.

It would seem that the ground has been prepared for just such a tragic crop as was reaped last night. For a long time there have existed local feuds in the neighbourhood, accompanied by such acts of malice or reprisal, as the poisoning of cattle, the burning of barns, and other acts of violence, but the culmination of all came in the life destroying crime of last night.

So far as heard at this writing, the circumstances connected with the shooting are few and simple. Last night at midnight, a mob of men descended upon the residence of Robert Hill, a farmer living at lot 14, in the seventh concession of Dummer, against whom some bitter grudge was, for some reason, entertained. In the course of the invasion, which aroused the sleeping family from their beds, shots were fired, and one took deadly effect in the body of Thomas Edward, the twelve year old son, and his death almost instantly followed. Another shot hit a sister of the murdered lad, Mabel Hill, the bullet entering her head, and producing a serious wound.

High Constable Cochrane and Constable Archie Moore were despatched to the scene of the tragedy, and Coroner Grey also went out this morning.

The bare statement of the tragedy as obtained this morning was confirmed by the following despatch from Norwood:—

Norwood, Ont., Aug. 25. — Thos. Hill about twelve years old, son of Robert Hill, was shot and instantly killed about 12 o'clock last night at his father's residence, north half of lot 14 in the 7th concession of Dummer, about 8 miles north of Norwood, and his sister Mabel Hill, was shot in the head and badly injured. The shooting was done by a mob supposed to be the neighbours of the Hill family. Bad blood had been existing in the locality for some years. The county authorities have been communicated with and the affair will be investigated at once.

At the time of going to press the Examiner's reporters, despatched to the scene of the murder, have not sent in any further particulars. If received in time they will appear in a subsequent edition.

Second Edition.

Full Details of The Dummer Tragedy By The Examiner Reporters; Telephoned From Warsaw.

FULL DETAILS OF THE CRIME

At twenty minutes to twelve last night the family of Robert Hill, who lives on lot 14, 7th concession of Dummer, were awakened by shouts on the road of "Hurrah! A mob! a mob!". Sleeping in an upstairs room were two children of Mr. and Mrs. Hill, Mabel and Thomas Edward, the former about ten years of age and the latter about twelve. Upon hearing the noise they got out of bed, and went to the window, raising the blind. Just as they did this, a bullet from a .32. Winchester rifle, struck the girl on the left hand, grazing her finger and cutting a gash, then glanced off and pierced the boy through the heart.

Pierced Through and Through.

The bullet came through his back, and lodged in the bedpost about four feet away from where he stood. By this time the other members of the family were awake, and Mr. and Mrs Hill, who were sleeping downstairs, with one of the older boys, went outside. One of the boys was standing on a covered porch, when another bullet, from presumably the same rifle, struck a board a few inches away on the side of the house and lodged in the door post.

I'm Shot!"

Another bullet from the same source struck the ridge of the house. By this time, the little girl, who had been shot upstairs, came running down to her parents, exclaiming, "O! mother, I'm streaming with blood, and Tommy's dead." The mother and father then rushed upstairs, and found the boy, who, after exclaiming, "I'm shot," fell at the girl's feet dead.

Who Did It?

As to the perpetrator or perpetrators of the crime, there is some mystery. The Hill family claim there were five men and a boy on the road, out by their house, at the time the shooting occurred. They claim to have recognized the men, partly by their voices, and say they are as follows: Wm. and Stewart Murphy, who live about half a mile from the Hill homestead; George Gallagher, James, Ed. and Wm. Stewart.

The little girl who was shot and the eldest boy, who escaped, state positively they identified Stewart Murphy as the man who fired the shot, as they recognized him at the time of the discharge of the fire-arm.

This morning at six o'clock Mr. Hill went to Norwood and sent out Dr. Douglas of Warsaw to dress the little girl's wounds, and give the necessary attention to the dead boy.

Motion for the Dead.

As to the motive for the deed, the Hill family state there has been trouble for the last year. Mrs. Hill is a sister of Mr. John Dewart, father of the three Dewart boys mentioned, and during the last year there have been numerous occasions when there has been open warfare between these two families, and they claim this is the motive for the perpetration of the crime.

It began a year ago, when three cattle belonging to Mr. Dewart were poisoned, and they laid the blame on the Hill family, thus setting up a feud which has ended so disastrously.

Mr. Cochrane, High County Constable, arrived on the scene about 4 o'clock, and is awakening the arrival of papers from the Coroner before summoning a jury, which will be done immediately.

DEFENCE OF FELIX DOYLE.

Alleged Murderer of His Mother Will Plead Insanity.

Brantford, Aug. 24.—Mr. A. L. Baird, counsel for Felix Doyle, accused of the murder of his mother, Tuesday stated that insanity would be the plea put forward in behalf of the prisoner at the coming trial. Doyle is confined in the County jail in this city and is loud in his protests of innocence. He holds to the theory that his mother was killed by tramps. It is not thought that the prisoner has any money.

Sent For Trial.

Toronto, Aug. 24.—George Pullman has been sent for trial on a charge of manslaughter in connection with the death of Thomas Mahoney last March.

PRINCE LOUIS AT MONTREAL.

2,000 Citizens Meet Him at Afternoon Garden Party.

Montreal, Aug. 24.—The prince and staff have completed another busy day yesterday and will leave the city today for Ottawa.

In the morning, accompanied by Archbishop Bruchesi, the admiral visited Notre Dame Church and seminary, where they were warmly welcomed by the reverend gentlemen in St. Sulpice. The beautiful altar was illuminated and when Prince Louis was leaving the organ pealed "God Save the King." The Hotel Dieu Hospital was also visited.

The event of the afternoon was the garden party in the Mountain Park. Some 2,000 citizens were presented to the admiral of the fleet. Last evening he was entertained by the members of the St. James' Club. F. D. Monk, M. P., proposed the "British Navy."

Prince Louis at Newport.

Washington, Aug. 24.—It was announced at the Navy Department yesterday that the British squadron, under the command of Prince Louis of Battenberg, would be entertained at Newport instead of at New York.

RHODES SCHOLARSHIPS.

Successful Winners Come From North, South, East and West.

Toronto, Aug. 24.—The winners of the Canadian Methodist Rhodes scholarships are—Herbert M. Bond, of St. John's Methodist College, Newfoundland, son of Dr. Bond, editor of the Christian Guardian, who leaves shortly for England with his son; Arthur J. Motyer, B. A., Mount Allison University, Bermuda; Frank B. Day, B. A., Mount Allison University, New Brunswick; Herbert J. Rose, B. A., McGill University, Quebec, and William J. Rose, Wesley College, Winnipeg.

Mr. Morrey's Body Recovered.

St. Catharines, Aug. 24.—The body of C. A. Morrey, Assistant Manager of the American Crucible Steel Co. of Toronto, who was drowned on August 5th in Lake Joseph, was recovered at Port Sandfield Tuesday night after a two weeks' search. With his wife and four others he had been sailing on Lake Joseph, when a severe thunderstorm came up and his boat capsized.

Montreal Sent Firemen.

Montreal, Aug. 24.—Five houses and three sheds at St. Scholastique were burned yesterday morning. The damage was $25,000. The fire started at 8.30 o'clock this morning, and Montreal was asked for assistance. A steamer and squad of firemen from here were sent by special train and had the fire under control by about 10.30.

DAIRY DISABILITIES.

Canadian Commissioner is Investigating —Liverpool is Troublesome.

London, Aug. 24.—(C. A. P.)—J. A. Ruddick, Dairy Commissioner of the Dominion Government is here enquiring into the butter and cheese trade. He has visited, besides London, Glasgow, Liverpool and Bristol and everywhere he finds satisfaction expressed, this in some measure to the improved facilities for handling butter on this side. He found the authorities in Liverpool somewhat exercised over complaints recently ventilated in the Ottawa House regarding produce being allowed to remain for a greater time than necessary on the quays. In this respect he found considerable improvement. He speaks highly of the manner in which produce is handled in Bristol. He attributed the increased Canadian trade in some degree to the failure of Siberian produce, chiefly through the war.

The Bristol docks committee are sending A. Harvey, their assistant general manager, to Canada to confer with [illegible] manufacturers and exporters of Canadian produce and discuss with them facilities which the Royal Edward dock, just completed, will offer for the conduct of a very much larger business through the port of Bristol.

Explosion on Steamer.

Montreal, Aug. 25.—As the Donaldson Line steamer Lakonia was leaving port yesterday morning for Glasgow, a steam pipe in the engine-room exploded, killing S. Jackson, assistant fireman, and Alex. Smith, third engineer. Andrew Miller, fifth engineer, was badly scalded, but may recover. The steamer returned to dock and will remain until an inquest is held.

Mrs. Stanford's Death Recalled.

Honolulu, Aug. 15.—The tragic death of Mrs. Jane Stanford has been recalled by a sensational story published here yesterday to the effect that representatives of the Stanford estate practically offered monetary inducement to local physicians to change their opinion that strychnine caused the death of Mrs. Stanford.

What Minto Thinks.

London, Aug. 24.—(C.A.P.)—The Daily Mirror representative asked Lord Minto what he thought of the leading Canadian papers saying he was not big enough for his position. "Well, that is kind of them," he said tropically and again repeated it.

Red Hot Flashes Off the Wires—Canadian and Foreign Despatches

Stricken at Wife's Grave.

Wm. Allen, aged 82 years, is dead at Napanee. A week ago he went to his wife's grave, where he was stricken with paralysis, and lay there all night He never rallied, passing away on his birthday. Mr. Allen had lived in Napanee for half a century. He was a Presbyterian elder and leaves one son and four daughters.

A Turtle Fight.

Mr. Onshing of London, Ont., found a couple of big turtles, each weighing about 40 pounds, fighting fiercely near his ice-house, on the north branch of the Thames. One with a sudden rush nearly turned the other over on his back and caught him by the head and was chewing it savagely when Mr. Onshing put an end to the conflict with a rifle, killing both turtles.

Tricked the Turnkey.

Michael Nolan of La Crosse, under five-year sentence for burglary, escaped from the jail at Prairie du Chien last night, less than twenty-four hours before he was to have been taken to Waupun state penitentiary. During the night Nolan called to the turnkey for a drink of water. The officer went to his cell, then left to get the water. Nolan darted from the open cell door into a dark corner. The turnkey returned and placed the cup in an extended hand, looked the cell and went to to bed. He had placed the water into the hand of the prisoner in the next cell, who was in the plot. Nolan escaped through the attic of the building.

London's Snake Story.

William Pynter, porter of the Richmond House, London, Ont., was working in the hotel yard when he saw the head of a large snake, seemingly in a torpid state, exposed to the full glare of the sun and about four feet of the snake's body protruding from a hole. He secured a grain bag, dropped it swiftly over the snake's head and drew it tight with a cord, striking the snake on the head till it seemed lifeless. Four men came to Pynter's aid and put a rope around the reptile's body and pulled without being able to stir it the snake having revived and resisting with extraordinary vigor. Finally the head was smashed with a strike and the snake secured. It was 7 feet 11 inches in length and is believed to have escaped from the Hatch show.

JAP COMPROMISE FLATLY REJECTED

Peace Conference on the Verge of Failure—Count Lamsdorff Butts In—Russian Foreign Minister Said to Have Declared That Russia Will Never Pay an Indemnity in Any Shape or Form—Envoy Witte Doubts if the Count Ever Said So—Victories for Russia Reported by Linevitch.

Portsmouth, N. H., Aug. 25.—Up to 11 o'clock last night six cablegrams had been received by M. Witte from St. Petersburg. All came from Count Lamsdorff and all were opposed to the Japanese compromise proposition as presented at Wednesday's meeting. However, it is positively stated that the cablegrams announce that direct pour parlers are now in progress between Emperor Nicholas and President Roosevelt.

Still a Chance.

The prospects of peace seem desperate, but they are not hopeless, despite the prevailing pessimism. There is still a chance, and the forces working for peace are continuing their labors. The result of Ambassador Meyers audience at Peterhof Wednesday was unsatisfactory, but at least it was no rebuff. It left the door open, and within a few hours after the receipt at Oyster Bay of Mr. Meyer's account of his audience the president had sent a new appeal through M. Witte, who received it from Mr. Pierce about 3 o'clock this morning. The Emperor had already in effect declined the proposed compromise offered by Japan.

LAMSDORFF BUTTS IN.

Russian Foreign Minister Formally Declares No Money Will Be Given.

St. Petersburg, Aug. 25.—The correspondent of Reuter's Telegram Co.

COUNT LAMSDORFF.

was yesterday authorized by Count Lamsdorff, the Foreign Minister, to state officially and in the most formal manner that Russia will pay Japan no contribution, direct or indirect; nor will it make any cession of territory whatever.

Witte Disbelieves It.

Portsmouth, N.H., Aug. 25.—It is significant that M. Witte made it a point last night to express his disbelief in the report from St. Petersburg, that Count Lamsdorff had authorized Reuters' agent to declare that Russia under no circumstances would pay a contribution, either direct or indirect, or make any cession of territory whatever. M. Witte said he could not imagine that Count Lamsdorff could have authorized such a statement without informing him.

VICTORIES FOR RUSSIA.

Japs Repulsed From Three Positions—Linevitch Upholds Witte's Hand.

St. Petersburg, Aug. 25.—The Emperor has received the following from Gen. Linevitch, dated August 22: "Advanced Russian detachments on August 20 drove back the Japanese from three positions: One detachment in the Tsinche Valley occupied the village of Lagovtseaksy; another operated in the direction of Schimiadsy, and a third dislodged the Japanese from their position on the south-ward of Mopeyschan. The three Russian columns drove the Japanese back to their position near Sendjan."

Gen. Linevitch also reports the repulse of a detachment of Japanese which was advancing on Kiaujorou-jou, in Corea.

127 Japanese Soldiers Drown.

Tokio, Aug. 25.—The Japanese transport Kinjo was sunk in a collision with the British steamer Baralong on August 23 in the inland sea. One hundred and twenty-seven invalided Japanese soldiers were drowned.

Fresh Agragian Troubles.

Odessa, Aug. 25.—Fresh Agrarian disorders have broken out in the Elizabethgrad and Alexandria districts, and the peasants are destroying the property of the land owners. A big estate at Butsky has been entirely demolished.

Riotars Murder and Fire.

St. Petersburg, Aug. 25.—Advices received here from Mitau say that there are serious disorders in the Province of Courland. The rioters destroyed communal buildings, Government spirit stores and land-owners' property. The despatch adds that many murders are being committed.

To Settle Agrarianism.

Odessa, Aug. 25.—The President of the Elizabethgrad Zemstvo has asked permission of the Government to convoke a meeting of the landlords, with a view of settling the agrarian question.

Under Martial Law.

Warsaw, Aug. 25.—The whole Government of Warsaw has been placed under martial law. A bridge on the Vistula Railway, near Radom, has been blown up and communication is interrupted.

Bouligan Resigns.

St. Petersburg, Aug. 25.—The Emperor has accepted the resignation of M. Bouligon, as Minister of the Interior.

WILL DISCIPLINE HIM.

France Proposes to Compel Moroccan Sultan to Give Satisfaction, But He Is Still Obdurate.

Paris, Aug. 25.—The Ministers, under the Presidency of Premier Rouvier, held a lengthy special session yesterday. It was principally devoted to a consideration of the disciplinary measures to be taken against Morocco should the Sultan not yield to the demands of the Government for redress for the recent arrest of a France-Algerian citizen.

An official communication says that unanimous approval was given to the instructions to be sent to the French Minister of Fez, M. Rene Taillandier, and to the subsequent action to be taken to compel the Sultan to give complete satisfaction.

The nature of this action is not disclosed but it is known that it contemplates the military occupation of a Moroccan town near the Algerian frontier, probably Oudjda, owing to its proximity to a large French garrison in Algeria and to its strategic importance, as it commands the route to the interior of Morocco and the capital, Fez. The latest official advices from Fez show that the Sultan continues to hold the Algerian a prisoner.

Following the meeting Premier Rouvier sent instructions to the French Minister to demand the immediate release of the prisoner, informing him that a military demonstration would be made in case of a negative response.

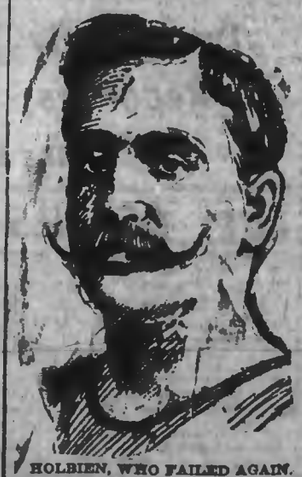
Later it was announced that the Ministers had decided that in case Morocco refused the French demands the entire personnel of the French Legation would leave Morocco simultaneous with the military demonstration.

EMULATING CAPT. WEBB.

Three Swimmers Trying to Conquer English Channel.

Dover, Engl., Aug. 26.—The thirtieth anniversary of the success of Capt. Matthew Webb in swimming across the English Channel, which occurred yesterday, brought out three candidates anxious to emulate the famous swimmer. They are Miss Annette Kellerman, the woman champion swimmer of Australia; T. W. Burgess, who has already made three unsuccessful attempts to swim the channel, and Horace Mew. All three made an early start from this vicinity under favorable weather conditions.

On August 24, 1875, Capt. Matthew Webb, dived from the Admiralty Pier,



HOLBEIN, WHO FAILED AGAIN.

Dover, and swam to the Calais Sands, France, a distance of twenty-two and a half miles, in 21 hours and 45 minutes. On July 24, 1882, Capt. Webb was drowned while attempting to swim the Niagara Rapids.

After covering six miles Miss Kellerman was overcome by sea-sickness and gave up the attempt.

A fourth candidate, Montague Holbein, who has already made several attempts to swim the channel, started at 4 o'clock in the afternoon.

Mew gave up after being in the water seven hours.

Holbein abandoned his attempt to cross the channel after swimming 18 miles.

Chicago's Street Railway System.

Chicago, Aug. 25.—Eleven hundred cars, costing nearly $6,000 apiece and involving a total expenditure of approximately $6,500,000, are said to compromise the equipment of the proposed Chicago Municipal Street Railway as suggested by the report of Expert Dupont of Detroit.

Yellow Fever in Michigan.

Grand Rapids, Mich., Aug. 25.—A case of yellow fever has been discovered in Crockery Township, 10 miles from here. The patient is Godfrey Littleburg, a telephone lineman, who left New Orleans a week ago last Tuesday.

STOP, WOMAN!

AND CONSIDER THE ALL-IMPORTANT FACT

That in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience with women's diseases covers a great many years.

You can talk freely to a woman when it is revolting to relate your private troubles to a man—besides a man does not understand—simply because he is a man

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probably examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman whose knowledge from actual experience is great.

Mrs. Pinkham's Standing Invitation.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

If you are ill, don't hesitate to get a bottle of Lydia E. Pinkham's Vegetable Compound at once, and write Mrs. Pinkham, Lynn, Mass., for special advice.

When a medicine has been successful in restoring to health so many women, you cannot well say, without trying it, "I do not believe it will help me."

Drowned at Toronto.

Toronto, Aug. 5.—Lorne Nelson, living with Rev. J. W. Penman of 19 Elm Grove avenue, Parkdale, was drowned in Humber Bay last night about nine o'clock. Leslie Penman, son of Nelson's host, escaped a similar fate by swimming nearly half a mile towards shore, when he was picked up. Penman made a brave attempt to keep his friend afloat. Their canoe overturned.

In Toronto Next Year.

Halifax, Aug. 25.—The Canadian Medical Association has decided to meet next year at Toronto at the same time as the British Medical Association meeting. Dr. A. McPhedran of Toronto was elected president; Dr. Elliot of Toronto, general secretary; Dr. H. B. Small, Ottawa, treasurer, and Dr. J. D. Courney, Ottawa, vice-president for Ontario. The meeting closed yesterday.

Insane Woman Hangs Herself.

London, Aug. 25.—Left to herself but five minutes, Mrs. Eliza Millar of Strathroy, a patient at the insane asylum committed suicide by hanging at 8 o'clock yesterday morning. The woman was about 62 years of age.

Royal Arcanum Troubles
Many Lawsuits Threatened

New York, Aug. 24.— The World says: At a 12-hour secret session, attended by representatives of seven-eighths of the Royal Arcanum membership of the United States and Canada, held yesterday in the Manhattan Hotel, resolutions were adopted demanding that the Supreme Council of the Order rescind at Put-in-Bay, next week, the action raising rates taken at Atlantic City last May.

If this is not done it was announced there will be wholesale secessions and scores of lawsuits by members that will disrupt the Order. Open charges of breach of trust were made against the Supreme Council. The session was attended by prominent Arcanumites from the States of New York, New Jersey, Connecticut, Pennsylvania, Ohio, Massachusetts, Rhode Island, and Michigan, embracing a membership of 295,000 out of the total of 316,000 in the entire Order.

Gen. H. C. Coshrane, of Chester, Pa., one of the leaders of the Order, said of the Supreme Council's action: "It should be investigated as carefully as the affairs of the Equitable Life Assurance Society. If anything is wrong it must be known, and steps taken to right the evil."

Charles M. Day, Grand Secretary of the Order in Massachusetts, said that if the Supreme Council did not rescind its action the matter would be placed before the Supreme Court on August 31st.

"There will then be at least 150,000 lawsuits against the Order filed on that day," he said; "in that event the Royal Arcanum would be practically killed, as it would pass into the hands of a receiver."

It was agreed that if the Supreme Council was to abandon the objectionable rates, the Grand Councils in each state shall meet and prepare a uniform procedure to be acted upon at a special meeting of representatives. A resolution was also passed to formulate a plan for a permanent organization.

Another Pittsburg Party
Arrives at Stony Lake

Stony Lake, August 23rd. — Mr. Delafosse of Lakefield, came up to the Lakes to-day.

Miss Dodds and Mr. Gowanlock re Toronto to-day. Mr. Gowanlock will remain at Ethelina for some time.

Mrs. J. R. Stratton returned to Strathormond-on-the-lake to-day.

P. C. Stewart, Mr. E. Mahon, Miss G. Smith, Miss May Jones, Miss Chown, Miss Lottie Lynch, Mr. K. Chown, Mr. P. McLean, were among those who came up to day.

Mr. and Mrs. G. E. Atwood, of Peterborough, are at Kushagua.

Mrs. Van Wyck, of Toronto, is the guest of Mr. H. Sutherland, at Inglestane.

Mr. Willis Garrow, who has been spending a couple of weeks at the Victoria House, returned home this morning.

The yacht Foxy, with Mr. F. Bates and party, arrived at Kenmore this afternoon from the Chemong regatta.

Miss Ida A. Speer, Miss M. Greenwood, Miss Theresa Ahlend of Toronto, Mrs. R. Rietzer and Mr. E. H. Rietzer, of Buffalo, N.Y., are guests at Glenwood.

A party of fourteen Pittsburgers en route to Lovesick Lake, arrived here to-day. They will spend a couple of weeks fishing.

Miss M. K. Lightcoat, Miss F. E. Carseran, and Miss Ruby Adamson, of Peterborough, are at High-na-Erauoich.

Mr. W. C. Sutherland, of Rochester, N.Y., and Mrs. J. C. Barry, of New Haven, Conn., are guests at Vimedo.

As was predicted yesterday the fishing this week is much improved. Several fine catches were made to-day. Among them was a nine pound lunge by Miss Alberta Gooding. Mr. John Nugent landed a large lunge this morning, and Mr. H. G. Lech had similar success this afternoon.

Orillia Has a Sherlock
Holmes Sensation Law

Last Thursday a couple of men went up from Allandale to make some repairs to the coal chutes at the G. T. R. yards at Orillia. They hung their coats and vests in the lower part of the building, the garments containing among other articles, a gold watch, ring, pipe and tobacco. During the afternoon the clothes were stolen. Chief Goodman was sent for, and after a search he found the garments but minus the valuables. He then nonchalantly walked to a house on the Atherley road, and asked one of the junior inmates to produce the watch and ring. Knowledge of their whereabouts was emphatically denied, but the alternative of going to the lock up had the desired effect, and both articles were brought from a room upstairs. Chief Goodman then demanded the pipe and tobacco of another member of the family, and those were at once forthcoming from under the sidewalk.

A MARKET FOR GIRLS.

Extract From Chapter I, "Miracles in the Slums," by Seth C. Rees.

The Vanguard, published in St. Louis, Mo., has the following article entitled "A Market for Girls:"

We are confronted by those who persist in discrediting and denying existence of a well-organised commercial trade in girls in this country. But as certainly as cattle and hogs are bought and sold in the stockyards in Chicago, so certainly are thousands of pure, artless, innocent girls procured from every State in the Market in "Custom House Place," "Little Hell," "Black Lane," "Tenderloin District," or some such precincts of sin. These commercial devils of both sexes as really own and hold the girls in their possession as any Southern slave-holder ever controlled the negroes owned by him.

These poor girls are behind closed doors of shame, and walls thicker than any penitentiary walls. Held in bondage to the brutal passions of beastly men, their slavery is more infernal than any slavery of this or any other country.

Hundreds of these American daughters are incarcerated where their sobs and groans are never heeded, and their midnight cries are never heard. The public seemed temporarily shocked when three of these pure country girls, who had been allured from Canadian homes, were recovered from one of these haunts of shame, in Chicago, and returned to their parents and native homes.

They were induced to leave home under the promise of easy employment and large pay, never dreaming they were as lambs going to their slaughter. At the depot they were met and ushered into a closed carriage, driven to a certain number in a certain street; the door opened, they were ushered in, the door closed. Alas! they were in the vestibule of hell. Passed in an inner court, their screams and cries could not be heard to the street. Robbed of their virtue, they were ruined for life, and and for two long weeks suffered untold torture.

Eternity alone can reveal the agony and horror of those awful days, and "awfuller" nights. At the end of two strange, black weeks, days so restless, and nights so fearless, that to these pure country girls it seemed like hell itself, a little coloured girl who scrubbed the front steps dropped a word to a passing policeman, and the chief sent a posse of officers with shotguns, and the enslaved daughters were rescued and returned to their distressed parents.

But they were ruined, their names were tarnished, their lives withered, blighted, and damned, and it is not likely that the commercial agent received more than seventy-five dollars for the three of them. We have never found a higher market for the finest attributes and desirable than thirty dollars a head. Many of our girls who are now comfortably dressed were sold in the market for five dollars, and some of these went as low as two dollars a head.

Mother, what value do you place upon your daughter? You probably value her very highly, but she has another value—a commercial value, in this commercial world, and it is probably somewhere from five to twenty-five dollars. If she has a fine form, a beautiful face, and is in every way attractive, and should be put on a bullish market, she might bring twenty-five or thirty dollars; but if she is an ordinary girl, no difference how much you love her, she will not bring as much if sold by the pound as well-fatted hogs are worth in the Union Stockyards of Chicago. This is the value placed on your darling by this licentious rum-soaked world. I am not dealing in sentimentalism. I am not pessimistic, and yet I pity the man who feels forced to be an optimist in these days of thickening gloom. I am dealing with grave, rugged, bald, craggy facts,—hard, hard facts that you had just as well face.

A Wild Boar Experience.

Mr. John Baxter, living near Simcoe, a few days back was trying to drive a boar into out of a field, when the animal suddenly turned on him, and Mr. Baxter, being quite old, could not get away from the animal. He was caught by the leg and thrown down and one of his arms and a leg were fearfully mangled and torn. It was thought he would lose his arm, but latest reports are more hopeful.

YOU NEED THE OTHER

Ozone is a germ killer and a valuable remedy, but to get the best results from it you must have a tonic laxative to take with it. "Solution of Ozone (the coupon kind)" is the purest and best form in which Ozone is sold. Every bottle of this remedy contains a coupon which entitles you to a package of "Celery King" the well known remedy, free.

In buying this solution, you get about twice as much Ozone for your money as by buying other brands, in addition to getting a package of "Celery King" for nothing. You thus save money in two ways besides getting Ozone in its purest and most concentrated form.

Ask your druggist for "Solution of Ozone (the coupon kind)" and if he does not keep it you can get it from the Public Drug Co., Bridgeburg, Ont., by writing for it. Sold by W.B. WARNE. 5

SUICIDE LED A DOUBLE LIFE

Deserted Wife in Connellsville Years Ago.

Man Who Killed Himself Complaining of Thaw Family's Selfishness.

Pittsburg, August 23. — That Jos. A. Thompson, a relative of the wealthy Thaw family of this city, who killed himself in Philadelphia on Thursday last, leaving a letter in which he upbraided his relatives for letting him and other poor relations starve, while the fortunate members of the family revelled in luxury, was impelled to seek death by another motive than poverty, was learned today, when it developed that Thompson had a wife and children living in Connellsville, Pa.

Thompson had been estranged from his family for twenty-five years and had been living in Philadelphia under the name of Thomas. He had a wife and family in that city, and wrote that as he could no longer bear to see his family suffer for want of food death was the only means of ending his trouble. In a letter to his Philadelphia wife he wrote that he had wronged her, but it was not until to-day that she learned what he meant by his statement.

It became known only to-day that Thompson was a bigamist, and that he had deliberately deserted his wife twenty-five years ago, and married the Philadelphia woman. Ten years before his desertion, he married a nice of Mrs. A. B. Mirton, a wealthy resident of Connellsville, and after he left his wife Mrs. Thompson returned to the home of her aunt, where she is at present. She is suffering from a broken leg, the result of a fall several weeks ago, but she received callers and spoke without hesitance in regard to her former husband.

Mrs. Thompson said that she was married thirty-five years ago. For ten years she lived happily with her husband, who was employed by a firm in this city. They had one child. One day he got into trouble with his firm and disappeared. Several weeks later she received a letter from her husband telling her that he was miles away and would never return. After the desertion one of Thompson's wealthy brothers who was mentioned by Thompson in his letters as having refused to aid him in his poverty, tried to get possession of the daughter born of the couple. There was a bitter legal fight between the mother and the brother-in-law, which resulted in a victory for Mrs. Thompson. Recently the daughter married a clergyman of this city.

Mrs. Thompson said that she knew her husband had married another woman but for the sake of her daughter and the children of the other wife she did not prosecute him.

"I feel no resentment towards him, despite the way in which he wronged me. He had no reason for leaving me, and I never found out what the trouble was with his firm for which he worked. As soon as I recover I am going to visit his grave."

Thompson was well known in this city before he deserted his wife. He moved in the best social circles, and was cordially received by the Thaws. He was employed by the firm of Voight & Artman and received a good salary. He was called into the office of one of the members of the firm one day and a heated talk followed. The next day he disappeared.

Croup Absolutely Cured.

"There is no remedy in my opinion that can act more promptly than Dr. Chase's Syrup of Linseed and Turpentine. It cured my son of croup, absolutely, in one night. We gave him a dose when he was black in the face with choking. It gave him instant relief and cure."—Mr. Wm. McGee, 49 Wright avenue, Toronto, Ont.

Dairy Trade With Britain Looked After

Mr. Ruddick, Canadian Commissioner, at Work in the Old Country.

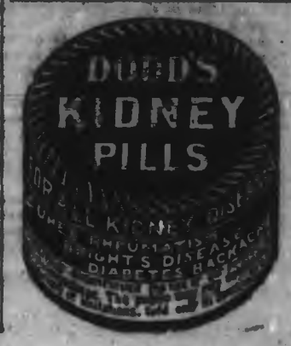
Meetings Held With Provision Importers in Various British Centres.

(Canadian Associated Press.)

London, Aug. 24.—J. A. Ruddick, Dairy Commissioner of the Dominion Government, is here inquiring into the butter and cheese trade. He has visited, besides London, Glasgow, Liverpool and Bristol, and everywhere he finds satisfaction expressed, due in some measure to the improved facilities for handling butter on this side. He founds the authorities in Liverpool somewhat exercised over complaints recently ventilated in the Ottawa House regarding produce being allowed to remain for a greater time than necessary on the quays. In this respect he found considerable improvement. He discussed the matter at a meeting of the directors of the Liverpool Provision Merchants' Association.

Mr. Ruddick leaves Saturday for a short visit to Holland, Denmark and Belgium to investigate "What Canada is up against" regarding methods of production and, for general information on the dairy question. On his return, Mr. Ruddick will hold meetings of shipping people and dock committees of provision merchants at Bristol and Liverpool, and thoroughly discuss the whole matter.

Mr. Ruddick spoke highly of the manner in which produce was handled in Bristol. He attributed the increased Canadian trade in some degree to the failure of Siberian produce, chiefly through the war.



Killed in Runaway.

Amos Clough and Mrs. Clough, old residents of Abington, Castor Township, were killed in a runaway. They started early to drive to David Bell's, a nephew's place. A few hours later, a man named Dalrymple found the old man unconscious and the woman by his side. The old man died while they were going for assistance.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

FRIDAY, AUGUST 25, 1905.

IN FAR LABRADOR.

The Evening Herald of St. John's, Newfoundland, is publishing in serial form the log of the Labrador mission steamer Strathcona as penned by Dr. Grenfell, the medical missionary who for years has devoted his life to the welfare of the people of the Labrador coast. In many respects it is the most remarkable serial that ever appeared in print, because its incidents—many of them startling, all of them crowded with life interest—are not the product of an imaginative brain, but the plain recital of cold facts. Many people in this and other parts of Canada remote from Labrador have, through press articles or lectures delivered by himself on his rare and short furloughs, become fairly well acquainted with the general character of the work carried on by Dr. Grenfell and associates, and have towards it the most kindly feeling. But it is not pleasant to reflect that, as the log points out, the Canadian Labrador coast, a stretch 400 miles long and with an increasing population, lacks a hospital or even a permanent medical officer, because the Government at Ottawa, while sympathizing with the needs of the coast, declines to establish a precedent by making a grant for medical aid. Dr. Grenfell says that $5,000 for the erection of a small hospital at Harrington has been in his hands for some months. The mission would assume responsibility for $2,000 of the $5,000 a year necessary to maintain the hospital, but the rapid growth of the work along the coast prevents the assumption of the total liability. It is true that Sir Frederick Borden and two other gentlemen at Ottawa have offered to contribute $50 a year towards coats when the hospital is completed, but what is desired is the guarantee of a permanent income—and it need not be large, as the figures quoted show—towards the general maintenance expenses. The Government's objection to such a grant was, it is said, based on the recommendation of Capt. Wakeham, the fishery officer of the coast, who held that it would result in demands for grants from a thousand other places. Ten years ago a similar request preferred to the then Conservative Government was refused on the same ground, also on Capt. Wakeham's recommendation. Dr. Grenfell is skeptical on this point; he cannot conceive of there being so many places in Canada "where there is no possibility from the cradle to the grave of getting medical help in time of need, except chance visits of the fishery officer twice in the summer. Moreover, some years even the fishery boat has no doctor on board." Capt. Wakeham is himself a doctor, but the lack of modern surgical conveniences on his steamer, and the importance of his other duties, make it "impossible for him to be of any practical value to the coast."

The log gives a brief account of a meeting held at Harrington, under the auspices of the clergy there, at which a number of fishermen told of great suffering endured by themselves or members of their families because they had no opportunity of getting to a doctor. One man alluding to Dr. Grenfell, said, "I have been living here for seven years, and my family is growing up and will live here. You are the first doctor I ever saw." Others told of journeys made to Halifax, 500 miles away, for medical treatment of injuries to limbs, with the result that the interim lack of proper surgical attention had invariably prevented proper cures. While there is such a thing as a Government becoming too paternal, it does seem that there is in this case no reason why the Government should not give a grant sufficient at the very least to permanently maintain a medical officer on the coast, which the mission authorities had hoped would be the case this year. On humanitarian grounds alone it would be a commendable action.—Globe.

TRUE SPORT.

Cui bono? That's a question which may be, not impertinently, asked in reference to many sporting contests. The function of contests and exhibitions and expositions is to develop quality, and produce better results in stock-breeding, industrial production, etc. Take the recent yacht races at Rochester, in which the American racing machine is said to have "won." What was demonstrated; what good done? Would the winning yacht be a safe and seaworthy craft to make a run from Rochester to Toronto, and take the chances of the weather? A craft that shows her "superiority" in a drifting breeze is about as useful, for practical purposes, as a Russian "arm chair" general in a campaign against the Japs. The art of improved boat building, for practical purposes, is not one whit advanced by the experimentation of designers to produce a boat that will make its best record in a mill pond, under the impulse of a blacksmith's bellows. What practical benefit is the the victory of a racing canoe, of a beam of a hand's-breadth, which none but an equilibrist can sit in? What good would racing shells, such as Durnan and Sullivan used on Toronto Bay, be to a pedestrian who might wish to tempt stormy waters to earn an honest penny? So much for the utility of these sports; as a medium of sport, and a thinly-masked form of reorganized gambling and sometimes for a good deal of faking, lies their only raison d'etre.

Speaking of sports — introduce the element of professionalism, and sport disappears. If Peterborough wins a hockey match, if she wins a lacrosse or football championship, these achievements reflect credit upon Peterborough boys — Peterborough citizens — and the city they live in. If Toronto ball team, which has nobly fought its way to the tail-end of the procession, should by some miracle win the pennant in the "Eastern League," that would reflect no glory upon Toronto, and represent no triumph of skill for Toronto citizens. It is not probable that there is a Toronto-born player on the Toronto ball team. Lacrosse is regarded as Canada's national game, but it won't long remain in that position. Professionalism has been introduced and the game has been degraded, in many instances, into mere slugging matches. So-called professionals, without that counterpoise of character, and that pride of place, that distinguishes the pure amateur, figure as so many hired sluggers, and the popular interest, the local loyalty that follows the fortunes and applauds the play of a legitimately amateur home team, disappear. Good, honest, honourable, healthy sport, is something to be encouraged, but venal and commercial rivalry in sporting pastimes is—well—nothing to be proud of, and a danger to legitimate sport, and destructive of its interests.

PERSONAL NEWS FROM LAKEFIELD

Many Interesting Items of a Personal Character.

Visitors in the Village From All Parts —Other News.

(From Our Own Correspondent)

Lakefield, August 24.—Miss Bickell, of Toronto, is visiting in the village, the guest of Mrs. Sam Sherin.

Mr. and Mrs. Albert, of Toronto, are visiting Mr. Wm. Doidge, of the village.

Mr. Bert Everett, who has been visiting in Indian River has returned home.

Miss Greenley of the village left Monday for Selwyn, where she has charge of the public school.

Mr. Reginald Hendren, of Warsaw, is spending a couple of weeks in the village.

'BERTIE' GREGORY UNDER ARREST

Well Known Local Character in Toronto.

Warrant Out Charged Him With Theft —Once Lived Here.

Many persons in the city will remember the "Bertie" Gregory mentioned in the following article in the Toronto News. He was at one time a resident of this city.

Bertie F. Gregory, the pseudo nobleman and horse dealer, who left Toronto very suddenly last May when he learned that a warrant had been sworn out charging him with theft, returned to Toronto yesterday and gave himself into the custody of Detective Cuddy this morning.

It will be remembered that Gregory's disappearance caused a flutter in certain circles of the smart set, into which Gregory had been received.

After sitting in the police court dock with several disreputable-looking prisoners for about half an hour, Gregory's name was called, and his counsel, Mr. H. T. Kelly, pleaded not guilty for him to a charge of stealing $2,000 from Mr. J. B. Swann, of Stockbridge, Mass.

"When will you be ready for trial?" asked the Magistrate.

"I don't know," answered Crown Attorney Curry, "whether we will ever be ready. I understand that Mr. Swann has realized upon Gregory's property here, and that everything is pretty well straightened up."

Mr. Curry agreed that Gregory should be allowed out on his own bail. "In fact," he said, "I would be delighted if he would go away and stay away."

The charge arose out of a deal by which Gregory is said to have received $2,000 from Swann upon a stable and contents, already under chattel mortgage.

Gregory was remanded for a week.

Interesting News From Ennismore

Social Happenings in That Township Briefly Told.

(Special to the Examiner.)

Ennismore, Aug. 24.—Miss Teresa and Celia Guiry were the guests of Miss Madge Sullivan on Thursday evening.

Miss Lottie Galvin has returned home after spending a few pleasant holidays in Norwood.

Miss Marguerite Sullivan (teacher) and Miss May Sullivan called on friends in Lindsay, on their way to Downeyville, where they intend spending a few days.

A very sociable gathering took place at the home of Mr. David Guiry, on Friday evening last. A large number of the young folks of the community were present as well as some guests from a distance. The company were delighted with the manner in which they were entertained. This shows the Misses Guiry still hold the reputation which they have long held of being excellent entertainers.

Mr. Jack Donahue and Mr. Dennie Sullivan were the guests of Mr. T. Flynn on Sunday.

Great excitement has been caused in this vicinity by the appearance of a new traction engine.

Mr. John O'Donohue, was the guest of Mr. Cornelius Houren, on Sunday last.

The farmers are nearly through harvesting and the new traction engine is doing first-class work.

Miss Ema Fox, gave a pleasant social evening on Thursday last at the home of Mr. C. O'Connor, in honour of the Miss Fitzgeralds, of Little Falls, N. Y., who are at present visiting friends in Ennismore.

Mr. Timothy Toomey had the misfortune to lose his barn and out buildings by lightning on Monday evening.

Miss Ema Condon was the guest of Dr. Hixon, on Sunday.

CITY NEWS OF TO-DAY

—To-morrow being circus day the small boy will be up with the lark.

—The Board of Works meets on Monday evening at 8 o'clock.

—Rev. W. H. Sparks, of Sunderland, will preach in All Saints' on Sunday.

—Quaker Bitters, the Great Blood Purifier, at Ormond & Walsh, Druggists. 15eod

—The Framery has installed new plate glass windows in Robt. Fair & Co's store.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 222 McDonel street. Phone 199.

—P. C. Stewart went on duty again last night, and it is now Constable Adams' turn for a two weeks' vacation.

—P. C. Adams is now the bicycle force. He takes a trip through the Fifth Ward on his machine in the evenings.

—The chief has a Cleveland bicycle alleviated with cushion frame, coaster brake, etc., which the owner may have by proving his property.

—The 57th Band plays in Toronto at the National Exhibition on September 7. They will give two concerts alone and one in combination with the Irish Guards Band.

—P. C. Adams, of the bicycle force, on his trip last night espied a young man riding on the pavement on Locke street. The usual $2 fine was paid forthwith this morning.

—Bring this advertisement with any picture purchased of Mr. Murphy and we will give you 25 cents off each frame you purchase. Good till Sept. 1st, at The Framery, two doors west of Postoffice.

—The fire brigade received a call about 6.30 last evening to extinguish a small blaze on Smith street, near the railway crossing. The fire originated in a rubbish heap and threatened a fence, hence the alarm.

—Hold on to your old suit. Don't cast it aside as useless because of stains, rips or wrinkles. Send it to "My Valet," and you'll be tickled to death with its respectable appearance. Phone 575—we'll send for and deliver.

—The chief is in receipt of a catalogue from the Ames Co., of Kalamazoo, Mich., giving illustrations and prices of police and firemen's uniforms and equipments. Some very serviceable and fancy uniforms and equipments are shown.

—The success of the Summer Bible Club at the Y. M. C. A. has been worthy of note. During the general secretary's vacation the members have had charge of the studies. The topic on Saturday evening will be "Paul's Great Defence Before Agrippa." Mr. Williamson will have charge. All young men are welcome.

—Mr. R. R. Jamieson, general superintendent of the Western Division of the C. P. R., says that there will be about 55,000 cattle for export from Alberta this year. This will exceed the export trade of last year by 15,000 head. The cattle are reported as being in splendid condition, for they have but little trouble with flies. There is abundance of water in the holes in Southern Alberta, while in Montana to the south the water supply is exhausted and the pastures burned and bare.

—Peter Grant, the young lad who was hurt while riding on the street car last Tuesday night, writes the Examiner, wishing to change the statement which was published in last night's issue. It is said that the boy, with other boys, was tring to steal a ride; but this is a wrong statement after all. The boy now states that he can remember of having enough money to pay his fare, and the conductor was not near him at the time he fell. He wishes also to state that instead of the conductor putting him off, he was shoved off by the crowd on the steps.

—Master Douglas Robertson, of the West End, has a pair of domesticated crows, of which he has every reason to be proud. Yesterday one of them was noticed to have something in its bill, which, upon closer investigation, proved to be another "bill"—a one dollar bill, in fact. Mr. Crow was soon relieved of his spoil and "Doug" is watching him pretty closely to see if he brings any more. He says he won't sell him for any money now.

—The officer who will be in charge of H. M. Irish Guards Band on their forthcoming visit to Canada will be Lieut. Viscount de Vesci. The Viscounts de Vesci descend from the great baronial family of De Vesci, which was in historic eminence in the time of the early kings, and had summons to Parliament as Barons de Vesci in 1264. The first Baronet was Sir Thomas Vesey, who was created a baronet of Ireland, September 28, 1698, but subsequently taking Holy Orders, was consecrated Bishop of Killaloe in 1711. Lieut. Viscount de Vesci is the second son, although heir presumptive of Sir John Robert William Vesey, who was Lieut.-Col. of the Coldstream Guards, and of the Honourable Artillery Company of London. The Vesey family have, for a century and a half, occupied important commands in Britain's army and navy.

LAST CONCERT OF THE SUMMER

In Victoria Park To-night by the 57th Band.

The last band concert of the season will be given by the 57th Band in Victoria Park to-night, when an excellent programme will be presented. The band has given in all twelve free park concerts this season, and at an average of 3,000 persons nightly, an aggregate of nearly 40,000 persons have been delighted with the music. The weather, on the whole, has been good, only one concert having been postponed on account of unfavourable weather. The following is to-night's programme:

March—"Across the Continent."
Overture—"Zampa."
Cornet Solo—"Corporale di Sentinale."
Mr. Walter Hughes.
Medley—"The Minstrel."
Intermezzo— From Rusticana—By request.
Kansas two-step.
Fantasia — "My Old Kentucky Home."
Reminiscenes of Scotland.
March—"American Republic."

Excursion From Keene In the City

Annual Outing of Keene Improvement Society.

Trip Over Lift Lock Enjoyed—Stop Over in The City.

The postponed excursion of Keene Improvement Society took place to-day and from every stand point it has been a great success. The people of Keene showed their appreciation of the good work the society has done in the village and the steamer Rainbow was taxed to its utmost capacity for the excursion.

The party enjoyed a pleasant sail through Rice Lake and up the picturesque Otonabee, but the main item of interest on the voyage was the trip over the lift lock. The lock was admired by all of the visitors who were astonished that a boat could be taken over with so much ease and without a jar.

After a short sail up the canal the boat returned over the lift lock to the Wolfe street wharf, and the excursionists were allowed a three hours' stop over to see the sights in the city. Returning the boat left the wharf at 5 o'clock, so as to reach the village by the lake in good time.

IMPORTANT SCIENTIFIC DISCOVERY

A Clinical Preparation That Positively Kills the Dandruff Germ.

A most important discovery has been made after a year's patient laboratory work aimed in a certain direction—it is Newbro's Herpicide, a preparation that prevents falling hair, and speedily and permanently eradicates dandruff. These evils are caused by a germ or parasite that burrows into the scalp, throwing up dandruff, as it seeks to sap the life of the hair at the root. There's no baldness without falling or thin hair, no thin hair without dandruff, and no dandruff if the germ is destroyed. Newbro's Herpicide is the only preparation that will do the work. "Destroy the cause, you will remove the effect." Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit Mich. Ormond & Walsh, special agents.

Regatta of the Juniors at Chemong

Programme of the Several Events.

What Will Constitute the Contest on Monday August 28th.

The following is the programme of the Junior Regatta to be held at Chemong, Monday, Aug. 28th, at 2 o'clock:—

1. Boys' canoe tandem—11 years and under.
2. Boys' canoe tandem —12 years and under.
3. Girls' canoe tandem — 14 years and under.
4. Boys' canoe tandem — 14 and and under.
5. Boys' single skiff — 14 years and under.
6. Girls' double skiff — 14 years and under.
8. War canoe—paddled in punts—teams of 10.
9. Crab race—14 years and under.
10. Tub race—14 years and under.
11. Boys' swim — 14 years and under.
12. Boys' swim — 12 years and under.
13. Boys' swim — 11 years and under.
14. Girls' Swim — 14 years and under.
15. Ladies' single canoe.
16. Open sailing race — Chemong Championship.

Book Bargains.

Fifty and 75 cent titles for 25 cents; 25 and 35 cent titles for 10 cents. Just a midsummer flyer from the Peterborough Bookstore—where bargains are very numerous just now. A. H. Stratton & Co.

SPLENDID VIEWS SHOWN LAST NIGHT

At Jackson Park—The Appearance of the Park.

Although the street cars had a busy time last night, they did not carry the crowds that have been taken out to Jackson Park on some previous nights this summer. There were about 2,000 people at the park and witnessed some fine views. The "Dog Factory" and an "Impossible Voyage" furnished some amusing features.

The band, or at least a small part of it, was out, but their music was not equal to what is given at the regular Friday night concerts.

Jackson Park does not now present the neat and pretty appearance it did in the early summer. Then the grass was green, but now it is yellow, and in places none at all. The slope near the canvas is littered with paper bags, small boxes and peanut shells, which are certainly no improvement in the appearance of any park.

Use "MAPLE LEAF" Canned Salmon. The Best Packed.

LAST OF THE SEASON.

We are receiving, this week, Fine Black Cherries. These will be the Last of the Season. Also Large Dry, Georgian Bay Blue-Berries.

Three Thousand Dollars Per Running Foot.

Big Harvest Will Intensify the Boom—Large Industries Starting Up.

"Three thousand dollars a foot frontage is what the Canada Life is paying for a thirty-foot lot in Winnipeg," said Alderman Forcital, of London, Ont., who was in the city yesterday on his way home from a trip to the Northwest. "Yes, they paid $90,000 for the lot, which adjoined their property. There is a good building on it, but it is rumoured that the building on both properties may be taken down and a new office building erected. This big price for real estate is the result of the splendid outlook for the growth and development of the Northwest, which will be immeasurably stimulated by this year's tremendous wheat crop. Industrial development is not so marked at Winnipeg as that of transportation works and terminals; hotels, wholesale establishments and warehouses. A good start has been made in the flour-milling and pork packing industries, however. There are four or five pork factories, and the Western Canada Flour Mills Company is erecting a large plant with a capacity of some 4,000 barrels per day."

Great forest fires are sweeping the Kootenay country, doing tremendous damage.

TELEPHONE TALKS.

TO TELEPHONE USERS AND THE GENERAL PUBLIC,—

Speaking of the long distance telephone in England one witness said "The service is universally conceded to be the "worst in the world," and this statement was not questioned by a single person throughout the enquiry.

The Chairman of the Committee said" I do not think there "is any worse place than England for a Telephone system. "That is my experience."

This is the undisputed comment on Government operation of the telephone in Great Britain.

The Chairman examining an expert witness from London as to the reason for England being so far behind the United States in telephone matters, obtained the following statement: "Broadly speaking the fundamental reason is Government "monopoly. No one can establish a telephone system without "a license from the Postmaster-General, and the Postmaster-"General will only issue a license for a limited period. To "my mind the whole point is the limited license. No Com-"pany with a limited license can properly develop a business "which requires a continuous expenditure of new capital "like the telephone business does. You cannot raise money "to carry on a business when the right to do business is going "to expire in seven or eight years and exists on totally uncer-"tain conditions."

The financial results of Government operation are startling. The financial statement of the Postal Department for 1904, covering telegraphs and telephones, shows a deficit on working expenses of £983,681. If interest on capital invested is included, the deficit for last year is raised to £1,282,560—upwards of six and a quarter millions of dollars; or the deficit for the year amounted to one-third of the gross revenue from both telegraphs and telephones. The Government has not been able from earnings to pay interest on capital invested since 1872.

The Government returns show that the accumulated deficit from 1870 to 1904 of the Postal Department on the working of telegraphs and telephones, to meet interest and working expenses, amounts to £12,113,560—a total loss in thirty-four years of $60,000,000.

The Government in their reports do not separate the telephone from the telegraph but it is noted that the annual deficits have largely increased since they took over the long distance telephone lines.

The conditions of the telephone in Great Britain under Government control are indisputable,—the worst service in the world and a series of annual deficits that are astounding.

Yet experts say that the same service under such administration as a company would give, would result in greatly improved service, tremendous development, and a business profitable to the investors.

Canadians can read the lesson for themselves.

THE BELL TELEPHONE COMPANY OF CANADA.

Lacrosse in Rural Districts Never So Good as This Year

It would seem that a superior article of lacrosse is being played in the provincial districts the present year. Taken altogether, there has been a remarkable awakening of interest in the national pastime.

At least that is the opinion of Mr. Fred. Waghorne, who, in his capacity as a referee, has seen play by most of the teams in the Canadian Lacrosse Association's intermediate and junior series, as well as a number of senior engagements.

Mr. Waghorne is consequently well qualified to tell something of the progress made in the rural districts the current season to carry lacrosse to a position of higher excellence than ever before.

Improvement in General.

"Although there is not so many teams playing in the C. L. A. this year," said Mr. Waghorne, "the quality of lacrosse put up by the teams is fifty per cent. better than heretofore.

"The intermediate series this year is confined to a few clubs, but the lacrosse played by them has been of senior calibre. The lacrosse in the district comprising Stayner, Masford, Collingwood and Thornbury-Clarksburg, which in former years was in a crude state, has this year been of the very best, and some of the men on those teams are ripe for senior company.

"The final games between Bradford, Shelbourne and Seaforth will be worth going to see. As those clubs are so evenly matched, it will be hard to pick a winner till it is over. Dundalk, Grandville, Newmarket and Orillia, although defeated this year, experienced no disgrace, as their teams were not far behind the others.

Suprise in Junior Series.

"It is in the junior series where the surprise has been. The playing in this series has been something phenomenal. Nearly every team has greatly improved in its playing from former years, some of the matches being as pleasant to watch as those in the senior series. No particular team could be singled out, as they are all pretty evenly matched and no one can say with any certainty who is going to win the junior championship this year.

"What has been the cause of this increase in efficiency all along the line? Well, that is a question to which it is difficult to make a direct reply. The teams are playing a better combination for one thing. The main reason for this being that the players are playing with their heads as well as with their sticks. The passing and shooting also are more accurate and more attention has been paid to field work through the coaching of some older players, who have moved into the different towns.

"Another important reason is that the players now the whole game are using better judgment and playing the ball instead of the man. No doubt all these points have tended to improve the quality of lacrosse in the provincial districts."—News.

Will the Stanley Cup Holders Remain Intact?

"Who will be out with the Ottawas this winter?" asks the hockey enthusiast, who is already casting furtive glances at his skates in the uttermost corner of the clothes press.

That is a pretty interesting question, seeing the season is only three and a half months distant. No doubt a Stanley cup series will take place before any league games are played. There is a batch of challenges now moulding in the safe of one of the trustees which must be given consideration very soon. Marlboros, of Toronto, have one in. So have the Victorias, of Montreal. And it's gold nuggets to plugged cents that Rat Portage, headed by Tom Phillips, will come sweeping down as soon as the Ottawa management look with favour on the western challenge. So it all looks as though the hockey season of 1905 and '06 will be a memorable one, for the Capital at least.

Much speculation is in progress as to whether that great forward line of the Ottawas will be intact this winter. Frank McGee was heard to remark that he wouldn't put skates on again. Billy Gilmour is an unknown quantity. But it is more than likely Capt. Alf. Smith and Harry Westwick will be seen in their old places. Harvey Pulford will also be out, and no doubt Moore and Finnie will be with the old guard again. The only probability of a vacancy from last year's line-up will be on the line. If McGee sticks to his word, the famous forward combination will be irreparably broken. Of course, there is Hanby Shore, who did such good service in all the forward positions toward the close of the season. The question is, would he fill Frank McGee's shoes incase the fair-haired centre refuses to come out? It is doubtful if McGee's equal will be found in the neck of the woods for many moons.

There are several other recruits from the City League teams who can be rung in, in case the team doesn't hold together. It is too early, however, to prognosticate a line-up for the Stanley Cup defenders. Ottawans only hope the same team as that which caused the downfall of Rat Portage will again be seen wearing the red, white and black.—Free Press.

LATEST SPORT

BASEBALL.

The Lindsay Post says:—The Lindsay seniors have not accomplished very much this season, and whose fault is it? A number of dead sports are a trifle sore, but we would like to say that if all the management committees and players had done their duty as faithfully and well as Secretary R. J. Menzies has done his, we would have had a good ball team this season. Mr. Menzies has been a very enthusiastic worker throughout.

It looks as if Oshawa intends to default the remainder of this season's games. They defaulted to the locals on Saturday and will do the same thing for Port Hope next Saturday. Both clubs will claim Oshawa's deposit of $25.

LACROSSE.

Uxbridge and Beaverton play off their tie game of lacrosse in Lindsay to-day.

BOWLING.

The following games were played last night:—

John Titterson	J W Green
D Patterson	H McBain
A R Kidd	T E Pratt
Dr. McClelland, sk 12	Dr. McKinnon, 7
J H Ferguson	R Cotterell
Dr. Marshall	R Matchett
J Fitzgerald	[illegible]
F Dixon, sk 13.	W F Johnson, sk 10

The game to have taken place between skips Johnson and Bellegham did not materialize, Mr. Bellegham being absent.

The schedule for to-night is:—

Dr. Greer vs. W F Johnson.
R Kerr vs. Jos Gibson.
G K Martin vs. T F Matthews.
K G Lamb vs. Dr. McClellan.
J McClung vs. A Moore.

THE TURF.

"Doc" Johnston intends entering White Blaze for the 2.30 class and Baldour for the 2.40 class in the trotting events at the Minnemt Fair, on September 14 and 15. He may also have an entry in the free for all.

BLANCHE ROYAL NOT A BARNADO GIRL

Denial by Superintendent of "Hazel Brae."

In last night's issue an account of the suicide of Blanche Royal appeared in which it was stated that the girl was a former inmate of the Barnardo Home in this city. Miss Woodgate, superintendent of the Home, says that the girl was never at "Hazel Brae," nor was she in any way connected with the home.

POST CARD CORRESPONDENCE.

In this column will be published communications upon post cards only. It will remain open for the use of readers, who are invited to contribute suggestions, inquiries or replies. Anything of a scurrilous personal nature will be prohibited.

Peterborough, Aug. 23rd.

Editor Post Card Column:

Dear Sir,—I have seen several complaints lately concerning the headlights on the street cars. I think those headlights are alright in their place, and their place is on a street car; if it wasn't, they wouldn't be there. I think if some of our bicyclists would use more headlight, there would be no cause for complaint.

HEADER.

Largest Banana Cargo.

The largest cargo of bananas ever loaded in one steamer at any port in the world has been shipped for Manchester, Eng., by the steamer Paonare, from Costa Rica. The consignment consisted of 75,000 bunches. A car go of 45,000 bunches was shipped by the steamer Orcasbesse, for Bristol.

Special arrangements made for Sunday School and other excursions on applications.

H. CALCUTT,
Telephone 32. Peterborough.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the North-west Provinces, excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him.

Homestead Duties.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

Application for patent should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior

Sealed Tenders, addressed to the undersigned, and marked on the envelope "Tenders for Island No. 24" will be received until Monday, the 21st day of August next, at noon, for the purchase of an Island in the Township of Smith, County of Peterborough and Province of Ontario, comprising an area of 51.25 acres and known as Salmon Trout Island, No. 24.

The tenders should state the amount they are willing to pay in cash for this Island and an accepted cheque for ten per cent. of the amount tendered should accompany each Tender, which the successful tenderer in the event of failure to complete the purchase within one month from the date of the award shall forfeit to the Department.

The highest or any Tender, will not necessarily be accepted, and the unauthorized insertion of this advertisement in any newspaper will not be paid for.

J. D. McLEAN,
Secretary.

Department of Indian Affairs,
26th July, 1905.

NOT JUST AS GOOD
Did you ever inquire at a store for certain articles and get for a reply "We have something just as good"? Did it ever occur to you that "Something just as good" is something the dealer has been able to buy much cheaper than the articles you inquire for? This is true in drugs, fabrics, groceries, hardware, and in fact every line, including silver-plated ware. If you inquire for 1847 Rogers Bros.' Knives, Forks or Spoons, don't accept any bogus Rogers' stamp because your dealer tells you it's just as good.

1847 ROGERS BROS. TRADE MARK
The above trade mark has been stamped on every article of the original and genuine Rogers Bros.' goods for over 50 years. Get this and you get the best that is made.

GILLETT'S
ABSOLUTELY PURE
CREAM TARTAR.
Nearly all goods in this line at the present time are adulterated and in fact unfit to use.
GILLETT'S is used by the best bakers and caterers everywhere.
REFUSE SUBSTITUTES.
GILLETT'S costs no more than the inferior adulterated goods.

A BLOODY TRAGEDY

Two Badly Mutilated Bodies Result of Drunken Row.

WAS IT A DOUBLE MURDER

John Gamble Found Dead Near His Shanty, Badly Battered—Seneca, An Indian, Found on Railway — Body Ran Over By Train — Was His Dead Body Placed There?—Arrests Were Made.

Stratford, Aug. 25.—Whether it was that John Gamble and Adam Seneca came to their death through blows inflicted during a fight between themselves or died from injuries inflicted by other persons is the problem that remains to be solved by the authorities. One fact is plain—both died of injuries received in a drunken brawl which occurred near the outskirts of this city early yesterday morning.

Caleb Poyner and Harold Crawfield are under arrest and will explain their share in the revelry.

The post-mortem made yesterday brought to light the fact that Seneca, who is an Indian, was dead when mutilated by the railway train, and that his death was due to a kick in the stomach. On Wednesday night Crawfield, Gamble, Seneca and Poyner spent several hours about the hotels of this place and drank heavily. They secured a supply of liquor and went to the home of Gamble, on a fifty-acre lot at the junction of the G. T. R. tracks and Romeo street, where they kept up the revelry till 2 a. m., according to a neighbor living 12 rods distant.

The first presence of the double tragedy came to light yesterday morning when Engineer McGowan of a G. T. R. freight train coming into Stratford from Fort Erie saw a body lying stretched across the track near a side-road at the town limits. He blew his whistle and rang the bell, but there was no motion, he is positive, in the inert body lying across the tracks. Engine and tender passed over the body. When he with Conductor Fleming pulled the body from beneath the wheels it was that of Seneca, the Indian. The injuries apparent were two broken legs, a crushed skull and the lower limbs crushed to a pulp. In beating about the neighborhood to learn of the circumstances leading up to the man's death, the crew came across the body of Gamble stretched out some 40 yards from his front door. His head was crushed in and life was extinct.

Crawfield was found inside the hut washing the blood from his hands and a cut on his head, and was taken into custody. Blood was spilled everywhere, and the interior of the shack looked like a farmer's slaughter pen. The hut is a clap-board affair of about 10 x14 feet, is low roofed and of one-storey. One little window with most of the glass broken lights the place. In one corner was a bundle of old clothing, rags and tatters, and straw that served as a bed. For furniture is an old box cupboard, a couple of broken chairs and a rickety table. Blood was found on nearly every article in the room. Crawfield has told varied stories.

ACTING FOR SWEDEN.

The Regent Consents to Negotiate For Norway's Secession.

Stockholm, Sweden, Aug. 25.—At a meeting of the Council of State yesterday Minister of Justice Berger proposed that King Oscar be requested to empower the Council to enter into negotiations with the Norwegian Government for the settlement of the questions in dispute, and also to authorize the Government to appoint delegates to meet the Norwegian representatives.

On the recommendation of the Council, the Regent, the Crown Prince, gave his consent to the proposals.

King Oscar Changes Mind.

Stockholm, Aug. 25.—According to good authority, the feeling in Government circles regarding the accession by a Barnadotte prince to the Norwegian throne has undergone a complete change. King Oscar no longer opposes the acceptance of the crown by his son Charles.

famous Convict Dies.

Montreal, Aug. 25.—The death is announced at St. Vincent de Paul Penitentiary of the famous convict, Viau, who, at 55 years of age, had spent 35 years in prison. He engineered the revolt at the penitentiary some years ago. He was serving a life sentence for attempted murder.

DANGER SIGNALS.

No engineer would be mad enough to run by the flag which signaled danger. It is different with the average man or woman. They attempt constantly to run by the danger signals of Nature and that attempt costs thousands of lives every year. When the appetite becomes irregular or entirely gives out, when sleep is troubled and broken, when there is a constant feeling of dullness and languor, Nature is hoisting the danger signal. The stomach and its allied organs are failing in their work and the body is losing the nutrition on which its strength depends.

Such a condition calls for a prompt use of Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition, purifies and enriches the blood and builds up the body with sound, solid flesh.

"I have had so much benefit from your medicines am glad to say a few words that you may use for publication," writes Mrs. J. R. Downes, Oyster Lake, Conn. "I had been troubled with a complication of diseases for over two years, but kidneys and liver bothered me most. Some of my worst ailments were headache, frequent pains around heart and under right shoulder-blade. My hands and feet were cold nearly all the time, and I had such chilliness between shoulders. Some days cared but little for food; I lost flesh; felt so tired and miserable it seemed I couldn't do any housework. Took medicine from my physician, but received no benefit. Bought a bottle of 'Golden Medical Discovery,' and after taking it I felt so much better we determined to give it a fair trial. Appetite soon improved and gradually the disorders disappeared until now I am well."

A Great Doctor Book Free.—Send 21 one-cent stamps to Dr. R. V. Pierce, Buffalo, N. Y., to cover cost of mailing only and he will send you a free copy of his 1008-page Common Sense Medical Adviser, paper-covered. Cloth-covered 50 stamps.

Dr. Pierce's Pellets Cure Constipation.

Stony Lake Conveniences Demanded

Action on the Part of the Cottagers' Association.

The Oppointment of a Committee of Investigation and Action Demanded.

To the Editor of the Examiner,—

Dear Sir, — As a cottager at Stony Lake and, therefore, deeply interested, with hundreds of others, in maintaining, and producing, the conditions that should make Stony Lake, by arrangement, as it is by nature, the most delightful summer home situation on the continent, I wish to draw attention to conditions, which are quite at variance, not only with the comfort, convenience, and enjoyment of the lake dwellers, but prevent absolutely improvements in their interest. It appears that some years ago, three gentlemen procured, in trust, for the American Canoe Association, Juniper, Big Otter, Little otter and Bear Islands. It is understood that these gentlemen procured the islands for the Association, in their own names, and held, and continue to hold, Juniper Island thus. The other islands have been disposed of, but Juniper Island is still tied up. Now the necessities of providing for the summer residents of the lake, certain common accommodations and conveniences, has compelled the erection of a store and a pavilion on the island, and the construction of wharves upon a portion of its shores. While these things have been done by the influence and co-operation of the general population of the lake, I understand that the gentlemen in question, have done nothing in their capacity of virtual trustees, but nominal owners, to make improvements such as are urgently needed. Besides, and it comes to this, that the American Canoe Association has, so to speak, no locus standi at the lakes, without trespassing upon the common accommodations which have been set up for the benefit of the cottagers and summer visitors to the lake.

Under these circumstances, it seems to me imperative that prompt steps should be taken to end the condition of uncertainty in relation to the rights of cottagers upon Juniper Island.

It is "up to" the Cottagers' Association to take action. I would suggest that they appoint a committee to investigate thorough, and to take the necessary steps to make these, the moral rights of the cottagers, actual rights. This committee should insist on obtaining for the Cottagers' Association a lease of a certain section of Juniper Island, so that the necessary improvements could be safely made — the pavilion needs to be enlarged, for at present it is quite inadequate to the purposes to which it was intended. It is the centre of social development of the summer citizenship of the lake, the common rallying ground, in the evenings, especially, and should be put in a condition to meet the demands that will be made upon it. The fees of membership and other contributions, could be devoted to this purpose and other purposes that are urgently called for, for there is a lamentable lack of the necessary conveniences in the interests of the health of the summer population. There is a pestiferous cess-pool in the rear of the pavilion, which should be destroyed, and can be easily destroyed—a blast or two of dynmite would provide an outlet. People go to the lake for their for their health, and we don't want conditions that are inimical to good health. Many such matters demand attention in the common interests of those who live at, or frequent, the lake in summer. I trust that the matter mentioned will engage the attention of the Cottagers' Association at its annual meeting to-night. Something should be done in the direction indicated, and at once, too.

Yours very truly.
COTTAGER.

A SPECTACULAR STREET PARADE

Norris & Rowe's Shows Will Put on an Imposing Parade.

Show Will Be Here To-morrow—A Clean Circus.

Some time ago there was an effort made by certain circus owners to arrange an agreement to omit the free street parade on the score of the immense expense. Norris and Rowe, however, would not agree under any circumstances to dispense with this feature. Their contention was that the public had always accorded them the most liberal support and seemed to enjoy the spectacular display made upon the streets previous to the performance and as long as the public found pleasure in the street pageant, they would continue it, no matter what the expense. This season they present a parade on a more liberal scale than ever before and are introducing some really novel features. These include, bears, elk and deer, camels, dromedaries, elephants and various wild broken to harness.

A score of pretty Japanese maidens are gracefully drawn in their native jinrikshaws by stalwart Japanese coolies. The costume for both male and female Japanese are absolutely correct as to design and makes a very picturesque effect. Other features will be the Jubilee and plantation singers on floats; long lines of open dens, displaying wild animals; a herd of elephants; a drove of pure white Arabian horses; a drove of the spotted circus horses; beautiful chariots; tableaux floats; Knights and their fair ladies on restive chargers; lady and gentlemen equestrians; five bands of music and the always looked for calliope.

The present is the very largest show Norris and Rowe have ever had.

Exhibitions will be given here to-morrow.

Chamberlain's COLIC, CHOLERA AND Diarrhoea Remedy

A few doses of this remedy will invariably cure an ordinary attack of diarrhoea.
It has been used in nine epidemics of dysentery with perfect success.
It can always be depended upon, even in the more severe attacks of cramp colic and cholera morbus.
It is equally successful for summer diarrhoea and cholera infantum in children, and is the means of saving the lives of many children each year.
When reduced with water and sweetened it is pleasant to take.
Every man of a family should keep this remedy in his home. Buy it now. It may save life.
PRICE, 35 CENTS.

HIGH RATES HAMPER TRADE.

Hon. Nelson Monteith Scores the Canadian Railways.

Toronto, Aug. 25.—Hon. Nelson Monteith, Minister of Agriculture, made some comments yesterday on the way Canadian railways hamper trade by charging excessive rates on farm produce.

"This is the banner year for the Ontario farmer," he remarked. "The crops have not been remarkably heavy, but the prices have been so good that they more than made up for any decrease in yield. The great problem we have to face in Ontario is one of distribution. We can produce the grains and fruits and dairy products, but we lack facilities for distribution.

"Our railroads here are not nearly as obliging as they are in the United States. Rates are lowere there than they are here, but they more than make up for it by the increased business. Why, let me instance the Niagara peach crop. Peaches are selling at 20 and 25 cents a basket in the fruit district, yet at Stratford, sixty miles away, you cannot buy Crawfords less than $1.25 a basket.

"The dairy output this year has been enormous. The pasturage was never better, and farmers and exporters are encouraging consumption of their products by putting their goods in such shape that consumption is enhanced. A couple of years ago we were shipping salt butter to England, instead of fresh butter, as we are doing now. Anyone knows that a man will eat twice as much fresh butter as he will salt butter.

"The Ontario farmer is waking up to the possibilities of his own business."

THE air in an ordinary oven is stagnant. It becomes saturated with the odors of the different dishes cooking—the strongest odor impregnates all. That is why you sometimes get pie with a flavor of onions and roast beef with a taste of fish.
The air in the oven of the
Imperial Oxford Range
is constantly changing. Fresh air is drawn in from outside the range by our patent oven flue, superheated and forced into the top of the oven. It circulates throughout the oven, keeping every corner at a steady, even temperature. The air is then drawn off through the oven ventilators carrying with it the fumes of the cooking dishes.
The Imperial Oxford Range cooks your food with pure, fresh, dry heat. Would you like to see this range? Call at your dealers. If he can't show you the Imperial Oxford, write to us and we'll send you full particulars and tell you where you can see it. 17

Grand Trunk Railway Reducing Mechanical Staff

Kingston, Ont., Aug. 24.— The Grand Trunk Railway Company is gradually reducing its forces at the divisional points of Belleville and Brockville, and has instructed that its employees at those points can take up their residence in Montreal, where they will have better opportunities for work. The men at Montreal will not be confined to one division, but can take turns on the several lines now connecting that city with outside points, and consequently draw larger pay. It is understood that in future, when new employees receive positions in the mechanical department of the company, it will be stipulated that their headquarters will be at Montreal.

Interesting Comparison in The Train Services

A correspondent who has followed the efforts of the Examiner to secure the Toronto mail earlier than 11.35, the first train from that city at the present time, furnishes this paper with some information in reference to the movement of trains upon the G.T.R. twenty-five years ago.

He states that in 1880 there were four trains each way between this city and Port Hope, and compares it with the present service, which gives only two.

In 1880 trains left Peterborough for Port Hope at 7 and 10 a.m., and 4.40 and 6.40 p.m., and arrived from that town at 8.35 and 11.35 a.m., and 6.15 and 9.50 p.m.

In conclusion he asks, "How does that compare with two trains a day now?"

Miss Annette Kellerman to Swim English Channel

Miss Annette Kellerman, the Australian lady about whom reference has been made in these columns, is about to make an attempt to swim the English Channel. The following despatch gives the information:—

Dover, Eng., Aug. 24.—The thirtieth anniversary of the success of Capt. Matthew Webb in swimming across the English Channel, which occurs to-day, brought out three aspirants anxious to emulate the famous swimmer. They are Miss Annette Kellerman, the woman champion swimmer of Australia; T. W. Burgess, who has already made three unsuccessful attempts to swim the Channel; and Horace Maw. All three made an early start from this vicinity under favourable weather conditions.

After covering six miles Miss Kellerman was overcome by seasickness and gave up the attempt.

On August 24, 1875, Capt. Matthew Webb dived from the Admiralty Pier, Dover, and swam to Calais Sands, France, a distance of twenty-two and a half miles, in 21 hours, 45 minutes.

On July 24, 1882 Captain Webb was drowned while attempting to swim the Niagara Rapids.

Kilkenny Couple Lost Their Canoe

An amusing incident is reported from Kilkenny, Stony Lake. It appears that a young lady, one of the guests at Kilkenny, and a young newspaper man from this city went for a paddle, during last Sunday afternoon. They landed on an island which they proceeded to explore. In fact so deeply interested were they that they did not notice some of the other guests from the same cottage, who came across and taking their canoe tied it to a stump in the water about twenty-five feet distant from the island upon which the two young people were. When they were ready to return they went to where they had left their boat and of course were unable to reach it.

When they did not return to dinner, a party was organized and a search instituted by those who were in the secret with the result that they were rescued.

Newest Novelty for Ladies.

The latest American novelty is the Ladies' Envelope Purse, with strap attachment for carrying in the fingers. Its popularity is already assured. Daintily fashioned in seal, Morocco, walrus and alligator leathers. On sale at the Peterborough Book Store. Prices 75c to $2.50. Ask to see our 70c and $1.25 shopping bags, worth one-fourth more.

A. H. Stratton & Co.

CONSUMPTION CURE HAS BEEN DISCOVERED

By a Local Veterinary Surgeon—City Gaining a Wide Reputation as a Result.

The young and prosperous city of Peterborough is fast becoming known as the home of the first and only true cure for the much-dreaded disease of tuberculosis, and before long will be mentioned as such in the leading medical journals on the continent, if not in the world.

Unlike many of our young men who have gone farther afield to seek fortune and glory, Dr. Johnston, the discoverer of this wonderful cure has remained at home in the old town, and as a result of his discovery, fortune is now at his beck and call, according to statements made by evidently reliable persons.

Dr. Johnston is a veterinary surgeon, and is not permitted by law to examine a person as a medical doctor would do, but nevertheless, his fame is rapidly spreading through the Dominion and the United States; and the doctor is already in receipt of letters giving the sender's heartfelt thanks for saving them from the deadly grip of the great white plague.

Several Peterborough citizens have spoken voluntary to the Examiner about this wonderful cure, and none could find words to express their thanks for the doctor and his medicine; heads and members of families have been saved, and happiness has been restored to the home once more.

The good work is in its infancy, but soon it will assume larger proportions, and the doctor's many friends give him their best wishes for his success.

IT'S A FACT NEVERTHELESS

We have been in business one year and we thank our many friends and patrons for their liberal patronage for the past year, and assure them that we will put forth every effort to serve them better in the future, if possible.

We say most emphatically, and we won't take it back, that 'SOVEREIGN BRAND' are the best suits for the money that ever honoured the tables of a clothing store. If you know a doubter bring him in and watch us convince him.

Exciting Tie Shooting for Gold Medal in City of Toronto.

Twenty-eight Possibles in the El Padre Match—Local Marksmen Win Prizes.

The tie shoot for the gold medal in the City of Toronto match at Long Branch yesterday was the sensational feature of this year's Ontario Rifle Association matches. When the second stage of the match was shot off on Wednesday Corporal McGregor, of the Governor-General's Foot Guards and Pte. Freeman of the 13th (Hamilton) Regiment both made possibles, and it was decided to shoot off the tie yesterday afternoon after the arrival of the special train from Toronto.

Great interest was manifested in the event, and at the time fixed for the struggle for supremacy a large crowd assembled at the 800 yards range. The Lieut.-Governor, Speaker St. John, Mr. E. B. Osler, the President of the association, and the other distinguished guests at the luncheon were interested spectators, and the presence of such a company was in itself sufficient to try the nerves of the competitors.

A Close Contest.

McGregor opened with two bulls, but though Freeman scored a bull with his first shot the only put on a magpie at his second attempt, thus giving his opponent the lead. McGregor's third and fourth shots were an inner and a bull, while Freeman improved his position with a couple of bulls, so that before the firing of the final round the score stood 19 to 18 in McGregor's favour.

Freeman made another bull with his final shot, and the interest became intense as McGregor took his aim for what was expected to be the deciding point. He only made an inner, however, leaving the score even, hence another tie. The range officer then ordered the contestants to fire off the tie shot by shot, and the excitement grew when on the sixth shot each man hit the bullseye. On the seventh, eighth and ninth shots both men scored bulls. Freeman shot first for the tenth round and made another bull, but McGregor failed to come equal with his opponent, and going down with an inner lost the tie.

Twenty-eight Possibles.

There was some remarkable scoring in the El Padre match at the 500 yards range in the morning. There are forty prizes, and the twenty-eight competitors all made possibles of 25. As an evidence of the excellence of the shooting it may be mentioned that of the forty prizes the lowest score was 24 out of a possible 25.

Winner Receives Ovation.

Freeman was accorded an ovation for his victory, and received hearty congratulations from all around, the Lieutenant-Governor, Speaker St. John, the President of the Association, and many of the officers being amongst the first to give him a hearty handshake. He was subsequently chaired and taken back to his tent amidst the cheers of his comrades, members of all regiments joining in the greetings. McGregor is an old and consistent shot, but Freeman is a comparatively young hand at the target.

The weather yesterday was not so bright as on the preceding days, but the light was good, and the wind, which was from the North-east, was favourable. A large number of people from Toronto availed themselves of the opportunity afforded by the special train to visit the ranges, and the Highlanders Band enlivened the proceedings with an excellent programme of music.

Our local marksmen also got on for good prizes. Private George Fitzgerald of the Fifty-seventh, won $3, City of Toronto aggregate, and a prize of $4 in the Tart-Brassey match. Colour-Sergt. Moore made quite a collection — $4 in the City of Toronto aggregate; $4 in the extra series; and $4 in the Mackenzie match.

ALFONSO DOOMED MARRIAGE OFF

He Probably Will Prove a Consumptive.

Thought of Match With Spain's Pallid Boy Ruler Intensely Repugnant to Prince Patricia.

Madrid, Aug. 23.—Further concealment of the physical and mental condition of King Alfonso being impossible, Dr. Mata, private chaplain to the royal family, admitted to-day that the youthful monarch probably would prove a consumptive, and that his marriage to the robust Princess Patricia of Connaught never would take place, as all negotiations for a martial union had been broken off by King Edward of England, following a report of two physicians, members of Alfonso's suite, when he was a visitor in England.

Thus ends all hope that the royal line in Spain will be continued in direct descent. The King's father died at 28, with all the evidences of extreme old age, following a life of wild dissipation, which his frail physique was unable to withstand. Alfonso was a posthumous child, born six months after his father's death, and inherited all his weaknesses.

The suggestion of marriage to the pallid, nerveless boy King of Spain was intensely repugnant to the healthy young woman who had been selected as his bride, but royal matings permit no denial if the alliance be an affair of statecraft. If the doctors had made a favourable report, instead of telling the truth, the Princess Patricia in all probability would have been joined for life to a weakly youth, incapable of grasping his own responsibilities or assuming them, and with almost a certainty of early death.

Following the accepted programme of deception which Spain has observed for centuries as to its rulers, Alfonso has been represented to be vigorous, and possessed of an alert and active mentality, when he possessed neither. So completely were the people deceived that the anarchists feared he might become a power in the kingdom, and sought his life. In last May an attempt was made to assassinate him in Paris when he was riding in a carriage with President Loubet. A bomb was thrown and fifteen persons were injured. The young King and Loubet escaped injury. That Alfonso did not realize his peril was shown in the flippant utterances he made, which were transformed into grandiloquent expressions by his courtiers.

When the Spanish ruler went to England, following the attempt on his life, he took more interest in feeding the monkeys in the Zoological Gardens than in attempting to understand questions of statecraft. There were many reports of a marriage engagements. His mother was said to favour the Archduchess Gabrielle of Austria, and the King himself was reputed as looking lovingly on the Princess Victoria Louise of Germany, if she would consent to embrace his religious faith. But all that gossip narrowed down to the Princess Patricia of Connaught, and the people of England were really brought to believe it would be a match, knowing nothing of the inquiry set on foot by their sovereign. The only wonder of it all is that the truth could have been suppressed so long.

An Expensive Incorrigible.

Michael Crowley, of Brantford, Eng., has proved an expensive incorrigible to the guardians of his parish. He has cost the guardians up to the present $1,455, and has just been sentenced to twelve months' hard labour at the Middlesex sessions for breaches of the law.

Public Swimming Baths.

London, Ont., has joined the provincial centres of population that have decided to provide swimming facilities for boys and others. Spaces are to be allotted for the purpose in the river and laid out with ropes, and shanties are to be put up for the bathers to undress and dress in.

A Manitoba Suicide.

At Rosser yesterday afternoon, Victor Grifstafson, employed in a C. P. R. Work train, committed suicide by shooting himself through the head. He had been despondent since the death of his brother in a railway accident on July 31.

Negro Millionaire.

The only negro millionaire in America was in attendance at the convention of negro business men in New York the past week. He is P. J. Groves, of Grovestown, Kansas, and is known as the "Potato King." Mr. Groves practically established the town which now bears his name. He owns nearly all the telephone, street railway and banking properties of the town, and besides has thousands of acres of land under cultivation in the surrounding country.

To Cure Leprosy.

What appears to be a well authenticated instance of the cure of leprosy by X-Rays has been found in Manila. A few weeks ago a patient who had been afflicted with leprosy and who had been under treatment for that disease, died of liver complications. After the patient's death every part of the body was submitted to searching microscopic examination by bacteriologists, but not the slightest trace of leprosy could be found. Dr. H. Wilkinson, physician who treated the patient for leprosy, is a graduate of the University of Virginia.

Miss Wand, of Peterborough, is the guest of the Misses McQuade, Sturgeon street.....Mrs. T. B. Kennedy and son, Harold, of Peterborough, were the guests of Mr. and Mrs. T. Kennedy on Sunday.—Omemee Mirror.

C.P.R. PROTESTS G.T.P

Claims That Location of Road Brings Lines Too Close.

A VIOLATION OF THE ACT

Claim That National Transcontinental Railway From Portage in Prairie to Touchwood Hills is Within Ten Miles of the Canadian Pacific Line—Holds Government's Intention Was at Least Thirty.

Montreal, Aug. 25.—The Canadian Pacific Railway Co. have addressed to the Governor-in-Council a strongly-worded protest against the Grand Trunk Pacific route between Portage in Prairie and Touchwood Hills, the section for which the contract was awarded Wednesday.

The C. P. R. considers that this part of the G. T. P. route is a violation of the act of Parliament constituting the new company. It is also contended that the location so far decided upon by the Grand Trunk Pacific is contrary to the letter and spirit of the Government's policy, expressed in Parliament and on the platform by members of the Cabinet and their supporters.

The protest of the Canadian Pacific is based on the claim that the line as located from Portage in Prairie west for 175 miles is at no time more than ten miles from the main line of the C. P. R. or its branches. This being the case there is no new territory to serve and no need of a new railway. It is held that the intention of the Government was to keep the Transcontinental railway at least thirty miles apart.

FAMILY FEUD OF YEARS' STANDING

IN THE QUIET TOWNSHIP OF DUMMER

RESULTS IN MURDER OF THOMAS HILL

One of the Most Atrocious Crimes Ever Recorded in Canada Was That by Which an Innocent Twelve Year-Old Boy is Shot Down by a Mob---Parents and Brothers of the Murdered Boy Claim to Have Identified the Perpetrators of the Deed---Five Men and a Boy Said to Have Awakened the Ill-Fated Family by Yells and Then Shot With Deadly Aim---Quarrels Commencing With Death of Three Cattle Have Aroused Bitter Hatred Between Three Families---Mrs. Hill Tells the Horrible Details of the Murder of Her Son---The Story Corroborated---The Accused Men Have Other Stories---Inquest Opened This Morning.

A Family Quarrel, Engendered it is Said, by rival and conflicting property interests is the Alleged Cause of the Horrible Murder in Cold Blood of the 12 Year-Old Son of Robert Hill, Which Occurred in Dummer Thursday Night, Near Midnight--Other Members of the Family Had Narrow Escapes.

The story of a family quarrel, extending over a period of years, and, gradually broadening, in its influence, until it included those who originally were not interested in the matter, except as outside spectators, is that which is credited with having led to the brutal murder of little Thomas Edward Hill, on Thursday night, between eleven and twelve o'clock, in the house of Mr. Robert Hill, father of the murdered boy, who now lies cold and stiff, with the bloody path of the cruel leaden bullet through his body, the innocent victim of a feud, which involved the families of the Hills, Dewarts and Murphys, and which, as time progressed, has been waxing warmer and warmer, and which many predicted would end, as it now unhappily, appears to have done in the death of one of the families interested. The most distressing feature of the sad affair, however, is the fact that the victim is entirely innocent of any wrong-doing, and this is but another evidence of the truth of the statement that frequently the innocent suffer for the sins of the guilty.

Bright Life Destroyed.

Thomas Edward Hill was born in Dummer Township on November 25, 1893, so that if he had lived until that date this year he would have twelve years old; and a bright boy he was. Although he had only the meagre opportunities of attending school, which life on a farm in the wilds of Dummer afforded, Thomas was in the third reader, and was a remarkably studious child. He was looked upon by the other members of the family as the one best adapted for educational pursuits, and one of his older brothers tearfully told the Examiner representative yesterday that they hoped to make a school teacher out of him, in their estimation the highest position almost to which it was possible to attain.

Who is the Murderer?

To-day the death of Thomas Hill is forming the subject of a coroner's inquest, and there is little doubt that the verdict, when all the evidence has been gathered, will be "Murder," but by whom, and for what motive? That's the question. This is where the story of the feud seems to come in.

How Thomas Edward Hill Was Murdered

The story of the murder of Thomas Edward Hill, as told by the mother and brothers of the unfortunate lad, is that on Thursday night, at 11.35, the family was awakened by wild yells uttered by voices on the road opposite the Hill homestead, which is situated about seven miles north-east of Warsaw, in one of the most lonesome parts of the whole township. Among the cries then heard was this: 'Hurrah! a mob! a mob!" The moon was just then rising, and the voices rang out clear upon the night air.

There were in the house at the time Mr. and Mrs. Hill, four sons and two daughters, the whole family, in fact. Upon hearing the yells,

ROBERT HILL,
Father of Thomas Edward Hill, the Murdered Boy.

they were of course startled, and arose out of bed.

A Terrified Family.

In a wing facing the south, Mr. and Mrs. Hill slept in the room downstairs, and some of the children in a room directly above it. In this room were the dead boy, Thomas Edward, and Mabel, aged nine years. Upon hearing the noise these two children got out of bed, and went to the window facing the south. The boy, standing partly behind his sister, raised the window blind, when at that instant a Winchester repeating rifle, in the hands of someone standing on a slight knoll about 100 yards south west of the house, vomited its fire of lead, the bullet first striking the girl's hand, which was resting on the window sill, and, cutting along the back of her hand, entered the body of her brother standing behind her, above the heart, on the left side, and, emerging from the back, partly buried itself in the bed-post, five feet away.

Bullet's Fatal Work.

The boy fell to the floor, blood streaming from his nose and mouth, and from the two bullet holes in his body.

Meanwhile, another scene was being enacted downstairs. The parents all unconscious that upstairs a tragedy had occurred, were also up, and the eldest boy, William Henry, running downstairs, had secured a rifle, which was hanging on the wall, and was hastily loading it, intending, if possible, to protect the family from they knew not whom.

A Narrow Escape.

The boy emerged from a door facing the south, and opening out upon a covered 'stoop," or verandah, but just as he opened the door the rifle from the road outside spoke again, and Mrs. Hill pulled her son back just in time to prevent another bullet which, had he not moved, would have struck him, but which hit the clapboards of the house, ploughing a furrow along it, and, glancing off, imbedded itself in the door post.

Murder Intended.

A third shot was fired, and this struck the south end of the house, between the window in Mr. and Mrs. Hill's room and the corner, directly on a line with the bed, and buried itself in a scantling. From the angle at which this bullet entered the boards it can be seen that the shot was fired from a different point from the other two, an indication of the fact that there were at least two men with rifles there. The deadly aim, only the dim light afforded by the pale light of the stars, and the moon, affording an opportunity of

MRS. ROBERT HILL,
Nee Dewart, Mother of the Murdered Boy.

seeing where they were shooting, was evidence of the fact that the men who handled the rifles were marksmen.

"Tommy's Dead!"

By this time the whole family were in perfect terror. William, the eldest boy, who had so narrowly escaping hands the rifle, which he had not been able to load, and the other members of the family were gathering around their parents and the older children for protection, all except Mabel and Thomas Edward. They were not there, but presently the stair door opened, and Mabel, her night dress covered with blood, and the same red fluid streaming from her hand, entered the room, and between her sobs of pain, said: "Oh, mother, I'm shot and bleeding, but Tommy is dead!"

This announcement threw the family into fresh terror, because they had thought that with Willie's escape they were safe.

"I'm Shot! I'm Dying!"

The mother, always the first on the spot when her offspring are in danger, hastened up the stairs and into the room where but a few minutes before her boy was sleeping peacefully, only to find him lying in a pool of blood, and blood rushing out of his mouth. His only words were "Mother, I'm shot! I'm dying!" and as he uttered these words the blood choked him, and he fell back dead, his lifeless form being carried downstairs by his father.

An examination of the injury to the little girl showed that it was not serious, and her hand was washed and dressed as well as possible.

The Murderer Recognized.

In the second rifle discharge the face of the holder of the weapon was

(Continued on 2nd page.)

MURDERER OF HILL BOY

HAS CONFESSED AND IS

IN CLUTCHES OF THE LAW

Charles Gow, a Son of John Gow, a Former Resident of Ashburnham, and a Very Highly Respected Man—Gives Himself Into High County Constable's Hands—Has Confessed and Says That it Was Simply a Youth's Prank—Had No Ill Feeling for the Hill's and Shot at Random---Was Out With the Murphy and Dewart Boys Thursday Night.

Later—Some sensational developments are reportted from the scene of the Dummer tragedy, and the new story proves all the other theories to be, in some details, false.

This forenoon, before the coroner, Dr. Grey, and Mr. R. E. Wood, County Crown Attorney reached Warsaw on their way to the Hill farm. Mr. Cochrane, the High County Constable, who remained in Warsaw over night, had the guilty party under arrest, and the most remarkable fact in connection with the whole affair is that the man came in and gave himself into the constable's hands, making a complete confession of his guilt.

Instead of the murderer being one of the Murphy boys, as was affirmed by the Hill people, he was a man who was not even mentioned in connection with the affair.

The man who this morning made a full confession of his guilt is Mr. Charles Gow, a son of Mr. John Gow, one of the most highly respected residents of Dummer Township. Mr. Gow's farm is on the road between Warsaw and Mr. Hill's farm, and the son, who is now in custody, has always borne a very high reputation. He is an expert marksman, and expected to leave in a few days for Ottawa, where he was to take part in the D. R. A. matches.

He is feeling very badly over the affair, and claims that it was the result of a pure boyish prank, and not of premeditated intent.

He states that he was out with the Murphy and Dewart boys, mentioned as having been seen by the Hill people on the road, and was driving in a buggy, when they got to the Hill home he

Dr. Hugo's Health Tablets for

Women

Medicines, sold alike for men and women, never contain what will do a woman the most good, that is, the uterine and other female tonics. Such medicines may relieve for a little but that is all.

They do not cure, because they do not reach the cause of nine-tenths of the ills of women.

Women need a remedy compounded for their special needs, Dr. Hugo's Health Tablets for Women are such a medicine.

They are a special remedy compounded by a specialist for a special purpose. The specialist is Dr. Hugo, of Paris, who perhaps knows more about the needs of women to-day than any other living physician. Their special purpose is to cure the ills of women and them alone. They are not for men.

Are Just for Women.

QUARTER OF A CENTURY AGO

Interesting Extracts From The Examiner of 25 Years Ago.

The Examiner continues to-day the publication of a series of news items taken from the files of this paper, published in the corresponding week of 1880:

• • • •

A number of the men employed on the Grand Junction Railway construction near town, struck work a few days ago on account of the usual semi-monthly pay not being forthcoming.

• • • •

The World is the name of a new evening paper just published at Toronto. It is modest in size and appearance, but has the promise of a good future before it.

• • • •

The store of Mr. George Wiggs at Allandale was burglarized last week. Tramps are suspected.

• • • •

Mr. Jas. Howden has just shipped 350 sheep to England.

• • • •

The old culverts on the portion of the Cobourg Railway in Ashburnham to be used by the Grand Junction are being replaced by new ones.

• • • •

The Millbrook Railway between Millbrook and Peterborough is being laid with steel rails.

For Strenuous Life

it is necessary to have your system in good working order—to have an energy born of perfect health and strength—it is imperative that each organ be kept in free action, and BEECHAM'S PILLS are foremost of the few things that will do it.

For Active Brains

your liver must be right, your stomach in a healthy condition and your kidneys properly performing their peculiar functions, or your body won't stand the strain and your brain won't be active. If you would have a clear head and keen perception, get a box of BEECHAM'S PILLS, use them and see how much more alive you will be.

For Perfect Health

there is no greater promoter than these famous Pills. You will find it so all over the world, and, mark you, the most perfect specimens of manhood, womanhood and childhood are the users of

BEECHAM'S PILLS

Prepared only by Thomas Beecham, St. Helens, England.
Sold everywhere in Canada and U. S. America. In boxes, 25 cents.

FAMILY FEUD OF YEAR'S STANDING

IN THE TOWNSHIP OF DUMMER

RESULTS IN MURDER OF T. HILL

Continued from First Page.

seen and recognized by two members of the Hill family, who state positively that the man was Stewart Murphy, a son of John Murphy, who lives only about half a mile from the scene of the tragedy.

They also state that they recognized the other men comprising the mob, and these are the names given:

WILLIAM MURPHY,
STEWART MURPHY,
JAMES DEWART,
EDWARD DEWART,
WILLIAM DEWART,
GEORGE GALLAGHER.

The Dewart boys mentioned are sons of Mr. John Dewart, who lives about a mile south-west of the Hill home, and George Gallagher is a boy about 14 years of age, who lives with the two Dewart boys, James and William, who do not live with their father, but who live on the same road as the Hills, only a mile or so north. These two Dewart boys live there, their sister keeping house for them, and work a farm, between which and Hills there is only a side road.

The Hill boys state that they are positive that those mentioned were there, and the boy, George Gallagher called out, "Shoot them there —bring them out in their shirts!"

The Hill Homestead at Which the Tragic Deed Occurred. The Numbers Denote the Location of the Bullets.

Shot From a Knoll.

According to the Hills' story, the men were not together in a bunch. The man who did the shooting was on a little hill south of the house, while the others were scattered between that point and the gate, a distance of about one hundred yards.

After the three shots had been fired the men withdrew to their homes, presumably, and the Hills were unmolested for the rest of the night.

But for the elder members of the family, rest was out of the question. They had become so terrorized over the tragedy that sleep was to them impossible. The dead boy was washed and laid out on cloths in the room occupied as a bedroom by Mr. and Mrs. Hill, and the younger children were sent off to bed again.

An Anxious Wait.

The rest of the night was passed in an anxious wait for morning, for Mr. Hill was afraid to start out for a doctor until daylight because he feared that the murderers might still be prowling around and might empty a rifle shell into his body.

About six o'clock, however, he started off to Norwood to get a doctor. Warsaw was a couple of miles nearer than Norwood, but to go to Warsaw he would have to pass the house of the Dewarts, and this he asserted was afraid to do. Arriving at Norwood Mr. Hill, it appears, was unable to get a doctor there, and telephoned to Warsaw to Dr. Douglas, who at once went to the scene of the murder. He dressed the wounds of the girl, but of course the boy was past human aid, and all that could be done for him was to prepare his body for the burial. After administering such medical comfort as was possible, the doctor left, and the next visitors Mrs. Hill had were the representatives of the Examiner to whom she told the story, as given, punctuating her statements by exclamations of "God knows what I say is true."

Mrs. Hill's Serious Condition.

Mrs. Hill was in a state bordering upon collapse, the horrible events of the night through which she had just passed having told on her severely. She was, however, very willing to give the facts of the case as far as she knew them to the Examiner, and told how she had tried to avert the quarrels between her family and those of the Dewarts and Murphys.

Family Fued Which Leads To Dredful Results

The story of the events which have led up to the Hill murder lays bare one of the bitterest family feuds which has ever existed in this county, if not in the whole of the Province of Ontario.

Mrs. Hill is the daughter of the late John Dewart, Sr., who was a brother of the late Rev. Dr. Dewart's father, so that the late reverend gentleman and Mrs. Hill were first cousins. The settlement is a Dewart settlement, Mrs. Hill's father owing large tracts of land in that section of Dummer, and her brothers at present are extensive land owners in the same part of the township.

Owned Two Farms.

At the time of their marriage, about twenty years ago, Mr. and Mrs Hill moved on to the farm directly north of, and adjoining that upon which they now reside, and, about two years ago, when Mrs. Hill bought the 40 acre farm upon which they now live, they moved to it, because of the fact that the buildings were of a better quality than those on the other farm.

According to the story which Mrs. Hill tells, the Dewarts were anxious to secure the Hill property, and she further states that after having made them an offer of $1,900, which was refused, the Dewarts proceeded to make things uncomfortable for the Hills. The story of the struggles which Mr. and Mrs. Hill have had in their efforts to get their land paid for are interesting, and almost pathetic. The original farm consisted of about eighty acres, and this is owned by Mr. Hill, and is all paid for except $500. The second purchase was made by Mrs. Hill, and includes forty acres directly south of that owned by her husband, and she states that she has now paid for this in full. She describes the difficulties which they encountered in their efforts to clear the farm of debt, paying it off a little at a time until at last, on the forty acres there was only $300 left. "This may not seem much to you," remarked Mrs. Hill through her tears, which during the progress of the two hour interview were falling fast, "but it means a lot to us because we are poor people."

Room in Which the Boy Was Murdered Showing Course of the Bullet. X Marks the Spot Where He Fell.

Greed the Cause.

Mr. Hill believes, according to her story that the whole trouble has been caused by the desire of her nephews, the Dewart boys to secure possession of the Hill farm, and failing to come to terms they determined to make things so miserable for them that they would have to get out.

About a year ago, however, the feud broke out into activity, and since that time it has been growing more and more bitter, and the comment among the neighbours, who have witnessed it has been that it would eventually end in murder, and it appears that those prophecies have been verified by the result. In August of last year three cattle belonging to the Dewart family were found dead on the roadside, and were supposed to be poisoned. The Hills say that the Dewarts, secretly at first, and afterwards more openly accused them of having given the cattle the fatal dose. This, of course, angered the Hills, and they had some warm words over the matter. Later some other animals were found dead, and again it was said that "the Hills had done it." This condition of affairs continued to become more aggravated, and Mrs. Hill claims that as she or members of her family would pass the Dewarts' home they would be jeered at, and insulting names were hurled at them. She, in particular seemed to be the subject for many uncomfortable remarks, some of them casting reflections upon her morals. An explanation of why she bore this without complaining to the authorities is that she did not wish to go to law, believing that perhaps in time the matter would pass over, and, in order to try and keep her husband and sons from meeting the Dewarts, she did most of the shopping herself, trying to keep the men folks as much at home as possible.

An Assault.

On the second of December, last, however, the matter came to a head. On that day, Willie Hill, the eldest son, with two of the younger boys, one of them the dead boy, was on his way to Warsaw to purchase warm clothes for winter and to get the horses shod. When he was passing the Dewart home, James, the eldest son, came out to the sleigh and stopped him, offering to fight. Young Hill, however, was not that way inclined, feeling that he was no match in strength for the 30-year-old man, who had challenged him, and, believing that discretion was the better part of valour, he discarded his heavy winter overcoat, and ran from Dewart. The latter, however, caught him, it appears, and, throwing a stone hit him on the head, and pounded him unmercifully, according to the story of the boy and his mother. It seems that he had a ten dollar bill in his pocket, in a purse, all the money there was in the house, and with this money he was going to make his purchases. He states that in addition to pounding him, James Dewart took the purse containing the money and refused to return it.

The outcome of this was that Dewart was summoned for assault and was fined twenty dollars and costs, amounting in all to fifty dollars, by Police Magistrate Edmison, the trial taking place in Norwood. As may be imagined, this only served to intensify the hatred which had by this time been engendered between the two families, and from this time on the altercations were more frequent.

Remains of the Murdered Boy, As He Lay Awaiting the Arrival of the Coroner.

The Murphys Appear.

Then, according to Mrs. Hill, the Murphys appeared on the scene. She states that they had no direct quarrel, but were brought into it by the Dewarts, with whom they sided, at first secretly, and afterwards openly. Murphys had a dog which died, mysteriously, and this was charged against the Hills, though the latter state most positively, as they also do in reference to the cattle, that they knew nothing about the animals dying.

More recently, at a manure bee, Mrs. Hill affirms, her brother, John Dewart was heard to say that if another of his animals died he would hang Bob Hill, her husband, and on Aug. 8th, the Murphy boys are reported to have threatened that they would shoot him. Mrs. Hill did not however, ever think, she says, that these threats would be ever be carried out. She says that she would not have been surprised if the barns had been burned, in fact she says that the enemies of the family were responsible for the insurance being taken off the buildings three times.

Not the First Attempt.

It appears, according to Mrs. Hill's story, that this is not the first time that they have been fired at. On one occasion her husband, along with one or two of the smaller children were driving along the road on the milk wagon, when two shots were discharged in their direction, though they were not in a position to see who the persons were who fired them shots. On other occasions too, she states, the boys have had narrow escapes from what she declares were attempts to murder them. Once the oldest boy was picking stones near the road, and, one of the Dewarts passing along attacked him fiercely. It happened that her husband was near at hand, and ran to the rescue, however, and bloodshed was averted.

Instances of a similar character could be supplied almost without number, from information furnished by Mrs. Hill, who solemnly declared that God was her witness that she was telling the truth, but enough has been said to show the feeling which has existed between first the the two families, and gradually involving the third, and which now has culminated in the perpetration of one of the most diabolical deeds ever recorded in the annals of Canadian crimes.

The Hill family, with the date of their birth, as furnished from the back of the family Bible as composed as follows:—

William Henry, born May 7 30th, 1886.

Kate Maud, born Aug. 1888, (dead.)

Robert Davis, born Aug. 1st, 1890.

Kate Maud, born April 4th, 1892.

Thomas Edward, born November 25th, 1893, (the dead boy.)

Mabel, born April 1st, 1896.

Russell, Sept. 17th, 1899.

The house in which the family lives is a frame structure, and compares favourably in appearance, both interior and exterior with the general run of houses in that vicinity. In fact it is greatly superior to many of them.

The Dewarts' Part in the Family Fued

The part which the Dewart family has taken in this tragic affair appears to have been a somewhat prominent one, judging by the evidence submitted by Mrs. Hill and her sons submitted by Mrs. Hill and her to both interests, the Examiner gives statement of the case as presented by the Dewarts. Yesterday all the male members of the Dewart family were employed in hauling in peas, which were being pulled by the sister of the boys who keeps house for aJmes and William. The Examiner representatives called in to the Dewart homestead on the outward journey, not knowing then anything of the details of the shooting, to ask for information. This house is about a mile from the Hill home, and it was naturally thought that since such a murder had been committed within such a short distance from home they would know some of the details. Upon being asked for information, however, they stated that they knew nothing whatever about it, and did not know, in fact, that anything unusual had occurred the night before.

They Wanted News.

Upon leaving to proceed to the Hill's, the elder Dewart, Mrs. Hill's

B. SHORTLY

Sign of Horse at the Door

—About half past twelve to-day a severe windstorm, with all the force and appearance of a miniature cyclone passed over the northern part of the city. No damage was done beyond the discomfort caused by the dust clouds of flying dust.

Stony Lake Happenings

Stony Lake, Aug. 24.—Mr. W. G. Ferguson went down to the city this afternoon.

Dr. Connors, of Pittsburgh, took the round trip on the lakes to-day.

Mr. J. B. McWilliams came up to Tecumseh Lodge this afternoon.

Rev. Dr. Torrance is a guest at Hewlands.

Mr. Herb. Routley and Mr. J. Fraser, who have been spending a week at Rockport, returned home to-day.

Mr. L. J. Montgomery, of Lakefield, is a guest at South Beach Hotel.

Miss Edith A. Finley, of New York, and Miss Minnie M. Craig, of Peterborough, are guests of Mrs. Barrie at Ispeming.

Miss Helen E. Howson, of Peterborough; Mr. P. B. Thornton, of Colbourne, and Mr. D. W. Marshall, of Milton, are guests at Ojai.

Mr. Harry Leahy, of Lakefield, is at Raybourne for a time.

Dr. S. P. Ford, Norwood, Dr. and Mrs. T. L. Perrin, New York, Mrs. H. E. Ford, Washington, Pa., Mrs. E. S. Hugill and Miss E. K. Hugill, are guests at Killarney.

Miss Jessie Starr, of Toronto, Miss Gladys Cameron and Miss Mary M. Gibson, of Peterborough, are guests of Miss Helen Routley at Rockport.

Miss A. Finney, of Peterborough, is spending a few days at Sandy Bay.

Mr. C. E. Lightfoot, of Peterborough, is a guest at Viamede.

Mr. Graham Weir went down to the city to-day.

Mr. and Mrs. W. K. Greenwood, of Toronto, are guests at Burleigh Falls Inn.

Mr. Robt. Hall returned to Peterborough this afternoon.

Mr. Ira Snelgrove, of Toronto, came up to Victoria House last evening.

Miss Simon, of Cleveland, O., was a guest at Ethelina on Thursday.

The up-boat this morning had on board the St. John's Sunday School excursion from Lakefield.

An excursion on the Asturion came down from Bridgenorth to-day. Dinner was served at Mt. Julian.

Rev. Mr. Clokey, of Pittsburgh, who is camped on Juniper Island, had a very successful day's fishing at White Lake to-day. His catch numbered twenty bass, six of which weighed nearly three pounds each.

Mr. W. Thompson, of Peterborough, who is at the Victoria House, caught a fine lunge this morning.

Although there are some good catches of fish being reported on the lakes this week, there are none that can qualify in the same class as that of Miss Alberta Gooding, neice of Mrs. J. R. Stratton, who again to-day was successful in catching within one hundred yards of Strathormond-on-the-Lake a beautiful maskinonge which weighed in the neighbourhood of ten pounds.

A birthday party was held on Juniper Island this evening in honour of Mr. A. H. Smith, of Cleveland. A large bonfire had been prepared around which the guests gathered.

Croup Absolutely Cured.

"There is no remedy in my opinion, that can act more promptly than Dr. Chase's Syrup of Linseed and Turpentine. It cured my son of croup, absolutely, in one night. We gave him a dose when he was black in the face with choking. It gave him instant relief and cure."—Mr. Wm. McGee, 49 Wright avenue, Toronto, Ont.

Miss N. A. Buck, a member of the teaching staff of the public schools, in New York City, is visiting Miss M. O'Brien, Rubidge street.

ALL IT NEEDED

There is more real oxygen in a liquified form in the "solution of Ozone (the coupon kind)" than in any other preparation of a similar nature. As a prompt cure in the killing of all inside germs of thirst, lungs, stomach or bowels, it has no equal when coupled with "Celery King" the famous laxative. That the stringent Ozone needed a tonic of this nature to procure the best results was so apparent that the Public Drug Co., of Bridgeburg, Ont., offer through your druggist a free package of "Celery King" with every fifty cent or one dollar bottle of "solution of Ozone (the coupon kind." Sold by W B. WARNE.

MURDERER OF HILL BOY

HAS CONFESSED AND IS IN CLUTCHES OF THE LAW

(Continued From 1st Page.)

took out his rifle, and began to shoot indescriminately without intending to hit anyone, or without entertaining any hard feelings towards the Hill family. He had no idea that his shot had taken such fatal effect.

It appears that the people of that vicinity have a habit of using firearms without any special care being taken as to where they will take effect, and Mr. Gow was simply acting in accordance with the general custom of the people, and nothing special was thought of it, until it was learned, that a boy was dead as a result of his use of arms.

Mr. Gow was greatly worked up over the matter and came to Warsaw early this morning to make a full confession of his part in the affair, and to give himself into the hands of the police, which was undoubtedly his wisest course to pursue.

He feels very keenly the trouble which his rash act has brought the Hill family.

The Gow family at one time resided in Ashburnham, and were very highly respected. There are many persons in Peterborough to-day who remember very well the Gow family and they will be very sorry to learn of the trouble which has thus been launched upon them, by the thoughtless act of the son, who until now has always borne a very high character.

The inquest will be proceeded with, but the confession of Mr. Gow will no doubt simplify to a considerable extent the work of the coroner.

In the meantime Mr. Gow is being held in custody, pending the result of the inquest.

Much sympathy will be felt for the family, as they are held in very high regard by their neighbours and in fact by all who know them.

CHARLES GOW IS EXHONORATED BY CORONER'S JURY

Inquest Concluded This Afternoon---Evidence Disclosed the Fact That Gow and Dewart Were First Fired Upon From Hill Residence While Passing n Buggy---Gow Fired Three Random Shots---Funeral of Thomas Edward Hill To-morrow.

The inquest touching the death of Thomas Edward Hill was concluded at Warsaw this afternoon.

After a number of witnesses, including two of the sons of Robert Hill, Charles Gow, Edward Dewart, Stewart and William Murphy, and George Gallagher, had been examined, the jury retired, and upon their return brought in a verdict exonerating Charles Gow, the young man who this morning surrendered himself to the authorities, with the confession that he had fired the fatal shots.

The jury was empannelled this morning, as follows, by Coroner Grey:

John Wason, foreman; G. W. Reid, P. Fitzpatrick, Edwin Hamblin, Levi Payne, John W. Lynn, Thos. Doughty, Bruce Douglas, Thomas Clements, William Crowe, John Moore, Glen. Douglas, John R. Payne, Jas. H. Clifford.

The jury returned the following verdict:

"We the undersigned members of the jury, after hearing the evidence, and examining the paths of the bullets, find that Thomas E. Hill, came to his death by a rifle fired by some unknown party. We further exonerate Charles Gow from blame in connection.

"(Signed) JOHN WASON,
"Foreman."

The evidence taken from the five men implicated went to prove conclusively that upon the road on the night of the occurrence were Charles Gow and Edward Dewart, who were driving in a buggy, while a short distance ahead, on foot, were Stewart and William Murphy and George Gallagher. As the latter three passed the Hill residence they cheerde, and immediately following this a shot was fired at the buggy, supposedly by one of the Hills from the front of the house.

Gow at once fired three shots entirely at random. This was the substance of the confession made this morning. The Hill boy in giving evidence, admitted having come down the stairs, bringing with him a rifle.

Other evidence went to show that in the Hill residence are three shot guns, a rifle and a revolver.

The evidence of the five young men was unanimous regarding the incidents of the fatal night.

The funeral of the deceased boy will take place to-morrow to the Norwood cemetery.

TRACTION ENGINE SANK IN SAND

United Efforts of Twenty Men Required to Extricate It.

Improvement to Roads is Imperative in Order That Heavy Engines May Move With Safety.

An accident occasioning much trouble and loss of time occurred some days ago at the sand-hills, below Blezard's Station, upon the boundary line between Asphodel and Otonabee Townships, when a traction engine, the property of Mr. H. Nelson, of Otonabee, sank in the soft lap of Mother Earth to such an extent that it became impossible to extricate it.

The huge machine was at the time being removed from one farm to another for threshing purposes, and it required the united exertions of about twenty men to remove it from its position, this finally being accomplished with extreme difficulty.

A gentleman who witnessed the accident called upon the Examiner this morning and states that upon many spots the roads require considerable improvement in order to allow the heavy engines to pass over in safety. Upon many occasions much delay and expense are incurred by reason of their condition.

SUFFERED TORTURE FOR FOUR YEARS

Then Dodd's Kidney Pills Cured Wm. Doeg's Rheumatism

He was so Bad that He Could not Lie Down, but had to Sit Night and Day in a Chair.

Sundridge, Ont., Aug. 25.—(Special)—Mr. William Doeg, of this place, now a hale, hearty man, tells of his almost miraculous cure of Rheumatism by using Dodd's Kidney Pills.

"For four years I suffered excruciating torture," says Mr. Doeg. "I was scarcely an hour free from pain. I could not lie down to take rest, but had to sit night and day in a chair."

"I was treated for rheumatism by several doctors, and also tried several medicines without receiving any benefit. Almost in despair, I feared I never again would be free from pain. Then I read of some remarkable cures by Dodd's Kidney Pills. I procured a box and soon found they were doing me good, and before I had finished the second box I was entirely free from pain, and a new man."

Dodd's Kidney Pills always cure Rheumatism by putting the Kidneys in shape to take the cause—Uric Acid—out of the blood.

28 Army Generals Send Letters of Endorsement To The Inventor of the Great Catarrh Remedy, Pe-ru-na.

Brigadier-General King of Confederate Army,

Writes: "I unhesitatingly state that I am convinced Peruna is a medicine that will effect all the cures that is claimed for its use."—J. Floyd King, Washington, D. C.

General Smalls, Beaufort, S. C.,

Writes: "I have used Peruna for catarrhal trouble and find it beneficial and to be all that it promises, and freely give it my unqualified recommendation."—Robert Smalls.

General Abbott, of Washington, D. C.,

Writes: "I am fully convinced that your remedy Peruna is an excellent tonic. Many of my friends have used it with the most beneficial results for coughs, colds and catarrhal trouble."—Ira C. Abbott, 900 M. St., N. W., Washington, D. C.

Captain Yarnell, of Washington, D. C.,

Writes: "Your medicine, Peruna, I believe to be the best medicine for catarrh on the market. I have taken only a small amount, and can see very beneficial results."—W. G. Yarnell, 2322 Lincoln street, N. E., Washington, D. C.

General McBride of U. S. A.,

Writes: "I have no hesitation in recommending Peruna to all persons who are afflicted with catarrhal troubles."—J. D. McBride, 450 Pennsylvania Ave., N. W., Washington, D. C.

General Longstreet of the Confederate Army,

Writes: "I can testify to the merits of Peruna, both as a tonic and a catarrh remedy. Peruna enjoys the greatest reputation as a catarrh remedy of any medicine yet devised."—James Longstreet, Gainesville, Ga.

General Noake of O. V. U.,

Writes: "I commend Peruna to those who are troubled with colds producing catarrh as a most efficacious cure and as a good general tonic."—Chas. F. Noake, 213 B. St., N. W., Washington, D. C.

General Erwin's Recommend.

"Many of my friends have used Peruna as a dyspepsia remedy with the most beneficial results." — John B. Erwin, Washington, D. C.

Brig.-General Schell Benefited.

"Peruna is indeed a wonderful tonic, and for coughs and colds I know of nothing better."—F. M. Schell, Washington, D. C.

General Duffield of the Union Army,

Writes: "I have used Peruna in my family and have found it a valuable medicine, and take pleasure in recommending it to all who suffer from catarrh of the stomach or who require a tonic of efficiency."—The Cairo, Washington, D. C.

General Butler of South Carolina,

Writes: "I can recommend Peruna for dyspepsia and stomach trouble. I have been using your medicine for a short period and I feel very much relieved. It is indeed a wonderful medicine besides a good tonic."—M. C. Butler.

Brigadier-General Kirby

Writes: "I can recommend Peruna to all those who are afflicted with catarrh."—General D. T. Kirby, Washington, D. C.

Gen. Powell, Hooker Post No. 443,

Writes: "After using one bottle of Peruna I became convinced of its curative qualities, and continued its use to date. All symptoms of catarrh have disappeared, yet I continue its moderate use as a preventive, and an old man's tonic."—W. H. Powell, Belleville, Ill.

Gen. Sebring of the Confederate Army,

Writes: "I can cheerfully recommend your valuable remedy Peruna as a very excellent tonic, and also good for coughs, colds, catarrh, and general debility."—W. H. Sebring, 133 W. 4th St., Jacksonville, Fla.

General Lumax of Washington, D. C.,

Writes: "I can cheerfully recommend your remedy as a permanent and effective cure for catarrh, colds and to any one who needs an invigorating tonic to build up their system."—L. L. Lumax, 1003 19th St., Washington, D. C.

Gen. Payne of Washington, D. C.,

Writes: "I join with my comrades in recommending Peruna to my friends as an invigorating tonic to build up the system."—Gen. Eugene B. Payne, 407 4th St., N. W., Washington, D. C.

General Talley of Pa., Vol. U. S. A.,

Writes: "Your Peruna has been used by me and my friends as a relief for catarrhal troubles with the most beneficial results. I am so convinced of the efficacy of Peruna that I do not hesitate to give it my recommendation."—Wm. Cooper Talley, 712 D St., N. E., Washington, D. C.

General Bigelow Cured.

Gen. J. G. Bigelow, 151 C. St., N. W., Washington, D. C., writes:

"Peruna has made me well and it has given me more than ordinary strength and spirit for work."

Gen. O'Beirne of Washington, D. C.,

Writes: "As many of my friends and acquaintances have successfully used your Peruna as a catarrh cure, I feel that it is an effective remedy, and I recommend it as such to those suffering from that disease as a most hopeful source of relief."—James R. O'Beirne, 220 Broadway, Washington, D. C.

General Chase, Ass't Adj. Gen'l, G. A. R.,

Writes: "The excellence of Peruna as a cure or relief for catarrhal disturbances is well established. Many of my friends have been benefited by its use."—B. F. Chase, 28 Harrison St., Anacostia, D. C.

General S. S. Yoder of Ohio,

Writes: "I have found Peruna to be a wonderful remedy. I only used it for a short time and am thoroughly satisfied as to its merits."—S. S. Yoder, Washington, D. C.

General O'Connor of U. V. Legion,

Writes: "If you are suffering from catarrh or physical debility, immediately commence the use of Peruna. It has been of the greatest benefit and service to many of my friends."—Dennis O'Connor, 758 32nd St., N. W., Washington, D. C.

Gen. Wright of the Confederate Army,

Writes: "I take pleasure in recommending Peruna. It is a remarkable medicine and should be used by persons who are in need of a good tonic and by sufferers from catarrh."—Marcus Wright, 1794 Corcoran St., Washington, D. C.

Gen. Hawley of Washington, D. C.,

Writes: "I have used Peruna and find it very beneficial for kidney trouble and especially good for coughs, colds and catarrhal troubles."—A. F. Hawley.

Gen. Urell of Spanish War Veterans,

Writes: "Many of my friends have used Peruna with beneficial results as an effective remedy for catarrh."—M. Emmet Urell, 813 12th St., N. W., Washington, D. C.

Other Army Generals who praise Peruna are:

Brigadier-General Cook of Washington, D. C.
General Symer of Washington, D. C.
General Middleton, Hancock Regiment, U. V. U., Washington, D. C.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

OUR MINERAL DEPOSITS.

In connection with the discovery and development of the extraordinary mineral resources at Cobalt in New Ontario, a grave question has arisen. The exportation of the rich ores mined to New York to be refined is declared by some to involve the risk of placing the new district, as has been done in connection with the Sudbury district, at the mercy of the International Nickel Trust, to which the Canadian Copper Company stands in the relation of a branch. It is said that the New York purchasers in the Cobalt district are connected with the Nickel Trust, and that through this connection the profitable interests in our rich deposits about Cobalt will pass into the hands of foreigners, to the manifest loss of profit to the people of Ontario, who should naturally benefit most largely from the bounty with which nature has endowed us. To get into the hands of the Nickel or any other trust is a calamity which should be, with no little sacrifice, avoided. It is incumbent upon the Government of the Province to do something to protect the interests of the Province. If this does not take the form of an export duty upon ores, which was not deemed wise or practical in connection with the nickel product of the Sudbury deposits, it might well take the form of the establishment of a refinery which would permit of refining being done in this Province with the result of giving employment to Canadian labour and capital, and retaining in the Province the large profit which would come from the refining of the ores of the Cobalt and Sudbury districts in the Province. What benefit will Ontario derive from the possession of a unique deposit of nickel and an unparalleled store of rich ores of Cobalt nickel and silver, if we allow foreigners to skim off and appropriate the cream of the profit of the operation of these deposits?

Dummer Tragedy.

Continued from Second Page.

brother, said, "Be sure and call on your way back, and tell us about it."

After having heard the accusation of Mrs. Hill and her sons, of course, there was greater reason than ever for calling upon the Dewarts on the return trip, and the news that one of the Hill boys had been hurled into eternity during the night was received without exclamations of surprise, which, in itself, is not surprising, since the people in that section are naturally undemonstrative.

The assertion made by Mrs. Hill that they had participated in the affair was derided by the men referred to.

James Dewart stated positively that he knew nothing of the shooting, and that he and his brother had been in the house all the evening. When asked if young Gallagher had been out, he remarked that he had been "in and out," but was certain that he, James and his brother had spent the whole night in the house.

Admit Bad Blood.

They admitted that there had not been the best of feeling between their family and the Hills, but said that Bob Hill was a bad character, and that it had been of frequent occurrence for persons to be shot at with rifles while passing Hill's place. They informed the Examiner that Hill had already served a penitentiary term for attempted murder, and that they always kept a good supply of firearms and ammunition in the place, which they would not hesitate to use on occasion. They denied emphatically that they had ever picked quarrels with the Hills, and affirmed that the latter family was bad, and that they had so terrified the neighbours that no one would go to the house.

A Respected Family.

It was learned from other sources that the Dewarts generally were regarded as a respected family, some of the branches being highly so. It was known, of course, by everyone in the neighbourhood that there was trouble on between the two families, and, as is invariably the case in matters of this kind, there were those who thought that the Hills were in the right, and others who were of the opinion that they were to blame.

An Unenviable Record.

Hill's record in the past has not been one which commends itself highly to those who have known him; and for this reason the present situation in which the family finds itself does not bring with it as much sympathy as it would had it not been generally thought that, to a certain extent, they had brought the trouble on themselves.

On the other hand, while there is no very special strong feeling expressed by anyone, pending the developments which it is expected the inquest will bring, there are none to be found who will sympathize with the perpetrators of the deed, whoever they may be. The feeling they have is that while the Hills may be all they are said to be, there is no indication of circumstances which warrants the murder in cold blood of the innocent eleven-year-old child.

Was Murder The Motive of Shooting?

The opinion is expressed that the intention of the midnight visitors was simply to frighten the Hill family, but there are others who hold different views. They believe that murder was evidently planned, and in support of this theory, point to the fact that every shot fired was placed where it would take effect. The first shot, that which killed the boy, and which injured the girl, was evidently the result of aim, because otherwise, it is hardly probable that a random shot would have had such deadly effect.

Murder Intended.

The second shot, that which was fired from the point nearer the house, entered the end of the house at a point which, if nothing had impeded its progress, would have entered the bed upon which Mr. and Mrs. Hill slept. Fortunately, however, a scantling stud was in its way, and into this it buried itself, a circumstance to which undoubtedly the occupants of the bed owe their lives.

Then the third shot, fired at William Hill, as he stood on the porch and which, but for the fact that the instant the gun was discharged he jumped back, would have struck him, seems to prove further that there was more than a desire to frighten them in the hearts of the persons who fired the shots.

The bullet which glanced along the boards and which buried itself in the door post was taken out by Constable Moore on his arrival, and is now in his possession.

The Constables Making Some Discoveries

Stephen Murphy, the man whom the Hills accused of having fired the the shot which killed Thomas Edward Hill, appears to have taken a comparatively small part in the preceding quarrels. The only specific charge against them, made by Mrs. Hill, is that on August 8 they threatened that they would shoot Robert Hill and his son, William. Whether this threat was an outcome of the suspicion that the Hills were responsible for the death of their dog, seems not to have been very clear, but at any rate this is the only direct charge made against the Murphys. The general statement, however, was made that they were friendly with the Dewart boys, and evidently sympathized with them in their quarrels with the Hills.

Ignorant of Effect of Shooting.

Like the Dewarts, the two Murphy boys were at work all day yesterday, harvesting on a farm owned by them, and situated north of the Hill property, although they lived directly south of Hills. They were very noncommittal when questioned about their actions of the preceding evening. They woul dadmit nor deny nothing.

The general opinion in reference to their family, from information gathered in the neighbourhood, is that they were quiet, respectable people, who attended to their own affairs, and did not, as a general thing, interfere with others. Henry Murphy is the name of the boy's father, and he has resided in Dummer for a number of years.

Machinery of the Law In Motion

Mr. Geo. Cochrane, County High Constable, was the first to arrive on the scene to represent the law, but the Examiner's representatives were first on the spot after the doctor. Mr. Cochrane was at his cottage at Stony Lake, and was communicated with by telephone, with instructions to proceed to the scene oif the murder, and be prepared to serve the notices on the jurymen whom he might select, the notices being sent out from this city by Mr. Archie Moore, who took the train to Norwood, driving from there to the spot. Mr. Cochrane arrived at the house about 3 o'clock, and received a recital of the events leading up to, and including, the shooting, from the members of the family, substantially, as reported above. He examined the house for the bullet holes, and discovered the hole near the window in the room occupied by Mr. and Mrs. Hill.

Were Non-committal.

He afterwards went to see the Murphys and Dewarts, and in both cases was met with a blank refusal to make any statement. Some information was learned, however, and it was of a somewhat damaging character, in that some contradictory explanations were given.

The boy Gallagher was also questioned by the constable, and from him it was learned that during the evening the two Murphys and the two elder Dewart boys visited James Murphy's, an uncle of the two Murphy boys. As to their actions after their return from that place, though, he was not very explicit.

A Terrible Sight.

Mr. Cochrane has now spent 31 years in the pursuit of criminals, and in that time has seen some pretty hard sights, but he states that he has never seen one which affected him so deeply as that which greeted him yesterday, when he saw the body of the innocent boy lying stiff in death, shot down in cold blood for nothing he had done, but apparently as a gratification of the desire to do some injury, no matter how great, to the family of which he happened to be a member.

Summons Jury.

Mr. Cochrane and Mr. Moore returned to Warsaw, where they spent the night, and summoned the men chosen to serve on the coroner's jury, and left this morning to attend the inquest which opened at 10 o'clock in the house in which the murder was committed.

Last Band Concert of the Season

Rendered at Victoria Park Last Evening

Popular Programme Was Rendered to an Appreciative Crowd.

The band was out in nearly full strength last night, and gave the last of their series of free concerts in Victoria Park. An excellent programme was rendered, and several of the old popular airs were given to refresh the memories of the concert-goers. There were three thousand people at the park, and a more orderly crowd would be hard to find. Everyone regretted that the series of open air concerts had come to an end, as the band has always rendered fine music and the programmes have always been popular.

A feature of last night's concert was a cornet solo, "Corporale di Sentinale," by Mr. Walter Hughes, which was finely executed and most heartily applauded. An Intermezzo from Rusticana was rendered by request, and was given so well and with such spirit that it was encored. The two popular marches, "Across the Continent," and "The American Republic," were again on the programme last night and their stirring strains were very popular with the crowd. A number of Scottish selections were played, and several sons of "the Land o' Cakes" could not keep still in the meantime and applauded again and again for an encore. "My Old Kentucky Home" was given again last night and showed that it is still popular and fresh in the memory of most people. The crowd dinnered until the end of the last number, and when the band struck up "God Save the King," everyone was loth to leave.

THE BELLOWING BULL CAUSES A SENSATION

A Reminder of Peterborough's Great Industrial Fair.

"Good land, Dave, is that bull alive?" ejaculated a stout countrywoman to her male escort this morning, as the crowds were waiting for the circus parade. "Lord! I can almost hear it bellowing!"

Her eyes had caught sight of the attractive poster of Peterborough's Great Industrial Fair, with the lifelike picture of the bull's head.

"Well, not exactly alive woman," responded her companion encouragingly. "Don't get nervous, or you'll make a heap o' trouble on the street. Why that there is the picture for the Peterborough Fair."

The incident was significant of the catchiness of the poster design which the directors of Peterborough's Great Industrial Exhibition had secured for the occasion. As the date of the Fair approaches — just a month from to-day — September 25, 26 and 27 — it is well to remind prospective exhibitors that the prize list has been issued in good time, and a copy should be in the hands of everyone. They may be obtained from the secretary, Mr. Fred J. A. Hall, Deputy Sheriff, at the hotels and some of the stores.

Last year witnessed the inception of a new programme and rules, under a business-like management; and this year the managers are putting on such a spurt as ought to culminate in the greatest success in the history of the show. It is to the credit of the directorate that they have kept steadfastly in view the objects of the Exhibition, and it is fully expected that the exhibits will be more numerous and diversified than ever. Get a prize list and read it over.

Band and new moving pictures this week at Jackson Park.

A "TALE" OF A CELESTIAL

Why Charlie Sing Took His "Queue" and Curbed His Extravagances.

East City Laundrymen Engaged in Physical Strife, and Broomstick Enters Into Discussion.

Mr. Mark How, who for several years has been the prosperous proprietor of a washing establishment in East City, some six months ago decided that a brief holiday away from the cares of the washing machine was necessary to his physical well-being, and forthwith commenced a transcontinental journey in a quest for a short time of "the simple life." Instead of this, he got married, taking unto himself a feminine Celestial upon his arrival in British Columbia.

The state of compound blessedness did not, however, interfere with his keen commercial spirit, and, leaving his quondam partner, Charlie Sing, to wrestle with the garments of the East citizens, entered into an engagement along culinary lines.

During his absence however, Mr. Sing's development in "ways that are dark and tricks that are vain" became daily more evident. Unheard of extravagances were indulged in. A new electric light was placed over the door. This was followed by another innovation in the form of a clock, for which Sing disgorged $10 in cash, though it might easily have been purchased on "tick."

"Time is money," however, and Mr. Mark How, who re-appeared once more upon the scene, re-Marked How extravagant his substitute had become during his absence, and straightway took exception to the lavish expenditures. The gentle method of moral suasion did not appear, however, to have the desired effect in reducing expenses, and yesterday afternoon proceeded to administer physical chastisment, using for this purpose a broom, which he wielded with as much dexterity as he would a chop-stick. The white-winged Dove Peace now, it appears, once more hovers over the scene of combat, and under its protecting wings Charlie's life will doubtless become "one grand sweet 'Sing'."

QUAKER FOOTBALL TEAM EXCURSION

Will Take Place to Rice Lake on Labour Day.

The Quaker Football Team, will run an excursion on Monday, September 4th, Labour Day, per Steamer Water Lily and palace barge, to Jubilee Point and Gore's Landing.

A stop of about three hours will be made at Jubilee after which a trip will be made to Gore's Landing where a football game has been arranged for with the team of that place. The excursion will leave Gore's Landing for the return at 6 o'clock.

BOYS DID NOT USE BATHING ATTIRE

And Were Fined $1 Each—More Serious Charges Were Not Pressed.

There was a lengthy string of small boys lined up in front of the desk at this morning's session of the police court, and Messrs. H. Rush, J. P., and V. Eastwood, ditto, shared the Magistrate's chair, and added several dollars to the city's treasury.

There were eight boys in line, and all pleaded guilty in chorus, to a charge of indecent exposure in a public place. The boys have been in the habit of going in swimming near the lower lock on the canal, without even the lightest of bathing costumes and often run over the bridge and jump off into the water, frightening the horses which are passing over. Mr. John Cronin, who laid the charge, said that the boys had destroyed his garden, and some of them had broken into his shack, and stolen almost everything in it; but for all that he asked Their Worships to deal leniently with the boys.

Mr. Rush read a portion of the Act covering the offence, and a fine of $50 or six months in gaol were the penalties. But the boys were let down easy with a fine of $1 each to be paid at once, or ten days in gaol. The fines were paid.

NOW IS THE TIME

to buy Plums and Pears. They are coming in freely and our prices are right. Also nice smooth Tomatoes and Musk Melons.

IN ALL WALKS OF LIFE

Herpicide Is Used to Cure Dandruff.

E. H. Lyon, New York, N. Y., says: "I am very fond of Herpicide and enjoy using it. It is refreshing."

Dr. J. H. Bush, Toledo, O., writes: "Newbro's Herpicide has given better satisfaction than anything I have ever used."

Mrs. Borkey, of Chadron, Neb., says of Herpicide:

"It cleaned my head of dandruff and stopped my hair from falling out. It is the best remedy for dandruff I ever used, and I have used a great many."

R. S. Coleman, Ann Arbor, Mich., says:

"I have used two bottles of Herpicide and derived benefit therefrom."

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Ormond & Walsh, Special Agents.

Bell Telephone Company Install New Switchboard

A new and thoroughly modern switch-board has arrived in town and will be installed at once as the local offices of the Bell Telephone Co. The switch-board has accomodation for 700 subscribers and is said to be the most modern piece of mechanism of the kind in the Domanion. It has many new and important features which offer countless advantages over that at present in use.

Among the local innovations in connection with it, is the doing away of the antiquated system of ringing. It's advantages as to long distance connections are numerous.

Boating Accident Upon The Otonabee River

A boating accident, which happily was not attended by the serious results which threatened occurred yesterday afternoon upon the Otonabee River, a short distance above Nassau.

Mrs. Robert Howland, who had been granted a half day's leave of absence from her duties in connection with the Victoria Museum, left accompanied by her husband, for a picnic up the river. After going by train from Auburn to Nassau, the party embarked there in a punt, in which they sailed up the river for a distance of half a mile where they dined. After fishing for a time the party decided to walk to No. 5 dam for the purpose of having supper. As Mrs. Howland was assisting her daughter to alight the boat suddenly slipped from its position, and she fell into the water, which is of considerable depth at that point. Her husband bravely, however, went to her assistance, and she was rescued from her undesirable position, with no ill results other than the immersion.

LARGEST MARKET OF THE SEASON

Large Quantities of Plums—Good Prices Still Continue.

To-day is Saturday and circus day, and many of the farmers from the surrounding district came into the city to dispose of their produce, and incidentally to see the circus. This morning's market broke all records for this season, and every available space on the square was taken up.

That plums are a heavy crop was evidenced by the appearance of the market this morning. Blue plums were brought in by the basket, box, trunk and wagon load and were disposed of at a rock bottom price of 4c per quart. Apples were also brought in in large quantities and sold at 10 cents per peck, or 50c per bag; but there were very few potatoes on the market and these still maintain their high prices of 20 cents per peck or $1.00 per bag. There were also considerable quantities of garden vegetables which were always in good demand.

But on the inside market the attendance was not nearly so large. Eggs sold at 16c; butter at 23 to 24c; chickens at 50 to 60 cents per pair.

THE BEGINNING OF THE TROUBLE

Is the Time to Stop it—And the Means of Stopping it are Provided by Dodd's Dyspepsia Tablets.

Have your meals become of interest to you simply because of the trouble they bring? Is your appetite gone? Do you get up in the morning with a dark brown taste in your mouth? Is your head muddled and sort of half aching? Is your day's work a burden? Do trifles worry you?

If you have any of these symptoms it is time to pay attention to your stomach. It has been overworked and needs help. Attend to it at once or you will drift into indigestion and from that to Dyspepsia. Help your stomach with Dodd's Dyspepsia Tablets. They never fail to tone up the stomach and bring it back to its healthy condition.

Maria Ann Bujold, of Marie Cap, Bonaventure Co., Que., says:—"For two years my life was a burden. I could not take the simplest food without having a pain across my stomach. One box of Dodd's Dyspepsia Tablets cured me and I have had no return of the trouble."

Thin Blood Makes a Weak Body

But You Can Enrich the Blood and Send New Vigor Through the System by Using Dr. Chase's Nerve Food.

Every nerve and every muscle of the body depends on the blood for nourishment. Thin, watery blood makes weak nerves and flabby muscles. The heart fails in its work of forcing blood through the body; the lungs, the stomach, the liver, kidneys and bowels all do their work in an imperfect way, and you drag about weak, tired and miserable.

The use of Dr. Chase's Nerve Food makes a radical change in every human system that is starved and impoverished for want of rich, pure and life-sustaining blood.

Gradually, certainly and naturally it instils new vigour into every nook and corner of the body, restores health and vitality, and puts a new joy into life.

Note your increase in weight while using Dr Chase's Nerve Food; 50 cts. a box, at all dealers, or Edmanson, Bates & Co., Toronto.

Use "MAPLE LEAF" Canned Salmon. The Best Packed.

Newest Novelty for Ladies.

HOW YOU GET CONSUMPTION.

Most "lungers" allowed their power of resistance to fall very low. Favorable conditions were provided for the development of the baccilli. Consumption was the result.

But in a healthy body Consumption can't take root. The most potent health-maker is Ferrozone. Take it regularly and you needn't fear tuberculosis.

FERROZONE

Supplies exactly what the man verging on Consumption needs. It forms rich, nutritious blood, strengthens the nerves, puts vim and endurance into every organ of the body.

For the tired, weak—anyone in poor health—Ferrozone is worth its weight in gold. Avoid substitutes!

Price 50c per box or six for $2.50, at all dealers, or by mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

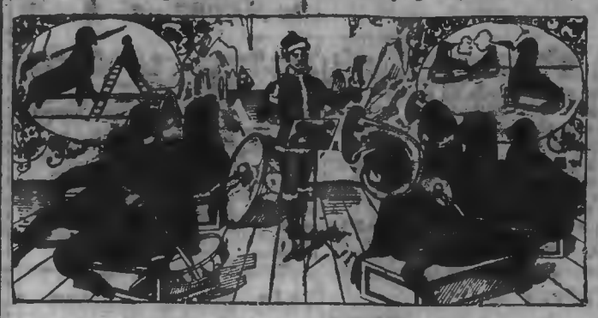
"Hark! Hark! The Dogs Do Bark! The Circus Comes to Town!"

"The circus has come to town." The much talked about and widely advertised Greater Norris and Rowe Circus arrived in the city this morning and pitched their tents in the Exhibition Grounds. The street parade which took place about eleven o'clock, was witnessed by thousands of people who lined the route of march. The procession was about half a mile in length and was one of the best and most attractive of the kind ever seen on the streets of this city.



Herfer Rumley and His School of Trained Seals and Sea Lions With Norris and Rowe's Circus.

The management of the show have met with deserved success, and this may be attributed to the fact that these gentlemen always do as they say, and run the circus on strict business principles.

They have received a compliment from the Dominion Government never accorded a tented exhibition before. It is customary for a Provincial detective to accompany all tented amusements visiting this country. The detective was with the Norris and Rowe circus two days and reported to his superiors that it was unnecessary to accompany these shows, as everything connected with them was first-class and that the public was as safe as far as the Norris and Rowe circus is concerned as they would be transacting business with the Bank of England. This compliment and trust has been well placed and deservedly given by these progressive showmen.

The splendid riding acts now with the show came in for the greatest measure of interested attention. Dainty Rose Dockrill, in bare-back equestrian exercises; George Holland, the somersault bare-back rider; Frank and Dolly Miller, in a two-horse carrying act; Austin King, the hurricane jockey and hurdle rider; Herbert Rumley in a polite exposition of horsemanship; Estelle Settler and M'lle. Julienc, clever bare-back riders, made an excellent hit. The acrobatic and mid-air feats were both novel and daring.

Many wild animals have been added to the menagerie, and most of these animals have been trained to give acts upon the stage. The hippodrome races were thrilling and exciting enough for anyone. Tonight some special features are being prepared as a surprise to the public. Take it all in all, the present is the very best circus Norris and Rowe have ever brought us.

Those who were not fortunate enough to attend the show this afternoon will make no mistake by attending to-night's performance, for the show is clean, moral, first-class in every particular and is large enough to suit anyone.

LATEST SPORT

EXCITING BALL GAME AT JUBILEE POINT

Picked Ladies' Teams Play a Close Game—News From the Point.

Evidently the summer season is still in full swing at Jubilee Point, as will be seen from the following account of Thursday's happenings at that popular summer resort. A large excursion from Coldsprings, Harwood, and Gore's Landing was run to the point on that day, and it took the steamer Rainbow two trips to carry the crowd over.

Mine Host Gilman served dinner to the King's taste and the inner man was thoroughly satisfied. The event of the day was a baseball game between two ladies' teams, and from all accounts the play was full of features and supplied the spectators with barrels of amusement.

Miss McBride distinguished herself by a one-handed circus catch, and Miss Jennie Hosking did ditto by pulling off a fast double play unassisted.

For the Has Beens Miss Bowman sent them over like cannon-balls and made the opposing batters look blue. She has completely mastered the spit ball, but Miss Eagleson of the "Never-Will-Bes" went her one better and won out by the score of 15-13.

The following is the line-up of the two teams:—

Never-Will-Bes (15)—Rosetta Eagleson, p.; Miss Jamieson, c.; Miss Lines, 1 b.; Mrs. Jamieson, 2 b.; Mrs. Gibson, 3 b.; Ida Brisbane, s. s.; Miss Water, l. f.; Miss Gibb, c. f.; Miss McBride, r. f.;

Has Beens (13)—Miss Bowman, p.; Miss A. Eagleson, c.; Miss Rose, 1 b.; Miss Hardcastle, 2 b.; Miss Hopkins, 3 b.; Miss Bowman, s. s.; Miss Nixon, c. f.; Miss McKinley, r. f.

HAVELOCK NOW T. V. L. CHAMPIONS

Defeated Roseneath in a Close Game Yesterday—Score 7-4.

Yesterday was Havelock's Civic Holiday, and an excursion was run by special train to Peterborough and the steamer "City" was boarded for a trip down the beautiful and sinuous Otonabee to Rice Lake.

The event of the day was the final game for the Trent Valley League championship at the latter village. The game was hotly contested, and it was anybody's game until the last man was out. The score at the end of the ninth was a tie, and three extra innings had to be played before the Havelock nine won out by the score of 7-4. McCorry and Bellegham were the battery for the winners.

Returning the boat reached Peterborough about 11 o'clock when the special train was waiting to convey the crowd back to the railway town. Everyone enjoyed themselves on the trip and now that the pennant will rest with Havelock for the season the fans are glad.

LACROSSE.

The Brantford Senior Lacrosse team has disbanded for this year as the management considered it a useless expense to play further games this season.

* * * * *

George Lyons's Indians will meet Beaverton in the next game in the semi-finals, and a close game may be looked for.

* * * * *

Lindsay, Ont., Aug. 25.—A game of lacrosse was played here to-day between Beaverton and Uxbridge to decide which team should play Peterborough in the semi-final of the intermediate championship.

A large number of supporters accompanied each team, a special train from Uxbridge bringing about 200 rooters. The game was well contested in the first two quarters, Beaverton leading by 5 to 3. In the third quarter Beaverton quickly put on four more goals. The game got a little rough, and two players commenced fighting. The spectators swarmed on the field, and a general melee looked imminent. It took some little time to clear the field of the crowd. In the meantime several of the Uxbridge players refused to continue the match, and left the ground.

J. McCabe, of Peterborough, who refereed the game, had no other option than to award the game to Beaverton.

BASEBALL.

Norwood won from Hastings yesterday by the score of 17-12.

* * * * *

Havelock won from Roseneath yesterday, and incidentally captured the T. V. L. Championship in a twelve innings game at the latter place. Score 7-4.

BOWLING.

In a match played on the club green between two picked rinks, skip T. E. Pratt won from skip W. H. Isaac by the score of 16-11.

The following are the rinks and the scores:—

C. K. Martin, J. Cunningham, W. J. Green, J. Titterson, W. H. Isaac, skip —11

R. Matchett, S. Sharp, A. Belleghem, D. Patterson, T. E. Pratt, skip—13.

Special arrangements made for Sunday School and other excursions on application.

H. CALCUTT,
Telephone 98. Peterborough.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the North-west Provinces, excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him.

Homestead Duties.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

Application for patent should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior

Sealed Tenders, addressed to the undersigned, and marked on the envelope "Tenders for Island No. 24" will be received until Monday, the 21st day of August next, at noon, for the purchase of an Island in the Township of Smith, County of Peterborough and Province of Ontario, comprising an area of 51.25 acres and known as Salmon Trout Island, No. 24.

The tenders should state the amount they are willing to pay in cash for this Island and an accepted cheque for ten per cent. of the amount tendered should accompany each Tender, which the successful tenderer in the event of failure to complete the purchase within one month from the date of the award shall forfeit to the Department.

The highest or any Tender, will not necessarily be accepted, and the unauthorized insertion of this advertisement in any noxspaper will not be paid for.

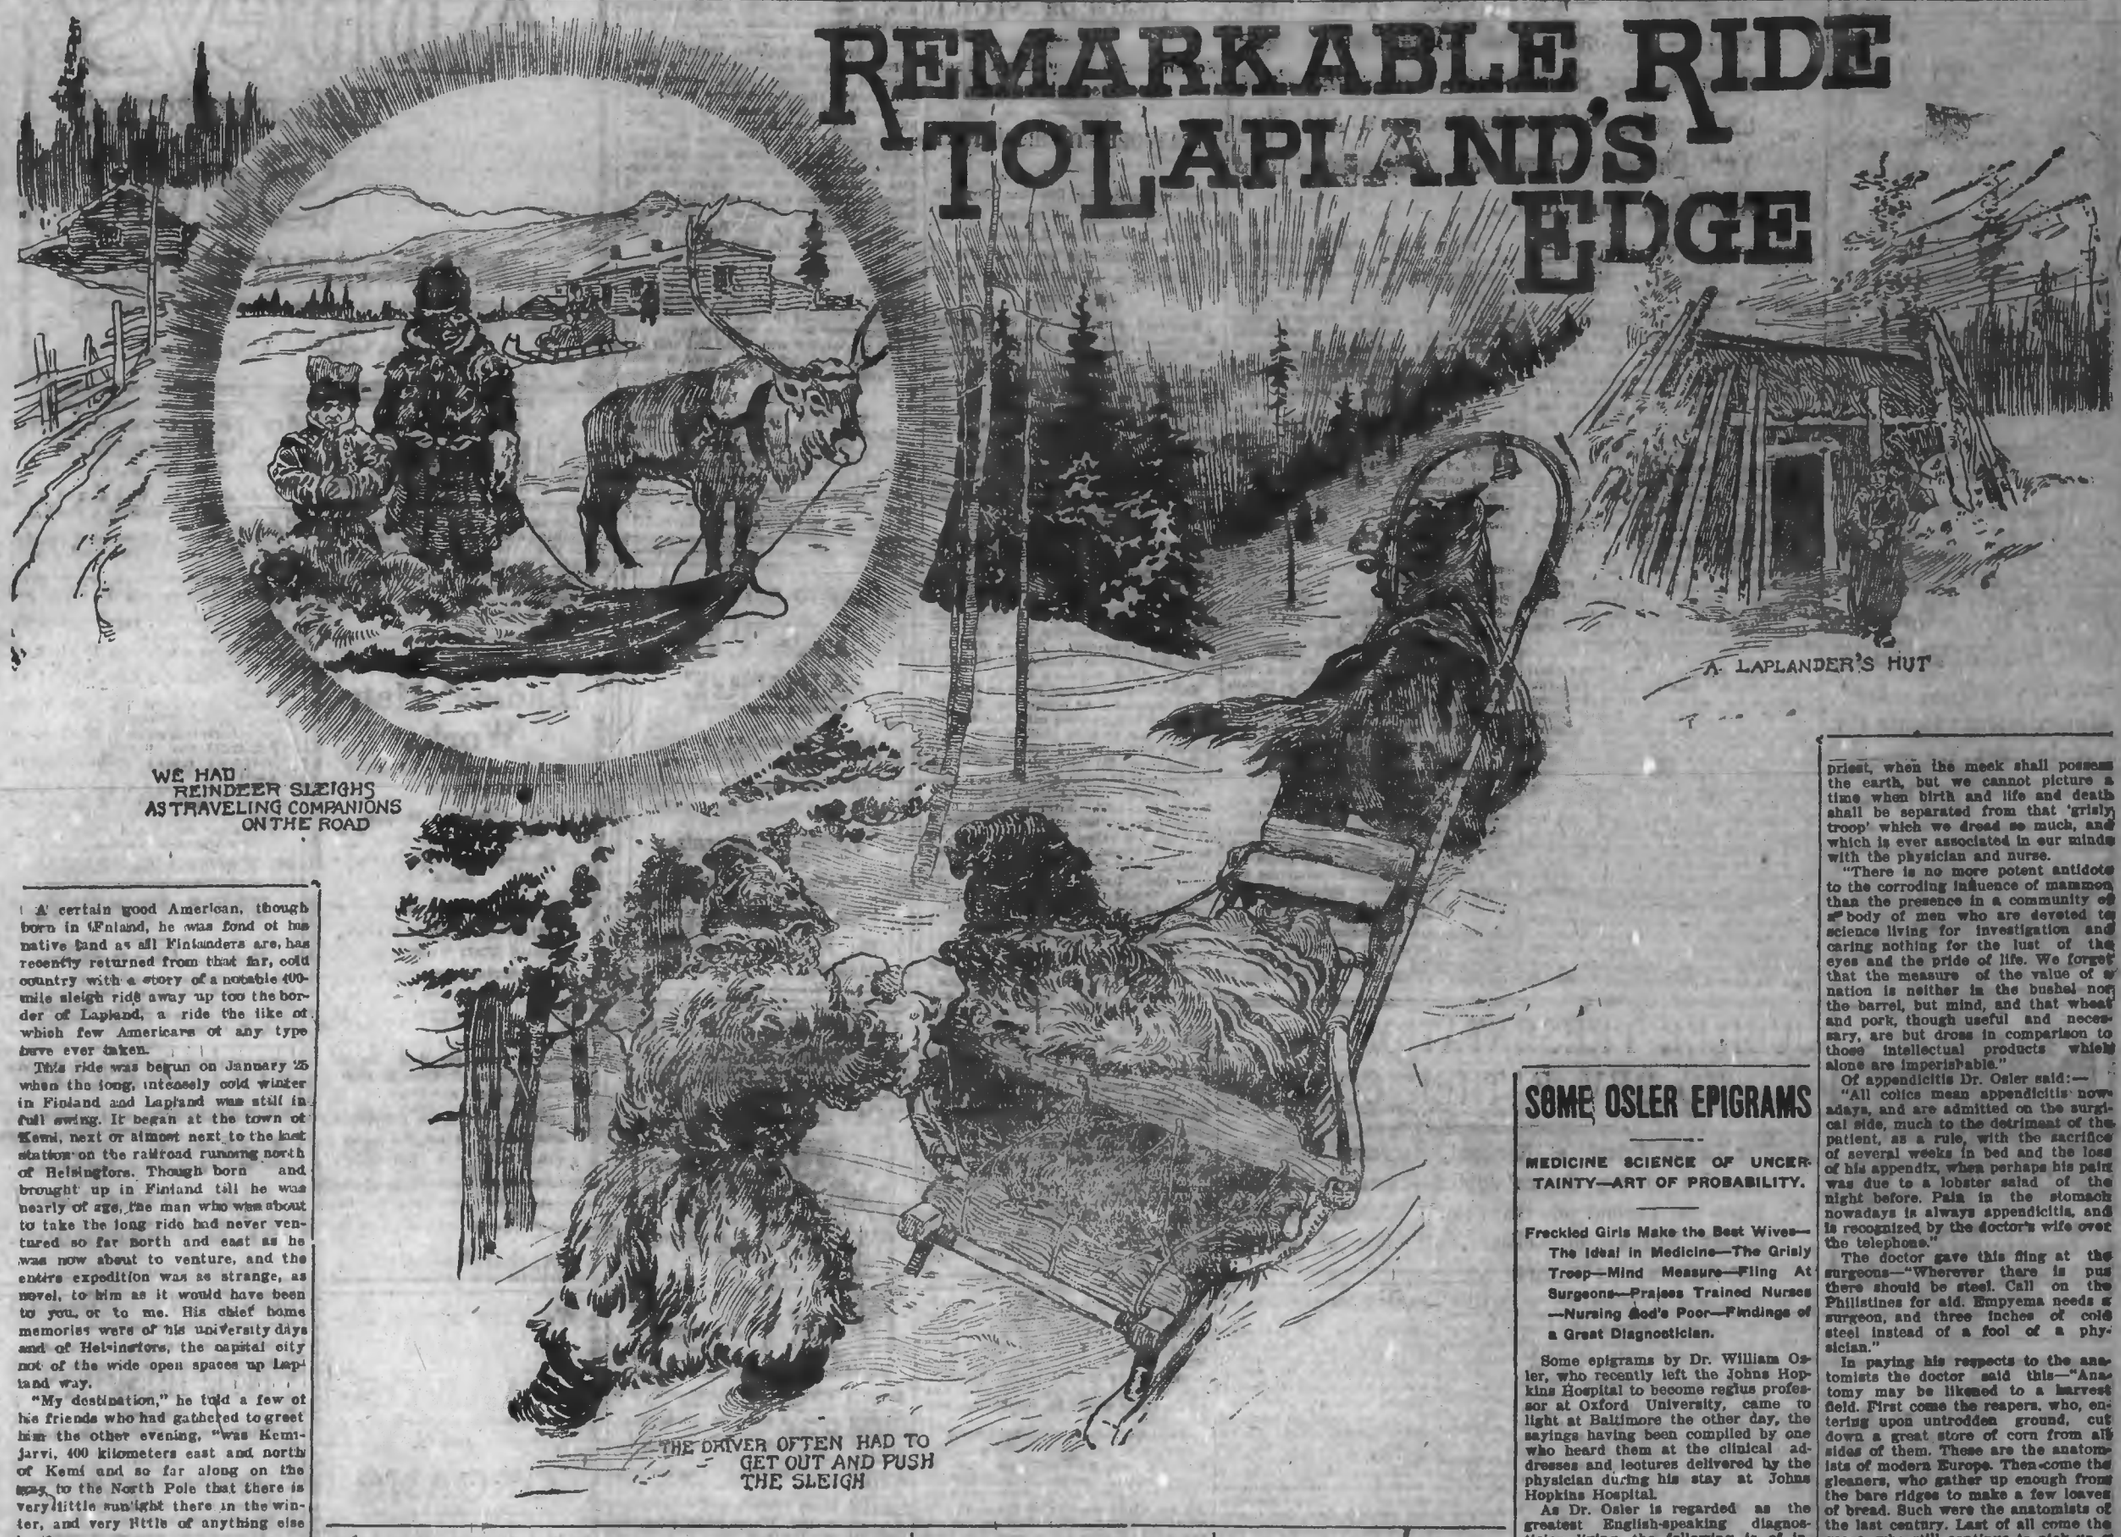
REMARKABLE RIDE TO LAPLAND'S EDGE



WE HAD REINDEER SLEIGHS AS TRAVELING COMPANIONS ON THE ROAD

THE DRIVER OFTEN HAD TO GET OUT AND PUSH THE SLEIGH

A LAPLANDER'S HUT

A certain good American, though born in Finland, he was fond of his native land as all Finlanders are, has recently returned from that far, cold country with a story of a notable 400-mile sleigh ride away up toe the border of Lapland, a ride the like of which few Americans of any type have ever taken.

This ride was begun on January 25 when the long, intensely cold winter in Finland and Lapland was still in full swing. It began at the town of Kemi, next or almost next to the last station on the railroad running north of Helsingfors. Though born and brought up in Finland till he was nearly of age, the man who was about to take the long ride had never ventured so far north and east as he was now about to venture, and the entire expedition was as strange, as novel, to him as it would have been to you, or to me. His chief home memories were of his university days and of Helsingfors, the capital city not of the wide open spaces up Lapland way.

"My destination," he told a few of his friends who had gathered to greet him the other evening, "was Kemijarvi, 400 kilometers east and north of Kemi and so far along on the way to the North Pole that there is very little sunlight there in the winter, and very little of anything else in the summer.

"There were two ways of making the trip. I could get a sleigh and a driver and employ post horses, changing at the post houses, or I could engage a man who owned both sleigh and horse, and ride in what would practically be my own conveyance all the way. This method is called 'making the long journey' up there, and I chose it for a variety of reasons as being preferable to the other.

Heaviest Travelled Highway

"There was about an hour or so of sun daily when I started, the orb of day, showing above the far southern horizon, small and red through the snow-mist at about noon. The snow was more than four feet deep on the level and the weather was bitter cold—so cold that zero, Fahrenheit, would be almost warm in comparison—40 below, according to the Celsius thermometers always used there.

"The sled we used was about nine feet long. In front the runners were about a foot apart; at the rear thirty inches. Thus it was shaped like a blunt ended wedge, the small end going first, of course.

"The stretch of road between Kemi and Rovaniemi one of the most important towns through which it was to pass, is probably the heaviest travelled highway, both summer and winter, in the world. All the freight and passenger traffic between Lapland and part of Finland to and fro from Russia, passes over it, there being no railroad or other route to divert any part of it. Consequently, that part of my trip was by no means a lonesome one. There was no hour of the twenty-four when the road was deserted and, as every horse and sleigh of every sort must carry bells, my ears were constantly delighted with their tinkling in every key sometimes in casual chords and some never with an unpleasant effect.

"I could talk about these bells a whole week, I think, for the melody and the harmony of them have got into my ears and I doubt if I shall ever forget them. Each horse must wear them one at the top of the high bow over the withers and one on each side. Sometimes they are so pitched as to form a chord when rung, and sometimes they are pitched in unison. The bells on the mail carriers' horses are the largest and deepest. The mail carriers have the right of way to bed in your childhood days.

over all others on the road, and their big sleighs are always heavily loaded. Occasionally a mail carrier will have two sleighs, the extra one sometimes in charge of an extra driver and sometimes with the second horse following the first sleigh without immediate supervision.

Buried in Thick Garments

"More novel than this everlasting bell tinkling, though, was the manner in which I had to prepare for the journey.

"In the first place I rode lying down from the beginning to the end of the journey as is the universal custom of winter travellers there. Curious as it seemed at first to me, this is the only feasible way. Owing to the tremendous cold, passengers, who, of course, cannot keep warm by means of exercise, must dress very warmly, so warmly, in fact, that the weight of their clothing alone would tire them beyond endurance.

"Before I got into the sleigh its bottom was well covered with hay, which was heaped up at the rear end to serve as a pillow for my head. A blanket came next, and over it a reindeer skin, tanned with the hair on and the hairy side up. Next came the passenger—myself. Acting on the directions of my driver, I attired myself in two pairs of heavy drawers, and two pairs of stockings, and a pair of thick trousers. Over these I drew on a pair of long, felt Russian boots. I put on three thick woollen shirts, and over them a sweater. Outside of that I wore a coat of tanned muskrat skin, with the hair inside; over that a cloth coat almost as thick and as stiff as a board, and over that a heavy wolf-skin coat, with the hair outside.

"On my hands I wore two pairs of mittens; on my head a soft, thick Persian wool cap that pulled down over my ears. When the wolfskin coat was on and its collar pulled up the air could get to my face only at my eyes, and the lids of them were constantly freezing shut all day, the temperature was so keen.

"Dressed as I have described, I lay down in the sleigh, after which the driver covered me with a great sheepskin robe, and over that he spread a thick horse blanket, which he tucked in about me, exactly as your mother used to tuck you when she put you

"The driver dressed much in the same fashion, but not quite so heavily. He could not lie down as I did, but had to sit while driving on a sort of stationary stool. He could not have sat all day burdened with as great a weight of raiment as I was, but he was able to get some exercise in his arms handling the reins and cracking his short-stocked, long-lashed whip, and this helped him keep warm. Occasionally, too, he could get out of the sleigh and run alongside. Later on in the journey he often had to get out and push the sleigh up the hills and through the drifts.

"I remember no journey of any sort that was as pleasant to me as this long journey to Lapland. Though the air was bitterly cold, as I have said it was intensely dry, and this fact, together with my exceptionally warm wrappings, kept me entirely comfortable.

"More than half of the time the stars were shining in perfectly cloudless skies of the deepest blue, and so large and brilliant that I cannot describe their appearance. Then, too, the great North Glow—you call it the Aurora Borealis, I think — was constantly on display.

"I wish I were a poet and then I might invent phrases that would make a picture in your mind of the marvellous appearance of the aurora that I saw on the trip. Long streamers reached to the very highest point of the sky, not only from directly north, but from the east and west as well, even from the southeast and southwest, sometimes coming from all points of the compass, in fact, except directly south.

"Once the sky seemed to be one vast glowing canopy of light, not simply white light, but light of every primary colour and of every conceivable shade and combination. There were greens, and blues, and reds, purples, pinks, and yellows, and mauves in the most wonderful shades and the brilliance of it all was positively beyond the power of any sentences I can frame to tell.

"As I lay in my sleigh listening to the tinkling of the three bells on my horse, mingling with the tinkling of the bells on the other horses, we were meeting constantly, looking up at the brilliant stars, or the still more brilliant Polar glow, I thought that I had never before beheld such unearthly beauty.

"My driver was a much more intelligent man than might be expected from his calling, and after I had amused myself by reciting some verses from the 'Kalevala,' Finland's national poem, he would follow with further selections from it, or with a long list of Finnish folklore. All Fins, practically learn long passages of the Kalevala,' and other national poems; even the labourers delight to recite them, and often indulge in formal competitive recitals as they work.

"They will sing the national songs with understanding, and sometimes very well. As I rode along under the stars last January it seemed to me that every one I heard singing had a good voice, and that the bells made a most harmonious accompaniment to the singing. But perhaps I was prejudiced for I had not been in my own country and among my own people for a dozen years before.

"Warm as I was able to keep in the sleigh it took me five or ten minutes to thaw out at each post house, for my eyelashes, and eyebrows, and mustache would always be frozen stiff when we arrived, my mustache generally being frozen fast to the long hair of my wolfskin coat. The stoves in the post houses are great porcelain affairs, filled at intervals with charcoal which burns out in a comparatively short time, but leaves the stove hot for hours, diffusing a pleasant heat, entirely unlike the heat given out by the American cast iron coal-stove.

"The post houses are useful institutions, maintained by the Government, and never locked. The traveller may enter at any time of the day or night, sure of warmth, food, clean beds, and first-class careful attendance. The charges made are uniform and reasonable, and cards giving the prices as established by law are posted conspicuously in the main room. No intoxicating liquors are sold in any circumstances under pain of severe punishment.

"As the days in the winter are not sharply divided travellers are as likely to be astir at midnight as at noon, and their arrivals and departures at all hours of the day give an air of almost constant liviliness to the post houses.

"The farther I went from the railroad the less travelled were the roads and the more broken the country. I crossed several valleys, at the bottom of each of which was a river now frozen, but in the summer a deep rushing ice cold stream, quite big enough for navigation so far as volume of water is concerned, but too full of rapids and occasional waterfalls to permit passage of the boats.

Finland being a great timber country these rivers are much used in the summer to send rafts of logs to the big mills farther south. In the winter the timber along parts of the route I traversed adds much to the beauty of the scene. We passed miles of silent evergreens pines and firs the deep green needles of their foliage being beautifully decorated with the immaculately white crystal needles of frost produced by the intense cold and forming a striking contrast to the deep colour of the foliage.

"We also passed many miles of birch forests, the white trunks of the trees hardly contrasting at all with the white of the snow. By the time we reached the great birch forests we began to have reindeer sleighs on the road as travelling companions in great numbers. I was tempted to continue my journey beyond Kemijarvi by reindeer just for the added experience but finally decided otherwise to my present regret, for I fear I shall not soon get so far north again.

"Though all the northern and eastern part of my long journey was largely through forests, the southerly and westerly stretches were through broad well cultivated farms. Few of these establishments are of less than 1,200 acres in extent, and the farmhouses, great log structures boarded over and painted white, seem to me the most perfect embodiment of homelikeness and hospitality in the whole world. But then, Finland is my home land."

The Length of a Tree's Life.

Information gathered by the German Forestry Commission assigns to the pine tree 700 years as the greatest length of life, 425 years to the silver fir, 275 to the larch, 245 to the red beech, 210 to the aspen, 200 to the birch, 170 to the ash, 145 to the elder and 130 to the elm. The heart of the oak begins to rot at about the age of 300 years. A specimen of holly has been found in Germany that is 410 years old.

The Draft Horse.

The draft horse is the leading Canadian market horse the world's greatest business horse—best on the farm, best on the market and best in profitable production.

SOME OSLER EPIGRAMS

MEDICINE SCIENCE OF UNCERTAINTY—ART OF PROBABILITY.

Freckled Girls Make the Best Wives—The Ideal in Medicine—The Grisly Troop—Mind Measure—Fling At Surgeons—Praises Trained Nurses—Nursing God's Poor—Findings of a Great Diagnostician.

Some epigrams by Dr. William Osler, who recently left the Johns Hopkins Hospital to become regius professor at Oxford University, came to light at Baltimore the other day, the sayings having been compiled by one who heard them at the clinical addresses and lectures delivered by the physician during his stay at Johns Hopkins Hospital.

As Dr. Osler is regarded as the greatest English-speaking diagnostician living, the following is of interest:—

"Medicine is a science of uncertainty and an art of probability. Failure to make diagnosis makes medicine interesting. Of course one can make a certain diagnosis of every case, but it is done at the expense of one's conscience, and one goes deeper into the inferno with each diagnosis so made."

This is his opinion of drugs:—

"Physicians are apt to become affected with the drug habit from patients. Drugs are no good. Some doctors imagine that they can carry the magic button in their medicine

DR. WILLIAM OSLER.

bag. Press it, and behold, the disease is cured in one day. If many drugs are used for a disease, all are inefficient."

Regarding seeking the ideal in medicine and life, he said:

"In seeking absolute truth we aim at the unattainable and must be content with finding broken portions.

"If the fight is for principle and justice, even when failure seems certain, where so many have failed before, cling to your ideal and, like Childe Roland before the dark tower, set the slughorn to your lips, blow the challenge and await the consequences.

"The past is always with us, never to be escaped; it alone is enduring, but amid the changes and chances which succeed one another so rapidly in this life we are apt to live too much for the present, and too much in the future."

Of the relative value of the professions Dr. Osler had this to say:—

"We can imagine in the future a social condition in which neither divinity nor law shall have a place, when all shall be friends, and each one a priest, when the meek shall possess the earth, but we cannot picture a time when birth and life and death shall be separated from that 'grisly troop' which we dread so much, and which is ever associated in our minds with the physician and nurse.

"There is no more potent antidote to the corroding influence of mammon than the presence in a community of a body of men who are devoted to science living for investigation and caring nothing for the lust of the eyes and the pride of life. We forget that the measure of the value of a nation is neither in the bushel nor the barrel, but mind, and that wheat and pork, though useful and necessary, are but dross in comparison to those intellectual products which alone are imperishable."

Of appendicitis Dr. Osler said:—

"All colics mean appendicitis nowadays, and are admitted on the surgical side, much to the detriment of the patient, as a rule, with the sacrifice of several weeks in bed and the loss of his appendix, when perhaps his pain was due to a lobster salad of the night before. Pain in the stomach nowadays is always appendicitis, and is recognized by the doctor's wife over the telephone."

The doctor gave this fling at the surgeons—"Wherever there is pus there should be steel. Call on the Philistines for aid. Empyema needs a surgeon, and three inches of cold steel instead of a fool of a physician."

In paying his respects to the anatomists the doctor said this—"Anatomy may be likened to a harvest field. First come the reapers, who, entering upon untrodden ground, cut down a great store of corn from all sides of them. These are the anatomists of modern Europe. Then come the gleaners, who gather up enough from the bare ridges to make a few loaves of bread. Such were the anatomists of the last century. Last of all come the geese, who still continue to pick up a few grains scattered here and there among the stubble, and waddle home in the evening, poor things, cackling with joy because of their success. Gentlemen, we are the geese."

This is Dr. Osler's advice to the medical graduates—"A young physician should be careful what and how he writes. The crow of the young rooster before his spurs are on always antagonizes and jars. Keep your mouth shut too, for a few years, particularly in discussions. Shun as most pernicious that frame of mind too often, I fear, seen in physicians, which assumes an air of superiority, and limits as worthy of your communion only those with satisfactory collegiate or sartorial credentials."

Dr. Osler has always ranked the professional nurses with the physician. He has paid them these tributes:

"Printed in your remembrance, wrote as headlines on the tablets of your chatelaines, I would have two maxims: 'I will keep my mouth as if it were a

Links With the Past.

Mr. C. C. James, Deputy Minister of Agriculture, recently said in connection with the newspaper notice of the death of Mrs. Mary Durham Swayze at Brooklyn, N. Y., on the 4th of February, 1905, in her 93th year, that there had been removed one of the last links connecting the present generation with the earliest days of the Province of Upper Canada, a hundred and fourteen years ago. Mrs. Swayze was the widow of William Swayze, son of Colonel Isaac Swayze, member for 3rd Lincoln (which is now the County of Lincoln) in the first Parliament of Upper Canada, 1792-96. Col. Isaac Swayze was a member of the Legislature for no less than twenty years. He died February, 11, 1828.

"There is still, as far as I know," Mr. James added, "one remaining link. Mrs. Stanton of Fort Erie, Ont., aged 88, is the daughter of Captain Benjamin Hardisen, who held some position in the first Legislature at Niagara, and who was a member of the second Legislature, 1796-1800. Her father was born in 1761 and died in 1821.

"It may not be inappropriate to add that Miss Susan Greeley, who died in Haldimand Township, Northumberland County, on the 7th of December, 1902, was the niece of David McGregor Rogers, a member of the second Legislature, 1796-1800. She was in her 90th year."

Your Ideal Cracker

Think of all the good kinds of crackers you ever tasted. The creamy whiteness of the first—the lightness of the second—the crispness of another—the appetising appearance of another—the delicious eating of the fifth. Then see how we've combined all these five points into one cracker.

LITTLE HOPE FOR PEACE IS EXPRESSED

Altogether the Czar Has Been "Partially Responsive"—Pessimistic Views Prevail—Russian and Japanese Peace Envoys May Soon Shake Hands and Part as Enemies--While No Decisive Act Has Yet Parted Them the Indications are Anything But Rosy.

Portsmouth, N. H., Aug. 26.—The Associated Press is permitted to announce that Emperor Nicholas' answer to President Roosevelt's latest appeal was partially responsive.

Only "Words and Money."

The peace conference seems headed straight for the rocks. Despite the fact that every question of principle involved in the quarrel between the two countries has been settled in favor of the victor and in reality only "Words and money" still separate them, the negotiations seem on the verge of a final rupture. The air was filled last night with gloomy forebodings. In the most positive fashion it is declared that no new instructions had reached M. Witte up to last evening which would permit him to entertain the consideration of the compromise proposition submitted by Baron Komura on Wednesday, and, therefore, unless Japan has a new proposal to make to-day, all that seems to remain is for the plenipotentiaries to meet, sign a declaration that the conference has completed its labors, shake hands and part as enemies.

Nothing Doing.

The time for the sitting of the conference to-day was not set when the adjournment was taken on Wednesday. Last night M. Witte, through his secretary, notified the Japanese mission that he was ready to meet it in the morning at 9.30. The Japanese, after consultation, demurred, on the ground that the minutes of the last meeting was set for 3 o'clock in the afternoon. Information received at a late hour indicates that President Roosevelt's efforts are not exhausted; that he is still in communication with St. Petersburg and Tokio. To-day's meeting consequently is likely not to prove decisive.

Japan Urged to Insist.

Tokio, Aug. 26.—Following the receipt of a cablegram from Baron Komura, Premier Katsura and Secretary-General of the Affairs Chinda called Marquis Ito into a lengthy conference. It is believed that important developments are forthcoming. Premier Katsura is receiving hundreds of letters, telegrams and memorials urging insistance on the Japanese terms.

Lamsdorff Didn't Say It.

St. Petersburg, Aug. 26.—Respecting the statement published yesterday to the effect that Count Lamsdorff, the Russian Foreign Minister, had been interviewed and declared that Russia would not pay a war indemnity under any rules to Japan, the Foreign Office yesterday morning declares officially and categorically that Count Lamsdorff has given no interview.

Army is For War.

Lidskapudsky, Manchuria, Aug. 26.—The army is expressing indignation over what it terms the colossal demands of Japan, and the hope that the war will continue is expressed again and again.

United Cotton Mills.

Portsmouth, N. H., Aug. 26.—Baron Komura and four members of the Japanese peace mission, left Portsmouth for Manchester, N. H., yesterday, to visit the extensive cotton mills in that city.

Will Come to Canada?

Buffalo, Aug. 26.—The Buffalo Times is authority for the statement that M. Witte, the Russian peace envoy, who is at the head of the delegation representing the Czar's interests at Portsmouth, will probably visit Buffalo shortly on his way to Chicago, and make side trips to Niagara Falls and Toronto.

New Jap Treaty Signed.

London, Aug. 26.—The Associated Press has good reason for stating that a new Anglo-Japanese treaty of alliance has been signed. The Foreign Office declines to give official confirmation or denial, but the Associated Press understands that the treaty was signed some days ago. The new treaty is generally broader in scope in some respects than the former treaty.

JUBILEE PRESENTATION TO REV. FATHER CONWAY

Popular Parish Priest, of Norwood, Honoured Upon the Occasion of His Golden Jubilee—Presentation Took Place in Parlour of St. Peter's Rectory, by Rev. Father Murphy, of Cobourg, at Close of Retreat For Priests of the Diocese.

At the close of the retreat for the priests of the Diocese of Peterborough, Rev. Father Conway, the venerable and highly esteemed pastor of St. Paul's, Norwood, was invited to the parlour of St. Peter's Rectory, where His Lordship Bishop O'Connor, and the priests of the diocese were assembled, and there presented with several valuable gifts by his Lordship and brother priests. The presentation consisted of two rich copes with veils to match, two costly chasubles, one in gold and the other in red silk velvet, a handsome missal and stand a complete set of highly finished candelabra and a chime of altar bells.

The special present of His Lordship was a magnificent set of lamps, for the benediction of the Blessed Sacrament.

This beautiful display of rich and valuable altar goods artistically arranged on tables, on one side of the parlour, presented a very attractive appearance, and sufficient to quite unnerve, the otherwise stout heart of the venerable patriarch of Norwood.

Father Murray, P.P., of Cobourg, was chosen to make the presentation and he did it, with his accustomed easy, graceful, touching style, which lends force and conviction to every word he utters.

He could not, he said, go back to Father Conway's early days as a priest, and speak, from personal observation of a career so loudly praised by older men, but he would speak of Father Conway, as he knew him, since his coming to Peterborough diocese some twenty five years ago. He then recounted his many labours, in the service of the Divine Master from the days of the Sainted and beloved Bishop Jamot, down to the present time, his unceasing devotion to duty, his kind, warm Irish heart, and the genial hospitality for which his home was ever noted. He bore testimony of Father Conway's sterling worth, as a man and as a priest every word of which found a responsive echo in the hearts of the bishop and priests assembled, by whom the reverend father is held in the highest esteem, not alone for his long years of faithful service in the ministry, but also for that uniform kindness and consideration which marks his intercourse with others. The address of Father Murray, though entirely impromptu, was a polished piece of literary diction. Father Conway, was visibly affected as well by the elaborate display of vestments, as the kind and feeling words with which they were presented, and some moments of utter silence elapsed, before he could give expression to the fullness of his heart.

He thanked his brother priests for their kind remembrance of him, on the occasion of his Golden Jubilee, and very modestly disclaimed any right to the many flattering things said of him, by his tried and trusted friend Father Murray. He had only done his simple and plain duty as a priest, and it had pleased Almighty God, to bless his feeble efforts. He referred most touchingly to his dear departed friend Bishop Jamot, with whom he had worked side by side for so many years, and to whose fatherly advice he owed much of his early success in this diocese and that of Toronto. For the priests of Toronto diocese, most of whom had sent their congratulations, accompanied by suitable tokens of regard, he had only words of the highest praise. For his Lordship Bishop O'Connor, he could not find words fitting to express his thanks. He had always found in him a true and faithful friend, a prudent and kind father, whose cheering words of congratulation he appreciated beyond gold or silver. Referring to Father Murray's remarks regarding his spirit of hospitality, he said, that his heart and home would ever remain the same, and that a "Cead mile failthe" always awaited his friends and associates both past and present. At the close, his Lordship Bishop O'Connor, addressed a few words of congratulation to Father Conway, thanked him for his many years of faithful service in the good work of the diocese, humanely referred to many pleasing incidents in Father Conway's early life, and prayed that God might prolong his days of usefulness, and grant him the happiness of celebrating his Diamond Jubilee, either here in the land of his adoption, or among the friends of his youth, in the Green Isle beyond the sea.

"Shut your eyes, open your mouth and see what luck will bring you."

Many a woman is weak and sick, nervous and discouraged. She suffers from headache, backache and other ills. She wants to be well, but all she does is to shut her eyes and open her mouth for medicine and trust to luck for results. She "doctors" month after month, often year after year, in this same blind, hap-hazard fashion, and receives no permanent benefit.

Women take Dr. Pierce's Favorite Prescription with their eyes open to the fact that it cures womanly ills. It cures irregularity. It dries debilitating drains. It heals inflammation and ulceration and cures female weakness. There is no trusting to luck by those who use "Favorite Prescription."

"In the year 1898 my health was poor," writes Mrs. J. Heck, of 348 Broadway, Buffalo, N.Y. "I suffered from falling of womb, a disagreeable discharge, painful monthly periods, headache, backache and pains in the limbs. Every month was confined to bed for two or three days. Was weak, nervous and hysterical; life was a burden to myself and I made every one in the family unhappy because I was so irritable. My husband got me four bottles of Dr. Pierce's Favorite Prescription, and before I had taken the first bottle I was feeling some relief. The medicine made me well and strong, free from nervousness, aches and pain, and I felt like a new woman. Before I used the 'Favorite Prescription' I had been taking another physician's medicine for nearly three months, but had received no benefit. Your medicine is certainly the best in the world."

A man or woman who neglects constipation suffers from slow poisoning. Dr. Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a gentle laxative, and two a mild cathartic. Don't let a selfish seller over-persuade you to accept a substitute for these Original Little Liver Pills, first put up by old Dr. R. V. Pierce over 40 years ago. Imitated but never equaled.

STRATFORD TRAGEDY STORY

Fought Until They Gave Each Other Death Wounds.

STRATFORD'S TRAGEDY STORY

Murder Caused by Drunken Orgy in Gamble's Shanty — Indian Killed Shack Owner, and Received Injuries From Him of Which He Died Later—The Testimony at the Inquest.

Stratford, Aug. 26.—The small shred of mystery that had enveloped the local tragedy was almost wholely lifted yesterday by the inquest over John Gamble and the dead Indian, Adam Seneca. The two men under arrest, Harold, better known as Billy Crawfield, and Caleb Poyner, while they differ on minor points, agree on the main issue, that it was Seneca and Gamble who fought, and that they died from wounds that they inflicted upon one another without the intereference of any person else.

No Spirits For Indian.

Jeremiah Hurley, proprietor of the Dominion Hotel, was the first witness called. Gamble, an Indian, Crawfield and Poyner were in his house on Wednesday night. The Indian took ginger ale, but no spirits. The others drank some beer and whiskey, but were sober when they left. Poyner did not leave until a little behind the others.

Caleb Poyner's Story.

Caleb Poyner, one of the men detained on suspicion of complicity in the crime, on being sworn said that he had worked for Gamble pulling flax and cutting hay. He had seen Seneca, the Indian, but did not know his name. Seneca was to come and help pull flax.

Witness first saw him on Wednesday in the flax field. After tea, at 6 or 7 o'clock, the Indian came to the shanty and left his valise there, and went up town. Witness, Gamble and "Billy" (indicated as Crawfield) then went up town also. Later, Seneca and another Indian joined them and they visited a couple of hotels, taking several drinks. The dead Indian took at least one glass of whiskey. He saw the others with bottles. The Indian had a big bottle of whiskey. At the shanty they had a "little bit of a dance, and more beer." The Indian played a mouth organ, and he danced "a bit of a jig," and all drank out of a cup. Then out came the long black bottle of whiskey, which was full to the top. Again the Indian struck up on his mouth organ, and the dancing was renewed on the floor of the clapboard shanty. The Indian shuffled around, and they tried to get him to lie down and sleep.

An All Round Scrap.

Then Seneca and Gamble did some wrestling, and the Indian shoved him around. They "scrapped" around. The Indian went out and John Gamble followed. The Indian had taken the bottle outside with him. It was nearly full, for they had only taken a "smile" out of the bottle. "After they went out," said the witness, "a couple of bottles came driving up against the shanty, and I thought things were getting too hot. Billy put his head out of the door and was hit with something. He fell to the floor and I left." When he first woke up at Donaghy's house Master Herb Donaghy had told him that Gamble was dead. He was afraid there would be trouble for him after that.

Crawfield's Surprising Statement.

Harold Crawfield, the other man who was detained, gave evidence that he spent most of Wednesday with Gamble in the flax field. He corroborated Poyner as to the meeting of the men, and made a startling statement to the effect that he had never seen the dead Indian before he saw his body. "I did not know the dead man at all. The Indian we were with, and who was going to pull flax, was not the one that is dead. The body on the track was that of a stouter man than the Indian who was going to work for Gamble."

Quarrelled Over a Bottle.

Dealing with the scene in the shanty, the witness corroborated the story of the dancing and musical specialties, with the Indian as grand master of ceremonies. Then the Indian and Gamble began to quarrel over the possession of a bottle, which the latter declined to let the former put into his pocket. Gamble was the best man, and chased the Indian out of the open door to the road. The Indian had his valise in his hand, and had left the bottle behind on a table. Crawfield and Gamble were having a smoke, when the Indian came back and struck him over the head. He did not remember anything else after that until morning. In the morning he dressed the cut resulting from the blow himself. Looking outside, he saw the dead body of John Gamble. Then the train came. When the police arrived he was bathing his wound. Further questioned as to the identity of the dead Indian, the witness modified his statement somewhat by saying: "It did not look like the Indian that was with us."

G. T. R. Engineer McGowan was the next witness called. He told of running over the Indian's body and the discovery of the murder of Gamble. He maintained, and the statement was substantiated, that the Indian's body was cold and clammy at the time it was lifted from beneath the train.

Various other witnesses were examined, including the mother of the Indian, the train crew, Annie Donaghy, at whose home Poyner slept, and the doctors who made the post-mortem. They said that the wounds would indicate that the man had died or was on the point of expiration at the time that he was struck by the train.

William McArdell, the neighbor, told of looking out into the night while the fight between the Indian and Gamble was at its height. The hut was in darkness and he saw matches light at the doorway and heard Crawfield's voice call out several times, "John." Other than that there was little told that had material bearing on the case.

Coroner Rankin adjourned the inquest until Friday next at 3 o'clock.

Mr. J. T. McCauley, of Trenton, is visiting friends in the city.

FRENCH FLYING COLUMN.

Will Act Promptly If Sultan of Morocco Doesn't Obey.

Paris, Aug. 26.—Gen. Lamoutry, commanding a flying column in Algeria, near the Moroccan frontier, after conferring with the Ministry, is preparing for the eventual military movement along the frontier of Morocco.

A despatch from Oran, Algeria, says that The Libertes, a newspaper of that place, declares that a flying column, comprising infantry, artillery and cavalry, is ready to occupy the Moroccan garrison town of Saiba.

Approves Original Route.

Toronto, Aug. 26.—The Ontario Government have come to a decision that will decide the controversy regarding the route of the James Bay Railway along Lake Couchiching. In a statement handed out by Premier Whitney yesterday, he announces that the executive council will approve of the original route through the Townships of Mara and Rama on the east side of the lake. This adds another to the list of decisions made by the Ross Government reversed by the new regime.

Reprimanded, Took Poison.

Belleville, Aug. 26.—John Simpson, whose home is in this city, was working for a farmer in Dawdon Township. On Tuesday last he was reproved for doing something which did not suit his employer, and went and took a dose of Paris green. He is now out of danger.

Clever, If Hardly Correct.

London, Aug. 26.—(C.A.P.)—This week's Tattler contains a picture of Lady Minto and her children in their garb as Canadians. The picture represents them as clothed in furs, and is entitled, "From Greenland's Icy Mountains to India's Coral Strand."

The Return of Sherlock Holmes

By A. CONAN DOYLE,

Author of "The Adventures of Sherlock Holmes," "The Hound of the Baskervilles," "The Sign of the Four," "A Study In Scarlet," Etc.

ILLUSTRATED BY F. D. STEELE

The Adventure of the Abbey Grange

No. 12 of the Series

(Copyright, 1904, by A. Conan Doyle and Collier's Weekly.)

(Copyright, 1903, by McClure, Phillips & Co.)

IT was on a bitterly cold and frosty morning toward the end of the winter of '97 that I was awakened by a tugging at my shoulder. It was Holmes. The candle in his hand shone upon his eager, stooping face and told me at a glance that something was amiss.

"Come, Watson; come!" he cried. "The game is afoot. Not a word! Into your clothes and come!"

Ten minutes later we were both in a cab and rattling through the silent streets on our way to Charing Cross station. The first faint winter's dawn was beginning to appear, and we could dimly see the occasional figure of an early workman as he passed us, blurred and indistinct in the opalescent London reek. Holmes nestled in silence into his heavy coat, and I was glad to do the same, for the air was most bitter, and neither of us had broken our fast.

It was not until we had consumed some hot tea at the station and taken our places in the Kentish train that we were sufficiently thawed, he to speak and I to listen. Holmes drew a note from his pocket and read it aloud:

Abbey Grange, Marsham, Kent,
3:30 a. m.

My Dear Mr. Holmes—I should be very glad of your immediate assistance in what promises to be a most remarkable case. It is something quite in your line. Except for retaining the lady, I will see that everything is kept exactly as I have found it, but I beg you not to lose an instant, as it is difficult to leave Sir Eustace there. Yours faithfully,

STANLEY HOPKINS.

"Hopkins has called me in seven times, and on each occasion his summons has been entirely justified," said Holmes. "I fancy that every one of his cases has found its way into your collection, and I must admit, Watson, that you have some power of selection, which atones for much which I deplore in your narratives. Your fatal habit of looking at everything from the point of view of a story instead of as a scientific exercise has ruined what might have been an instructive and even classical series of demonstrations. You slur over work of the utmost finesse and delicacy in order to dwell upon sensational details which may excite but cannot possibly instruct the reader."

"Why do you not write them yourself?" I said, with some bitterness.

"I will, my dear Watson, I will. At present I am, as you know, fairly busy, but I propose to devote my declining years to the composition of a textbook which shall focus the whole art of detection into one volume. Our present research appears to be a case of murder."

"You think this Sir Eustace is dead, then?"

"I should say so. Hopkins' writing shows considerable agitation, and he is not an emotional man. Yes, I gather there has been violence and that the body is left for our inspection. A mere suicide would not have caused him to send for me. As to the release of the lady, it would appear that she has been locked in her room during the tragedy. We are moving in high life, Watson—crackling paper, 'E. B.' monogram, coat of arms, picturesque address. I think that Friend Hopkins will live up to his reputation and that we shall have an interesting morning. The crime was committed before 12 last night."

"How can you possibly tell?"

"By an inspection of the trains and by reckoning the time. The local police had to be called in; they had to communicate with Scotland Yard; Hopkins had to go out, and he in turn had to send for me. All that makes a fair night's work. Well, here we are at Chiselhurst station, and we shall soon set our doubts at rest."

A drive of a couple of miles through narrow country lanes brought us to a park gate, which was opened for us by an old lodge keeper, whose haggard face bore the reflection of some great disaster. The avenue ran through a noble park between lines of ancient elms and ended in a low, widespread house pillared in front after the fashion of Palladio. The central part was evidently of a great age and shrouded in ivy, but the large windows showed that modern changes had been carried out, and one wing of the house appeared to be entirely new. The youthful figure and alert, eager face of Inspector Stanley Hopkins confronted us in the open doorway.

"I'm very glad you have come, Mr. Holmes, and you, too, Dr. Watson. But, indeed, if I had my time over again I should not have troubled you, for since the lady has come to herself she has given so clear an account of the affair that there is not much left for us to do. You remember that Lewisham gang of burglars?"

"What, the three Randalls?"

"Exactly; the father and two sons. It's their work. I have not a doubt of it. They did a job at Sydenham a fortnight ago and were seen and described. Rather cool to do another so soon and so near, but it is they beyond all doubt. It's a hanging matter this time."

"Sir Eustace is dead, then?"

"Yes; his head was knocked in with his own poker."

"Sir Eustace Brackenstall, the driver tells me."

"Exactly; one of the richest men in Kent. Lady Brackenstall is in the morning room. Poor lady, she has had a most dreadful experience. She seemed half dead when I saw her first. I think you had best see her and hear her account of the facts. Then we will examine the dining room together."

Lady Brackenstall was no ordinary person. Seldom have I seen so graceful a figure, so womanly a presence and so beautiful a face. She was a blond, golden haired, blue eyed, and would no doubt have had the perfect complexion which goes with such coloring had not her recent experience left her drawn and haggard. Her sufferings were physical as well as mental, for over one eye rose a hideous, plum colored swelling, which her maid, a tall, austere woman, was bathing assiduously with vinegar and water. The lady lay back exhausted upon a couch, but her quick observant gaze as we entered the room and the alert expression of her beautiful features showed that neither her wits nor her courage had been shaken by her terrible experience. She was enveloped in a loose dressing gown of blue and silver, but a black sequin covered dinner dress was hung upon the couch beside her.

"I have told you all that happened, Mr. Hopkins," she said wearily. "Could you not repeat it for me? Well, if you think it necessary I will tell those gentlemen what occurred. Have they been in the dining room yet?"

"I thought they had better hear your ladyship's story first."

"I shall be glad when you can arrange matters. It is horrible to me to think of him still lying there." She shuddered and buried her face in her hands. As she did so the loose gown fell back from her forearms. Holmes uttered an exclamation.

"You have other injuries, madam! What is this?" Two vivid red spots stood out on one of the white, round limbs. She hastily covered it.

"It is nothing. It has no connection with this hideous business tonight. If you and your friend will sit down, I will tell you all I can.

"I am the wife of Sir Eustace Brackenstall. I have been married about a year. I suppose there is no use of my attempting to conceal that our marriage has not been a happy one. I fear that all our neighbors would tell you that, even if I were to attempt to deny it. Perhaps the fault may be partly mine. I was brought up in the freer, less conventional atmosphere of South Australia, and this English life, with its proprieties and its primness, is not congenial to me. But the main reason lies in the one fact which is notorious to every one, and that is that Sir Eustace was a confirmed drunkard. To be with such a man for an hour is unpleasant. Can you imagine what it means for a sensitive and high spirited woman to be tied to him for day and night? It is a sacrilege, a crime, a villainy, to hold that such a marriage is binding. I say that these monstrous laws of yours will bring a curse upon the land. God will not let such wickedness endure." For an instant she sat up, her cheeks flushed and her eyes blazing from under the terrible mark upon her brow. Then the strong, thing hand of the austere maid drew her head down on to the cushion, and the wild anger died away into passionate sobbing. At last she continued:

"I will tell you about last night. You are aware, perhaps, that in this house all the servants sleep in the modern wing. This central block is made up of the dwelling rooms, with the kitchen behind and our bedroom above. My maid, Theresa, sleeps above my room. There is no one else, and no sound could alarm those who are in the farther wing. This must have been well known to the robbers or they would not have acted as they did.

"Sir Eustace retired about half past 10. The servants had already gone to their quarters. Only my maid was up, and she had remained in her room at the top of the house until I needed her services. I sat until after 11 in this room, absorbed in a book; then I walked round to see that all was right before I went upstairs. It was my custom to do this myself, for, as I have explained, Sir Eustace was not always to be trusted. I went into the kitchen, the butler's pantry, the gun room, the billiard room, the drawing room and finally the dining room. As I approached the window, which is covered with thick curtains, I suddenly felt the wind blow upon my face and realized that it was open. I flung the curtain aside and found myself face to face with a broad shouldered, elderly man, who had just stepped into the room. The window is a long French one, which really forms a door leading to the lawn. I held my bedroom candle lit in my hand, and by its light behind the first man I saw, two others, who were in the act of entering. I stepped back, but the fellow was on me in an instant. He caught me first by the wrist and then by the throat. I opened my mouth to scream, but he struck me a savage blow with his fist over the eye and felled me to the ground. I must have been unconscious for a few minutes, for when I came to myself I found that they had torn down the bell rope and had secured me tightly to the oaken chair which stands at the head of the dining table. I was so firmly bound that I could not move, and a handkerchief round my mouth prevented me from uttering a sound. It was at this instant that my unfortunate husband entered the room. He had evidently heard some suspicious sounds, and he came prepared for such a scene as he found. He was dressed in his shirt and trousers, with his favorite blackthorn cudgel in his hand. He rushed at the burglars, but another—it was an elderly man—stooped, picked the poker out of the grate and struck him a horrible blow as he passed. He fell, with a groan, and never moved again.

"I fainted once more, but again it could only have been for a very few minutes during which I was insensible. When I opened my eyes I found that they had collected the silver from the sideboard, and they had drawn a bottle of wine which stood there. Each of them had a glass in his hand. I have already told you, have I not, that one was elderly, with a beard, and the others young, hairless lads? They might have been a father with his two sons. They talked together in whispers. Then they came over and made sure that I was securely bound. Finally they withdrew, closing the window after them. It was quite a quarter of an hour before I got my mouth free. When I did so my screams brought the maid to my assistance. The other servants were soon alarmed, and we sent for the local police, who instantly communicated with London. That is really all that I can tell you, gentlemen, and I trust that it will not be necessary for me to go over so painful a story again."

"Any questions, Mr. Holmes?" asked Hopkins.

"I will not impose any further tax upon Lady Brackenstall's patience and time," said Holmes. "Before I go into the dining room I should like to hear your experience." He looked at the maid.

"I saw the men before ever they came into the house," said she. "As I sat by my bedroom window I saw three men in the moonlight down by the lodge gate yonder, but I thought nothing of it at the time. It was more than an hour after that I heard my mistress scream, and down I ran to find her, poor lamb, just as she says, and him on the floor, with his blood and brains over the room. It was enough to drive a woman out of her wits, find there and her very dress spotted with him; but she never wanted courage, did Miss Mary Fraser of Adelaide, and Lady Brackenstall of Abbey Grange hasn't learned new ways. You've questioned her long enough, you gentlemen, and now she is coming to her own room just with her old Theresa to get the rest that she badly needs."

With a motherly tenderness the gaunt woman put her arm round her mistress and led her from the room.

"She has been with her all her life," said Hopkins. "Nursed her as a baby and came with her to England when they first left Australia eighteen months ago. Theresa Wright is her name, and the kind of maid you don't pick up nowadays. This way, Mr. Holmes, if you please!"

The keen interest had passed out of Holmes' expressive face, and I knew that with the mystery all the charm of the case had departed. There still remained an arrest to be effected, but what were these commonplace rogues that he should soil his hands with them? An abstruse and learned specialist who finds that he has been called in for a case of measles would experience something of the annoyance which I read in my friend's eyes. Yet the scene in the dining room of the Abbey Grange was sufficiently strange to arrest his attention and to recall his waning interest.

It was a very large and high chamber, with carved oak ceiling, oaken paneling, and a fine array of deer's heads and ancient weapons around the walls. At the farther end from the door was the high French window of which we had heard. Three smaller windows on the right hand side filled the apartment with cold winter sunshine. On the left was a large, deep fireplace, with a massive, overhanging oak mantelpiece. Beside the fireplace was a heavy oaken chair with arms and crossbars at the bottom. In and out through the open woodwork was woven a crimson cord, which was secured at each side to the crosspiece below. In releasing the lady the cord had been slipped off her, but the knots with which it had been secured still remained. These details only struck our attention afterward, for our thoughts were entirely absorbed by the terrible object which lay upon the tiger skin hearth rug in front of the fire.

It was the body of a tall, well made man about forty years of age. He lay upon his back, his face upturned, with his white teeth grinning through his short black beard. His two clinched hands were raised above his head, and a heavy blackthorn stick lay across them. His dark, handsome, aquiline features were convulsed into a spasm of vindictive hatred, which had set his dead face in a terribly fiendish expression. He had evidently been in his bed when the alarm had broken out, for he wore a foppish, embroidered nightshirt, and his bare feet projected from his trousers. His head was horribly injured, and the whole room bore witness to the savage ferocity of the blow which had struck him down. Beside him lay the heavy poker, bent into a curve by the concussion. Holmes examined both it and the indescribable wreck which it had wrought.

"He must be a powerful man, this elder Randall," he remarked.

"Yes," said Hopkins. "I have some record of the fellow, and he is a rough customer."

"You should have no difficulty in getting him."

"Not the slightest. We have been on the lookout for him, and there was some idea that he had got away to America. Now that we know that the gang are here I don't see how they can escape. We have the news at every seaport already, and a reward will be offered before evening. What beats me is how they could have done so mad a thing knowing that the lady could describe them and that we could not fail to recognize the description."

"Exactly. One would have expected that they would have silenced Lady Brackenstall as well."

"They may not have realized," I suggested, "that she had recovered from her faint."

"That is likely enough. If she seemed to be senseless they would not take her life. What about this poor fellow, Hopkins? I seem to have heard some queer stories about him."

"He was a good hearted man when he was sober, but a perfect fiend when he was drunk, or rather when he was half drunk, for he seldom really went the whole way. The devil seemed to be in him at such times, and he was capable of anything. From what I hear, in spite of all his wealth and his title he very nearly came our way once or twice. There was a scandal about his drenching a dog with petroleum and setting it on fire—her ladyship's dog, to make the matter worse—and that was only hushed up with difficulty. Then he threw a decanter at that maid, Theresa Wright; there was trouble about that. On the whole, and between ourselves, it will be a brighter house without him. What are you looking at now?"

Holmes was down on his knees examining with great attention the knots upon the red cord with which the lady had been secured. Then he carefully scrutinized the broken and frayed end where it had snapped off when the burglar had dragged it down.

"When this was pulled down the bell in the kitchen must have rung loudly," he remarked.

"No one could hear it. The kitchen stands right at the back of the house."

"How did the burglar know no one would hear it? How dare he risk ringing a bell rope in that reckless fashion?"

"Exactly, Mr. Holmes, exactly. You put the very question which I have asked myself again and again. There can be no doubt that this fellow must have known the house and its habits. He must have perfectly understood that the servants would all be in bed at that comparatively early hour and that no one could possibly hear a bell ring in the kitchen. Therefore he must have been in close league with one of the servants. Surely that is evident. But there are eight servants, and all of good character."

"Other things being equal," said Holmes, "one would suspect the one at whose head the master threw a decanter. And yet that would involve treachery toward the mistress to whom this woman seems devoted. Well, well, the point is a minor one, and when you have Randall you will probably

Diarrhoea, Dysentery, Summer Complaint, Stomach Cramps, Colic, Cholera Morbus, Cholera Infantum, and all Looseness of the Bowels

may be rapidly and effectually cured by the use of that old and sterling remedy

Dr. Fowler's Extract of Wild Strawberry.

It has a reputation of 60 years' standing and never fails to either relieve or cure.

There are many imitations of this remedy on the market that sell for less per bottle. Dr. Fowler's is 35 cents, so be sure and get the genuine. The cheaper articles may be dangerous to your health.

HAS USED IT FOR YEARS.

Mrs. Chas. Woods, Waubausheene, Ont., writes: "I have used Dr. Fowler's Extract of Wild Strawberry in my house for years, and I find it a splendid remedy for Diarrhoea and Bowel Complaints, especially in children teething."

OGILVIE'S ROYAL HOUSEHOLD

Bran waste is one great difference between good and poor flours.

The food part of flour is "protein."

Protein makes bone, muscle and brain.—There is no protein in bran.

—bran is the outside part, the husk or "bark" of the wheat.

—bran is the part of the wheat which is absolutely without food-value to the human system.

—bran represents part of the difference between Royal Household Flour and whole-wheat flour or cheap, inferior flours that are poorly milled and not thoroughly purified.

No other flour in this country is so thoroughly and completely separated from the waste as is "Royal Household," because no other mills are so well equipped or exclusively devoted to the production of scientifically pure flour as Royal Household mills.

Ogilvie's Royal Household Flour.

Why Red Rose Tea is Economical

RED Rose Tea has all the good points of two good teas and none of the weaknesses of any. You never drank a cup of straight Ceylon or Indian tea that could compare in strength, richness, delicacy and fragrance with the "rich fruity flavor" of Red Rose Tea.

Yet Red Rose Tea goes further and costs no more than either Indian or Ceylon teas alone.

Red Rose Tea is better than either Indian or Ceylon tea and is more economical because it goes further.

Red Rose Tea is good Tea

The Return of SHERLOCK HOLMES

Author of "The Adventures of Sherlock Holmes," "The Hound of the Baskervilles," "The Sign of the Four," "A Study In Scarlet," Etc.

ILLUSTRATED BY F. D. STEELE

(Continued from page 9.)

find no difficulty in securing his accomplice. The lady's story certainly seems to be corroborated, if it needed corroboration, by every detail which we see before us." He walked to the French window and threw it open. "There are no signs here, but the ground is iron hard, and one would not expect them. I see that these candles in the mantelpiece have been lighted."

"Yes; it was by their light and that of the lady's bedroom candle that the burglars saw their way about."

"And what did they take?"

"Well, they did not take much—only half a dozen articles of plate off the sideboard. Lady Brackenstall thinks that they were themselves so disturbed by the death of Sir Eustace that they did not ransack the house, as they would otherwise have done."

"No doubt that is true, and yet they drank some wine, I understand."

"To steady their nerves."

"Exactly. These three glasses upon the sideboard have been untouched, I suppose."

"Yes, and the bottle stands as they left it."

"Let us look at it. Hello, hello! What is this?"

The three glasses were grouped together, all of them tinged with wine and one of them containing some dregs of beeswing. The bottle stood near them, two-thirds full, and beside it lay a long, deeply stained cork. Its appearance and the dust upon the bottle showed that was no common vintage which the murderers had enjoyed.

A change had come over Holmes' manner. He had lost his listless expression, and again I saw an alert light of interest in his keen, deep set eyes. He raised the cork and examined it minutely.

"How did they draw it?" he asked.

Hopkins pointed to a half opened drawer. In it lay some table linen and a large corkscrew.

"Did Lady Brackenstall say that screw was used?"

"No; you remember that she was senseless at the moment when the bottle was opened."

"Quite so. As a matter of fact, the screw was not used. This bottle was opened by a pocket screw, probably contained in a knife and not more than an inch and a half long. If you will examine the top of the cork, you will observe that the screw was driven in three times before the cork was extracted. It has never been transfixed. This long screw would have transfixed it and drawn it up with a single pull. When you catch this fellow you will find that he has one of these multiplex knives in his possession."

"Excellent!" said Hopkins.

"But these glasses do puzzle me, I confess. Lady Brackenstall actually saw the three men drinking, did she not?"

"Yes; she was clear about that."

"Then there is an end of it. What more is to be said? And yet you must admit that the three glasses are very remarkable, Hopkins. What? You see nothing remarkable? Well, well, let it pass. Perhaps when a man has special knowledge and special powers like my own it rather encourages him to seek a complex explanation when a simpler one is at hand. Of course it must be a mere chance about the glasses. Well, good morning, Hopkins. I don't see that I can be of any use to you, and you appear to have your case very clear. You will let me know when Randall is arrested and any further developments which may occur. I trust that I shall soon have to congratulate you upon a successful conclusion. Come, Watson; I fancy that we may employ ourselves more profitably at home."

During our return journey I could see by Holmes' face that he was much puzzled by something which he had observed. Every now and then by an effort he would throw off the impression and talk as if the matter were clear, but then his doubts would settle down upon him again, and his knitted brows and abstracted eyes would show that his thoughts had gone back once more to the great dining room of the Abbey Grange in which this midnight tragedy had been enacted. At last by a sudden impulse just as our train was crawling out of a suburban station he sprang on to the platform and pulled me out after him.

"Excuse me, my dear fellow," said he as we watched the rear carriages of our train disappearing round a curve. "I am sorry to make you the victim of what may seem a mere whim; but, on my life, Watson, I simply can't leave that case in this condition. Every instinct that I possess cries out against it. It's wrong—it's all wrong—I'll swear that it's wrong. And yet the lady's story was complete, the maid's corroboration was sufficient, the detail was fairly exact. What have I to put up against that? Three wineglasses—that is all. But if I had not taken things for granted, if I had examined everything with the care which I should have shown had we approached the case de novo and had no cut and dried story to warp my mind, should I not then have found something more definite to go upon? Of course I should. Sit down on this bench, Watson, until a train for Chiselhurst arrives, and allow me to lay the evidence before you, imploring you in the first instance to dismiss from your mind the idea that anything which the maid or her mistress may have said must necessarily be true. The lady's charming personality must not be permitted to warp our judgment.

"Surely there are details in her story which, if we looked at in cold blood, would excite our suspicion. These burglars made a considerable haul at Sydenham a fortnight ago. Some account of them and of their appearance was in the papers and would naturally occur to any one who wished to invent a story in which imaginary robbers should play a part. As a matter of fact, burglars who have done a good stroke of business are, as a rule, only too glad to enjoy the proceeds in peace and quiet without embarking on another perilous undertaking. Again, it is unusual for burglars to operate at so early an hour; it is unusual for burglars to strike a lady to prevent her screaming, since one would imagine that was the sure way to make her scream; it is unusual for them to commit murder when their numbers are sufficient to overpower one man; it is unusual for them to be content with a limited plunder when there was much more within their reach, and, finally, I should say that it was very unusual for such men to leave a bottle half empty. How do all these unusuals strike you, Watson?"

"Their cumulative effect is certainly considerable, and yet each of them is quite possible in itself. The most unusual thing of all, as it seems to me, is that the lady should be tied to the chair."

"Well, I am not so clear about that, Watson, for it is evident that they must either kill her or else secure her in such a way that she could not give immediate notice of their escape. But at any rate I have shown, have I not, that there is a certain element of improbability about the lady's story? And now, on the top of this, comes the incident of the wineglasses."

"What about the wineglasses?"

"Can you see them in your mind's eye?"

"I see them clearly."

"We are told that three men drank from them. Does that strike you as likely?"

"Why not? There was wine in each glass."

"Exactly, but there was beeswing only in one glass. You must have noticed that fact. What does that suggest to your mind?"

"The last glass filled would be most likely to contain beeswing."

"Not at all. The bottle was full of it, and it is inconceivable that the first two glasses were clear and the third heavily charged with it. There are two possible explanations, and only two. One is that after the second glass was filled the bottle was violently agitated, and so the third glass received the beeswing. That does not appear probable. No, no, I am sure that I am right."

"What, then, do you suppose?"

"That only two glasses were used and that the dregs of both were poured into a third glass, so as to give the false impression that three people had been here. In that way all the beeswing would be in the last glass, would it not? Yes, I am convinced that this is so. But if I have hit upon the true explanation of this one small phenomenon then in an instant the case rises from the commonplace to the exceedingly remarkable, for it can only mean that Lady Brackenstall and her maid have deliberately lied to us, that not one word of their story is to be believed, that they have some very strong reason for covering the real criminal and that we must construct our case for ourselves without any help from them. That is the mission which now lies before us, and here, Watson, is the Sydenham train."

The household at the Abbey Grange were much surprised at our return, but Sherlock Holmes, finding that Stanley Hopkins had gone off to report to headquarters, took possession of the dining room, locked the door upon the inside and devoted himself for two hours to one of those minute and laborious investigations which form the solid basis on which his brilliant edifices of deduction were reared. Seated in a corner like an interested student who observes the demonstration of his professor I followed every step of that remarkable research. The window, the curtains, the carpet, the chair, the rope—each in turn was minutely examined and duly pondered. The body of the unfortunate baronet had been removed, and all else remained as we had seen it in the morning. Finally, to my astonishment, Holmes climbed up on to the massive mantelpiece. Far above his head hung the few inches of red cord which were still attached to the wire. For a long time he gazed upward at it, and then in an attempt to get nearer to it he rested his knee upon a wooden bracket on the wall. This brought his hand within a few inches of the broken end of the rope, but it was not this so much as the bracket itself which seemed to engage his attention. Finally he sprang down with an ejaculation of satisfaction.

"It's all right, Watson," said he. "We have got our case—one of the most remarkable in our collection. But, dear me, how slow witted I have been and how nearly I have committed the blunder of my lifetime! Now, I think that, with a few missing links, my chain is almost complete."

"You have got your men?"

"Man, Watson, man. Only one, but a very formidable person. Strong as a lion—witness the blow that bent that poker! Six foot three in height, active as a squirrel, dexterous with his fingers; finally, remarkably quick witted, for this whole ingenious story is of his concoction. Yes, Watson, we have come upon the handiwork of a very remarkable individual. And yet, in that bell rope he has given us a clew which should not have left us a doubt."

"Where was the clew?"

"Well, if you were to pull down a bell rope, Watson, where would you expect it to break? Surely at the spot where it is attached to the wire. Why should it break three inches from the top, as this one has done?"

"Because it is frayed there?"

"Exactly. This end, which we can examine, is frayed. He was cunning enough to do that with his knife. But the other end is not frayed. You could not observe that from here, but if you were on the mantelpiece you would see that it is cut clean off without any mark of fraying whatever. You can reconstruct what occurred. The man needed the rope. He would not tear it down for fear of giving the alarm by ringing the bell. What did he do? He sprang upon the mantelpiece, could not quite reach it, put his knee on the bracket—you will see the impression in the dust—and so got his knife to bear upon the cord. I could not reach the place by at least three inches, from which I infer that he is at least three inches a bigger man than I am. Look at that mark upon the seat of the oaken chair! What is it?"

"Blood."

"Undoubtedly it is blood. This alone puts the lady's story out of court. If she were seated on the chair when the crime was done, how comes that mark? No, no; she was placed in the chair after the death of her husband. I'll wager that the black dress shows a corresponding mark to this. We have not yet met our Waterloo, Watson, but this is our Marengo, for it begins in defeat and ends in victory. I should like now to have a few words with the nurse, Theresa. We must be wary for awhile if we are to get the information which we want."

She was an interesting person, this stern Australian nurse—taciturn, suspicious, ungracious. It took some time before Holmes' pleasant manner and frank acceptance of all she said thawed her into a corresponding amiability. She did not attempt to conceal her hatred for her late employer.

"Yes, sir, it is true that he threw the decanter at me. I heard him call my mistress a name, and I told him that he would not dare to speak so if her brother had been there. Then it was that he threw it at me. He might have thrown a dozen if he had but left my bonny bird alone. He was forever ill treating her, and she too proud to complain. She will not even tell me all that he has done to her. She never told me of those marks on her arm that you saw this morning, but I know very well that they come from a stab with a hatpin. The sly devil—God forgive me that I should speak of him so now that he is dead! But a devil he was if ever one walked the earth. He was all honey when first we met him, only eighteen months ago, and we both feel as if it were eighteen years. She had only just arrived in London. Yes, it was her first voyage. She had never been from home before. He won her with his title and his money and his false London ways. If she made a mistake she has paid for it if ever a woman did. What month did we meet him? Well, I tell you it was just after we arrived. We arrived in June, and it was July. They were married in January of last year. Yes, she is down in the morning room again, and I have no doubt she will see you, but you must not ask too much of her, for she has gone through all that flesh and blood will stand."

Lady Brackenstall was reclining on the same couch, but looked brighter than before. The maid had entered with us and begun once more to foment the bruise upon her mistress' brow.

"I hope," said the lady, "that you have not come to cross examine me again?"

"No," Holmes answered in his gentlest voice; "I will not cause you any unnecessary trouble, Lady Brackenstall, and my whole desire is to make things easy for you, for I am convinced that you are a much tried woman. If you will treat me as a friend and trust me you may find that I will justify your trust."

"What do you want me to do?"

"To tell me the truth."

"Mr. Holmes!"

"No, no, Lady Brackenstall; it is no use. You may have heard of any little reputation which I possess. I will stake it all on the fact that your story is an absolute fabrication."

Mistress and maid were both staring at Holmes with pale faces and frightened eyes.

"You are an impudent fellow!" cried Theresa. "Do you mean to say that my mistress has told a lie?"

Holmes rose from his chair.

"Have you nothing to tell me?"

"I have told you everything."

"Think once more, Lady Brackenstall. Would it not be better to be frank?"

For an instant there was hesitation in her beautiful face. Then some new, strong thought caused it to set like a mask.

"I have told you all I know."

Holmes took his hat and shrugged his shoulders. "I am sorry," he said. And without another word we left the room and the house. There was a pond in the park, and to this my friend led the way. It was frozen over, but a single hole was left for the convenience of a solitary swan. Holmes gazed at it and then passed on to the lodge gate. Then he scribbled a short note for Stanley Hopkins and left it with the lodge keeper.

"It may be a hit or it may be a miss, but we are bound to do something for Friend Hopkins just to justify this second visit," said he. "I will not quite take him into my confidence yet. I think our next scene of operations must be the shipping office of the Adelaide-Southampton line, which stands at the end of Pall Mall, if I remember right. There is a second line of steamers which connect South Australia with England, but we will draw the larger cover first."

Holmes' card sent in to the manager insured instant attention, and he was not long in acquiring all the information he needed. In June of '95 only one of their line had reached a home port. It was the Rock of Gibraltar, their largest and best boat. A reference to the passenger list showed that Miss Fraser of Adelaide, with her maid, had made the voyage in her. The boat was now on her way to Australia somewhere in the south of the Suez canal. Her officers were the same as in '95, with one exception. The first officer, Mr. Jack Crocker, had been made a captain and was to take charge of their new ship, the Bass Rock, sailing in two days' time from Southampton. He lived at Sydenham, but he was likely to be in that morning for instructions, if we cared to wait for him.

No; Mr. Holmes had no desire to see him, but would be glad to know more about his record and character.

His record was magnificent. There was not an officer in the fleet to touch him. As to his character, he was reliable on duty, but a wild, desperate fellow off the deck of his ship—hot headed, excitable, but loyal, honest and kind hearted. That was the pith of the information with which Holmes left the office of the Adelaide-Southampton company. Thence he drove to Scotland Yard, but, instead of entering, he sat in his cab with his brows drawn down, lost in profound thought. Finally he drove round to the Charing Cross telegraph office, sent off a message and then, at last, we made for Baker street once more.

"No; I couldn't do it, Watson," said he as we re-entered our room. "Once that warrant was made out nothing on earth would save him. Once or twice in my career I feel that I have done more real harm by my discovery of the criminal than ever he had done by his crime. I have learned caution now, and I had rather play tricks with the law of England than with my own conscience. Let us know a little more before we act."

Before evening we had a visit from Inspector Stanley Hopkins. Things were not going very well with him.

"I believe that you are a wizard, Mr. Holmes. I really do sometimes think that you have powers that are not human. Now, how on earth could you know that the stolen silver was at the bottom of that pond?"

"I didn't know it."

"But you told me to examine it."

"You got it, then?"

"Yes, I got it."

"I am very glad if I have helped you."

"But you haven't helped me. You have made the affair far more difficult. What sort of burglars are they who steal silver and then throw it into the nearest pond?"

"It was certainly rather eccentric behavior. I was merely going on the idea that if the silver had been taken by persons who did not want it—who merely took it for a blind, as it were—then they would naturally be anxious to get rid of it."

"But why should such an idea cross your mind?"

"Well, I thought it was possible. When they came out through the French window, there was the pond with one tempting little hole in the ice right in front of their noses. Could there be a better hiding place?"

"Ah, a hiding place! That is better!" cried Stanley Hopkins. "Yes, yes; I see it all now! It was early, there were folk upon the roads, they were afraid of being seen with the silver, so they sank it in the pond, intending to return for it when the coast was clear. Excellent, Mr. Holmes! That is better than your idea of a blind."

"Quite so. You have got an admirable theory. I have no doubt that my own ideas were quite wild, but you must admit that they have ended in discovering the silver."

"Yes, sir—yes. It was all your doing. But I have had a bad setback."

"A setback?"

"Yes, Mr. Holmes. The Randall gang were arrested in New York this morning."

"Dear me, Hopkins, that is certainly rather against your theory that they committed a murder in Kent last night."

"It is fatal, Mr. Holmes—absolutely fatal. Still there are other gangs of three besides the Randalls, or it may be some new gang of which the police have never heard."

"Quite so. It is perfectly possible. What, are you off?"

"Yes, Mr. Holmes. There is no rest for me until I have got to the bottom of the business. I suppose you have no hint to give me?"

"I have given you one."

"Which?"

"Well, I suggested a blind."

"But why, Mr. Holmes—why?"

"Ah, that's the question, of course. But I commend the idea to your mind. You might possibly find that there was something in it. You won't stop for dinner? Well, goodby, and let us know how you get on."

Dinner was over and the table cleared before Holmes alluded to the matter again. He had lit his pipe and held his slippered feet to the cheerful blaze of the fire. Suddenly he looked at his watch.

"I expect developments, Watson."

"When?

"Now—within a few minutes. I dare say you thought I acted rather badly to Stanley Hopkins just now."

"I trust your judgment."

"A very sensible reply, Watson. You must look at it this way: What I know is unofficial; what he knows is official. I have the right to private judgment, but he has none. He must disclose all or he is a traitor to his service. In a doubtful case I would not put him in so painful a position, and so I reserve my information until my own mind is clear upon the matter."

"But when will that be?"

"The time has come. You will now be present at the last scene of a remarkable little drama."

There was a sound upon the stairs, and our door was opened to admit as fine a specimen of manhood as ever passed through it. He was a very tall young man, golden mustached, blue eyed, with a skin which had been burned by tropical suns, and a springy step which showed that the huge frame was as active as it was strong. He closed the door behind him, and then he stood with clinched hands and heaving breast, choking down some overmastering emotion.

"Sit down, Captain Crocker. You got my telegram?"

Our visitor sank into an armchair and looked from one to the other of us with questioning eyes.

"I got your telegram, and I came at the hour you said. I heard that you had been down to the office. There was no getting away from you. Let's hear the worst. What are you going to do with me? Arrest me? Speak out, man! You can't sit there and play with me like a cat with a mouse."

"Give him a cigar," said Holmes. "Bite on that, Captain Crocker, and don't let your nerves run away with you. I should not sit here smoking with you if I thought that you were a common criminal, you may be sure of that. Be frank with me, and we may do some good. Play tricks with me, and I'll crush you."

"What do you wish me to do?"

"To give me a true account of all that happened at the Abbey Grange last night—a true account, mind you, with nothing added and nothing taken off. I know so much already that if you go one inch off the straight I'll blow this police whistle from my window, and the affair goes out of my hands forever."

The sailor thought for a little. Then he struck his leg with his great sunburned hand.

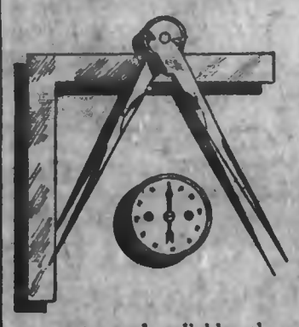
"I'll chance it," he cried. "I believe you are a man of your word and a white man, and I'll tell you the whole story. But one thing I will say first. So far as I am concerned I regret nothing and I fear nothing, and I would do it all again and be proud of the job. Damn the beast, if he had as many lives as a cat he would owe them all to me! But it's the lady, Mary—Mary Fraser—for never will I call her by that accursed name. When I think of getting her into trouble, I who would give my life just to bring one smile to her dear face, it's that that turns my soul into water. And yet—and yet—what less could I do? I'll tell you my story, gentlemen, and then I'll ask you, as man to man, what less could I do.

"I must go back a bit. You seem to know everything, so I expect that you know that I met her when she was a passenger and I was first officer of the Rock of Gibraltar. From the first day I met her she was the only woman to me. Every day of that voyage I loved her more, and many a time since have I kneeled down in the darkness of the night watch and kissed the deck of that ship because I knew her dear feet had trod it. She was never engaged to me. She treated me as fairly as ever a woman treated a man. I have no complaint to make. It was all love on my side and all good comradeship and friendship on hers. When we parted she was a free woman, but I could never again be a free man.

"Next time I came back from sea I heard of her marriage. Well, why shouldn't she marry whom she liked?

Continued on page eleven.

The Pandora Thermometer



The thermometer on the Pandora range oven means precisely in accuracy to the cook what the square and compass mean to the draftsman. Without the square and compass the draftsman would have to work entirely by guess, just as you do without an accurate and reliable thermometer on your oven.

The Pandora thermometer reduces cooking to an exact science. You know precisely how much heat you have and what it will do in a given time. It is one of the small things which makes the Pandora so much different and better than common ranges.

JAMES MURTY, Sole Agent, Peterborough.

Chamberlain's COLIC, CHOLERA AND Diarrhoea Remedy

A few doses of this remedy will invariably cure an ordinary attack of diarrhoea.

It has been used in nine epidemics of dysentery with perfect success.

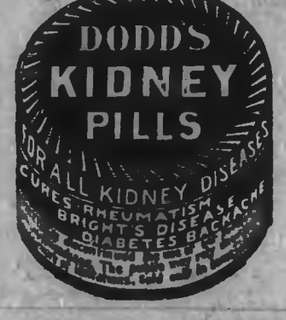
It can always be depended upon, even in the more severe attacks of cramp colic and cholera morbus.

It is equally successful for summer diarrhoea and cholera infantum in children, and is the means of saving the lives of many children each year.

When reduced with water and sweetened it is pleasant to take.

Every man of a family should kedp this remedy in his home. Buy it now. It may save life.

PRICE, 35 CENTS.



We advise everybody to use Sunlight Soap—
It makes child's play of work.

SUNLIGHT SOAP

We have used "Sunlight Soap," and we want to tell you that it is the best soap made, that's why we are writing. We found out that the Sunlight way is the best way to wash with "Sunlight Soap." At first we used to wash with Sunlight Soap in the old way as we did with common soap, but after we washed according to directions printed on the package, we would never wash the old way again. We first soap the articles, leave them to soak and then rub out lightly on the wash board. Not much to do and it makes the clothes white as snow.

ASK FOR THE OCTAGON BAR

Sunlight Soap washes the clothes white and won't injure the hands.

KINGSTON, ONT.

BLOOD POISON

On account of its terrible effects, blood disease is called the king of all diseases. It may be either hereditary or contracted; so while it may not be a crime to have the disease, it is a crime to permit it to remain in the system. It may manifest itself in the form of Scrofula, Eczema, rheumatic pains, stiff or swollen joints, itchiness of the skin, eruptions or blotches, ulcers in the mouth or on the tongue, sore throat, falling out of hair, disordered stomach, and a general depression of the system. If you have any of these symptoms don't neglect yourself. You have no time to lose. Beware of "old fogy" treatment—beware of mineral poisons—beware of Quacks and Fakirs. OUR NEW METHOD TREATMENT is guaranteed to cure this disease, never to return. Bank Bonds will protect you. Our treatment is not injurious in any way, but reaches the very root of the disease and eliminates all poison from the system. The symptoms of disease gradually disappear. The blood becomes pure and enriched, the whole system is cleansed and purified, and the patient feels prepared anew for the duties and the pleasures of life. CURES GUARANTEED OR NO PAY. 25 Years in Detroit. 250,000 Cured.

Consultation Free. Question Blank for Home Treatment and Books Free.

THE RETURN OF SHERLOCK HOLMES

Continued from tenth page.

Title and money—who could carry them better than she? I didn't grieve over her marriage. I was not such a selfish hound as that. I just rejoiced that good luck had come her way and that she had not thrown herself away on a penniless sailor. That's how I loved Mary Fraser.

"Well, I never thought to see her again, but last voyage I was promoted, and the new boat was not yet launched, so I had to wait for a couple of months with my people at Sydenham. One day out in a country lane I met Theresa Wright, her old maid. She told me all about her, about him, about everything. I tell you, gentlemen, it nearly drove me mad. This drunken hound—that he should dare to raise his hand to her whose boots he was not worthy to lick! I met Theresa again. Then I met Mary herself, and met her again. Then she would meet me no more. But the other day I had a notice that I was to start on my voyage within a week, and I determined that I would see her once before I left. Theresa was always my friend, for she loved Mary and hated this villain almost as much as I did. From her I learned the ways of the house. Mary used to sit up reading in her own little room downstairs. I crept round there last night and scratched at the window. At first she would not open to me, but in her heart I know that now she loves me, and she could not leave me in the frosty night. She whispered to me to come round to the big front window, and I found it open before me, so as to let me into the dining room. Again I heard from her own lips things that made my blood boil, and again I cursed this brute who mishandled the woman I loved. Well, gentlemen, I was standing with her just inside the window, in all innocence, as God is my judge, when he rushed like a madman into the room, called her the vilest name that a man could use to a woman and welted her across the face with the stick he had in his hand. I had sprung for the poker, and it was a fair fight between us. See here on my arm where his first blow fell. Then it was my turn, and I went through him as if he had been a rotten pumpkin.

"She had screamed when he struck her, and that brought old Theresa down from the room above. There was a bottle of wine on the sideboard, and I opened it and poured a little between Mary's lips, for she was half dead with shock. Then I took a drop myself. Theresa was as cool as ice, and it was her plot as much as mine. We must make it appear that burglars had done the thing. Theresa kept on repeating our story to her mistress while I swarmed up and cut the rope of the bell. Then I lashed her in her chair and frayed out the end of the rope to make it look natural, else they would wonder how in the world a burglar could have got up there to cut it. Then I gathered up a few plates and pots of silver to carry out the idea of the robbery, and there I left them, with orders to give the alarm when I had a quarter of an hour's start. I dropped the silver into the pond and made for Sydenham. And that's the truth and the whole truth, Mr. Holmes, if it costs me my neck."

Holmes smoked for some time in silence; then he crossed the room and shook our visitor by the hand.

"That's what I think," said he. "I know that every word is true, for you have hardly said a word which I did not know. No one but an acrobat or a sailor could have got up to that bell rope from the bracket, and no one but a sailor could have made the knots with which the cord was fastened to the chair. Only once had this lady been brought into contact with sailors, and that was on her voyage, and it was some one of her own class of life, since she was trying hard to shield him and so showing that she loved him. You see how easy it was for me to lay my hands upon you when once I had started upon the right trail."

"I thought the police never could have seen through our dodge."

"And the police haven't, nor will they, to the best of my belief. Now, look here, Captain Crocker, this is a very serious matter, though I am willing to admit that you acted under the most extreme provocation to which any man could be subjected. I am not sure that in defense of your own life your action will not be pronounced legitimate. However, that is for a British jury to decide. Meanwhile I have so much sympathy for you that, if you choose to disappear in the next twenty-four hours, I will promise you that no one will hinder you."

"And then it will all come out?"

"Certainly it will come out."

The sailor flushed with anger.

"What sort of proposal is that to make a man? I know enough of law to understand that Mary would be held as accomplice. For heaven's sake, Mr. Holmes, find some way of keeping poor Mary out of the courts."

Holmes for a second time held out his hand to the sailor.

"I was only testing you, and you ring true every time. Well, it is a great responsibility that I take upon myself, but I have given Hopkins an excellent hint, and if he can't avail himself of it I can do no more. See here, Captain Crocker, we'll do this in due form of law. You are the prisoner. Watson, you are a jury. I am the judge. Now, gentlemen of the jury, you have heard the evidence. Do you find the prisoner guilty or not guilty?"

"Not guilty, my lord," said I.

"Vox populi, vox Dei. You are acquitted, Captain Crocker. So long as the law does not find some other victim you are safe from me. Come back to this lady in a year."

—Mr. T. F. Bladale, late of Cambridge University, has kindly consented to Using at the morning service in St. John's Church, a site [illegible]

EVERY woman who has stewed and fretted and worried at a hot oven door, shifting a roast to the top shelf and back again to the bottom shelf and turning it over in a vain attempt to get it properly cooked, will appreciate the evenly distributed heat of the Imperial Oxford oven.

This even distribution of heat is secured by our diffusive flue—an exclusive feature of the Imperial Oxford Range. Top and bottom, sides and corners, the temperature of the oven is equal and steady.

Imperial Oxford Range

The oven of the Imperial Oxford Range produces light, dainty, pastry, evenly cooked, tender, juicy roasts—in fact, perfect baking and roasting.

Ask your dealer to explain to you the many exclusive features of the Imperial Oxford Range. If he doesn't handle it, write to us for our booklets and we will let you know the nearest dealer who does.

VISIT OF ENGLISH FOOTBALLERS

Sir Charles and Lady Kirkpatrick Will Accompany the Team.

Something About the Football Team Which Sailed for Canada on Thursday.

Sir Charles Kirkpatrick, Baronet, will act as captain of the "Pilgrims" (the English Association Football Club), which on August 24th sails from England on the steamship Bavarian, to play a series of matches in the States and Canada. Sir Charles is a versatile player who has earned high honours at the game; indeed, he is good at almost anything in the way of athletics. Sir Charles Sharpe Kirkpatrick, of Closeburn, Dumfriesshire, represents the main line of the family to which the Empress Eugenie belongs. The old mansion at Closeburn, built by the first baronet, (the creation dates from 1685), was burned to the ground through the carelessness of drunken servants in 1748. Sir Charles was born in 1874, and resides at Forest Hill. He is a big fellow with a genial smile, and puts a terrible amount of weight into the ball every time his foot comes in contact with it.

Lady Kirkpatrick, who accompanies her husband on this trip, is a very well known English society lady, and is sure to make many friends during her trip.

As an organization the "Pilgrims" are of the same calibre as the famous Corinthians, who have played in all parts of the world, South Africa and Australia included, but not in America.

The "Pilgrims" is a name that was very famous in the early days of Association Football in England, 30 years ago, and the revival of the title has given much pleasure to a large number of enthusiasts in the country. The Chief Secretary of the "Pilgrims'" Club is Mr. Fred Milnes of Sheffield. Mr. Milnes plays regularly for the League team of Sheffield United — a club that has won the Football Association Cup more than once — and he is regarded as one of the finest full backs in the country. Mr. Milnes is in business with his father as an ironfounder at Owlerton, near Sheffield. He is a fair-haired young fellow of splendid physique, and so fond is he of the game that he has been known to play six strenuous matches in as many days.

The star player of the team is Vivian J. Woodward, of the Tottenham Hotspur Club, London. Woodward is by far and away the best centre forward in England at the present time; indeed it is doubtful, if there has ever been a better. Woodward is a very graceful and yet a very tricky player. He has had all the highest honours bestowed upon him by his country. He has played against Scotland, Ireland and Wales, and has only once been on the losing side. Woodward is a Londoner, and by business he is an architect.

J. D. Barnsdale (Notts Forest) and R. E. Hounsfield, (Derby County,) are also players of the very first class, and so also is Milnes. These men regularly appear in First League Football, every week during the season, and, bar accidents, they are bound in the course of time to get their international caps. Hounsfield is one of the swiftest forwards playing in the game in England, and his electric rushes are always calculated to rouse the enthusiasm of the spectators. He is quite a youth and he is said to have more money than he knows what to do with.

C. W. Storey comes of a family well known in Liverpool commercial circles. Besides being a "Pilgrim" he is a "Corinthian," and a very fine player.

A. Fletcher is one of the best of the Derby County players.

Raines and Coopland are club mates of Milnes.

E. A. Milton, the Saltley College boy, is a splendid shot at goal, and a sure scorer when anyway near.

Walmesley, Eyming and Nuttall have distinguished themselves in cup ties before now. The first named is a back who is good enough for any team.

Baron Von Reiffenstein, who accompanies the team as referee, is one of London's leading sportsmen, and a most genial fellow. He understandas the game inside out.

Games will be played as follows: Montreal, Sept. 9, Hamilton, Sept. 11; Berlin, Sept. 13; Galt, Sept. 16; Detroit, Sept. 17 and 18; St. Louis, Sept. 23 and 24; Chicago, Sept. 30 and Oct. 1; Philadelphia, Oct. 5, 6 and 7; New York, Oct. 11th. Visits will also be made to Niagara Falls and Washington.

A GOOD YEAR FOR A GOOD SOCIETY

Annual Meeting of C. G. E. Co. Mutual Benefit Society.

An Excellent Financial Showing—The Work of the Society—Officers Elected.

The third annual meeting of the Canadian General Electric Company Employees' Mutual Benefit Society was held in the Y.M.C.A. Hall last night, with a good attendance which was all the better in view of the success which had again to be reported in respect of the successful character of the society's operations for the year. The annual statement presented showed a very successful year, the credit balance on account of receipts and expenditures amounting to the handsome figure of $368.93. The society was organized in 1902, and since its establishment has paid 403 sick claims and 9 death claims, representing an aggregate disbursement of $1,831.57, distributed to members and beneficiaries of the society.

At the meeting last night Mr. Wm. Hill, president, occupied the chair.

After routine proceedings the by-laws of the society were so amended as to provide that the society's physician furnish medicine as well as attendance.

An honourarium of $25 was voted to the Treasurer, Mr. R. E. Layfield, for services during his long term in that capacity.

The Annual Statement.

The Annual Statement was presented as follows:—

Peterborough,
August 23rd, 1905.

WILLIAM HILL,
President.
R. E. LAYFIELD,
Treasurer.

We have examined all books, papers and vouchers and found them correct,

W. S. ROBINSON,
R. E. HARDING,
Auditors.

Election of Officers.

The election of officers resulted as follows:—

President—R. E. Harding.
Vice-President—Geo. Benton, Jr.
Secretary—F. A. Shannon.
Treasurer—R. E. Layfield.
Auditors—Messrs. W. S. Robinson and William Hendcliffe.

The Executive Board which consists of 22 members—one from each department of the Works—are elected by the employees of the several departments within one week after the annual meeting.

A cordial vote of thanked was passed to Mr. E. G. Patterson, Superintendent of the Works for the many courtesies extended the society during the year and also a similar vote to the retiring president, Mr. Hill.

A Few Facts.

The total membership of the society is 586.

The society can now be considered to be solidly placed on its feet with prospects for a prosperous future.

The first year of its existence the society achieved a handsome deficit.

The second year a handsome credit balance was recorded.

The third year a still larger credit balance is recorded.

The society is very popular with the employees of the Works, though by no means all are members, evidence that it is doing good work.

Housekeepers

have been vexed when using cream of tartar and soda to find their work uneven. If sometimes good, at others the biscuit and cake will be heavy or sour or full of lumps of soda that set the teeth on edge. Flour, eggs and butter wasted. This is because the cream of tartar is adulterated or cannot be used in the proper proportions.

Food always sweet and light can be assured only by the use of Royal Baking Powder exclusively. Royal is absolutely pure and healthful and does even work at every baking.

ROYAL BAKING POWDER CO., NEW YORK.

TORTURE AND HUMILIATION

For Fifteen Years Face and Body Mass of Itching Sores—Could Not Express Suffering—Doctors Did No Good.

CURED BY CUTICURA WHEN HOPE HAD GONE

"My head was one mass of scabs, my forehead was covered down almost to my eyebrows, and I had to wear my hat all the time. My body was covered with spots in size from a pinhead to as large as a silver dollar. A white, crusty scab would form and itch, and words cannot express the torture and humiliation I suffered for fifteen years. I tried many doctors, and all kinds of treatments, but could get no help, and I thought there was no hope for me. A friend told me to get Cuticura. I did, and in three days my head was as clear as ever. I applied Cuticura Ointment night and morning, also taking a hot bath with Cuticura Soap three times a week, and using the Ointment freely after the bath. After using one cake of Cuticura Soap and two boxes of Cuticura Ointment I was completely cured, without mark or blemish. I was so pleased I felt like running down the street to tell every one I met what Cuticura had done for me. (signed) H. B. Franklin, 717 Wash'n St., Allegheny, Pa."

COMPLETE TREATMENT
For Every Humour from Pimples to Eczema

Complete external and internal treatment for every humour, consisting of Cuticura Soap, Ointment, and Pills, may now be had of all chemists. A single set is often sufficient to cure the most torturing, disfiguring, itching, burning, and scaly humours, eczemas, rashes, and irritations, from infancy to age, when physicians and all else have failed.

Cuticura Soap, Ointment, and Pills are sold throughout the world. Depots: London, 27 Charterhouse Sq.; Paris, 5 Rue de la Paix; Australia, R. Towns & Co., Sydney. Potter Drug & Chem. Corp., Boston, Sole Props.

Mailed Free, "Skin and Blood Purification."

THEY ARE THE BEST

Superfluous Hair
Removed by the New Principle,
De Miracle

It is better than electricity, because it does not scar or produce a new growth. Better than X-ray, because it does not burn, scar or paralyze the tissues under the skin. Better than depilatories, because it is not poisonous; therefore it will not cause blood poisoning, or produce eczema, which is so common with depilatories, nor does it break off the hair, thereby increasing its growth.

Electrolysis, X-ray or depilatories are offered you on the bare word of the operators and manufacturers. De MIRACLE is not. It is the only method which is indorsed by physicians, surgeons, dermatologists, medical journals and prominent magazines.

De MIRACLE mailed sealed in plain wrapper on receipt of $1.00. Your money back without question (no red tape) if it fails to do all that is claimed for it. Booklet sent free in plain, sealed envelope, upon request. Write for it to-day to De MIRACLE CHEMICAL CO., 32 Queen St. West, Toronto. For sale by

THE ROBERT **SIMPSON** COMPANY, LIMITED.

NEW SITUATION REVEALED
BY OFFICIAL SEARCH-LIGHT IN
DUMMER'S MIDNIGHT TRAGEDY

Who Fired the Fatal Bullet? Is a Question Which, According to the Verdict, Still Remains Unanswered — Evidence Taken at Saturday's Coroner's Inquest Adds Many New Features to the Case—Discredit Thrown on Evidence of Hill Witnesses Regarding Murphy by the Story Told by Party of Young Men--Initial Shot Came From Hill Residence--Exoneration of Gow Came as a Surprise to Many--Case Will Be Referred to Department of Attorney-General for Instructions Regarding Further Action--Full Report of Details of the Evidence.

THE JURY.

John Wasson, Foreman; G. W. Reid, P. Fitzpatrick, Edwin Hamblin, Levi Payne, John W. Lynn, Thos. Doughty, Bruce Douglas, Thomas Clements, William Crowe, John Moore, Glen. Douglas, John R. Payne, Jas. H. Clifford.

THE VERDICT.

"We the Undersigned Members of the Jury, After Hearing the Evidence, and Examining the Paths of the Bullets, Find That Thomas E. Hill, Came to His Death by a Rifle Fired by Some Unknown Party. We Further Exonerate Charles Gow From Blame in Connection".

"(Signed) JOHN WASSON, "Foreman."

A number of new and rather startling features in connection with the Dummer Township tragedy were brought out in the testimony given by the witnesses in the coroner's inquest on Saturday, which was held in the orchard at the Hill homestead. The finding of the jury came as a surprise to many who were unacquainted with the full details of the tragic affair, particularly the new phases furnished by the evidence. The story of the Hill family as told by different members was practically identical with that given by them to the Examiner, which appeared in Saturday's issue. The unexpected confession of Charles Gow, who, up to this time, was unidentified with the affair, placed it in an entirely new aspect. But it remained, however, for the inquest to reveal the facts of the case in their entirety for from this arose another startling development in the fact that the first shot fired upon the fatal night was from the house wherein the tragedy occurred. The finding of the coroner's jury came somewhat unexpected to many. A careful review of the evidence, however, will suffice to show the many new phases of the case which arose for their consideration, and also adds greatly to the credit due Gow for his manly and straightforward action in placing himself in the hands of the authorities. The evidence of the crowd, consisting of Gow, the Dewarts and the Murphys, regarding the incidents of the night, was inter-substantiated, and the individual statements practically identical in every detail. By it several members of the Hill family were thrown in an unenviable position, as in the evidence of the latter no mention was made of the original shooting from the Hill residence, which the members of the party who passed the house alleged took place.

The mystery still remains, according to the verdict of the jury, as to the actual perpetrator of the deed. Gow, in his evidence, while admitting having discharged his rifle three times, states that he did so entirely at random and with the barrel lying loosely upon his arm, while facing in an opposite direction. It is therefore difficult to conceive how the three shots could, as the bullet holes in the house indicate, take effect within the radius of six or eight feet. This is rendered more difficult of comprehension when it is considered that the distance was about 400 yards, and that the gun was discharged from a buggy travelling at a high rate of speed over rough ground.

The evidence of the members of the Hill family with regard to Stewart Murphy was also at entire variance with that given by the young men upon the point. Four members of the family affirmed that they had recognized Murphy as the marksman by the flash accompanying the discharge of his weapon. The testimony given by young men of the party shows in a conclusive manner that Murphy at the time was unarmed and was a considerable distance ahead when the shooting occurred.

It is impressable that any further action in the matter will be taken for the present by the local authorities. The evidence in the case will, it is understood, be forwarded at once to the department of the Attorney-General at Toronto for their consideration. The sad circumstances of the case demand the fullest investigation, and if it is considered that anything further is possible of revealment, action toward this end will probably be taken at once.

The inquest touching the death of the boy opened on Saturday morning at the Hill homestead before Coroner Grey. The witnesses were examined by Crown Attorney R. E. Wood. Constables Cochrane and Moore and Court Recorder M. W. Matchett were also in attendance.

At the conclusion of the evidence of the witnesses the jury adjourned and in about half an hour returned with the above verdict, as given in Saturday's issue of the Examiner.

THE EVIDENCE.

Dr. Thomas Douglas of Warsaw, sworn, testified that he was called to attend the injured girl, Mabel Hill, Friday morning about 8.30 and had found her with a wound in the middle finger of her left hand. He had seen the body of deceased and had examined it, finding a wound on the left side, about one inch below the collar-bone. The wound was round, punctured, and about one inch in diameter, including frayed edge. He did not probe it. The point of exit of the missile was about an inch to the left of the spinal column about the eleventh rib. It was sufficient to produce death.

The body was at this time on a board in a room downstairs, and witness, in examining the room upstairs, found a pool of blood, fresh, about three feet from the window. He had dug out of the lower end of the bed the bullet, which he produced. From the mark on the bed he judged the bullet must have come from a point about on a level and to the south. He did not consider a post-mortem examination necessary to ascertain the cause of death.

The Father's Testimony.

Robert D. Hill, father of the murdered boy, testified that his wife and entire family, consisting of the following, were at home at the time the shooting occurred: Wm. Henry, 19 years; Robert, 15 years; Katie, 13 years; Thomas, 11 years; Mabel, 8 years, and Russell, 6 years. The house is about fifty yards from the road, with an orchard to the southwest. Witness had gone to bed about ten o'clock on the evening of August 24, and had heard a noise, which he thought was men shouting "Mob! mob!" The loudest noise seemed to be about the gate. He had heard a buggy, which seemed to stop in the hollow. He was at the front door at the time. Nothing except the shouting occurred until the buggy stopped. The first shot was fired from a point beyond where the buggy stopped. The buggy did not start again, he thought, till the shots were fired. He saw the flash of the shot in the direction of the knoll on the road. He heard the first bullet strike the house. Witness did not see bullet until next morning, and first knew it was in the house when he saw it strike. He heard the succeeding two shots. The little girl came downstairs after the third shot, and said that "Tom is dead, or shot, or struck."

Witness went upstairs and found him lying on his face on the floor, near the front of the bed, with his head towards the head of the stairs. The boy did not speak, and he carried him downstairs, put a pillow under his head, and laid him on the floor. Witness went to Norwood in the morning, and from their telephoned for Dr. Douglas to go to see the little girl. He had seen no one nearer to the house than the road. It was rather dark, and about 11.30 o'clock. He had seen the flash of the three shots. They were probably not more than half a minute apart. He heard no other shooting on the night except the three shots. The family all came downstairs before the shots were fired, except Thomas E. and the little girl, Mabel.

Evidence of Eldest Son.

William H. Hill testified that he had gone to bed shortly after ten o'clock on the evening of August 24, and was sound asleep, when he heard the cheering and shouting, which he first heard at the gate, where five or six people seemed to be standing, shouting, "Hurrah! A mob! A mob!" Witness knew the voices of James H. Dewart, his cousin, and also the latter's brothers, Edward Dewart, and Wm. H. Dewart. Another voice, apparently that of George Gallagher, shouted, "Hip, hip, hurrah! A mob! A mob!" Witness was certain of the presence of James and Edward Dewart. His next heard a shot as he was coming downstairs. He heard a second shot before going out, and Tom said, "Oh! I'm shot, ma!" Mabel also said she was shot, and came down bleeding. Both shots apparently came from the knoll on the road. Witness was on the platform outside the door, when he saw the flash of the third shot. The bullet passed between him and the house. He thought Mr. Moore took the bullet out. Witness stooped down on the verandah, and could see by the flash the faces of the men. The mark of the bullet was higher than his head. He had to stoop down to see under the branches of the trees. He saw the face of a man on the ground which looked like Stewart Murphy's. His father and mother pulled him into the house after the third shot. His father carried Tom downstairs. Witness had heard the rig, which seemed to pass on. He thought the man on the ground had the gun. The voices he had heard were cheering, not speaking. They said, "Hurrah out, Hills, a mob!" He knew the voice of Ed. Dewart, and did not answer the men. There was no shooting around the house on that evening. He was away part of the time and had his rifle with him. He often carried this for protection, and had had it with him to Cavanagh's. He usually kept it by the bed. He left it inside the door when he came downstairs. He fired one shot when going to Cavanagh's, at a ground-hog. The rifle is a 38-55. He slept upstairs. He had two shot guns, and his father a shot gun. There is also one revolver in the house. His mother told him not to take the rifle outside when he came downstairs.

Second Son Testifies.

Robert Davis Hill swore that he had seen his brother Willie take the rifle to go to Cavanagh's on Thursday evening. His brother went out to shoot woodchucks, and also had the rifle for protection. He saw his brother shoot the woodchuck and then go over to Cavanagh's. He did not think there was any other shooting before he went to bed. He slept with Willie, and went to bed about ten o'clock. He was awakened by the cheering on the road near the gate, and got up and came downstairs, looking out of the door while on his knees to see where the shooting was. He saw the fire flash in the face of the man shooting, who, to the best of his knowledge, was Stewart Murphy. The latter was not in a buggy. Witness heard a rig coming down the road, and did not think he saw the buggy when he saw the flash. He saw the gun. The man shooting had it to his shoulder, aiming at the house. The bullet hit the door, after the flash that he saw. He knew the voices of James, Wm. and Edward Dewart, Wm. Murphy and Geo. Gallagher, whom he had heard both speaking and cheering. He saw Willie bring his rifle downstairs. Witness did not come down the stairs from the room where Tom was shot. There was a lamp under the table in the house. Witness did not know whether the light was there when he came downstairs or not.

The Injured Girl.

Mabel Hill, the wounded girl, said that she had slept with her brother Tom on Thursday night, and had heard the noise of men shouting, at the gate, "A mob! A mob!" and also heard three shots fired. She heard the first bullet strike the house, and also saw the flash of the gun. Ed and Tom got out of bed and went to the window, which Ed. raised and put a piece of board beneath. She was on the west side of her brother. The first shot struck the house below the window, and the second her finger, glancing and striking Edward, who said, "Ma, I'm shot," falling at once. She went downstairs, her father coming up for Ed. The lamp was lit under the table in the kitchen. She had seen the flash of the gun on the knoll. In the flash of the first shot she saw the gun and the man, who she thought was Stewart Murphy. She saw nothing more after going downstairs. Willie was in the house when she came down, when the third shot was fired. He had no rifle in his hand. It was

WORLD'S NEWS IN A FEW LINES

Short, Pithy Articles Telling the Latest News.

Red Hot Flashes Off the Wires—Canadian and Foreign Despatches

Incubator Manufacturers.

An American manufactory of incubators is looking for a location in Canada, and a representative of the company has been making enquiries at Woodstock, and consulting with the civic industrial committee.

Lipton Still Anxious to Race.

Sir Thos. Lipton, interviewed on his yacht Erin yesterday, said: "I am quite as desirous as ever to go on with a fresh challenge for the America's Cup, but it would be a futile one under the measurement rules of the New York Yacht Club."

No Race Suicide Here.

Eighteen children have been born to Mr. and Mrs. Fred. Champlin, middle-aged people of Torrington, Conn. The eighteen are living. Mr. Champlin has a picture of his family, and a friend is to send it to President Roosevelt. The mother has performed the duties of her large household without assistance.

Boycott Affects Flour Trade.

Advices received by a large milling company of Seattle, Wash., from its agent in Hong Kong state that the Chinese boycott of American goods has completely paralyzed the flour trade on the coast of China. No sales have been made since July 15. All orders for September shipments have been cancelled.

Married in an Ice-House

William Moses, of Petersburg, N. J., and Miss Jennie Huurst, of New York, who had been boarding at Lake Taconic, were married yesterday in Mr. Hake's ice-house, Troy, N. Y. "We preferred the ice-house," said young Mr. Moses, "because it was cooler." "We thought it would be a novelty," added the bride.

Sitting of Tarift Commission.

It is officially announced that the tariff commission will hold its first sitting in Winnipeg on September 7. It will work thence out to the Pacific Coast, and visit on the return trip any points that may have been missed going. The only appointment that has thus far been definitely made is that for Winnipeg.

Investigating Western Wheat.

Mr. Dan McGillicuddy is being sent out by the Federal Government to investigate the fall wheat production and prospects of Southern Alberta. This action, it is understood, is in consequence of representations made by parties in the south that the acreage and probable yield of fall wheat in that district was erroneously stated in reports by the local Government.

Lives with Bullet in Heart.

With a wound at his heart all but mortal and received through no fault of his, Geyza Fek, aged 20 years, of 104 Frederick street, a Hungarian labourer, who has laid for three days at the point of death at St. Alexis' hospital, was brought out of danger to-day by the sleepless devotion of a man nurse. He was shot Saturday evening while leaving a Hungarian wedding with his sweetheart, a 32-calibre bullet entering his chest and passing within a centimeter of the heart, puncturing the covering. Despite the fact that the wound was pronounced fatal, the nurse worked over the patient night and day without sleep, giving him ice baths and alcohol rubs. At daylight Tuesday the patient's temperature had fallen from 104 2-5 degrees to 102 4-5. His pulse had been reduced from 115 to 100, and his respiration from 45 to 28. Dr. Chatham, the house surgeon, said Fek would live.

CHANCES FOR PEACE ALMOST HOPELESS

Says Mr. Takahira, and Real Crisis is Now at Hand--Reject Czar's Ultimatum--Which Was That Japan Should Have Half of Sakhalin, That Russia Should Pay For Maintenance of Her Prisoners, But No Other Concession Beyond Those Already Made by Russia.

St. Petersburg, Aug. 28.—Ambassador Meyer on Saturday communicated to President Roosevelt Emperor Nicholas' last word and his ultimatum that Russia will not pay one penny of indemnity to Japan in any guise whatsoever.

Russia is ready to agree to a division of Sakhalin, Japan retaining that portion previously belonging to her, and Russia retaining the northern portion.

Russia will pay for the maintenance of her prisoners, but will make no other concession in addition to those already made.

If Japan does not accede to these terms peace is impossible and the war will continue.

AT PORTSMOUTH.

Portsmouth, Aug. 28.—The conference at the navy yard adjourned at 4.30 p. m. Saturday. The official statement says:

"In the sitting of August 26, the conference has proceeded to the signature of the protocol of the previous sittings. The next sitting will be held Monday, August 28, at 3 o'clock in the afternoon."

Adjourned to Tuesday.

At 10 o'clock last night, after a conference between Mr. Takahira and M. Witte the announcement of a further postponement was made. M. Witte said that Mr. Takahira had told him that no instructions had reached him from Tokio, and fearing none might be received before the meeting to-day he had suggested the propriety of postponing the meeting until Tuesday. To this M. Witte said he had readily assented.

Mr. Takahira made the following statement, "Inasmuch as this conference was initiated by the friendly offices of your President, after the consultation we felt that we should be cautious about terminating its labors."

Pressed as to whether he regarded the situation as hopeless, Mr. Takahira said: "No, not hopeless, but almost hopeless."

This in itself from one who has spoken always in the most guarded fashion is sufficient to show the desperativeness of the situation. The real crisis in the negotiations is at hand.

Roosevelt Appeals to Tokio.

There is a persistent report that President Roosevelt has made a new appeal to the Emperor of Japan.

CAUSE OF FAILURE FOR PEACE.

Japan's Proposal:

Russia to purchase back from Japan the northern half of the island of Sakhalin and pay for it the sum of 1,200,000,000 yen, $600,000,000, for remuneration for the war expenses of Japan. Rejected.

Russia's Counter Proposal:

Japan to yield back to Russia, without payment, the northern half of Sakhalin, and Russia to pay liberally for Japan's care of Russian prisoners, the sum alluded to being $100,000,000. Rejected.

Difference of $500,000,000.

The amount of difference between Japan and Russia is one billion yen, or $500,000,000; and there seems to be an irreconcilable difference over the question of remuneration, Japan insisting strongly on observance of the "principle" of remuneration, to which Russia will not consent. But neither side has yet presented an ultimatum.

The above were the substance of the business done by the envoys on Saturday and the rejections noted were hardly accomplished without a final rupture.

Hold Fast to Sakhalin.

Tokio, Aug. 28.—The proposal that Sakhalin be divided between Russia and Japan is exciting strong popular opposition here, and it is freely predicted that acceptance of it will result in demonstrations against the Government. The press is universally against the proposal.

Japanese Council Called.

Tokio, Aug. 28, 7.45 a. m.—A specially summoned council of the Cabinet and Elder Statesmen is now in session discussing the latest final phases of the peace conference at Portsmouth.

Calls Witte Ignorant.

Moscow, Aug. 28.—The Gazette, the organ of the monarchicals, savagely attacks M. Witte, transcending in violence anything that has appeared in the last decade. It accuses Witte of incapacity, ignorance and empty-headed vanity.

CHANCE FOR ROCKEFELLER.

Paris Newspaper Makes Appeal to World's Richest Citizen.

Paris, Aug. 28.—Owing to the reports from Portsmouth indicating that the question of peace between Russia and Japan hinges solely on Russia paying an indemnity to Japan, The Matin cabled Saturday night the following remarkable appeal to John D. Rockefeller at Cleveland, Ohio:

"The question of money threatens to unloose afresh and with redoubled violence the scourge of war. President Roosevelt is making noble and heroic efforts to end a struggle between two nations, whose populations amount to one-seventh of the entire population of the globe. His initiative honors America in the opinion of civilized nations.

"The question arises as to whether another American would not share the glory of President Roosevelt and complete his work by overcoming the sole obstacle now hindering peace. He would thus demonstrate the might of money in powerful and generous hands.

"The Matin, constituting itself spokesman for this sentiment, addresses the richest citizen in the world."

The appeal concludes with lengthy arguments showing the immense benefits such an act would confer upon civilization.

Not Enthused.

Cleveland, Ohio, Aug. 28.—Mr. Rockefeller declines to make any statement concerning the cablegram from The Paris Matin, which had been received early Saturday evening at Forest Hill, his summer residence.

FRANCE DEFIED BY MOROCCO.

Repudiates Claim to Jurisdiction Over Algerian Citizen There.

Tangier, Aug. 28.—News has been received here from Fez, dated August 23, saying that Bousian, the French-Algerian citizen, is still imprisoned at Gharb.

The Foreign Office has declined the demands of the French Government for the release of Bousian, thus repudiating France's claim to jurisdiction over French-Algerian citizens in Morocco.

Germany to France.

Paris, Aug. 28.—Prince Von Radolin, the German Ambassador, called at the Foreign Office at noon Saturday and delivered Premier Rouvier the reply of Germany to the French note concerning the program to be discussed at the Moroccan conference. The Ambassador remained for an extended discussion of the question, which is considered to have somewhat improved as the result of Germany's reply.

The reply deals consecutively with the various points of the French program, and with the introduction of some fresh subjects which probably will entail the exchange of pour parlers or further notes. However, it is certain that progress has been made, as Germany accepts the French proposition and merely suggests amendments to them. This fact gives reason for the belief that a definite agreement will be reached in a short time.

Drooping—Tired—Weary

You Feel Depressed, Dragged Out, and Sort of "All Gone" —Shake Off That Tired Feeling, Get Well and Strong, Fortify Your Nerves, Nourish Your Blood.

FERROZONE

You are getting pale and thin. You're dragged down with a "don't care" feeling that makes life most unhappy. Your strength is fleeting away, and weakness is creeping in. Every day your chances for cure becomes smaller.

Trouble is you don't assimilate your food, consequently the body is poorly nourished. The blood is thin, lacks those red corpuscles that denote health.

You can only prevent a total collapse by building up all the powers of the body with Ferrozone, which will surely make you well. Ferrozone creates tremendous appetite, increases the power of digestion, and insures perfect assimilation. Everything you eat is at once converted into nourishment.

FERROZONE makes rich, pure blood, a surplus of energy, new life for the nerves and all over-strained organs. Robust health will glow on the cheeks, jovial spirits, increased weight, and a clear, active brain will evidence a few of the benefits that follow Ferrozone.

GAINED 15 POUNDS.

Mr. H. A. Thurston, of 828 Vermont St. E., Indianapolis, Restored by Ferrozone.

"A year ago I took the grippe. I was as weak as a child. I was no longer able to eat. My blood was thin. My cheeks were white and hollow. Doctors gave me all kinds of medicine, but none of them brought me strength. My friends said I was wasting away with some slow disease, and I bade them good-bye. Then I heard of the wonderful Ferrozone. After three days it gave me an appetite. I gained strength and became cheerful. Under Ferrozone I improved steadily. I am well to-day. I weigh fifteen pounds heavier than ever before, and feel like a new man.

(Signed) "H. A. THURSTON."

The effect of Ferrozone is instant, yet permanent. For upbuilding and invigorating the listless and depressed it has no equal. It's the concentrated nourishment in Ferrozone that makes it so beneficial. We guarantee it contains no opiates, no alcohol, nothing but the most strengthening qualities known in medicine. Won't you use Ferrozone; it will surely make you well.

BUILD UP WITH FERROZONE!

Ferrozone Makes the Weak Strong—the Sick Well.

CAUTION! Be on your guard against the substitutor who urges something "just as good." Get FERROZONE when you ask for it. Other tonics are not so good as FERROZONE, which is guaranteed to cure. Price 50c per box of 50 chocolate coated tablets. Sold by all reliable dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ontario.

Ceetee
UNSHRINKABLE UNDERWEAR

Underwear that is sewn together is never satisfactory or comfortable—seams chafe the body and rip after every second washing.

Ceetee Underwear is not cut out of a roll of cloth but every garment is widened and narrowed on the machine to the shape of the limbs or body. Does away with all rough, galling seams.

Is made of the finest Australian wool from two and three ply yarn.

Your Dealer will replace any Ceetee Garment that shrinks

DOMAIN OF THE MOUND-BUILDERS
PREHISTORIC MONUMENTS OF THE WEST

In view of the fact that there exist important prehistoric mounds in, especially, the Rice Lake District, the following article on the Indian mounds in the United States, contributed to the New York Sunday Herald by Mr. C. H. Allison, formerly of the Examiner staff, will be read with interest:

A bill now before Congress having for its object the "preserving and protecting from despoliation the historic and prehistoric ruins and monuments and archaeological objects and other antiquities on the public lands of the United States," and placing them under the care and custody of teh Secretary of the Interior, has served somewhat to revive popular interest in a subject that has heretofore been largely dormant except among scientists. While the bill in question applies only to the preservation of ancient works on government lands, and particularly to the ruins scattered over the semi-arid regions of Arizona, New Mexico, Colorado and Utah, where the cliff dwellers have left many evidences of their occupancy of the so-called Pueblo region, it is conceivable that the movement may soon extend and take the form of legislative action looking to similar measures with reference to the numerous prehistoric remains of the Ohio and Mississippi valleys. These are located almost invariably on private lands, and though it is true that in some few cases the owners have for sentimental reasons maintained the integrity of the mounds and earthworks situated on their property, in the vast majority of cases the commercial instinct has prevailed, and the original outlines are fast being obliterated by time and the abroding wear of the white man's plough. Archaeologists, anthropologists, historians, indeed, patriotic Americans of every class, have an interest in preserving these relics of bygone days.

Every State in the Union from Wisconsin to the Gulf, and from Virginia to Nebraska has more or fewer of the mounds and earthworks that were built hundreds, perhaps thousands, of years ago. In Mississippi and elsewhere they can be seen from the car windows of railway trains, or from carriages on the highways. These mounds are mostly terraced truncated pyramids, in shape usually square or rectangular, but sometimes hexagonal or octagonal. They differ greatly in size. One in West Virginia is 70 feet high by 1,000 feet in circumference.

The Cahokia Mound, in Illinois, opposite the northern section of the city of St. Louis, is the largest of them all, rising in terraces from a base 1,180 by 750 feet to a height of 198 feet, and covering an area larger than that occupied by the great Pyramid of Egypt. In Ohio and other States there are mounds approaching these in magnitude, but generally they range but from six to thirty feet in height.

Another class of these antiquities consists of enclosures formed by heavy embankments of earth and stone. Lines of embankments varying from five to thirty feet in height and enclosing from one to fifty acres, are very common, while enclosures containing from one hundred to four hundred acres are not infrequent.

These ancient remains are probably more numerous in the State of Mississippi, though perhaps smaller, than elsewhere; and here, in some cases, sun-dried brick was used in the embankments. At Solsertown, Miss., there is a mound 600 feet long, 400 feet wide and 40 feet high.

In the north the earthworks took more frequently the form of animals, the serpent being a favourite design. In evidence of the wide distribution of the serpent form of mound, a very excellent specimen exists at Rice Lake, Ontario, Canada. Ohio and Wisconsin have several important effigy mounds, and these mounds, rising to a height of from two and a half to three feet above the surface, one forty-three feet long from beak to tail, the other sixty-six feet over all, have been preserved on the college campus of the University at Madison. The Great States have already undertaken the care of them. Two bird-shaped Serpent mound of Ohio appeals peculiarly to the imagination. It measures from the upper jaw to the tip of the tail 1,254 feet, rising at the head to a height of five feet from the surface and extending in graceful and perfect coavolutions, but with receding height, to the tail. The serpent's mouth is open, and within the arc of the jaws is a monumental earthwork shaped like an egg, as if about to be swallowed. The same features as to shape, size and composition attach to the Rice Lake mound mentioned. This striking example of the mound builders' art, about which the fancy of the twentieth century weaves traditions of serpent worship in a forgotten civilization, is, fortunately, to be preserved from the ravages of time and vandalism. It and the Fort Ancient earthwork, an aboriginal fortification on the Little Miami River expanding nearly four miles, in the contour, roughly, of a figure 8, and about twenty-two feet above the surface at its highest, are now environed by a public park and watched over by the Ohio State Historical Society.

In the Middle States the structures assume more regular mathematical forms, while in the South they become in some circumstances mere artificial tumuli, though the Gulf region has some high mounds.

Remains of Prehistoric Man.

It is in these regular mounds, rather than in the symbolic earthworks, that innumerable relics have been discovered—skeletons and implements pertaining to war, the chase and domestic life. Articles of pottery, elegantly designed and finished; ornaments of silver, stone mica from the Alleghanies, shells from the Gulf of Mexico, copper from Virginia, or, perhaps, from the Lake Superior district, where evidence of ancient mining operations have been observed; obsidian, a volcanic product from the Cerro Gordo Mountains of Mexico and south thereof; axes, awls, chisels, drills, knives bracelets, etc., implements of stone showing extremely fine workmanship; pipes of various designs and artistic shape have been exhumed. That the mound builders knew how to spin and weave is apparent, for pieces of coarse fabric have been found. The human bones in some cases were in such condition that palaeontologists say they must have been in the ground for many centuries.

There has been a wide diversity of opinion as to the purpose for which the mounds were constructed and as to the identity of their builders. The savage red man of the fifteenth century, they say, was utterly incapable of comprehending the purpose of such works, to say nothing of constructing them. The American Indian found by De Soto and other navigators had not even a tradition of such people. But among the believers in the great antiquity of the mound builders there is some difference of view as to their origin and disappearance.

Professor Baldwin, in his "Ancient America," holds that the mound builders were directly related to the ancient races of Peru and Mexico, and quotes numerous instances of similarity in their works to prove his theory. He believes that these people entered the country at the south, and, after inhabiting the region contiguous to the Ohio and Mississippi Valley for an indefinite period, disappeared as mysteriously as they came.

Mr. Lamar Fontaine, of Mississippi, who has spent a lifetime in travel and study in the realms of archaeology, maintains that the mound builders of the Mississippi and its tributaries were the oldest people of the earth and that civilization had its genesis with them. From these ruins their migrations may be traced down through Mexico, Peru; thence across the Pacific to the shores of India, China, Persia, Egypt, Greece, Rome and the shores of Western Europe. The Mississippi Delta, he says, was at one time as densely populated as China, which an industrious and highly intelligent agricultural people, who had the most complete system of drainage in the world, ninety per cent. of the streams, lakes and bayous east of the Mississippi and west of the Yazoo River being artificial canals constructed for purposes of drainage and transportation. These canals cross and recross one another at right angles in more than a thousand places that have come under his personal observation, but they are fast disappearing. Where they cross one another will be found mounds, pottery, kilns and graveyards adjoining.

The mound builders had, he says, a knowledge of astronomy, and it was here the art of making pottery had its birth. They constructed aqueducts, macadam roads; spanned with great suspension bridges chasms more than two thousand feet wide, and three thousand feet deep. They bored holes through solid mountains fifteen miles long and brought the living waters into their cities. The zodiacal signs on their tombs indicate an age thousands of years greater than those of Abraham. Their mummies are seven thousand years older than those of Egypt and better preserved.

It is now the generally accepted theory that the mound builders were found on this continent. In the twelfth annual report of the Ethnological Bureau of the United States, the conclusions of the Government investigators are summarized about as follows:

"That the mound builders consisted of tribes or peoples bearing about the same relation one to another and occupying about the same culture status as did the Indian tribes inhabitating the country when first visited by Europeans. The links connecting the Indians and the mound builders are so numerous and so well established that archaeologists are justified in accepting the theory that they are one and the same people. The statements of the early navigators and explorers, as to the habits, social conditions, and immediately antecedent to or even contemporary with the aboriginals art of the Indians when first visited by Europeans, are largely confirmed by discoveries in the mounds, and other ancient works. For example proofs seem conclusive that the Cherokees were mound builders and that to them must be attributed most of the mounds in Eastern Tennessee and North Carolina; that the ancient works in Northern Mississippi were the work of Chickasaws, and so on.

"The testimony of the mounds is decidedly against the theory that the mound builders were Mayas or Mexicans and were driven out of the country by incoming hoards of Indians.

"Although much the larger portion of our ancient monuments belong undoubtedly to prehistoric times and some of them possibly to the distant past, yet the facts of contact with European civilization are found in so many mounds, where it cannot be attributed to intrusive burial and in such widely separated localities, that it must be conceded many of them were built subsequent to the discovery of this continent by Europeans."

Purpose of the Mounds.

Professor Baldwin, in support of theory of Mexican and Peruvian origin, says that they were used precisely as similar structures were admittedly used in Mexico and Central American — that is as foundations for the more important edifices of the mound building people; with this difference that in this country the superstructures were built of perishable material, leaving no trace of their existence as further south, where stone was used. There is nothing antagonistic however to the conclusion that the mounds were intended at least for a dual purpose—for worship and for defence. At many places they occupy strtegic positions on promontories overlooking bends in rivers, and are frequently laid out like modern forts, with a large central mound encircled by a chain of smaller ones, connected by low embankments or causeways.

Whether the mounds were used merely as places of burial, as places of refuge during high water, as storehouses, etc., are much mooted questions. There is also much contention as to what portions of the contents of these mounds were of European origin. Especially is this true of the numerous copper articles exhumed, the claim being advanced and combated that much of it was originally brought over by the early navigators.

After all, what can be said authoritatively concerning these mounds and their builders? The tales they could have once unfolded are now consigned to the gloom and silence of the speechless past. There are untold numbers of these mounds which have not yet been examined, and possibly when the work of investigation is completed more light of a decisive character will have been shed on this perplexing problem. It certainly seems worth while taking steps to preserve all our antiquities, to the end that none may be carelessly or wantonly destroyed before every facility has been offered our scientific men to unravel the mysteries of ancient America.

KINDLINESS OF A KINGLY KING

His Majesty King Edward VII. Declares Against the Rein.

Mrs. Gresett, of the Toronto Humane Society, writes: — "King Edward has again shown kindness as well as good taste by declaring against the use of the overhead check rein on horses, whose effect is anything but graceful and his humanity, by insisting on certain reforms in sport and the care of wild animals. Recently he declared the abolition of steel traps in catching rabbits and other ground game—shooting pigeons from traps was long ago placed under the royal ban. When it is remembered what an immense influence the King's example has upon all the classes of society all lovers of wild and dumb creatures will rejoice at the wide publication of these acts of humanity, which show him to be desirous of lessening their sufferings, and, as far as he can, the tendency to cruelty in sport. Societies for the prevention of cruelty to animals have a powerful ally in the King, and should give the fact the widest publicity. Human nature is so constituted that people like to think they are in fashion with the great, and good example is as contagious as bad example when royalty leads the way."

When You Buy, Buy Right.

When you buy Ozone, buy "Solution of Ozone" (the coupon kind). It is the strongest and purest Ozone on the market. It is sold as a commercial product at reasonable rates so that you get about twice as much as other brands. Also each bottle contains a coupon which entitles you to a package of "Celery King," the well known remedy which must always be taken with Ozone.

No other brand of Ozone gives you an opportunity to get the "Celery King" free. We own "Celery King" and that is why we can give it with our Ozone.

"Solution of Ozone" (the coupon kind) contains about twice as much or your money as any other kind. It also furnishes you with "Celery King" for nothing. Insist on getting it from your druggist or write the Public Drug Co., Bridgeburg, Ont., who will see that you are supplied. Sold by W. B. Warne.

PILES
Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of Itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. 60c. at all dealers or EDMANSON, BATES & Co., Toronto.
DR. CHASE'S OINTMENT.

THE Oxford Hot Water Boiler is built to use absolutely all the heat generated in the fire-pot.

The inclining walls of the fire-pot expose great surface to the direct heat of the fire. The first section is greater in depth than the other sections, and the flues of this section are bell-shaped, against which the heat rays sharply impinge, so that a greater body of water gets the direct effect of the fire.

Oxford Hot Water Boiler

The entire boiler is steel and iron. The joints are made with steel push nipples, which are absolutely indestructible—no rubber washers.

We would like to send you a copy of our book about the Gurney Oxford Steam and Hot Water Heating Apparatus. Write for it.

MR. HAULTAIN'S AIM.

(Ottawa Free Press.)

There is something amusing in the non-party cry of the Conservatives in Saskatchewan and Alberta. Mr. Haultain and Mr. R. B. Bennett are advocating that Dominion politics should be kept out of the provincial arena. But it will be noticed that at their non-party meetings Sir Wilfrid Laurier and his followers are denounced with the usual Tory bitterness, and resolutions are passed "expressing entire confidence in Mr. Borden's leadership, and thanking Mr. Borden for his strenuous opposition to the Autonomy bills." The Western Conservative leaders are evidently lacking in a sense of humour

A provincial government is, after all, a mere business concern, and the best men from a business point of view, irrespective of party in the Federal meaning of the word, should be chosen. It would be well if the new provinces could begin right, but Mr. Haultain and Mr. Bennett are making that impossible. Their fighting platform is an attack on the bills under which Saskatchewan and Alberta have been organized. By this method they are forcing Federal issues into provincial politics and will compel the Federal politicians to take part in the fight. The Dominion Liberals will have to explain their position in a field where they are abused and misrepresented.

In the meantime only local Liberals have taken part in the preparations for the coming struggle. They are strong men and the brunt of the battle, probably the whole of it, will be borne by them, and this cry of Federal interference is premature. Very naturally in a new country, where there are comparatively few men who have devoted time to the study of political questions, it is necessary to draw on the Liberal representatives from the West in the Dominion Parliament to lead the forces in opposition to such pronounced Conservatives as Mr. Haultain and Mr. Bennett. These men have thrown down the gage from more than one platform, and such men as Mr. Walter Scott and Mr. Lamont, who are being denounced as traitors to Saskatchewan and Alberta, would be more than human if they did not take it up.

Mr. Haultain has made the chief planks in his platform.

A national school system as opposed to the minority school system, established by the Dominion Government.

The absolute provincial control of the lands of the new provinces, in opposition to Dominion ownership, which was adopted in order to continue unbroken the wise and effective immigration policy of the Department of the Interior.

What can be expected? The Federal authorities in self-defence will have to take part in the fight.

It must be remembered, too, that Mr. Haultain and Mr. Bennett have ever been active Conservatives. They are both ambitious men and, while up to the present Mr. Haultain has fought in the open, Mr. Bennett has been a time-serving politician, who, when in New Brunswick, advised the local Conservatives to rally to the support of Sir Charles Tupper's Coercion Bill. It should be remembered, too, that during the Autonomy bill disdussion in Ottawa this year, Mr. Haultain prepared the shot for the Conservative leaders and the Conservative press, and did much of his work in Room 6 in the House of Commons. He requires watching. His present non-party cry is a part of a larger game. He wishes to gain the sympathy of Canadians generally, and after his defeat in the West will probably try for a place in the Federal Parliament, with the hope of winning the leadership of the party. He is in many ways the strongest and most astute Conservative in Canada, and in the West or East, will be content to play second fiddle to no man.

A SURPRISING VERDICT.

The verdict returned on Saturday afternoon by the coroner's jury, empanelled to inquire into the circumstances attending and causing the death of Thomas Edward Hill, an eleven-year-old boy, who was shot to death in his room at his father's house in Dummer at midnight on August 24, seems to be inexplicable and surprising in face of the facts elicited at the inquest. To any person reading a report of this evidence it is impossible to understand the temper of mind which permitted the jury to arrive at the decision reached. First: we have the confession of Charles Gow that he fired three shots in the direction of the house. This is confirmed by the evidence of those who were with him on the occasion. Then we have evidence, not of the most positive character, but possibly reliable, as far as it goes, that there was only one shot fired from the Hills' house. Assuming that this shot was so fired, its having been fired from the house could not have caused the death of the child, who was killed in his own bedchamber. The jury seemed to have deliberately closed their eyes and mind to the confession of Gow and his evidence, and the evidence of four other witnesses that he fired the only shots, one of which could have been instrumental in the death of the innocent child. How they could bring themselves to declare that some unknown party fired the fatal shot, and exonerate Charles Gow, who, according to the mass of evidence, fired the only shots that could have done the injury, is past understanding. The Hills may not be very popular in the neighbourhood; there may be strong feeling or prejudice against them in the neighbourhood, but that does not remove whatever responsibility may attach to Gow for the fatal result of the reckless use of firearms, even though discharged as a mere boyish prank. Whatever may be the faults and offences of the Hills, a child of eleven years could certainly have done little to incur popular odium, and even if he had that is no reason for not calling to account any person whose action however innocent of malicious intent, was, to put it mildly, contributory to his death. No one perhaps, demands the pound of flesh in the matter, but it seems strange that the man who in his distress of mind places himself by his confession, under the responsibility of, at least, manslaughter, should be shooting in rifle matches at Ottawa, with the possible victim of reckless shooting in Dummer, hardly cold in his grave. The foregoing conclusions are based upon the facts stated at the inquest, and if all the facts were brought out, the verdict is surprising. The action of the Attorney-General's department will be awaited with interest.

EDITORIAL NOTES.

Japan has made Russia dance, yet Russia refuses to pay the fiddler.

Saturday Night thinks that Confederation is enduring its greatest strain—straining at gnats by journalistic firebrands.

The province will collect $740,000 from the Gooderham estate. Treasurer Matheson, who advocated while in opposition, the reduction of the Succession duties by one-half, ought the Brantford Expositor thinks, to be ashamed to take it.

If Japan cannot get her terms assented to in the peace conference, the war will probably go on, for it is not at all probable that Japan will fall in with the alternative proposition to the peace conference—arbitration. She will doubtless have a lively memory of how the great powers combined to practically rob her of the great bulk of the advantages she should have derived from her success in the Chinese war.

Mr. Bergeron says Sir Wilfrid Laurier is a traitor to his race, because the Autonomy Bills did not go far enough. Dr. Sproule says Sir Wilfrid Laurier is a traitor to Canada, because they went too far. In view of the harmonious character of these unanimous sentiments, what further proof do we require of the solidarity of the great Conservative party.

LAMENTED DEMISE OF MRS. BEGLEY

Aunt of Mr. Ed. Dawson Passed Away at Advanced Age in Toronto.

Mr. Ed. Dawson has received word of the death of his aunt, Miss Ann Begley, who expired to-day in Toronto at an advanced age.

Deceased was the relic of the late Jos. J. Begley, who for many years conducted a stove and tinware business on Hunter street, and was a sister of Mrs. Alex. Dawson, East City.

The funeral will take place on Wednesday at noon from the C. P. R. station to the Little Lake cemetery.

Croup Absolutely Cured.

"There is no remedy in my opinion that can act more promptly than Dr. Chase's Syrup of Linseed and Turpentine. It cured my son of croup, absolutely, in one night. We gave him a dose when he was black in the face with choking. It gave him instant relief and cure."—Mr. Wm. McGee, 42 Wright avenue, Toronto, Ont.

Christian Science Is Warmly Defended in Letter

Office of the Christian Science Publication Committee for Ontario, 231 Metcalf street, Ottawa, Ont., August 27th, 1905.

Editor of the Evening Examiner:

Dear Sir,—In your issue of the 7th inst., is a report of a sermon of Rev. E. A. Langfeldt on "Healing by Faith" in which he makes a distorted statement regarding Christian Science. It is quite correct to say that Christian Science "can tell of thousands who have been restored to health", but quite incorrect to add "by their mutterings". Christian Science is opposed to all "mutterings", or confused and obscure sayings. It makes for clearness, accuracy and openness of thought and utterance. It is by the light of spiritual understanding that it heals, in accordance with the teahings of the Christ, "the true Light, which lighteth every man that cometh into the world", (John 1:9), who said "I am the light of the world, he that followeth me shall not walk in darkness, but shall have the light of life," (John 8:12). John also wrote,—"This then is the message which we have heard of Him and declare unto you, that God is light and in Him is no darkness at all," (1 John 1:5).

Christian Science stands for light, not darkness; it fosters intelligence, not ignorance; it teaches practically that as the light of Truth is perceived, darkness of all sorts, — doubt, despair, disease, sin,—vanishes from the experience of the individuals perceiving the Truth, just to the extent the Truth is perceived and lived. It was Jesus who said,—"And ye shall know the Truth, and the Truth shall make you free," (John 8:32.)

Christian Science bases on the spiritual teaching that God is Love (1 John 4:7), all-wise, all-powerful, all-present, according to the whole revelation of the Holy Bible. It adheres to the scriptural teaching that man is made in God's image, and therefore the spiritual man is the real man of God's making. God does not make man sinful nor sick. By the logic and nature and scripture, like produces like, the creature must be like the Creator, and therefore God, who is good (as Jesus taught) is not the author of sin, disease, or any evil. On the basis of spiritual truth, Christian Science follows the great Exampler by casting out evils and healing the sick. It heals by the illumination of thought which proceeds from God, Divine Love, the Father, and the Son,—man in God's image; and the Holy Spirit,—the Christ, (Truth. It fulfills all Christian doctrine.

Jesus said:—"Many good works have I shewed you from my Father; for which of those works do ye stone me?" (John X 32.) And every Christian should beware that he fall not into the sins of the Pharisees by calling that blasphemous and unchristian which proves itself to be of God, by its godly works, for "faith without works is dead also". (James 2:26.).

Yours sincerely,
GEORGE R. LOWE.

CAMPBELLFORD PEOPLE HEAR SOME MIDNIGHT SCREAMING

The quiet of midnight in the vicinity of Raney street was suddenly broken Sunday night by shrill screams of agony, which seemed to emanate from some being in mortal terror, says the Campbellford Despatch. Sleepers leaped from their beds in fear and alarm as the awful cries were repeated. Cold horror held every heart in its icy clutch. Surely some awful tragedy was being enacted, some horrible deed of blood and fury. Louder and louder rang the cries for help, ending in a piteous wail of terror that touched the hearts of the listeners like the cry of a lost soul.

One man, braver than the rest, rushed out of doors, determined, if possible, to prevent the consummation of the terible deed. As he dashed into the backyard the horrible screams again arose, this time louder and more heart-rending than before. But the brave rescuer faltered not, and following the direction of the cries, he saw a sight that almost unmanned him with rage and madness. It was two cats on a neighbouring roof.

ANNUAL MEETING WAS POSTPONED

Stony Lake Cottager's Association Will Meet on August 28th.

The Annual Meeting of the Stony Lake Cottagers' Association was called by placard notice for Friday, August 25th, at the Pavilion. There was such a small attendance that it was decided to postpone the meeting and call it by circular for Monday, August 28th, 1905, at half-past three o'clock, when it is hoped by the committee that a large attendance will be present as matters of importance will be taken up.

There is most useful work for the Association to do; but this cannot be done without the co-operation of all the cottagers, nor without the necessary finances to carry it out, and it is hoped that at the meeting on Monday, August 28th, at half-past three will be a larger attendance of members and a more general interest manifested.

DRUGGISTS MUST BE CHARY

They Sell All Kinds of Hair Preparations, and Fear to Discriminate.

Druggists sell all kinds of hair preparations, and as a rule they are wisely chary of giving any preference to any particular one, but many of them have come out plainly for Newbro's Herpicide, the new treatment that absolutely kills the dandruff germ. H. Swannell & Son, Champaign, Ill., says: "One customer of ours who did not have a hair on top of his head when he began to use Herpicide, now has a fair start towards a good head of hair. We believe Herpicide to be by far the best preparation of its kind on the market." Hundreds of similar testimonials from everywhere. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Ormond & Walsh, Special agents.

Deteriorated Cheese.

An important case to the cheese industry has been heard by Magistrate Ball, of Woodstock. John A. Penson was charged with delivering deteriorated milk to the Kintore cheese and butter company. Mr. Pearson said when the cans were placed in the water cooler, his daughter forgot to turn off the tap hence water got into the cans. He told the cheesemaker about it and no objection was made to receiving the milk. The magistrate found that proper notice had not been given and fined the farmer $10 and costs.

Charles Gow Comments Upon The Tragedy

Left on Saturday Evening For Ottawa.

Has Been Recipient of Many Expressions of Sympathy and Kindly Regard From Friends.

Charles Gow, the young man who confessed to the firing of three shots while passing the Hill homestead on Thursday evening, was seen on Saturday evening on his arrival in Peterborough by an Examiner representative. Mr. Gow was on his way at the time to Ottawa in company with Mr. David Miller, to enter the annual matches of the Dominion Rifle Association.

Mr. Gow, in speaking with reference to the tragic affair, had little more to say than a practical reiteration of the testimony given at the inquest on Saturday. While he naturally regrets the fatal ending of the affair with which he was connected, he feels that by adopting the course which he did in the matter in surrendering himself voluntarily to the authorities with a full explanation, he has done everything which remained for him to do. The result of the inquest is naturally a matter of gratification to him, feeling keenly as he does his unfortunate position. The innumerable expressions of sympathy and esteem which he has received from his host of friends in the Township are much appreciated by the young man, and go to show the esteem and respect in which he is held.

Mr. Gow, in explaining the manner in which the rifle was discharged, states that it was held loosely over his left arm and fired backwards as the buggy was proceeding at a rapid rate. He does not feel dispirited or worried as a result of the affair, believing in the verdict recorded by the jury he has material evidence of the judgment of the public upon his regrettable action.

Barber's Union.

The regular monthly meeting of the Barbers' Union will be held tonight in Rumble's barber shop at 8.30. All members are requested to attend. Archie Brault, Secretary.

DELEGATES WILL LEAVE TO-MORROW

To Attend High Court Meeting of I. O. O. F.

Messrs. William Miles, V. R., Thomas Dale, District Deputy H.C.R., and G. W. Powell, Fin. Sec., of Court Chemong, 830, I.O.O.F., will leave tomorrow for Belleville to attend the High Court of Eastern Ontario of the I.O.F., which opens there on Wednesday morning.

Mr. Powell's office will be occupied in his absence by Miss Powell, who will receive assessments from the members during his absence.

GATHERED TO SAY FAREWELL

Large Party of Friends Bade Mr. Thos. Beeteson Bon Voyage Last Night.

Last evening the friends of Mr. Thos. Beeteson met at his boarding house, Chamberlen street, to spend the few remaining hours with him before his departure for his home in Birmingham, Eng. A quiet, social time was spent until it was time to depart for the train. Twenty-five of his friends accompanied him to the C. P. R. station at midnight, and as the train pulled out, all joined in singing "Auld Lang Syne" and "He's a Jolly Good Fellow." They all wished him a safe voyage and a speedy return with his wife and family.

Telephone the Editorial Rooms No. 284, or Drop a Card in the Post Office, or Come Into the Office and Tell the Reporters. The Examiner Wants to Get the News, and Your Friends Will Like to Read it.

Mrs. Mowat left this morning for Brockville.

Mr. James Hamilton spent Sunday at the lakes.

Mr. Hefferman went to Campbellford this morning.

Miss Denne left this morning for Sioux City, Iowa.

Mr. Richard Hall went to Stony Lake on Saturday night.

Mr. McCollum, of McCollum Bros., livery, left this morning for Orillia.

Mr. Carese Le Brun went up on Saturday night to Bellechasse, Stony Lake.

Mrs. W. Fisher and Miss Leota, of Millbrook, are visiting friends in town.

Mr. J. H. L'Abbe, of Ottawa, was the guest of Mr. Fred McGrath over Sunday.

Mr. Thos. Barrie came down from Ispheming, Stony Lake, this morning.

Miss Ethel Clarke has gone to Westwood for a two weeks' vacation.

Dr. E. A. Spilsbury, of New York, is in the city on a short visit to relatives.

Mr. F. J. Might of the J. C. Turnbull Co., leaves to-night on a buying trip.

Mr. F. S. Schneider, accompanied by his mother, went up to his cottage, Stony Lake, to-day.

Miss Ethyl Dawson has returned home after an extended visit with friends in Port Elgin.

Mr. George Record left this morning for Edmonton, N. W. T., where he will take up residence.

Mr. Hurley, who has been visiting with Mr. James Doris returned to Toronto this morning.

Miss Agnes Gould, Rochester, is on a two weeks' visit with the Misses Huffman, Dalhousie street.

Mr. V. C. Edwards and Mr. Horace Walkey, of the Ontario Bank staff, spent Sunday at Stony Lake.

Miss Kate McGrath has returned from a three weeks' visit with friends in Detroit and Chicago.

The Misses Mitchell, of Toronto, who have been spending two weeks at Stony Lake, returned home this morning.

Miss Lizzie and Master Bernie Clute have returned home after spending a pleasant visit with friends in Campbellford.

Mrs. Richard Reid, Caledonia, N. Y., who has been in the city for the last two weeks, returned home today.

Mr. Gordon Fitzgerald and Mr. Reg. Green returned on Saturday evening from a holiday spent in Muskoka.

Miss Lillie Fairman, Campbellford, has returned home after spending a week's holidays with her cousin, Miss Lillie Hayes.

Miss Clara Faint and Miss Beattie returned on Saturday evening from Kilkenny, where they have been spending a week.

Mr. and Mrs. J. M. Fanning and daughter, Kathleen leave this evening for Lindsay and Toronto. They will be away two weeks.

Master Milton Reid, Rochester, N. Y., who has been visiting his grandmother, Mrs. Reid, Westcott street, left for home this morning.

Miss A. S. Paton, Lindsay, spent Sunday with friends in this city.

Miss Ayres, of Lindsay, is visiting her sister, Mrs. J. J. Cain, King street.

Mrs. Tillson, Miss Geraldine Gough, of Toronto, and Mr. Albert Le May, of Rochester, came down from Bellechasse on Saturday on their way home.

Messrs. Harry Barrett and Johnston Penrose left this morning for Toronto. They intend going on the excursion to the northwest from that place to-morrow.

Miss Lila Reysay, of Guelph, had to return home to-day sooner than she expected on account of her mother's illness, after spending three weeks' holidays with Mrs. M. Mitchell, Gilmour street.

Mr. and Mrs. Clark-Leslie, Park street, and party of friends leave on the early train to-morrow for an extended trip through Manitoba and the New Provinces. They will be away for three months or there abouts.

Miss Noble, millinery buyer, for the Turnbull Co., who has been in New York for the last three weeks in the interests of her customers, is now completing her buying in Toronto, and will return to Peterborough about Thursday.

Mr. W. A. Beach and wife, of Chicago, Ill., are in town on a visit with his brother, Mr. R. M. Beach, 39 College street. Mr. Beach is an old Peterborough boy, but has not seen the city for 19 years. He is now Deputy Sheriff of Cook County.

Invitations have been issued for the marriage of Miss Ida, daughter of Mr. and Mrs. Matthew Smith, to Mr. George A. Dornbush, which will take place at six o'clock on Tuesday evening, September 12, 1905, at the residence of the bride's parents, 15 Walton street, city.

The many friends of Mr. Wm. O'Brien, son of Mr. Alex. O'Brien, will regret to learn of his recent removal to St. Joseph's Hospital. Mr. O'Brien is suffering from a severe attack of typhoid fever, but is at present resting easily, and doing as well as may be expected under the circumstances.

Mr. J. D. Kenneally left to-day for Ottawa to enter the service of the Bank of Ottawa in that city. "Joe" was a prominent member of the T. A. S. hockey team, as well as one of the Collegiate Institute's crack athletes, and his absence from local athletic circles will be keenly regretted by his host of friends.

Band and New Moving Pictures this week at Jackson Park.

Will Charles Gow Be Prosecuted for Manslaughter?

Representations Have Been Made to Attorney-General's Department That This Should Be Done Despite the Verdict of Coroner's Jury--Will Not Act Unless Request is Made By Local Authorities.

Special to the Examiner

Toronto, Aug. 28.—Asked this morning whether the Department would take any action in connection with the Norwood tragedy, the Deputy Attorney-General said that he did not think anything would be done unless a request were made from the local authorities. Representations have been made to the Department that Gow, who admits firing the shots, should be prosecuted for manslaughter, despite the verdict of the coroner's jury exonerating him.

A Long Felt Want Supplied

Mr. James Lang Commences Drug Business in East City.

Mr. Lang Has Had Considerable Experience and Comes Highly Recommended.

The citizens of the newly annexed part of the city have for many years felt the need of a drug store in their section of the city, but this long felt want has at last been remedied by Mr. James Lang, who has commenced business in the Town Hall Block, Hunter street, east.

Mr. Lang has had considerable experience as a chemist, and comes highly recommended. He has had six years' experience with W. B. Ricker, Son & Co., of New York, for whom he managed their large prescription department where ten men were employed putting up on the average 500 prescriptions daily. From New York Mr. Lang went to Toronto, and was employed for some time in the prescription department of the T. Eaton Co., but this summer he decided to branch out into business for himself, and came to Peterborough and opened up his drug store in East City.

Mr. Lang is a sharp and progressive young man, and has had his store fitted up in every detail and carries a complete stock of new drugs necessary for his business and his customers will be accorded every courtesy, and will find everything necessary for the filling of their prescriptions. The store will be kept open night and day, Sundays included.

Mr. Lang's many friends give him their best wishes for his early success and prosperity.

MISS FLORENCE WOOD ENTERTAINS FRIENDS

A Delightful Social Event in East City.

A pleasing social event took place on Thursday evening last at the residence of Mr. and Mrs. W. T. Wood, 603 Concession street, East City, when their daughter, Miss Florence, entertained a number of her young friends.

A delightful evening was spent in games and other amusements, a number of charming vocal solos also being rendered in a most pleasing manner. After dainty refreshments had been served the guests departed with the memory of a delightful evening which will long be cherished.

No More One-Way Hydrants

All Replaced by Two-Way Hydrants

Perfecting the City Fire Protection System.

The work of putting the hydrant system of Peterborough in the best possible condition is now going forward rapidly. For a day or two workmen have been engaged in preparing for replacing the one-way hydrant on Hunter street, at the intersection of Richardson street, with a modern two-way hydrant, that is a hydrant that will accommodate two lines of hose at once. The one-way hydrant is a thing of the past, and there are only one or two left upon the Peterborough system, and in a few days they will be a thing of the past. The commissioners have under consideration, it is said, the installation of several four-way hydrants to serve the more congested business districts. The water commissioners are doing their best to put our fire-extinguishing facilities in the best possible shape. It is now "up to" the city fathers to do their share.

Band and new moving pictures this week at Jackson Park.

TELEPHONE TALKS.

TO TELEPHONE USERS AND THE GENERAL PUBLIC,—

A witness made the statement before the Parliamentary Special Committee that, "It is an undoubted fact that municipal telephony is rapidly gaining ground in Great Britain."

An Act was passed by the British Parliament in 1899 which enabled municipalities to provide telephone service. In six years just six municipal telephone plants have been established and one of these has sold out its plant to the National Telephone Company under an agreement which permitted the company to increase the rate charged by the municipality by about fifty per cent.

Of the municipal exchanges in Great Britain, Glasgow is invariably cited as the most successful. In fact the representative of Glasgow corporation who gave evidence before the Special Committee stated that theirs was really the only opposition which the National Company has in the Kingdom.

The telephone situation in Glasgow can be summed up in two statements, which are indisputable. Add together the number of subscribers to both the municipal exchange and the National Company's exchange (including the duplicate services of 5000) serving a population of 1,200,000, the two services combined have a telephone per 35 of the population. In Canada the Bell Telephone Company has in Montreal and suburbs, one telephone per 22 of the population; Toronto and suburbs, one telephone per 17; Winnipeg, one per 11; and in thirty-one cities and towns of over 7,000 population we have an average of one per 21 of the population. The municipal telephone in Glasgow after three years' operation has only one telephone to about 100 of the population served, and they are now practically at a standstill. No such meagre service exists in Canada.

The Municipal Telephone in Glasgow has a flat rate of £5 5s. for both Office and Residence. The National Company has a flat rate of £10 for both Office and Residence. Both systems have also a limited service rate. After three years of the most determined competition, the Municipal Service has less than 13,000 subscribers and is increasing only about 80 or 100 per month, while the National Company has over 21,000 subscribers, and is increasing at the rate of 500 to 600 per month. Of the 13,000 subscribers to the municipal exchange, at least 5,000 have the National Company's service as well. This result is in the face of the utmost obstruction of the National Company in its operations by the City Council of Glasgow, which has refused the National Telephone Company the use of any of the streets in the city.

SUNDAY CHURCH CHIMES

Notes of the Services in the Several Churches Yesterday.

All Saints.

Large congregations were present at both services yesterday. Rev. Mr. Sparks, of Sunderland, took the service and preached two eloquent sermons. During the offertory at the evening service Mrs. E. M. Gilbert, of Hornellsville, N. Y., sang Briggs' "Hold Thou My Hand" in an excellent voice that showed rare culture and finish.

Mark Street.

One of perhaps the most stirring, eloquent and logical sermons ever preached in the Mark Street Church on "Does it Pay to Follow Christ" was that delivered in the above church last evening, by the Rev. N. F. Lewis, B. A., brother of the Rev. J. G. Lewis, B. A., pastor. The preacher took for his text St. Matthew, 19th chapter, latter clause of the 27th verse, "Behold, we have forsaken all, and followed Thee: what shall we have therefore?" The Rev. N. L. Lewis is a preacher of the strenuous type, and his sermon was delivered in a vigorous forcible manner, which carried conviction to the hearts of the hearers. Especially was the sermon applicable to young men seeking the best in life. Mr. John Miller ably sang "The Holy City", at this service.

St. John's.

There were good congregations at both services yesterday. In the morning the services were taken by Rev. Geo. Warren, of St. John's, Lakefield, who also preached the sermon.

In the evening the services were taken by Ven Archdeacon Mackenzie, of Brantford. His sermon was most interesting and instructive. His text was taken from the 5th and 9th verses of St. Matthew XXII. In the course of his sermon he referred to the Jews as those who were not bidden to the marriage supper of the King's son, as set forth in the parable. It was emphasized that the unworthiness of the Jews the chosen people did not consist in their sinfulness, self righteousness and uncharitableness, but in their rejection of Christ. For this they were grievously punished notably by the destruction of Jerusalem—by God's instrument, the Romans army of Titus. The preacher in impressive this fact said that he agreed with many who thought that the Japanese were an instrument in God's hands for the chastisement of Russia one of the most aggressive, oppressive and generally unworthy nations of history.

Transgression of Pure Food Act.

Transgressors of the Pure Food Act are in for an experience with the law. The Minister of Inland Revenue has given instructions for the prosecution of a large number of persons who have been reported for the adulteration of pepper, cream of tartar, maple sugar and syrup, jams and jellies. It is the intention of Hon. Mr. Brodeur to make the law for the preservation of the purity of food one of the best known of the Canadian statutes.

EVIDENCE IN THE DUMMER TRAGEDY

(Continued From 1st Page.)

beside the door, inside.

One of the "Mob" Swears.

George Gallagher testified that he was at Mr. James Dewart's on Thursday evening. Willie Dewart also lives there. Stewart and Willie Murphy and he went to Jas. Murphy's to have a chat, leaving about nine o'clock. They then went back to James Dewart's. He worked at Jas. Dewart's. He, Stewart and Charlie Gow, who lives on the road to Warsaw, came down the road, all going home except himself. He was going to stay all night at Murphy's. Nothing was said about the Hills before they left Dewart's. He did not see a rifle about the party at all. He was walking. There was a rig, which Ed. Dewart was driving, in company with Charlie Gow. He and the two Murphys were walking ahead. As they passed the barn, they cheered, but said nothing. When he and his companions who were walking got to the slip-gap past the knoll, he heard a shot fired from the verandah of the house and saw the blaze of the gun when the rig was along by the gate. They then ran until they reached the top of the big hill. They heard more shots but did not know how many nor who had fired.

Edward Dewart's Evidence.

Edward Dewart testified that on Thursday evening he was at the house of his brother James, where there were also present, Geo. Gallagher, Wm. and Stewart Murphy, Chas. Gow came with him on the way home. He was driving, the horse and vehicle being Gow's. Witness' rifle was in the buggy, he being on the right side. The three boys were ahead of them. Witness heard a slight sound when they cheered but heard no shot then. He was some distance north, and when he reached Hill's gate there was no shouting. Witness and Gow did not stop and neither said anything about the Hills. When they passed the gate witness considered there was a shot from the Hills. The horse was trotting fast and making considerable noise. Neither said anything when they heard the shot. When they got into the buggy, Gow undertook to carry the rifle. As they drove past Hills, witness heard a couple more shots. He did not know how many, but thought they were fired from the rig. Gow fired some shots, two or three or four. He said nothing before or while firing. The elm trees were between them and the house when Gow fired. All the shots were fired before the second knoll was reached. He thought the rifle was pointed towards Hill's house. Nothing was said about firing the shots and they drove on. Witness and the Hills are not on good terms and do not speak. Did not know whether Gow speaks to the Hills. Witness did not look to see the house. He could not see the horse. It was not a clear night. They had a covered buggy with top half up. Witness was taking the rifle home for his own use. He expected to shoot some woodchucks. He lives about 3 1-2 miles from Hills. Gow living near him. The two had gone over together.

There had been no arrangement to give the Hills a cheer as we passed. Witness was at his brother's for two or three hours. Gow carried the rifle out of the house. Gow is a good shot. This was no reason why he should carry the rifle.

Stewart Murphy's Evidence.

Stewart Murphy, sworn, testified regarding the trip home from Dewart's, stating that as they were walking ahead of the buggy, past Hill's house, he heard a noise there like someone opening a door. They cheered after passing the gate, and as they walked on heard a shot fired from the house. They ran till they reached the big hill beyond the knoll, other shots being fired as they ran. He could not say how many. Witness had no gun, and fired no shots. Neither Wm. Murphy nor Gallagher fired any shots. He did not remember telling Mr. Cochrane that he was home before dark. If he did it was not true. There was no arrangement that Gallagher was to stay all night at Murphy's house.

Wm. Murphy got home about 12 o'clock on Thursday night. He heard a shot fired from Hill's house when near the knoll, and also saw the flash. As they ran on they heard more shots. They had cheered near Hill's gate, though by no pre-arrangement.

Evidence of Charlie Gow.

Charles Gow stated, in giving testimony, that about one week ago Jas. Dewart had offered to meet him in Norwood and asked him to make final arrangements. He was at James Dewart's on Thursday evening when the four boys came from James Murphy's. They spent the evening there. Leaving Dewrt's, the three boys started ahead. Witness untied the horse, Ed. Dewart bringing the rifle and getting in upon the right side, with the gun between them. Witness lifted it to the cushion to prevent it from going off. They heard the cheering and started to drive fast. As they passed the gate witness was almost sure he heard a shot. As they neared the knoll witness fired two or three shots, the last one being at the elm. He fired at random and did not see the house. There was no light. There were no cartridge in the barrel and he had to pump one up. They drove right on and did not stop until parting from the Murphy boys, whom they caught up with on the way. Witness lives two and a half or three miles from Hill's with whom he never had any trouble. He never intended to shoot anyone and did not put the rifle to his shoulder. He did not think he ever shot at random before. He had been shot at two or three times. He is Captain at the Warsaw Rifle Association. Ed. Dewart did not have the rifle in his hand at all. It is a 44 calibre. He had heard of parties passing Hill's being shot at, and had himself been shot at, with a party when passing there. He saw the flash. He was with David Rose once when fired upon.

Archie Moore, constable, testified that he had taken one of the bullets out of the casing of the screen door. He had heard the younger Murphy's statement that he came up with two horses and was home by dark. He said he heard no shooting but knew the little fellow had been shot. He did not say much to Stephen Murphy.

LATEST SPORT

Organization of Canoe Club is Probable

Proposal Meeting With Much Favour Among Aquatic Sportsmen.

War Canoe Crew Will Probably Also Be a Result.

The arrangements for the proposed Regatta to be held on the River in September have been progressing favorably and the coming event will undoubtedly be one of great interest. The importance of the event, however, does not lie wholly in the successful issue of the event as much as in the accompanying results. Many of the local gentlemen most prominently identified with aquatic sports both here and at Stony Lake, are manifesting great interest in the event, and much discussionn has arisen over the prospect of the organization of a club, in the near future, for the promotion of this distinctively Canadian branch of sport.

A gentleman who has taken a prominent active interest in aquatic sports at Stony Lake in speaking of their fruitless condition here, commented most enthusiastically upon the organization proposal, which will, it is understood, include the formation of a crew for a war canoe, as well as the holding at regular intervals of competitive events. There can be no reason why with the splendid facilities offered, that Peterborough should not awaken from its present condition of lethargy and become a leading centre of aquatic sport, justifying it's title "the home of canoes."

A JUNIOR TEAM FOR PETERBOROUGH

Little Prospects for a Senior Rugby Team.

So far there has been very little talk regarding the prospects of the good old game of Rugby in Peterborough this year. It is certainly time that something should be done towards organizing the Peterborough Rugby Club and discussing the outlook for the game in Peterborough for the season which is now on us. The general belief is that Peterborough will not have a senior team this year, but that a junior team may be put on the field. Should Lindsay and Port Hope organize junior clubs, Peterborough would certainly place a team in the district. At the present time it looks as if a junior team will be all that will represent Peterborough on the field this season.

What is needed is good live interest awakened in a junior team which can be trained up to take their place in senior ranks a few years hence—at any rate it is up to the local management to call the annual meeting of the club at an early date.

LACROSSE.

The schedule for a part of the second round of the junior C.L.A. semi-finals is as follows:—Peterborough at Beaverton, Sept. 1; Beaverton at Peterborough, Sept. 4; Toronto Junction at Young Toronto at Toronto Junction, Sept. 9.

* * * *

A meeting of the C.L.A. Executive will probably be held to-morrow evening to decide with reference to the action to be taken regarding the Midland players.

* * * *

It is now up to the locals to get seriously to work in preparation for the game on Labour Day.

SUMMER TOURISTS AT SOUTH BEACH

A Yacht Race on Clear Lake on Labour Day

Mr. W. E. Brooks to Donate a Flag to the Best Yachtsman on Clear Lake.

The past week has witnessed a lively influx of visitors at South Beach Summer Resort, Clear Lake. The number of new guests on Saturday filled the house to overflowing and compelled Mr. Brooks to make arrangements for bedroom accommodation at Mr. Stewart's, an obliging neighbour, a short distance away. The following are the names of the guests who registered during the past week:—E. B. Myers, Mrs. E. B. Myers, Toronto; Mr. Jas. Wallace, Mrs. Jas. Wallace, Miss Gertie Wallace, Miss Reggie Wallace, Miss Pearl Wallace, Mr. Maurice Wallace, Master Earl Wallace, Mr. and Mrs. J. J. Withall, Rochester, N.Y.; Mrs. D. C. Macdonald, Miss E. Macdonald, Lakefield; Miss Marguerite Kearney, Chicago; Mr. Fred Burtley, Brantford; Mr. John Garbutt, Peterborough; Mrs. E. F. Mason and children, Peterborough; Mr. Peter A. Vay, Dr. Frank French, Mr. Chas. W. Garton, H. E. Veyhl, A. Gronkamp, P. G. Francis, E. Getz, I. Varbudge, H. Hoeflin, Spencer W. Greene, J. H. Wells, Fedor Wollbuck, Rochester, N.Y.; Mr. E. F. Mason, Miss Edith E. Garbutt, Peterborough; A. Hilbourn, Lakefield; G. H. Stevenson, W. Quinn R., Hicks, Peterborough; H. Cory, Ottawa; M. A. Montgomery, Miss L. Montgomery, Mrs. C. E. Lightfoot, Lakefield.

The fishing has improved very much during the past week, and in the line open waters of Clear Lake the sport is just as good near the steamer dock as anywhere else. On Friday, Mr. J. J. Withall while out trawling within fifty yards of the wharf, caught a twenty pound maskinonge, which was still alive and kicking when landed on the grass in front of South Beach.

Mr. Brooks, the enterprising proprietor, has decided to offer a handsome flag to the winner of a yacht race to take place on Clear Lake in front of South Beach on Labour Day, September 4th. The race will start at 1.30 o'clock p. m. Entrance free. Mr. J. M. Kaufman has consented to assist in arranging the details of the race. It is said that some owners of yachts were not satisfied with the results of the races at Juniper Island, claiming that the number of islands to be encountered over the course, interfered seriously with their crafts. The race on Labour Day is expected to be more satisfactory, as the fine open water in Clear Lake will afford an excellent test of the sailing powers of the different yachts.

RICE LAKE AND OTONABEE WATERS

Calcutt's Line of Steamers

Time Table for June, July and August, 1905

Commencing Thursday, June 1st the
STR. CITY OF PETERBOROUGH
will run as follows:—

MONDAYS, TUESDAYS, WEDNESDAYS AND FRIDAYS, to Jubilee, Gore's Landing, (Harwood on flag) and Idyl Wyld. On the above days the steamer will leave the Peterborough wharf at 1.30 p. m.; returning will arrive in Peterborough at 5.00 p. m.

THURSDAY AND SATURDAY AFTERNOONS, the "City of Peterborough" will leave the Peterborough wharf at 1.30 p. m., for Jubilee and Gore's Landing; returning will arrive in Peterborough at 5.00 p. m.

STR. WATER LILY

will leave Harwood every Saturday morning at 6.30 a. m., calling at Gore's Landing and Jubilee, and all points on the river; returning, will leave Peterborough at 3.45 p. m.

Parties desiring to spend Sunday at Idyl Wyld or intermediate points may leave town on afternoon boat on Saturday and return Monday at 8.30 a. m. Special arrangements will, however, have to be made in advance at Mr. Calcutt's office for return steamer.

FARE.—To Jubilee, Gore's Landing, Harwood, and Idyl Wyld, 50c, good to return same day only. Children half fare. Books of Family Tickets $5.00 for points between Peterborough and Idyl Wyld.

Special arrangements made for Sunday School and other excursions on application.

H. CALCUTT,
Telephone 83. Peterborough.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the North-west Provinces, excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him.

Homestead Duties.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

Application for patent should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior

Sealed Tenders, addressed to the undersigned, and marked on the envelope "Tenders for Island No. 24" will be received until Monday, the 21st day of August next, at noon, for the purchase of an Island in the Township of Smith, County of Peterborough and Province of Ontario, comprising an area of 6.3 acres and known as Salmon Trout Island, No. 24.

The tenders should state the amount they are willing to pay in cash for this Island and an accepted cheque for ten per cent. of the amount tendered should accompany each Tender, which the successful tenderer in the event of failure to complete the purchase within one month from the date of the award shall forfeit to the Department.

The highest or any Tender, will not necessarily be accepted, and the unauthorized insertion of this advertisement in any newspaper will not be paid for.

J. D. McLEAN,
Secretary.
Department of Indian Affairs.
26th July, 1905.

Chamberlain's
COLIC, CHOLERA AND
Diarrhoea Remedy

A few doses of this remedy will invariably cure an ordinary attack of diarrhoea.

It has been used in nine epidemics of dysentery with perfect success.

It can always be depended upon, even in the more severe attacks of cramp colic and cholera morbus.

It is equally successful for summer diarrhoea and cholera infantum in children, and is the means of saving the lives of many children each year.

When reduced with water and sweetened it is pleasant to take.

Every man of a family should keep this remedy in his home. Buy it now. It may save life.

GUARD STATIONS BOMBARDED

Destruction By Bombardment of Zharef and Laziervo.

BY JAP AMUR NAVAL DIVISION

Long Quiet Has Been Utilized by Both Russians and Japanese to Reinforce Their Armies in the Field—Their Relative Positions Are Comparable When Japs Confronted Enemy at Liaoyang.

Tokio, Aug. 28.—Rear-Admiral Kataoka has reported to the Imperial navy department that the naval division sent up the Amur River bombarded and destroyed two Russian guard stations at Zharef and Laziervo, on the south bank of the river. These stations had recently been reinforced.

How the Armies Stand.

Gunshu Pass, Manchuria, Aug. 28.—Since the Japanese reconnoitered the Russian centre about 25 or 30 miles on Aug. 10, which resulted in retaliatory skirmishing as well as the checkmating of a wide movement of considerable bodies of troops throughout three days, nothing important has occurred. During the long quiet there have been reinforcements to both sides, giving the theatre of war a much changed appearance. The front has been greatly extended, made possible by the use of the wireless telegraph and because of the unexampled size of the armies, the character of the third stage of the war, whether it be active hostilities, demobilization or the garrisoning of contested territory will be complicated.

Comparable to a Year Ago.

The relative positions of the two armies is comparable to that of a year ago, and the country immediately facing the Japanese is almost identical to that which confronted them at Liaoyang. The acquisition of the railway and rivers by the Japanese at Mukden, together with their Fengwangcheng communications, and General Kawamura's new line of communication and defence, running from the head of navigation on the Yalu River across to Kaiyuan, with the occupation of the Chang Paishan Mountain region, makes control of the administration of South Manchuria as complete as that achieved in the north, by similar organization, and in the rapid consolidation of these connections. The destiny of Manchuria is clearly fixed, regardless of other influences.

After an enormous rainfall during the past ten days it is believed that the rainy season is closed.

FIRED SHOTS AT PRINCE.

Peasants Are Terrorizing the Nobles —Fighting With Cossacks.

St. Petersburg, Aug 28.—There is a great increase in the agrarian agitation in various parts of the country, notably in the Caucasus, where there have been serious disturbances. In the Gori district the peasants are forcing the nobles, under the menace of death, to announce to the newspapers that they are handing over their holdings to the peasants freely, or accepting one-tenth, instead of one-quarter of the crop yield.

The refusal of the peasants in the Village of Inchatiedshen to pay Prince Inukhransky, the proportion of the crop to which he was entitled to a serious conflict between the peasants and Cossacks. The Cossacks fired on the peasants, killing and wounding, according to an official account, 19, and according to an unofficial account 70.

Peasants from the mountains came to the assistance of the villagers, resulting in fresh conflicts, in which one Cossack was killed.

Prince Inukhransky himself had a narrow escape from shots fired at him.

Where Anarchy is Active.

St. Petersburg, Aug. 28.—The police department has drawn up a report of the disturbances among the Letts in the Baltic Provinces, which, of late, according to the report, have assumed an anarchical character. Within four months, in towns in the Provinces of Courland and Livonia, there have been four attempts on the lives of officials, four attacks on private persons, six attempts against the lives of police officers, three attacks on Cossack patrols, and two cases in which bombs were thrown. At Riga an attempt was made to set fire to the powder stores in a cartridge factory.

Let go or die. That's the alternative of the shipwrecked man with the money bags. A great many people have a like alternative before them. Business men come to a point where the doctor tells them that they must "let go or die." Probably he advised a sea voyage or mountain air. There's an obstinate cough that won't be shaken off. The lungs are weak and perhaps bleeding. There is emaciation and other symptoms of disease, which if unskilfully or improperly treated terminate in consumption.

Thousands of men and women in a like condition have found complete healing by the use of Dr. Pierce's Golden Medical Discovery.

"It gives me pleasure to send you this testimonial so that some other poor sufferer may be saved, as I was, by Dr. Pierce's Golden Medical Discovery," writes Geo. A. Thompson, of Sheldon Ave., Chatham, Ont., Canada. "I had a cough for years, expectorated a great deal, and was slowly failing. Was losing flesh every day. Lost in weight from 180 pounds down to 128. My flesh got soft and I had no strength. Did not say anything to any one but made up my mind that the end was not far off. One day my wife was reading in the 'Common Sense Medical Adviser' about Dr. Pierce's Golden Medical Discovery, and I said that sounds more like common sense than anything else that I had heard. I at once bought a bottle of your famous remedy and before I had taken half of one bottle I felt better. Took thirteen bottles and it made a new man of me. I gained sixteen pounds and never have had a cough since. I feel splendid and give all the credit to your medicine."

Given away. The People's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. The book contains 1008 pages, over 100 illustrations and several colored plates. Send 21 one-cent stamps for the paper-bound book or 50 stamps for the cloth bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets cure bad, foul stomach and constipation and so help to cure nearly every disease of mankind. They regulate, tone up and invigorate Stomach, Liver and Bowels.

Vice-Regal Party and Premier Laurier and Party Leave For Their Inauguration.

Ottawa, Aug. 28.—Attached to the Imperial Limited, which left here at 12.40 this morning, were private cars containing notable who will figure in the inaugural ceremonies at Edmonton and Regina.

The Vice-Regal party consisted of the Governor-General and Lady Grey, Lady Evelyn Grey, Col. Hanbury Williams, Major Pask and Capt. Newton, A. D. C.

In the Prime Minister's car were Sir Wilfrid Laurier, Hon. Wm. Paterson, Sir Gilbert Parker and Mr. Rudolph Boudreau, private secretary to Sir Wilfrid.

Earl Grey and party will remain in the west until about October 15, but Sir Wilfrid Laurier will return immediately after the ceremonies at Regina.

The officers of the Mounted Police wish to entertain the Prime Minister at luncheon on September 4, but it is uncertain whether Sir Wilfrid's arrangements will permit of this being done.

SUSPENSION OF CAPT MANSON.

Commander Spain's Report Fixes Blame On Argyle's Officer.

Ottawa, Aug. 28.—As a result of the finding of Commander Spain and Captain Donnelly regarding the grounding of the steamer Argyle, made public Saturday, Captain Manson has had his certificate suspended for one year.

The report gives a resume of the accident, which happened July 29, when the Argyle ran ashore near Oshawa during a fog. At the time there were 150 passengers on board.

The report states that the steering gear was in good order, that the life-saving equipment was perfectly satisfactory and that officers and men behaved well during the panic. Then the report places the blame on the compasses and captain as follows:

"The compasses were not correct and the captain had no correct idea of the deviation and the compasses had not been corrected for a very long time. The court is of the opinion that the accident to the Argyle was caused by gross carelessness on the part of the captain in running at full speed in a dense fog. The lead was not used and apparently the captain had no idea of the correct compass course. The course steered was the usual one.

"Taking all facts into consideration, the court suspends the certificate of competence for inland waters of Captain William Manson for 12 months from July 29, 1905, the time of the accident.

"The court also wishes to point out that it is to be hoped the method of navigation on board the Argyle is not usual on board passenger steamboats on the lakes, otherwise there is no doubt that some appalling disaster must occur sooner or later."

THE ADMIRAL PRINCE.

Visited Niagara Falls and the Toronto Fair Grounds.

Toronto, Aug. 28.—Saturday, in company with a small party which included Lady Kirkpatrick, his hostess, Prince Louis of Battenberg visited Niagara Falls on Saturday and was shown through the electric power houses.

H. S. H. attended St. James' Cathedral service on Sunday morning in the uniform of his rank as an admiral. In the afternoon he saw the Exhibition grounds and High Park from a motor car.

This morning at 11 o'clock the civic reception will be held in the Council chamber.

The Sailors Arrive.

Toronto, Aug. 28.—The sailors and marines of Prince Louis' squadron arrived by the C. P. R. at 8.10 this morning, disembarked at North Parkdale and marched with their six guns down Dufferin street to their camping grounds. They will give an exhibition gun drill, wrestling on horseback, club swinging and physical exercise on Tuesday, Wednesday and Thursday afternoon and evenings, in front of the grand stand, with the addition of a Chinese lantern drill in the evening, accompanied by their full band of forty pieces, and will leave Toronto on their return to the ships early on Friday morning.

Winding Up Chicago's Big Fair.

Chicago, Aug. 28.—After twelve years of tedious and painstaking work, the officials of the World's Columbian Exposition have succeeded in closing up the affairs of the great world's fair. President H. N. Higinbotham and Secretary H. O. Edmonds must still remain officers of the company, however, as $30,000 is on hand belonging to stockholders who cannot be found. Of the $8,500,000 subscribed for the purposes of the exposition 1½ 1-2 per cent. has been returned to the stockholders.

Sir Gilbert Parker in Toronto.

Toronto, Aug. 28.—Sir Gilbert Parker, the famous novelist and Parliamentarian, spent a few hours in Toronto last night. He arrived late in the afternoon and left by the midnight train for North Bay, where he will join Sir Wilfrid Laurier and party and with them make a tour of the west as far as Edmonton. He is to be present at the inauguration ceremonies of the new Provinces.

Oldest Engineer Is Dead.

Montreal, Aug. 28.—Charles Taylor, the oldest mechanical engineer in Canada, is dead in his 90th year. Mr. Taylor was born in Fredericton, N. B., and was the first man to cross the Miramichi River in a steam craft. He built at Waverley, Halifax, the first stamp mill ever seen in Nova Scotia. He has been residing here since 1875, and leaves a widow 86 years old.

The Standing of The Finances of The Nations

Annual Expenditures of the Great Powers

Proportion of National Debt to Capital.

According to computations made by Mr. Arthur Harris in an inquiry into national finances the annual expenditure of the principal powers is, in round numbers, as follows:—

Russia	$291,000,000
United Kingdom	179,750,000
France	142,609,000
United States	129,600,000
German Empire	115,132,000
Austria-Hungary	111,209,000
Italy	69,861,000

The public debts of the principal nations are given as follows:—

France	£1,172,360,000
Russia	656,574,000
Great Britain	638,919,000
Austria-Hungaria	590,944,000
Italy	510,501,000
Spain	337,000,000
Argentina	193,575,000
Portugal	177,183,000
Turkey	170,000,000
German Empire	143,799,000

The proportion which the public debt bears to the estimated national capital, a knowledge of which is necessary to an understanding as to what the figures indicate, is said to be:—

Spain and Portugal	29 per cent.
Russia	27 per cent.
Austria-Hungary	17 per cent.
France	12.8 p. cent.
Holland and Belgium	6 per cent.
German Empire	6 per cent.
United States	2 1-2 p. cent
United Kingdom	2 1-2 p cent
Norway and Sweden	2 per cent.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75 cents.

Take Hall's Family Pills for Constipation.

Value of Hen Fruits.

Official estimates of the value of eggs and poultry produced in the United States in the past twelve months places the total at $280,000,000.

104 Years of Age.

"Aunt Betsey" Coward, of Allenton, N. J., on the 31st inst., will celebrate her 104th birthday. The Cowards were among the early settlers of Upper Freehold Township. They are of Quaker extraction. There is no guess-work in estimating Mrs. Coward's age. The family record is indisputable.

Interesting Rifle Match.

An interesting rifle match took place Thursday at the St. Joseph de Levis ranges, for a silver trophy, cup offered by the Citizens' Committee in honour of the Second Cruiser Squadron. The warships all sent a team of eight men each, and among the local teams in the competition were the R. C. A. and the 8th Royal Rifles. The Royal Canadian Garrison Artillery won the trophy, the 8th Royal Rifles second, and the team from H.M.S. Drake third.

Bitten by Fish.

Lloyd Hart, son of Mr. George D. Hart, of Picton, was badly bitten by a large fish while swimming in the bay the other day. It appears the fish was a big pike that had been somewhat injured, and was floating around the surface near where some boys were swimming past, and, according to his story, the fish opened its mouth and grabbed his arm. The wound bled profusely and was very painful. Dr. Heaslip put five stitches in the arm, and the boy now carries it in a sling.

MANY JOLLY SOCIAL EVENTS AT WEEK-END ON GAY STONY LAKE WATERS

Jolly Shore Dinner Party Took Place on Saturday—Saturday Night Dance at Pavilion Largely Attended—Much Enjoyed Swimming Party at Catamaran—Many Good 'Lunge Catches are Reported—Large Budget of Interesting Personal Happenings.

Stony Lake, Aug. 25th.—Mr. B Shortly went down to the city this afternoon.

Mr. R. B. Rogers came up this afternoon to attend the annual meeting of the Cottagers' Association.

County Constable Cochrane was called away from his cottage on Eagle Mount this morning.

Mr. and Mrs. K. G. Lech left Pompadour to-day for their home.

Mr. Hubert McBain came up to Bona Vista this afternoon.

Miss Helen Rootley, of Peterborough, and Miss Watson, of Montreal, returned to Peterborough to-day.

Miss Ola Cavanah, who has been a guest of Mrs. J. S. Knapman, returned to the city this afternoon.

Mrs. Alex. Mairs, of Markham, is a guest of Mr. and Mrs. J. D. Collins, at Catamaran.

Mr. A. E. Bartlett and family, of Buffalo, are at Beverly Island.

Mrs. T. O. Rusb is a guest of Hon. J. R. and Mrs. Stratton at Strathormond-on-the-Lake.

Mr. W. B. Kennedy, of Toronto, is a guest at Viamede.

Mr. and Mrs. Lingwood, of Kingston, have closed their cottage for the season.

Miss Lila M. Webber, Miss Lizzie Webber and Mr. F. S. Webber are at Tigh-Na-Bruaich.

Miss Effie Munro came up the lakes this evening.

Mr. Rice and party, of Toronto, who are on Grassy Island, took a prospecting trip to Koshaboyamog Lake to-day.

Mr. D. Easson came up the lakes to-day.

Mr. F. Sandy, of the G. T. R., went down to the city to-day.

Miss B. Parsons, of Montreal; Miss R. White, Miss M. E. Galbraith and Mrs. F. W. Galbraith, of Port Hope, are out at Cedar Brae cottage, Mt. Julian.

Mr. J. Ormsby, of Toronto, is a guest at Okema.

Mrs. W. A. Sanderson came up to her cottage at Boschink this evening.

Mr. G. Fletcher Thomas, of London, England, and Mr. C. W. S. Dunn, of Toronto, are at Dunnegie.

Mr. Theodore McWilliams came up to Tecumseh Lodge this evening.

Mr. J. T. Henderson, Pittsburg, is a guest at Burleigh Falls Inn.

Mr. Lyman, of Buffalo, who is a guest at Glenwood, had a fine catch of bass on Thursday, one of which weighed five pounds.

A swimming party was given by Misses Clara and Eleanor Collins at Catamaran to-day. Miss Elsie Graham, Miss Eva Irwin, Miss E. Ackerell, Miss K. Wallace, Mr. Cyril Lech, Mr. John Davidson, Mr. Wm. Cox and Mr. Harry Hall were among those present.

The annual meeting of the Cottagers' Association which was to have been held to-day, has been postponed until Monday, Aug. 28th.

Mr. Martin, of Buffalo, a guest at Glenwood, was successful in landing a four pound bass at White Lake to-day.

Shore Dinner Party.

Dr. and Mrs. Barnes, of Cleveland, Ohio, guests of Victoria House, gave a shore dinner to-day. The guests went by boat to Cleveland Point, the doctor's newly acquired property, situated on the Dummer shore opposite Eagle Mount, where dinner was served. In preparing the dinner, Mr. A. H. Smith did some scientific cooking in the way of broiling an eight pound roast. The following persons were present:—Miss A. Brown, Miss E. J. Adams, Mr. Wm Urquhart, Miss Ellie Judd, Mr. L. C. Urquhart, Mr. and Mrs. J. McNally, Mr. and Mrs. T. J. Crane, Miss H. A. Simons, Mr. G. J. Harris, Miss Harriett Smith, Miss Adelaide Smith, Mr. A. H. Smith, Dr and Mrs. Barnes, all of Cleveland, Ohio; Mrs. F. W. Sterling, Miss Ida Miller and Mr. Goodlock, of Toronto.

The dance at the pavilion on Saturday evening was largely attended. Large parties were there from Glenwood, Kilkenny and Viamede.

REV. H. B. KETCHEN ILL IN HAMILTON

Attacked With Symptoms of Typhoid Fever

Necessitates Postponement of His Marriage to a Hamilton Lady.

A letter has been received in the city from Hamilton, containing sad news which will be learned with feelings of deep regret by the many friends of Rev. H. B. Ketchen, formerly assistant pastor of St. Paul's church. He was to have been united in marriage to an estimable lady of Hamilton. Just on the eve of the wedding which was to have been solemnized on Wednesday last, Rev. Mr. Ketchen was attacked with illness of so threatening a character as to necessitate his removal to the General Hospital in Hamilton, where he now lies. The physicians fear that the illness will take the form of typhoid fever.

PLEASANT TIME WAS SPENT

Mr. T. H. Hamilton Entertains His Office Staff.

Through the generosity of T. H. Hamilton, formerly of Peterborough, and now general manager of the Canadian Oil Company, Limited, the office staff (numbering forty) of the company, spent a most enjoyable day on Saturday last. The launch Indiolo was chartered and proceeded to Long Branch, where all went ashore and participated in games and races. One of the events of the day was the race between Mr. Hamilton and Mr. Fierbeller, treasurer of the company. After a very pleasant afternoon, the party returned to Mrs. Meyers', of Sunnyside, about 6 o'clock, where dinner was served. The evening was spent on the Indiolo up the Humber River and across the bay.

IT'S A FACT NEVERTHELESS

We have been in business one year and we thank our many friends and patrons for their liberal patronage for the past year, and assure them that we will put forth every effort to serve them better in the future, if possible.

We say most emphatically, and we won't take it back, that 'SOVEREIGN BRAND' are the best suits for the money that ever honoured the tables of a clothing store. If you know a doubter bring him in and watch us convince him.

Fatal Bullet of Different Calibre to Gow's Rifle?

A theory which has created no little comment, has been in circulation on the streets to-day regarding the bullets extracted from the Hill residence., including the one which resulted in the death of young Hill. The theory if substantiated will undoubtedly have an important bearing upon the case.

It is now claimed that the bullets found and produced at the coroner's inquest were of 38-calibre, while the weapon discharged by Gow was of 44-calibre. In this case an entirely new phase of the mystery arises, and suspicion will be pointed in an entirely new direction. Another new discovery has been made with regard to the bullet which struck the end of the house near the lower window. This was, according to a recent theory advanced, fired at much closer range than the others, and probably not further distant than the end of the verandah. This fact is shown by its molten condition, as it was reduced to a liquid, and entirely unlike the others, which were apparently almost spent.

A careful investigation will be made of the missiles and may develop some startling revelations.

One of the rifles in the possession of the Hill family was said to be of 38 calibre.

Important Departure in Local Train Services

A new and important departure in the local G. T. R. train service will be inaugurated at once.

The Toronto flyer, which has in the past departed from Peterborough at 7.20 o'clock a.m., will, during the two weeks of the Toronto Exhibition, be run from Campbellford, leaving that place at about 6.20 o'clock, and arriving here at the usual time. These arrangements will, if the present traffic justifies it, be made permanent, and Mr. W. Burton, the local ticket agent is to-day taking a trip to Campbellford for the purpose of looking thoroughly into the conditions.

Should the contemplated change be made it will prove a great convenience to passengers at points east of the city, and will undoubtedly receive a generous patronage.

Leonard Hill Fractures Leg on Saturday at Nassau

A distressing accident occurred on Saturday at Nassau, when Leonard Bell, the 13-year-old son of Mr. J. R. Bell, who is in charge of the C.G.E. power house there, fractured his right leg by being thrown from a horse.

The boy, it appears, went to catch the animal in a field near the house and after mounting it, started homeward at a lively clip. The horse, owing to the fact that the rider had no means of guiding him except by the halter, became unmanageable, and the boy was thrown with great force from it's back, breaking his leg a short distance above the knee.

He was at once removed to the house where the fracture was reduced by Dr. Halliday, who was hastily summoned. The patient is today resting easily and doing as well as may be expected under the circumstances. An early recovery is hoped for by his many friends.

City's Water Supply Threatened By Contamination at Lakefield

The almost forgotten Board of Health has at last assembled, and this morning held a short, but important meeting in the city clerk's office. There was a bare quorum of members present, consisting of Messrs. Wm. Ayers, chairman; Dr. Bingham, M.H.O.; Cheif Roszel, Dr. Burgham, R. Parker and Dr. McNulty. The minutes of the last meeting of February 1 were read and confirmed, and the Board proceeded with the business in hand.

The first matter was the old question of a sewer for Barnardo Home. Plans and specifications had been prepared some time ago by the town engineer, but the project had been blocked by some residents in that vicinity who, having sewer connection already, did not wish to have further expense in having an extension made to the Home. Complaints of the present existing conditions at the Home are continually being made, and neighbours have even to close their windows on account of the fetid odour.

The chairman said if the Board thought the present nuisance detrimental to the public health they could override the objections and order a sewer to be constructed. It was also asked that the city engineer be requested to look into the conditions of the residents to the north and west of the Home, and report at the next meeting of the Board.

The Barnardo people want the sewer; but it was moved and seconded that as a first step they temporarily remedy the present existing conditions.

Another important matter was also brought before the meeting. The proprietors of the old Craig House at Lakefield are constructing a sewer to empty directly into the waters of the Otonabee, and so contaminate the city's water supply, as to thus cause a serious epidemic of contagious diseases. There is also a boarding house at Stony Lake which also has private sewer service and empties directly into the lake waters, and finally affects the city's water supply. It was moved that the proprietors of the Lakefield Hotel be ordered to stop all proceedings on the work on their sewer, and that the parties concerned in the Stony Lake matter be similarly notified, as the matter is being reported to the Provincial Board of Health.

The Board then adjourned to meet again a week from to-day, September 4, when a full attendance of members is requested, as some important matters are to be discussed, and action taken.

Bobcaygeon Merchant's Thrilling Ride Against Death

A special train arrived at North Toronto last night, bearing Donald Cain a storekeeper of Bobcaygeon; who was suffering from a serious attack of appendicitis, for which he will be operated upon this morning. At many stages in the journey between Toronto and Bobcaygeon, a distance of over 85 miles, the speed of the train exceeded 60 miles an hour, and on one straight, level track it ran as high as 69 miles an hour.

About the middle of Saturday afternoon Mr. Cain was seized with sudden pains and Dr. Boyd, the family physician, on being called, insisted on him going to bed. The storekeeper grew rapidly worse, and by noon yesterday it was decided that it was necessary to bring him to Toronto in the most expeditious manner possible. As the only train was one leaving at 7.30 Monday morning, a special train was ordered. A brother of the sick man, his wife and Dr. Boyd accompanied him on the train, which left there at 6.20 p.m., arriving in Toronto at 7.10 p.m. The ambulance met them at the station and the patient was hurried to the General Hospital, arriving there about 7.30 p.m. The trip from Bobcaygeon constitutes a record on the line.

On his arrival at the hospital the sick man was examined by Dr. George Bingham and was operated on at 10 o'clock this morning.

New Yacht Was Launched Successfully on Saturday

A valuable addition to the fleet of pleasure craft on the Otonabee and Rice Lake waters has just been made by Mr. Herb Allen, Rubidge street. The boat is a steam yacht 26 x 7 feet, designed and built by Mr. Hickey, the boat builder. As far as possible the boat has been constructed by local firms. The timber was obtained from Alf. McDonald's mill, in which yards the boat was built by kind permission. The engine, which was built by Mr. Allen himself, is of five horse-power and is able to propel the boat at about ten miles per hour.

The yacht was successfully launched at 7 o'clock on Saturday evening, and Mr. Allen, his family and a few friends made a trial trip around the lake, and everything was found satisfactory. The boat has not yet been fitted up, but it is intended to have a commodious cabin to contain everything necessary for a private picnic party.

REV. D. O'CONNELL MUCH IMPROVED

And Recovery from Attack of Gastritis is Hoped for.

The condition of Rev. D. O'Donnell, who is at present a patient at St. Joseph's Hospital, is to-day reported to be much improved by the attending physicians.

Rev. Father O'Connell was on Friday last stricken with a severe attack of acute gastritis and his condition gradually became more critical till grave fears were entertained for his recovery.

His improved condition to-day, however, warrants the hope by the physicians of an early convalescence.

INTERESTING DATE
TO THE LADIES

We have very much pleasure in announcing that our
DRESS-MAKING PARLOURS
will re-open for the Autumn
FRIDAY, SEPT. 1st.

MISS CAMPBELL, the talented Head of the Department has spent the past two weeks in New York procuring the latest ideas of the Fashion Centres.

Arrangements were also made for keeping us in closest touch with the slightest change in Fashion's Kingdom.

It also affords us pleasure to state that we have retained our former efficient staff of assistants in this Department.

Appointments can be made at any time, fittings can be depended upon with certainty, and customers will not be disappointed in delivery.

OUR
IMPORTED DRESS FABRICS AND TRIMMINGS

Most of the New Dress Fabrics, Correct Trimmings, Suitings and Gownings have come to hand. They are the productions of the leading foreign manufacturers, embracing the most EXCLUSIVE DESIGNS as well as the more staple effects at popular prices.

Robt. Fair & Co.

C. P. R. Officials Visit City This Morning

On Tour of Inspection of Company's Property.

Mr. Timmerman, Gen. Sup't, a Member of Party—Heavy Passenger Traffic.

Last evening a party of C. P. R. officials arrived in the city by a railway automobile from the east, and this morning inspected the gates, switches, station buildings and yards. On the whole everything was found to be in satisfactory condition and working order. With the party were Mr. Timmerman, General Superintendent, and Mr. A. McAuley, Road Master. A private car was in waiting.

The passenger traffic on the C.P.R. has been very heavy this summer and on some days the number of coaches on a train has had to be doubled with a corresponding increase in the number of baggage cars, and even then it is sometimes found impossible to check all a passengers baggage by the same train as he himself takes.

A large number of farmers of this district are taking advantage of the home-seekers' excursions and are going to the West to take up land.

Barbers' Union Held Important Meeting

Set of By-laws to be Drawn Up and Printed.

One Shop Fined $4 for Breach of Rules—Meeting Adjourned at Midnight.

Last night W. Rundle's barber shop was the scene of a very important and long drawn out meeting of the local barbers' union. The tonsorial artists were out in full force and transacted some important business in surprisingly short time. One master barber kept the blinds on his shop windows closed on Sundays contrary to the union's rules and was fined $4.00.

A motion to close all union shops all day Labour Day was carried. It was also moved that a set of bylaws, one requirement of which was to close on all public holidays except when they fell on Saturdays or Mondays, Labour Day excepted, should be drawn up and sanctioned by the General President of the J. B. I. U. of A.

The meeting adjourned about midnight.

A Prehistoric Camel.

A bulletin on an extinct species of camel that once upon a time roamed the regions of the prehistoric California, is issued by the Geological Department of the University of California. In the region about the Potter Creek Cave, Shasta County, were unearthed various portions of the camels that existed during the quarternary age. The remains of camels, a large number of species of quartony mammals were found.

THOMAS BEETESON, WHO LEFT PETERBOROUGH ON SUNDAY, POSSIBLY MURDERED

Trunk Was Found Broken Open in River St. Lawrence To-day—Montreal Authorities Now Making Search for Possible Victim—Beeteson Was Brass Finisher at C. G. E. Works—Left on Midnight C. P. R. Train on Sunday.

Special Wire to The Examiner.

(Special wire to the Examiner.)

Ottawa, Aug. 29.—Who and where is T. Beeteson? This is what Montreal authorities are endeavouring to find out. There was fished from Montreal harbour to-day a large saratoga trunk, presumably belonging to T. Beeteson, Winson Green, Birmingham, Eng. The trunk was burst open, when papers were found inside indicating that Beeteson was in the engineering branch of the work, and had left Peterborough previous to August 17. On some of the papers was the address 62 Chamberlen street, Peterborough. The Montreal police are endeavouring to ascertain if it is a possible case of murdor or one merely of robbery.

Thomas Beeteson removed to Canada about a year and a half ago from Birmingham, Eng., and after about 1 1-2 years' residence in Winnipeg and Brandon, came to Peterborough. He had been boarding at 62 Chamberlen street, with Mrs. Booth, and was engaged as a brass finisher in the C. G. E. Works.

Mr. Beeteson, an account of whose departure appeared in yesterday's Examiner, left by the midnight C. P. R. train for Montreal on Sunday, at which time he was accompanied to the station by about twenty-five of his friends to wish him bon voyage. He was also banquetted on Saturday night at the Montreal House. His intention on leaving Peterborough was to proceed at once to London, Eng., and expected to sail from Montreal to-day. His purpose was to visit his old home in Birmingham for the purpose of bringing to Peterborough his wife and family.

Beeteson was a young man of industrious habits, and was economical in financial matters, having saved considerable money since coming to Peterborough. His quiet, genial disposition won for him many friends here, as was evidenced by the warmth of the parting.

ORDER ISSUED THIS MORNING BY ATTORNEY-GENERAL FOR PROSECUTION OF GOW

Details of the Prosecution in Hands of Crown Attorney Wood—Thought by Some That a Change of Venue Will Be Necessary—Gow at Present in Ottawa—Charge Has Not Been Determined.

Special Wire to The Examiner.

Toronto, Aug. 29.—A report was received this morning from Crown Attorney Wood on the Hill shooting case at Norwood by the Attorney General's Department. The Attorney General at once issued an order for the prosecution of Chas. Gow, who admitted the shooting, but who was acquitted by the Coroner's Jury. The charge to be laid will be determined by Crown Attorney Wood. Gow is at present in Ottawa attending the D. R. A. matches. It is thought by some that a change of venue will be asked for but this and other details of the prosecution are in the hands of the Crown Attorney Wood, Peterborough.

Envoys Are In Accord on All Points

Special Despatch Says That Peace is Now Assured.

Decided to Proceed to Elaboration of Treaty—Adjourned Till Three O'clock.

A special despatch received at one o'clock by W. F. Nelson & Co., brokers, dated Portsmouth, says:—

Peace Envoys are in full accord on all disputed points and peace is assured. It has been decided to proceed to an elaboration of the treaty. An adjournment was taken until 3 o'clock.

DEATH ON SUNDAY AT A GYPSY CAMP

Of William Watson—Will be Buried in Montreal.

The death occurred near Jackson Park on Sunday morning at 11 o'clock of William Watson, a member of a band of gypsies. Deceased was 20 years of age and had been ill for some time with pneumonia, which proved fatal far even his strong constitution. He was unmarried, but both parents are left to mourn his loss.

The body has been sent to Montreal, where the funeral will take place this afternoon.

NEW BOOKS.

The following new books have been placed upon the shelves of the Public Library:—

History of the Pacific North-west—Schafer.
The Strife of the Sea—Hains.
The Image in the Sand—Benson.
Brothers to Part—Roberts.
Paola and Francesca—Haldeworth.
The Silent Woman—Rita.
Roger Trawinion—Hocking.

—The Ladies' Aid Society of St. Andrew's church will hold a special meeting on Wednesday evening after prayer-meeting. A full attendance is requested.

MANY LUMBERMEN LEFT TO-DAY

To Enter Into Employ of Turner Lumber Company.

A gang of thirty-two men left town this morning for South River, Ont., to enter into the employ of the Turner Lumber Co. The men were engaged by Mr. W. J. Doughty, principally at Marmora and Madoc.

The Turner Co. are large employers of labour, having about 350 employees in their camp, and 175 in their mills. Mr. Jamieson, representing the company, was in town this morning.

CAR CRASHES THROUGH GATES

At Charlotte Street Railway Crossing Last Night.

Street car No. 17, which has been doing some phenomenal "stunts" of late, last night created some excitement while travelling east on Charlotte street.

As the car approached the railway gates, the latter closed for an approaching train. The car, however, not to be detained by any such obstacle as this, broke through the barrier, travelling several feet within the forbidden ground. The gates, owing to the fact that the car was not travelling at a high rate of speed, were not broken, but were overturned, and the machinery that operates them damaged.

Musicians' Union Protest.

The protest of the Musicians' Union against the appearance of the Fanciulli Band in the dedication exercises of Terre Haute's $300,000 bridge over the Wabash River has resulted in calling off all the exercises. The band is to be at the trotting association's carnival next week and was tendered to the bridge committee for Monday afternoon. The local union of musicians objected, admitting that the band is a union organization, but asserting that it is against unionism for a band to play where no admission is charged.

Book Bargains.

Fifty and 75 cent titles for 25 cents; 25 and 35 cent titles for 10 cents. Just a midsummer flyer from the Peterborough Bookstore—where bargains are very numerous just now. A. H. Stratton & Co.

New Chief Secretary for Canada

Local Salvationists Will Attend Welcome Meeting in Toronto.

Late Chief Secretary Now in England—Valuable Addition to S. A. Band in Prospect.

Staff-Captain McAmmond and Mrs. McAmmond of the local S. A. Corps, go to Toronto on Thursday to attend the welcome meeting to Col. Kyle, late of Australia, but now the chief secretary for Canada.

Col. Jacobs, the late chief secretary for Canada, is at present in England conferring with General Booth on matters of colonization work and the development of immigration to Canada. He will return this fall.

One of the newest arrivals at the Salvation Army Barracks is a Mr. Thomas from England. Mr. Thomas is a compositor with considerable experience, and if a situation can be obtained for him in this city he will remain here, and should prove a valuable addition to the S.A. Band, as he is a fine cornet player.

HERPICIDE NOT A FAKE

Unsolicited Testimonials Tell of It's Superiority.

Alf. R. Kelley, residing at 2198 Devisadero street, San Francisco, Cal., writes the following:
"When I first purchased Herpicide I thought, like the majority of hair preparations, it would prove a fake. I am happy to state that, on the contrary, it is all, and even more, than you claim for it. Quite a number of barbers throughout the section in which I travel have called attention to the new hair sprouting out on my scalp, and inquired of me what I have been using. I tell them 'Herpicide'; also give them your name and address." Sold by leading druggists. Send 10c in stamps to The Herpicide Co., Detroit, Mich. Ormond & Walsh, Special Agents.

Band and New Moving Pictures this week at Jackson Park.

Body Cut in Two.

While lying on the track Saturday, Alexander McLeod was instantly killed by an Algoma Central train. His body was cut in two. McLeod was 28 years old and unmarried. He was well known in both Soos.

Each Arm Broken Twice.

Whilst out walking recently, a Trowbridge lad caught one of his feet in a hole in a field and fell, and broke his arm. He has been particularly unfortunate for the last two years, having accidentally broken each of his arms twice.

Cobalt at $90,000 a Car.

One of the richest claims in the Cobalt district, says the London Free Press, is ex-Mayor Taylor's, of London, received word yesterday that the several years ago, and was among the very first to stake out a claim when word of the great find went around.

Some weeks ago a car of the Cobalt ore was sent to New York to be assayed thoroughly. His son, James, of London, received word yesterday that the assayers in New York had reported the ore was valued at $90,000 a car.

Patient in a Trance.

Julias White, an employee of the Seaman Kent Company, who boards at Mr. Bumsby's, in Meaford, has gotten into a deep sleep or trance from which it is impossible to wake him. Early yesterday morning Mr. Bumsby was aroused by heavy breathing in one of his rooms. On going to White's bed he tried to wake him up, but could not. Several physicians were called in, and although they have used electricity and other restoratives quite freely the patient still continues to sleep.

Immense Labour Parade.

Plans were completed yestreday by New York labour leaders for a Labour Day parade, which they claim will eclipse in point of numbers and display anything of the kind ever attempted in this country. More than 50,000 union men will be in line. Every union to be represented in the parade will have out as nearly as possible every man on its membership roll. The United Housesmiths' and Bridgemen's Union will have 5,000 men. From the International Brotherhood of Teamsters will come 10,000. The Brotherhood of Carpenters expects to have 6,000 men in the parade, while the Rockmen's and Excavators' Union will contribute 12,000.

JAPAN OFFERS NEW COMPROMISE

Peace Prospects Not Hopeless—Will Waive an Indemnity—If Russia Agrees Mixed Commission Will Determine Value of the Northern Half of Sakhalin Island to Be Paid Japan—St. Petersburg Believes the Last Stumbling Block Has Gone.

Portsmouth, N. H., Aug. 29.—This morning Baron Komura, acting upon instructions received from Tokio as a result of yesterday's meeting of the Cabinet and "elder statesmen," under the direct presidency of the Emperor of Japan, will submit to M. Witte, a new basis of compromise, and that compromise, it was firmly believed last night, will insure peace.

The revelation yesterday that Japan had already informed Emperor Nicholas, through Ambassador Meyer, that Japan was ready to waive the question of indemnity and submit the price to be paid for the northern half of Sakhalin, to the judgment of a mixed commission, but prepared the way for Japan's backdown upon the main issue. The announcement was the sensation of the day. The Japanese declined to admit it, and the Russians said they had no confirmation. M. Witte intimated strongly that St. Petersburg had not apprised him of any such action by the President. There was even a disposition to ridicule the idea of arbitrating the price of half of the island. Nevertheless, on all points it was admitted that if Japan took this position, the ground was cut from under Emperor Nicholas.

Everything will depend upon the form in which the proposal is submitted. Should the renunciation be so coupled with the other proposition that Russia could claim it was still only a disguised demand for tribute, the gulf might only be narrowed, not bridged.

All the private advices that reach the Russian mission from St. Petersburg indicate that the military party is bellicose, insistent that Linevitch be given a chance, and that active in its insistence that negotiations be broken off.

M. Witte feels the pressure of this sentiment.

Stumbling Block Gone.

St. Petersburg, Aug. 29.—The despatch from Portsmouth, declaring that President Roosevelt was authorised several days ago on behalf of Japan to waive all claims for indemnity or reimbursement for the cost of the war, and to cede back to Russia the northern half of the Island of Sakhalin, leaving the "redemption" price of it to the arbitration of a mixed commission, was received too late here last night to reach the general public, but its significance was instantly recognised in the few quarters where it became known.

There is every reason to believe that the proposal by Japan to waive the question of indemnity goes far toward removing the last, and, according to official explanations, the only stumbling block in the way of peace.

Mobilizing Reserves.

St. Petersburg, Aug. 29.—Telegrams from various centres, including Riga, Windau and Simbirsk, announce the beginning of an extensive mobilization of army reserves.

Has Kuropatkin Quit?

London, Aug. 28.—(C. A. P.)—The Japanese correspondent of The Daily Telegraph at Moji, Japan, sends a report that Gen. Kuropatkin has resigned his command and that his health has collapsed.

IMPRISONED CANADIANS.

Sealhunters Caught By Russians In Duress at Medwied.

London, Aug. 29.—Capt. Anderson, who commanded the Sadu Maru, the Japanese vessel captured by the Russians last year, stated that in prison at Medwied are two Canadians, R. Finlay of Victoria, B.C., and C. Grant of Picton, N.S., seal hunters, who were on board the Japanese sailing schooner captured by the Gromobol 250 miles east of Vladivostock. The Russians took the vessel in tow for some hours, but, receiving a wireless message that the Japanese squadron was approaching, blew up the vessel.

The men were sealers, and had nothing whatever to do with the war. Nothing is known in this country of the continued imprisonment of the Canadians, their case not having been reported to the Foreign Office, nor to Lord Strathcona. Medwied is an extensive military station not far from St. Petersburg.

No Cheering.

Vladikavkaz, Northern Caucasia, Aug. 29.—The announcement of the promulgation of the National Assembly was received in the chief towns of the Caucases, with apathy and indifference.

Professors on Strike.

Odessa, Aug. 29.—A meeting yesterday of 342 professors decided to continue to abstain from participation in university work until a new order of things is established and the people generally are given all civil rights and the universities are granted full academic automony.

French Cruisers Mean Business.

Toulon, France, Aug. 29.—The French naval authorities have been ordered to hold two cruisers in readiness to proceed to Morocco in case the Sultan's reply to the French demands in reference to the imprisonment of the French Algerian merchant, Bousian, is unsatisfactory.

Important Meeting of the Cottagers' Association

A largely attended meeting of the Stony Lake Cottagers' Association was held yesterday at the Juniper Pavilion at which a number of important matters arose for discussion, including the most advisable means to pursue with regard to the protection of cottages during the winter months. Owing to serious annoyance created in former years in this matter, it was decided to offer a reward of $25 for the apprehension of cottage-breakers.

The question of leasing the north end of Juniper Island was also discussed. The proposal is made that a long lease of the property should be secured with a view of improving it in various ways. This will probably include the enlarging of the pavilion and the transformation of the end of the Island into a park.

The secretary was instructed to communicate with the secretary of the Provincial Board of Health with reference to the pollution of the water of the lake by sewers, etc. A committee was also appointed to revise the Constitution. The following officers were then elected for the ensuing year: President, R. B. Rogers; Vice-President, Jas. Acton Toronto; Secretary, Mr. J. S. Knapman; Treasurer, Mr. W. G. Morrow; Executive Committee, Dr. Race, New York; Hugh Sutherland, Toronto; John Nugent, J. G. Edwards, J. D. Collins; Property Committee, Wm. Irwin, Chairman; S. Henderson, Toronto; H. O. Fisk.

Entertainment and other committees will be appointed by the Executive.

TOTAL ECLIPSE OF THE SUN VISIBLE HERE TO-MORROW MORNING

To-morrow will be a notable day in the history of astronomical science, for it will witness a total eclipse of the sun, which will be one of the most interesting ones for many years. It will be a total eclipse of pretty long duration, and the line of central eclipse will pass through several regions which are conveniently accessible for observing parties.

The eclipse will be total at sunrise in Manitoba, just north of the United States boundary. Thence the shadow will sweep eastward across Canada, north of the settled districts, and comes out on the Labrador coast. It will turn somewhat southward as it crosses the Atlantic and reaches land again on the Spanish coast near Cape *Finisterre*. Crossing Spain the shadow will traverse the Mediterranean, pass near Tunis, enter the African desert, pass over the Nile near Assouan and finally bid farewell to the earth somewhere in Arabia, less than three hours after it began in Canada. The duration of the total phase will be greatest in Spain, where it will be about three and three-quarter minutes, while it will be about two and one-half minutes in Labrador, and a little less than three minutes in Egypt.

Several parties of astronomers have gone to Labrador, and many more to stations in Spain and Algeria, so that a goodly store of observations may be expected, if only the weather behaves as well as it did in 1900, when the track of the shadow on the European side of the ocean was almost the same as at present.

Weather permitting, a great deal of spectroscopic and other information about the sun's surroundings will undoubtedly be obtained. Perhaps the most interesting observations from an amateur's standpoint are those that will be made in the search for a possible small planet nearer the sun than Mercury by photographing the whole region of the sky near the eclipsed sun. This has been done at several recent eclipses without result, only known stars being found on the plates; but the brilliant success of photographic methods in finding new satellites makes one feel that the search for an intra-Mercurial planet ought to be continued a little longer.

Coal Company Scorched.

The Dominion Coal Co.'s wash plant near Port Maunier, N. S., was destroyed by fire this morning; $160,000 loss.

Earl Grey's Congratulations.

To the People's National Co-operative Exhibition, which concluded at the Crystal Palace on Saturday, Earl Grey cabled, "Heartiest greetings and best wishes."

DECEASE OF A FORMER RESIDENT

Mr. James Fisher Dies in New Westminster, B. C.

The many friends of Mr. and Mrs. James Fisher, formerly of Peterborough, will be sorry to hear of Mr. Fisher's death at his home in New Westminster, B. C. Mr. and Mrs. Fisher resided at Auburn for sixteen years, but two years ago they went out west and took up their residence in British Columbia.

The sad intelligence is contained in a letter from Mrs. Fisher to one of her most intimate friends here. The death occurred from blood poisoning on Tuesday, August 22nd.

Those left to mourn his loss are his wife, a brother, Charles, and six children, three boys, Edwin, Bruce and Henry, and three girls, nearly all of whom are grown up and unmarried.

Stone Masons, Bricklayers, Plasters and the public generally can now buy GREY

A box of Zutoo Tablets carried in the pocket or purse, or kept in the office or home, and used when required, will ward of a headache or cold—and do it every time.

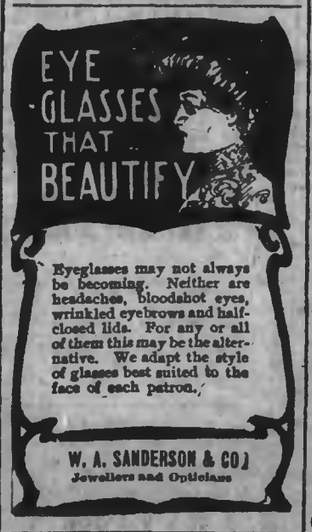
Take two of the tablets just as soon as you feel a headache coming on, or feel you have been exposed to a cold.

In nine cases in ten relief will come in twenty minutes. If your case is exceptional take two more tablets. They are purely vegetable and cannot hurt you.

They will cure your headache—nip the cold in the bud—and make you feel fresh and vigorous in mind and body.

You can try Zutoo for nothing. Samples are free for the asking.

10c and 25c at dealers or by mail. B. N. Robinson & Co., Coaticook, Q.



Eyeglasses may not always be becoming. Neither are headaches, bloodshot eyes, wrinkled eyebrows and half-closed lids. For any or all of them this may be the alternative. We adapt the style of glasses best suited to the face of each patron.

Report of Industrial Conditions In the City of Peterborough

The Labour Gazette for August, 1905, Contains the Following Report of the Official Correspondent, Alderman W. J. Johnston, Respecting the Labour and Industrial Conditions in Peterborough.

Peterborough was legally incorporated as a city on July 1st.

The condition of labour continued active throughout July, some of the shops which were a little slack having assumed a more active appearance, and factories and the building trades never were so active as at the present time, good workmen being at a premium, and employment readily obtainable by good carpenters.

Commercial conditions were very favourable. Wholesale and retail trade was a little quiet on account of the holiday season.

Wages rates were unchanged, and the labour market was free from all unrest, except among the barbers and sheet metal workers.

The corporation of Peterborough was very busy laying cement walks in several parts of the city. Some of the bridges will be also covered with cement tops, making them very durable.

Very extensive repairs were being carried out at the post office, which when completed will make it a very up-to-date and complete building. The work was contracted for by Mr. D. Belleghem.

Some few of the merchants were taking advantage of the holiday season and were putting in very modern prism fronts in their shops, which greatly added to the appearance of the stores.

Local Industries.

Agriculture.—Work was very active. The farmers were kept busy and their produce brought good prices. A very large export trade is done from here.

Lumbering.—Lumbering was very active, all saw-mills being busy on their season's cut. The retail trade was about normal.

Manufacturing.—Manufacturing in all lines has been excellent. A large cement mixer some 90 feet long was being conveyed to Lakefield on three flat cars. Going around a curve the cars and mixer overturned, and a large gang of men were employed on Saturday night and Sunday repairing the cars and clearing the track. The Wm. Hamilton Works were very busy. Large shipments were being made, one order being sent to China. The several canoe shops and planing factories were very busy. Munn's cheese box factory was taxed trying to keep up with orders for cheese boxes for the several factories.

Mining.—A number are very active in promoting mining interests in this district. Two or three offices here keep in close touch with operations here and abroad.

Railroad Construction and Employment.—Railroad construction was not active except on general repair work.

Condition of Particular Trades.

Building Trades. — A large opera house is actively under construction, and several schools were undergoing extensive repairs. Bricklayers, masons, carpenters, joiners, lathers, plasterers, painters, plumbers, gas and steam fitters, stone cutters and builders' labourers were very busy. Paperhangers were somewhat dull. The plasterers raised the price of plastering one cent per yard, making the price for all supplied 15 cents.

Metal, Engineering and Shipbuilding Trades. — Iron moulders, iron workers and helpers, machinists, engineers, steam engineers, electrical workers, linemen, brass workers and sheet metal workers were very busy. Blacksmiths, boilermakers, tool sharpeners, horseshoers and jewelers were fairly well employed. Ship builders and bicycle workers were not as active.

Woodworking and Furnishing Trades.—Woodworkers and carriage makers were very active; upholsterers, car workers and pattern makers were fairly well employed but varnishers, polishers, wood carvers and coopers were slack.

Printing and Allied Trades.—Printing and allied trades were fairly busy. In some instances the work has over run expectation for the season of the year. The Peterborough Examiner Printing Company has added a new printing press to its establishment, designed for fine commercial printing and particularly good on half-tone work; its capacity is 3,000 impressions per hour.

Clothing Trades. — Journeyman tailors and garment workers were somewhat slack. Boot and shoe workers were fairly well employed.

Food and Tobacco Preparation. — Bakers, confectioners and cigar makers were fairly busy. Ice workers were very busy, but butchers and meat cutters were somewhat dull.

Leather Trades.—Leather workers had only fair employment.

Miscellaneous. — Barbers, clerks, stenographers, delivery employees, furriers and theatre employees were slack, but broommakers, hotel and restaurant employees and laundry workers were well employed.

Transport. — Railroad men of all classes were very busy, the tourist traffic being very heavy. Steamboat men, streetrailway employees, teamsters and expressmen were also very active. Cab drivers and hackmen were slack.

Unskilled Labour.—Unskilled labour was well employed.

District Notes.

Throughout the district farmers were very busy harvesting the hay crop. A very heavy crop is reported. Berry picking also gave employment to a great many. Cherries and vegetables of all kinds found a ready market. Cheese factories were very busy, large shipments being made from the several factories selling from 9 to 10 cents. The Bell Telephone Company are extending rural lines throughout parts of the district. The township of Otonabee have let a large contract for opening a ditch for drainage of certain lands to cost $1,300. Suburban villages reported busy conditions in all lines. This season's crop will surpass all previous years.

Colonizing Instinct is Wanting

Germany's Costly Failure in South Africa.

Is the Game to Be Considered Worth The Candle?

Attention is again being drawn to the rising in German West Africa, where it is said the daily cost of the operations is $125,000,000, and the German losses have already totalled 1,700 men. The Socialist party is making a strong protest against General Von Trothas' conduct of the campaign and is urging the appointment of a civilian governor. The manner of the German General is well illustrated by a proclamation in which he says, "I, the great general of the German soldiers, send this letter to the Hereros nation. The Hereros are no longer German subjects. Whosoever brings one of their captains as a prisoner to one of my stations shall receive 1,000 marks ($250), and for Samuel Maherero I will pay 5,000 marks. Within the German frontier every Herero with or without cattle will be shot."

General Von Trotha has also sent a public letter to the colonial press placing upon it the responsibility for the renewed activity of the Hereros. Continual reinforcements are being sent from Europe.

Under such circumstances it is scarcely wonderful to learn that all talk of discontented Boers settling under the German flag in South West Africa is at an end. In fact the German area is becoming almost completely deserted by German immigrants, as well as the natives upon whose labour their success depended.

It is a remarkable comment upon the colonial administration of Germany that while hundreds of thousands of Germans emigrate yearly to the United States and South America and thrive under a foreign flag it is estimated that the entire colonial empire of Germany, which covers an area of over one million square miles, contains only 7,495 immigrants, while the military force in that area totals 4,554 without including the special forces sent to quell the Hereros rising.

According to the last imperial budget the administration of the German colonies costs $16,600,000 annually, while the revenue only sums up to $3,200,000.

It is true that there has been a trifling growth in the exports to such colonies from Germany, the rise being from $8,000,000 in 1898 to $10,100,000 in 1903, while the exports from those colonies to Germany have grown from $3,500,000 to $5,000,000.

Walking for $5,000.

Mrs. Anais Ninemer, who left San Francisco with another woman just a year ago for a walking tour about the world on a $5,000 wager, and has just passed through London, Ont., on her way to Toronto, describes herself as in first-class condition. She says food is given her freely on the road. She carries two bundles, one of which contains a small wash-bowl, soap and towel (no toilet powder.) In the other bundle she carries a change of wearing apparel.

Western Pacific Railway.

The contract has been awarded to William Kenslick & Company, a Pittsburg railroad contracting firm, for the construction of the Western Pacific railroad being built by Gen. J. Gould. The contract price is about $15,000,000, and this is said to be the largest railroad contract ever awarded to one firm. This line with the connecting links already controlled by Gould and another one between Pittsburg and Bellington, W. Va., also to be constructed, will give Gould a new Transcontinental railway.

Impressions of Odessa Mutiny

Lady Writes Regarding Its Tragic and Its Comic Aspect.

Defenceless During Three Long Days —Praise for the Soldiers.

Writing to the Daily Mail, London, of the scenes that followed the mutiny of the crew of the Potemkin, in Odessa, an English lady says: Odessa was transformed. Instead of living in a peaceful, busy, commercial town, we seemed to be on a devil's playground. Bombs, riots, fire, and the expectation of bombardment from the mutinied crew of the Potemkin combined to make the change. How we hated that great turreted ship with her heavy guns trained night and day on the defenceless town! For defenceless we were during three long days. One thing alone was certain: the Jewish "bund" had armed their people and the bombs thrown on the cathedral square told us that the society were provided with more powerful weapons than mere firearms.

"Amid the wild drunken lust and violence of the night, brave men had done their duty to the last. The station master and some of his staff sent the last train of refugees off in the face of the howling, threatening mob, and then, tearing off cap and badge, had to run for their lives. Perhaps the bravest work that night was done by six workmen, who of their own free will remained to guard a machinery depot on the new mole. For twelve long hours, stripped and half-blinded by the smoke and glare, they kept the water playing on the building. The doors warped with the heat, but the men never wavered, risking life and limb for the property of a master who had treated them well.

PRAISE FOR SOLDIERS.

"That Thursday was an interminable day. The entire town seemed on the watch for some surprise, and about eight o'clock it came in the shape of a five shell from the Potemkin. There was a general rush to balconies, roofs, and any place where a view could be gained of the ship. People living on or near the "spucks" began to prepare for flight.

"Masha," said the mistress, entering the kitchen of a flat on the Polish street, "leave everything and dress at once. Here is your passport."

"I have not washed myself yet, Barina," said the cook crossly, but true to her sex even in the hour of danger, "and if we are to fly, I must put on clean linen and a good dress."

Half an hour passed. Then another crash. But by this time the entire household (with the exception of the cook) were in walking dress. Cheque-books, passports and money had been fashioned into a cunning little dress improver under the "Barina's" skirt, and small hand-baskets placed with cognac, bread and sausages, then we waited again. The soldiers closed the street. They ordered us to "close all windows on the Polish street. At midnight all was quiet and still. The master of the house retired to rest. Then we coaxed the servants to bed. Masha, the cook, remarking that at any rate her corpse would be buried clean.

"And strange to say, most of us worn out by the anxiety and watch of the previous night, contrived to get some sleep.

On Friday owing to the prospect of a naval battle in the harbour, and the mysterious movements of the fleet, matters again became exceedingly exciting. But by Sunday the Potemkine was gone and confidence was restored. It was wonderful how the people adapted themselves to the changed circumstances. The squares had been turned into encampments and the dvornicks and their wives sat about gossiping, joking and laughing with the soldiers off duty. They gave quite a homelike look to the state of siege. In the evening came the call to prayers, and the sound of the strong voices of the men chanting the evening hymn added to the sense of security and order.

"Looking back, I only now begin to realize how great was the danger we ran and how great is the debt we all owe to the forbearance and courage of the soldiers. They saved Odessa from destruction and tens of thousands of her people from unbridled lust and rapine.

Suppose you do like the tea you are using. How do you know it is the best tea you can get for the money?

MANY were satisfied with the tea they were using before they tried Red Rose Tea.

When they tried Red Rose Tea they found it had that "rich fruity flavor," found it was strong—that it requires less to make a cup of good tea than the brand of Ceylon alone they had been using.

Now, why not be sure you are getting the best tea to be had.

You cannot be sure till you try Red Rose Tea.

Red Rose Tea is good Tea

SINFUL HABITS IN YOUTH.
MAKE NERVOUS, WEAK, DISEASED MEN.

THE RESULT of ignorance and folly in youth, overexertion of mind and body indulged by lust and exposure are constantly wrecking the lives and future happiness of thousands of promising young men. Some fade and wither at an early age, at the blossom of manhood, while others are forced to drag out a weary, fruitless and melancholy existence. Others reach matrimony but find no solace or comfort there. The victims are found in all stations of life—the farm, the office, the workshop, the pulpit, the trades and the professions. Nervous Debility and Lowland Weakness are guaranteed cured by our New Method Treatment or No Pay. You run no risk. 25 years in Detroit. Bank security.

CURED WHEN ALL ELSE FAILED. No cases sent without written consent.

"I am 32 years of age and married. When young I led a gay life. Early indiscretions and later excesses made trouble for me. I became weak and nervous. My kidneys became affected and I feared Bright's Disease. Married Life was unsatisfactory and my home unhappy. I tried everything—all failed till I took treatment from Drs. Kennedy & Kergan. Their New Method built me up mentally, physically and sexually. I feel and act like a man in every respect. They treated me six years ago. They are honest, skilful and responsible financially, so why patronize Quacks and Fakirs when you can be cured by reliable doctors."—W. A. Bolton.

When You Buy, Buy Right.

When you buy Ozone, buy "Solution of Ozone" (the coupon kind.) It is the strongest and purest Ozone on the market. It is sold as a commercial product at reasonable rates so that you get about twice as much as other brands. Also each bottle contains a coupon which entitles you to a package of "Celery King," the well known remedy which must always be taken with Ozone.

No other brand of Ozone gives you an opportunity to get the "Celery King" free. We own "Celery King" and that is why we can give it with our Ozone.

"Solution of Ozone" (the coupon kind) contains about twice as much of your money as any other kind. It also furnishes you with "Celery King" for nothing. Insist on getting it from your druggist or write the Public Drug Co., Bridgeburg, Ont., who will see that you are supplied. Sold by W. B. Warne.

THE IMPERIAL LIFE ASSURANCE COMPANY
HEAD OFFICE - - TORONTO

THE Imperial Life's Policy of assurance is the most liberal policy issued consistent with safety; it has no restrictions in regard to residence, travel or occupation; it contains definite guaranteed cash values, loan values, and paid-up value, increasing annually after the third year; its automatic, non-forfeiture provision prevents the Policy from lapsing.

BEAUTY AND UTILITY.

While the Examiner will yield to none in the matter demanding the preservation of beautiful scenery there seems to be a line of denunciation where considerations of utility affecting human comforts and progress should receive a share of attention. It is often complained that the operations in connection with the development of electric energy at Niagara Falls are destroying or threatening to destroy the scenic beauty of the mighty cataract. This may be true to a certain extent, but the question to decide is how great sacrifices in the interests of preserving scenic beauty are justifiable. Sometimes persons are placed in position when such a decision involves the greatest anxiety and the decision in favour of utilitarianism is often a heartbreaking experience which many men in this town have had. Cases are known where a man having a building lot, has had to sacrifice a stately tree to find room to place his house. But the tree had to go because it was a question of retaining the tree or foregoing the erection of a roof to cover his head. So it is with Niagara Falls and power development. The decision confronting enterprise as well as love of scenic beauty is as to how far it is justifiable to go to meet the legitimate demands of the one or how far it is justifiable to go in the retaining of natural beauties. The Falls of Niagara is a Mecca of tourists, but it has become a question as to whether a majority of the pilgrims are attracted by mere love of the beauty and grandeur of the Falls or to secure a pleasant picnic grounds where the litter they leave is more disfigurement than power houses.

A clergyman living near the Falls of Niagara in a recent conversation referred to the pilgrims to this shrine as "the vulgar crowd, armed with lunch baskets and paper bags." A Welland newspaper endorses this description as mainly true. It says:—

> An intent and protracted observation leads one to the conclusion that the minister's description, though exaggerated, like all generalizations, is true of a large number of the excursionists. Vulgarity is as ever present as the Falls itself. You may prove this by wandering through Victoria Park any fine day. The lunching operation is the pest of all parkkeepers, and at Victoria Park it must amount almost to a plague. The excursionist who shows a consideration for the park, is more rare than he ought to be. Old bags, scraps of food, banana skins, and the like, are thrown on the ground in a manner that evidences a total disregard for decency.
>
> If there is any ground for faultfinding it would seem to be with the park officials and caretakers, rather than with the picnickers. The latter are an inevitable presence at all popular resorts, and provision is usually made for them. If this has not been done at Niagara, it ought to be; if it has been as we believe to be the case, there should be no difficulty in enforcing regulations which would prevent the nuisance to which attention has been called.

THE "PROGRESS" HERALD

The splendid 50-page special "Progress" edition issued by the Montreal Herald is, in its completeness and extent, a fine illustration of the subject it covers. In regard to the Herald itself, its progress bridges a lapse of nearly a century, for in three years, 1906, the Herald will have reached its century of publication. In regard to the other features of urban, provincial and Dominion progress, the "Progress" edition of the Herald presents a magnificently illustrated summary of the resources and progress of development of Montreal and Quebec, and the Dominion at large—the advances in all departments of social, civic, industrial, scientific, educational, and, in fact, every conceivable interest. This fine edition is not a mere special newspaper number; it approaches in comprehensiveness and amplitude of information the character of a cyclopoedia. No one can regard the special number of the Herald without a pardonable pride in the wonderful resources of our country and the equally, wonderful progress, especially in the last past decade, of Canada which the Herald happily describes in a heading as "Another name for Opportunity." With admiration of the greatness and growth of Canada, one is compelled to combine admiration of the journalistic enterprise and patriotic impulse which have given them such a handsomely distinguishing prominence.

EDITORIAL NOTES.

The cry of the wheat-covered west is the cry of the Macedonians — "Come over and help us"—with our harvest.

The City of Brantford can count more noses than Peterborough but the former place is only just now wrestling with the overhanging sign nuisance which Peterborough solved two decades ago.

Dr. Grenfell, though buried in the wilds of Labrador, will have one advantage over others more favourably situated in some respects. He will be able to see the total eclipse of the sun which is visible there on Aug. 30th.

Did it ever occur to you that Rockefeller and his associates in the Standard Oil Trust, exercise the functions of the government of the United States? They levy taxes as odious and oppressive as the protectionist government of the United States.

The Typographical Union, says the Brockville Recorder, is the only organization in America that dare expel a member for criticizing the executive. If a member of Parliament could have his idemnity detached because he attacked the Government, what a snap it would be for the men in power.

VICTORIA COUNTY CHEESE BOARD

1708 Boxes Boarded--Were Sold at 11 7-16.

Salesmen Tried to Get 11 1-2, But Failed —President Robertson's Thrust at Buyers.

Victoria County Cheese Board met yesterday morning to sell the first half of the August cheese.

Well, the same old trouble came up, viz.: Last week Peterborough Cheese Board got the top price of 11 1-2c and 11 9-16c—a pretty stiff price—and, of course, nothing would do but that the Victoria Board should get the same price, and we earnestly believe that President Robertson hit the nail on the head when he remarked, "the buyers' firms know there are just a few buyers on this Board, and know that they can get their own price, whereas at Peterborough Board there are six or seven buyers, and they can't get their own price, but in order to get cheese have to out-bid their fellow buyer.

There is no reason under the sun why Victoria Cheese Board should not get as good a price for their cheese as other cheese boards. Victoria County can and does turn out as good a make of cheese as any other county; cheese which compete with other Ontario cheese and hold their own, so why didn't they get their price. It is no wonder that the salesmen feel like selling off board, when they can do better by so doing. Mr. Whitton, who buys for the McGrath firm, of Belleville, was on the Board last year, but so far this year he has not made his appearance, although he was expected to be present at to-day's sale.

The number of cheese boarded was small this morning, but all three buyers got all they wanted after a bit of coaxing by the salesmen, but the best price they could get out of the buyers was 11 7-16c.

The following factories boarded the number of cheese set opposite:

Star	100
Cameron	93
Dunsford	150
Mariposa	80
Cambray	78
Omemee	145
North Verulam	112
North Ops	70
Pine Grove	50
Reaboro	140
Bobcaygeon	200
Maple Leaf	125
Palestine	110
Red Rock	175
North Harvey	174
Total	1708

The Bidding.

Mr. Brown called 11c and Mr. Clemes (buying for Mr. Flavolle) raised to 11 1-8c; Mr. Brown again raised to 11 3-16c, and Mr. Fitzgerald to 11 1-4c.

After over (half an hour's idle waste, buyers Brown and Fitzgerald bid 11 3-8c, but the salesman stuck out for the half, and Mr. Brown finally strained a point and bid 11 1-16c, and at that price called Cameron, Mariposa and Omemee.

Mr. Fitzgerald took at the same price, Star, Dunsford, Cambray, North Ops, North Harvey and Maple Leaf.

Mr. Clemes called at the 11 7-16c North Verluman, Pine Grove, Reaboro, Bobcaygeon, Palestine and Red Rock.

The Board then adjourned for two weeks.

Duck Shooting.

Oak Lodge—in the heart of the great rice bed—(a quarter of a mile from cottage.) The greatest spot on Rice Lake for ducks. Duck hunters may be accommodated with board and lodging during the season at moderate rates. Apply to Ashburn Robertson, Keene P.O.

One of Greatest Living Britons

Hon. Alfred Lyttleton, K.C., is Worthy Scion of Distinguished Family.

Colonial Secretary Began Slowly in the House—His Useful Record.

"Who would not be a Lyttelton!"—even to be howled down in the House of Commons by the combined lungpower of an infuriated opposition, says a writer in a London exchange. The aspiration is, indeed, a legitimate one for those who have seen a family so entirely successful in the past now rewarded with the insignia of vast responsibilities for the future. Within the space of two short years the control of our colonies has passed to Alfred, of our army to Neville, and of our foremost public school to Edward; and yet the cry has not gone up of "Too much Lyttelton." I know not which of them will be judged by history to have played the best innings, but of this the public may rest assured—that they will all play the game til they drop, and that the public service, will not suffer while they are at the wickets or in the field.

Least of all, perhaps, can it be said of Alfred Lyttelton, that he depends upon the prowess of his youth for the prominence of his maturer years. For after he had passed through the period of unexampled conquest during which he represented Eton and Cambridge at every game, and subsequently played cricket for England against Australia and held for seven years the title of tennis champion, he settled down to work, and was called to the bar in 1881. Immediately thereupon he became legal private secretary to the then Attorney-General (now Lord James of Hereford), and then joined the Oxford circuit, where he soon had a very large practice. This extended to the metropolis, until his successes in the Forum seemed likely to bar the Senate from any chance of securing him for the service of the state. But, happily, in 1895, he was chosen to succeed Lord Peel, the late Speaker of the House of Commons, as member for Warwick and Leamington; since which time there has never been a doubt of his making for himself both name and fame within the walls of the Palace at Westminster.

Began Slowly in House.

I believe it to be the truth that entrance to Parliament via the law courts is the least popular of all methods of admission in the eyes of the House of Commons. "There are far too many lawyers already," says one; "They are always speaking from briefs," grumbles another; and the most unpleasing picture of all was drawn by the Irishman who described the barrister M.P., as always keeping one eye on Mr. Speaker and the other on the woolsack! But Alfred Lyttelton entered politics without even this drawback. He was a man with a host of friends in the House already, and with a known capacity for making as many more as he chose; one, moreover, whose cast of mind was catholic enough to assume a genuine interest in human affairs, however far removed from his own profession.

Unlike some of his learned colleagues ,he began slowly in Parliament; he only spoke upon subjects near his heart, such as voluntary education, or upon questions with which his legal and technical knowledge specially qualified him to deal —e.g., the Employers' Liability Bill and the new Law of Evidence. Upon these occasions he was always listened to critically and with interest; but it was a matter of surprise to those who knew his powers that he never seemed really at home with a House of Commons audience, or to do himself justice.

It was remarked as curious that while his private conversation (like his cricket), was a sort of champagne—combining the tonic qualities of George Meredith with the effervescence of the Bishop of London—his speeches were never quite so exhilarating. In 1897, however, he struck a higher note, which satisfied everybody—in the fulfilment of one of the most difficult tasks which can be allotted to parliamentarian, old or young—namely, the task of seconding the address to the throne. Critics ventured to notice (as they have noticed since), a dangerous tendency to multiply time-worn quotations from well-known sources, as they heard the words of Carlyle and Sterling, of Warburton, Gibbon, and Decatur follow one another in swift succession; but they all acclaimed the judgment of the speech and the eloquence of the peroration which paid a glowing tribute to the late Queen Victoria in the "Dramond" year of her reign.

A Useful Record.

Thus much for the career of the "private member," a limitation which left Alfred Lyttelton in all but the pedantic sense of the term from the moment that he proceeded to Newfoundland, lent to that Colonial Government as legal assessor in the great arbitration case connected with the Reid railway contract. Thereafter he gave public service once more to the state in South Africa by consenting to act as chairman of the concessions commission to the Transvaal, thus gaining a local knowledge of men and of affairs which stands him in good stead now that he is supreme administrator of that faithful sub-continent. The choice of a successor to Mr. Chamberlain in the office of Colonial Secretary must have given the Prime Minister many an anxious moment. It will be recollected that Lord Milner declined the position, and it has been hinted that Lord Cromer was reluctant to leave Egypt. Of course there were others not a few, whose names were in men's mouths as probable nominees to the vacant post; but Alfred Lyttelton's was not one of them. To him, nevertheless, the honour fell of occupying the colonial secretaryship—an office as difficult and as distinguished as any in the gift of his Majesty. The offer and the acceptance were equally courageous; for my part, I believe results to have shown already that both were fully justified.

Tenders Were Received for New Sewers

At Last Night's Meeting of the Board of Works.

Several Contracts Will Be Divided—Many Applications Were Considered.

The Board of Works met last night, the following members being in attendance: Ald. Adams, chairman; Mayor Best, Aldermen Hall, Tovey and Batten.

Two applications for the position of inspector of sewer construction were received.

Mr. Hendry was heard regarding the condition of Cambridge street, and he complained of the north end not being graded at its intersection with Walnut street, causing severe floods at times. He asked that some action be taken to divert the water from its present course to the nearest one, which could be accomplished by water-tabling and the addition of a culvert at the foot of Walnut street.

The following petitions for granolithic walks were received:

Douro street, from concession on to Rogers'. Granted.

Simcoe street, south side, Rubidge to Reid. Insufficiently signed.

Reid street, east side, Hunter to Talbot. Granted, with the provision that next block will also be built.

A petition for pipe sewers on Pearl and Roswell avenues was received. Granted.

An application for a drain and water table on Victoria avenue, west of Reid street, will be reported upon before action is taken.

The following tenders for sewer construction upon the streets, for which tenders were advertised for, were received:

	Total.
T. Sheehy	$19,307.35
C. E. Hayes	18,676.28
J. Robson	19,307.35

It was deemed advisable to make a selection, and divide the work between the different contractors tendering. The matter was referred to Town Engineer Hay to report at a meeting of the Board to be held on Wednesday next.

The chairman reported that a representative of the County had requested that some action be taken by the city with regard to the re-planking of the locks bridge, which was last done about four years ago.

It was moved by Ald. Batten, seconded by Ald. Tovey that the locks bridge be floored with two-inch elm plank to a width of eight feet, provided the County pays half the costs. Carried.

The matter of the Barnardo avenue sewer was then discussed. This, owing to the menace of health of the present sanitary conditions at the Barnardo Home, was regarded as imperative. The sewer will require 500 feet of nine-inch pipe.

It was moved by Ald. Hall, seconded by Ald. Batten that the engineer be instructed to proceed under the Health Act to make an assessment for the Barnardo avenue sewer. Carried.

A request that the sidewalk on Auburn street be repaired was granted.

An application for a sewer on Sherbrooke street was insufficiently signed.

No action was taken with regard to a request for a crossing on George street, at corner of Dalhousie George street, at corner of Dalhousie.

The request of Thos. A. Long for a plank sidewalk on Bethune street, corner of Smith, was granted, and a general crossing will also be provided.

Moved by Ald. Hall, seconded by Ald. Batten that the Street Railway Company be allowed the use of the steam roller at the rate of $1.50 an hour. Carried.

It was moved by Ald. Tovey, seconded by Ald. Batten, that the pay of Mr. Fitzgerald be increased to $2.50 a day after August 31. Carried.

MISSING ARTICLES WERE RECOVERED

Lady's Purse Returned on Saturday as Result of Examiner's Lost Ad.

A purse containing a ring, $4.00 in cash, a tourist railway ticket and a number of other articles which was lost by a lady on the Douro Road last week was returned on Saturday as the result of an advertisement inserted in the Lost and Found Column of the Examiner. The missing articles were recovered by a lady who promptly returned them to their owner.

A bunch of keys was also recovered yesterday by the same means.

The efficacy of the Examiner's Lost and Found Column is being repeatedly demonstrated in a manner which leaves no doubt of its value as an advertising medium.

QUIET WEDDING AT CATHEDRAL

Nuptials of Miss Julia Butler and Mr. Henry Kellett.

A quiet wedding took place this morning at St. Peter's Cathedral, when Julia, daughter of the late Mr. and Mrs. Pierce Butler, of Norwood, was united in marriage to Mr. Henry Kellett by Rev. Father Kelly.

The ceremony took place at six o'clock, only a few immediate friends being present. The bridesmaid was Miss Margaret Herr, of Asphodel, the groom being attended by Mr. James Fox, of Water street, city. Mr. and Mrs. Kellett left this morning for a brief honeymoon trip, after which they will take up their residence in the city.

SANG SUNDAY IN ST. JOHN'S

Mr. Elsdale of Lakefield Delighted Congregation Sunday Morning.

Mr. Elsdale, of Lakefield, the possessor of a tenor voice of beautiful quality and good culture was heard with great pleasure at the offertory at Morning Prayer in St. John's on Sunday. He sang the Recitative "Ye people rend your hearts and Aria, "If with all your hearts", from Elijah.

Use "MAPLE LEAF" Canned Salmon. The Best Packed.

Miss Chris. Soucis, of Chicago, Ill., is visiting her sister Mrs. T. J. Dorris, Cedar street.

Mr. Jack Hopwood, of Chemong, passed through town to-day on his way to Toronto.

Mrs. Alex. Fitzgerald left this morning to visit relatives in Toronto Cheltenham, Ont.

Miss Audrey Speers and Miss Mabel Bennett spent a few days in the city this week.

Mr. Isaac Dormer and son Lorne, have left for the Northwest where they will take up land.

Miss May Callaghan, Elm street, has returned home after a pleasant outing at Jubilee Point.

Mr. and Mrs. Frank Dumble and daughter returned to the city yesterday from Stony Lake.

Rev. Mr. Clokey, of Pittsburg, has closed his camp on Juniper Island and returned home to-day.

Mr. and Mrs. W. H. Meldrum closed their cottage on Friday last and have returned to the city.

Miss Heffernan and Mrs. Burdock returned last night from Rochester where they have been visiting.

Dr. Jewett and Miss Dorothy Jewett, of Dayton, Ohio, returned home from Kilkenny, Stony Lake, to-day.

Mrs. T. F. Matthews and family returned home from Chemong to-day having closed their cottage for the season.

Mr. George Pope, local manager of the Federal Life Assurance Co., went to Campbellford to-day on business.

His Lordship the Bishop of Toronto, expects to be at St. Luke's Church for Confirmation Sunday, Oct. 15th.

Mrs. I. Thompson, Pine street, is in Peterborough, visiting her daughter, Mrs. W. J. Nelson.—Port Hope Guide.

Miss A. Weyer, trained nurse of St. Michael's Hospital, Toronto, spent Sunday with her mother, Mrs. Weyer, Weller street.

Mrs. George Dunsford, Simcoe street, returned to-day from Gore's Landing, where she has been spending a holiday.

Messrs. J. Scroggs and A. D. Ewing, of Pittsburg, stayed over in the city last night and went up to the lakes this morning.

Town Clerk S. R. Armstrong and Mrs. Armstrong who have been spending a week at McCracken's, returned home yesterday.

Mr. R. B. Rogers and Rev. E. A. Langfeldt were the guests of Hon. J. R. and Mrs. Stratton over Sunday, at Strathormond-on-the-Lake.

Mr. and Mrs. T. J Wallace have returned to town from Oak Lodge, Rice Lake, where they have pleasantly spent the past eight weeks.

Mr. Ozias de Laplante returned yesterday from a holiday trip including a "high old time" in Buffalo, New York and Seneca Falls.

Mr. John H. Gould, of Paris, Ont., arrived in town last night and entered upon his duties as decorator and general salesman of Robert Fair & Co.

Mrs. Bates will close her cottage at Stony Lake on Thursday. The boys in their launch will take a tour of the northern lakes before leaving for home.

Dr. W. E. Dean, of Mount Pleasant, was in the city this morning. He has purchased a practice in Richmond Hill, to which place he will remove in the near future.

Miss Willene Miller, of Toronto, returned home to-day after spending two weeks with her sister and brother-in-law, Mr. and Mrs. T. J Wallace, Oak Lodge, Rice Lake.

Miss Barbour, who has been visiting with Mr. and Mrs. J. C. Shook, left this morning for Georgia, where she takes charge of the musical department of the college at Norman Park.

Miss Armstrong, head milliner, and Miss Campbell, the new dressmaker for Robert Fair & Co., have just arrived home from New York, where they were gathering a knowledge of latest fashions.

Miss Le Cronier, of Madison avenue, and Miss Clershue, of Victor avenue, are spending the month of August at Poplar Point, Stony Lake, the guests of Miss Florrie Burnham, and will remain in Peterborough for a few days on their way home.—Toronto News.

Mr. W. A. Noble, who for the past three years has been on the office staff of the C. G. E. Co. here, left last night for New York where he will probably locate. Mr. Noble has been an active member of several sporting organizations and will be greatly missed by his many friends.

Mrs. William Choate and daughter, Mrs. Knight, of Aurora, Ill., are the guests of Miss C. E. H. Choate, Walton street.—Port Hope Guide. Mr. Choate and Mrs. Knight have been spending a pleasant visit at Stony Lake and Peterborough, and were the guests for several days of Mr. and Mrs. Aaron Maguire, McDonel street.

Mrs. H. LeBrun, Miss Dot Hackett, Miss Le May, Rochester; Miss Eva Dagenais, Montreal; Mr. Alphonse LeMay, Syracuse, N.Y., and Mr. David LeMay, Mr. C. LeBrun, returned this morning from "Bellechasse," Mr. H. LeBrun's handsome Stony Lake summer residence. In addition to the usual number of fish stories the party brought with them upon their return complexions testifying louder than words to a charming outing in Kawarthadom.

CITY NEWS OF TO-DAY

—School re-opens one week from to-day.

—The chief has a pocket book picked up this morning on George street near the C. P. R. station.

—Watch for the eclipse of the sun to-morrow. It will be the first visible in Canada in four years.

—Piano tuning promptly attended to. Satisfaction guaranteed. A. F. Hoover, 222 McDonel street. Phone 199.

—There was nothing doing again in Police Court circles this morning—evidently the acting magistrates are respected.

—Notice. — Personal paragraphs sent, as were two to-day, unaccompanied by the names of the sender, (as an evidence of good faith,) cannot be used.

—See Turnbull's dodgers for particulars of their School Children's Day Sale. Everything that school children wear, at reduced prices Friday, September 1.

—The S. A. Band will hold a musical meeting at the corner of Water and Hunter streets on Thursday evening. The remainder of the corps will hold an open air meeting at the corner of Bethune and London streets.

—Peterborough Conservatory of Music fall term opens on Tuesday, Sept. 5th. Syllabus containing 50 pages of information may be had on application to the musical director. 6d48.

Persons desiring to compete for best results in beautifying premise, will please send in their names and street numbers to the committee may inspect premises next week. H. S. Beal, secretary. 3t

—Bring this advertisement with any picture purchased of Mr. Murphy and we will give you 25 cents off each frame you purchase. Good till Sept. 1st, at The Framery, two doors west of Postoffice.

—Hold on to your old suit. Don't cast it aside as useless because of stains, rips or wrinkles. Send it to "My Valet," and you'll be tickled to death with its respectable appearance. Phone 575—we'll send for and deliver.

—The finishing touches are being put upon the den of the Golden Lion at 383 George street, and when the new awning and other improvements are added there will be few if any, business homes in the province more beautiful, commodious and convenient than the re-modelled premises of R. Fair & Co.

Members of Camp Chinook Become Hosts

Entertained Large Party of Guests at Chemong.

Enjoyable Informal Corn-Roast—Large Number From City Were Present.

The members of Camp Chinook, Chemong Park, entertained a party of guests to the number of about forty on Friday evening, to a most enjoyable corn roast.

A large number from town, as well as a quota from the Park were present at the event which is described as one of the most thoroughly enjoyable social functions of the summer season.

After the informal feast consisting of roast corn and marsh mallow, and watermelon, the affair took the form of a musicale, vocal solos being rendered with splendid effect by Messrs. Shaw, Davidson and Alex. Elliott and Mendel.

The members of the camp who proved delightful hosts are, Messrs. Fred L. Roy, "Doc." Shaw, Art. Weeks, C. Currier, W. Cavanah and Hrnie Ford. The party dispersed about 11 o'clock.

TELEPHONE TALKS.

TO TELEPHONE USERS AND THE GENERAL PUBLIC,—

Is The Bell Telephone Company of Canada over-capitalized?

In an attack upon the Company made by a witness before the Select Parliamentary Committee, the charge indicated by the above query was made, being expressed in the following terms:—

"Another reason for the excessive charges is the fact that the development of the telephone has passed through several stages since the date of the original patents, and at each stage the apparatus in use became obsolete, rendering it necessary in the larger exchanges for the company to practically reconstruct their system and install improved plant. There being no adequate depreciation fund in existence to cover the cost of this reconstruction, the expenditure upon this work has been charged to capital account, thereby increasing the amount upon which dividends had to be earned, with the result that to-day the plant of the local system could be duplicated for about one-third of the total capitalization and bond issue."

From this statement, which applies to the "local systems" or exchanges as distinct from the long-distance service, it would appear that the Company has not been receiving for its service a sufficient revenue to provide an adequate depreciation fund. Yet the charge immediately preceding the above, and upon which the argument of over-capitalization is based is to the effect that the Company's rates in cities are too high!

There is the frank admission, as will be seen, that The Bell Telephone Company has been doing pioneer work in Canada, and in doing so has kept pace with the constant evolution in telephonic apparatus; but coupled with this admission is the charge that the cost of these continuous changes has been improperly charged to capital account, thereby increasing the burden of present and future subscribers. There is every indication that the changes of apparatus will continue to be necessary as improvements at the present time are constantly being made and require more expensive changes in equipment than ever before in order that the best service obtainable may be provided.

The only logical sequence to the argument then, is that to provide a revenue with which to meet the demands made by these ever-recurring changes in equipment, rates must be raised. And yet the witness says that rates are already too high!

The charge of over-capitalization thus refutes itself. It is not based upon fact. The President of this Company in his sworn evidence, backed by indisputable records, showed that these improvements have not been paid for out of capital, and that the capitalization of the local exchanges of this company on the 31st of December, 1904, was only $92.00 per subscriber.

After twenty-five years of operation, all the time keeping pace with the advancement in the art of telephony, the Bell Telephone Company of Canada, instead of being over-capitalized as claimed, has really the lowest capitalization per subscriber of any general system of which records have been produced. There is no evidence in support of the claim that a duplicate system could be put in for less than the amount for which the Bell Telephone Company is capitalized, or even for the same amount.

A dollar of substantial value for every dollar of capital is the foundation stone upon which this company has been reared, and it is to-day its strength.

THE BELL TELEPHONE COMPANY OF CANADA.

THOS. BEETESON LEAVES FOR ENGLAND

He Was Banqueted by His Friends Friday Evening.

Friday night about 50 of the most intimate friends of Mr. Thomas Beeteson, gathered at the Montreal House, to give him a farewell banquet before his departure for the home land. A very enjoyable evening was spent, and was much enjoyed by all present.

Mr. Jas. Booth was chosen to act as the chairman, and in a few remarks expressed his regret at losing Mr. Beeteson's enjoyable company.

Mr. Beeteson, better known as "Little Tom," thanked the chairman, and his many friends for their kindness shown to him during his stay here, and although he will be across the briny deep with his family he would always remember the happy company.

A good programme of comic recitations and songs were rendered by Messrs. Greig, Mosley, Wilson, Evans, Reeves, Bishop, Dickson, Maitland and Stewart.

The entertainment was brought to a close about midnight by the singing of the National Anthem.

Mr. Beeteson left on Sunday on the midnight train for Montreal, where he will take a steamer for his home in Birmingham, England.

A Fish Story.

Peter Ellacott, of St. Thomas, went with some friends on a fishing expedition to Dadson's Pond. He thought he had a fish on his hook and gave the line a sudden pull upwards. There was no fish however and the empty hook went skywards and caught in a wasp's nest in a tree overhead. The wasps at once became exceedingly attentive to Mr. Ellacott and while running to escape from them he stumbled and fell, breaking his right arm at the wrist. He also received several unpleasant reminders in the neck from the wasps.

A Railway Fatality.

One man was killed, another fatally injured and a number of passengers seriously hurt in a collision on the Pennsylvania Railroad in the South yards about three miles from this city early to-day. Fireman Walter Eversole is dead, pinioned beneath the engine. Engineer Grady was thrown beneath his engine and both legs were severed. He cannot recover.

Chemong Yacht Club Held Meeting Last Night

A meeting of the Chemong Yacht Club was held last night at the Park at the conclusion of the Junior Regatta, at which the plans of the proposed new Club House were submitted by the architects, Messrs. Belcher and Heathcote. The ground was looked over by the Committee and a site chosen, for the building, the erection of which will be proceeded with at once. Tenders will be asked for in the course of a few days.

The main building will be 50x25 feet in size with an extension upon the water, and will be fitted up in the upper storey with six bedrooms, each 7x10 feet in size to allow space for two cots. On this floor will also be a club room with fire-place, 28x25 feet in size.

The lower floor will, it is expected accommodate 24 boats, and will be fitted up with racks for canoes and skiffs, a dressing room and a shower bath.

The site chosen is directly below the pavilion and is a charming location for such a building.

Chemong Junior Regatta Was Gratifying Success

The Junior Regatta held yesterday at Chemong was a gratifying success in every respect, and was a fitting conclusion to the series of successes of this nature upon the Kawartha waters during the present summer.

The different events were keenly contested and interesting and were witnessed by a large and enthusiastic crowd of Park residents, from the shore. The young competitors displayed a surprising dexterity in their respective events.

A pleasing feature of the Regatta was the charming manner in which the participants were entertained by Mrs. W. J. Hopwood at her summer home on the Island. Delightful refreshments were served and a pleasant social time spent.

The officials of the course were:—
Starters—W. J. Hopwood and W. Hartshorn.
Judges—Commodore McComb, Alex. Elliott, and W. S. Davidson.

The Races.

1—Boys' Canoe Tandem (11 and under)—1, Jack Dennistoun and G. Matthews; 2, H. Hill and H. Eastwood.

2—Boys' Canoe Tandem (17 and under)—1, Jack Dennistoun and H. Matthews; 2, Jim Dennistoun and C. G. Halpine.

3—Girls' Canoe Tandem (14 and under)—1, Marion and Phyllis Denne; 2, Mildred Bull and Jean Hill.

4—Boys' Canoe Tandem (14 and under)—1, G. Cummings and J. McDonald; 2, H. Hill and C. G. Halpine.

5—Boys' Single Skiff, (14 and under) (Gordon Cumming barred)—1, J. McDonald; 2, Stuart Hayes.

6—Girls' Double Skiff—1, Robina Cumming and Marion Denne; 2, Mildred Bull and Jean Hill.

7—Boys' Double Skiff (14 and under)—1, Stuart Hayes and Harold Hill; 2, H. Munro and Roy Hutchinson.

8—War Canoe (paddled in punts) teams of 10 each by punt navigated by Com. Cummings; 2, Com. Roy.

9—Crab Race (14 and under)—1, Jim Dennistoun; 2, Roy Dixon.

10—Tub Race (open to the world)—1, Jim Dennistoun; 2, Kenneth Halpine.

11—Boys' Swimming Race (14 and under)—1, Gordon Cumming; 2, Kenneth Halpine.

12—Boys' Swimming Race (13 and under)—1, C. G. Halpine; 2, Jim Denistoun.

13—Boys' Swimming Race (11 and under)—1, H. Matthews; 2, Jack Denistoun.

14—Girls' Swimming Race (14 and under)—1, Marion Denne; 2, Mildred Bull.

15—Ladies' Single Canoe Race for championship of Chemong—1, Vicva Hunter; 2, Allison Hamilton.

The fourth open sailing race for Mr. R. M. Denniston's trophy took place at the conclusion of the Regatta and was the last of the series. Mr. Milne Hamilton's, Grey, "306", again was first place, Mr. Denniston's "Wee Hae" second, Mr. Hollingshead's "Vonda" third, and J. Hopwood's "Arrow", fourth, in a race which was watched with great interest by the crowd.

PORT HOPE TEAM IS PRACTICING

For Saturday Baseball Game With the Locals.

Friday's game in Beaverton is creating a widespread interest in local lacrosse circles because of the importance which attaches to the result. The team will leave by G.T.R. on Friday morning. Monday's game will undoubtedly be a fast one, and should draw a record crowd.

The Port Hope Guide, of yesterday takes occasion to make the following remarks on local baseball interest:—

The baseball team will practice to-night and every night this week in preparation for the big game on Saturday afternoon in Peterborough. The locals will put forth every effort to win this game and feel quite confident of doing so. The winner of this contest will fight it out with either Bowmanville or Cobourg for the championship.

The management of the local team must be up and doing this week. Arrangements should be made at once for an umpire for Saturday's game for a very great deal depends upon the man who handles the indicator. If this matter is left over President Pethick might be obliged to send a man that would not prove satisfactory.

We might just remind Peterborough that their admission fee of $5 us as yet not paid and they also overlooked the fact that Umpire Kerr is entitled to $5 and expenses for the visit he paid them about a week ago. Until these matters are straightened up, Peterborough cannot expect to play in the Midland League.

LACROSSE.

The Lacrosse Club is now practising every evening at six o'clock. Mr. Regan, the speedy point player of the Beavertons was out last night practising with his future opponents. Mr. Eddie Hall, who played with the Athletics two years ago will be out in uniform. Mr. Hall is an experienced player and will no doubt be able to give the boys some tips.

If Livers Go Wrong
set them right—it's simply and easily done. Without pain, without trouble, without nausea, in fact it's only in the beneficial effects that you notice you have taken

Beecham's Pills

Sold everywhere in Canada and U.S. America in boxes, 25 cents.

FOOTBALL.

The Quakers will practice at the Riverside Park between 6.30 and 7.30 in preparation for next Monday's game at Gore's Landing.

BASEBALL.

Port Hope is billed to play here on Saturday afternoon. The locals have a good chance to win.

TUG-OF-WAR.

The Quaker Tug-of-war team challenge all-comers for the Turf Club Cup contest to take place at Jubilee Point next Monday (Labour Day) on the occasion of the Quaker Football Excursion. William Hamilton or Force teams preferred.

BOXING AND WRESTLING.

Mr. Geo Gauthier, is making arrangements to put on a programme of wrestling and boxing bouts for fair week. Some good men will be seen in action, including Nick Collins and Jack Fitzgerald of Detroit, in a twenty-round boxing bout. Mr. Gauthier will endeavour to arrange a wrestling match between either Mr. Eugene Hurtubise or Mr. Jack McDonough and himself.

Nervous Dyspepsia.

Mr. George Bolen, Spry, Bruce Co., writes: "I was troubled with nervous dyspepsia for some years, and after using nine boxes of Dr. Chase's Nerve Food I felt better than I had for years. Dr. Chase's Nerve Food is certainly the best medicine I ever used, and I say so because I want to give full credit where it is due."

Negro Burnings Justified.

The burning at the stake of Tom Williams, a negro, for attacking a white woman, was commended at the 45th convention of negro Baptists yesterday. Rev. Mr. Jackson, of Dallas, declared that if any action was taken by the convention in regard to lynching, a resolution should be passed commending the whites. Other pastors asserted the negroes aided the whites in the capture of Williams. Every law-abiding negro was said to be in favour of lynch law in cases of this kind. They refused to pass resolutions denouncing the burning.

First Sod Turned.

The first sod on the G. T. P. transcontinental railway western section was turned Friday by the MacDonald McMillan Company at a point six miles north of Sidney. The MacDonald McMillan Company, who have the contract for the first 275 miles west of Portage La Prairie, will have 300 teams at work at once, and 1,000 teams within a month.

Work All Done

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the North-west Provinces, excepting 8 and 26, not reserved, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Entry may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him.

Homestead Duties.—A settler who has been granted an entry for a homestead is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

Application for patent should be made at the end of three years, before the Local Agent, Sub-Agent or the Homestead Inspector.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

A ROYALTY TO BE COLLECTED

This May Be the Ontario Government's New Policy

WITHDRAW MINING LANDS

Pending Decision of Cabinet As to Terms—No Further Patents In Cobalt District Till Next Spring—Prospecting, However, May Go On—May Take Percentage of Profits For the Crown.

Toronto, Aug. 29.—The Ontario Government has called a halt in the disposition of mining lands in the Temiskaming district until a decision has been arrived at as to the new terms, including a percentage on profits to be payable to the Crown, under which mining rights will be given. As such terms would have to be made by the Legislature it is improbable that any further patents will be issued before next spring. In the meantime prospecting is not to be stopped, and it is understood that priority will be given to claims in the order filed. The following statement was handed out by the Hon. Mr. Cochrane:

"An order-in-Council was passed yesterday withdrawing the lands in the Townships of Coleman, Bucke, Lorrain and Hudson—the scene of the recent discoveries of rich silver-cobalt ores—from sale or lease under the Mines' Act, with the view of enabling the Government to take such steps as may be deemed advisable in the public interest regarding them. It is understood that the Government will at once consider the new terms under which mining rights will be given in the territory covered by the order-in-Council.

Protects the Prospector.

These terms will take into account that the prospector is entitled to favorable consideration, and the intention is not to stop prospecting. Prospecting is still to be encouraged as it should be. Up to the present the prospector has received but little of the great benefit that has come from the discoveries in the neighborhood of Cobalt. They have sold their rights to others who make the large profits.

"The Government's intention is to make new terms more in harmony with the state of affairs that are now known to exist. For instance, instead of one man being entitled to 40 acres when he makes a discovery it will probably be provided that he will be entitled to a much smaller area. This will give more prospectors a chance in a given area.

Royalty to the Crown.

"It may also be a condition that the worker of a mine shall pay a percentage to the Crown on the profits that come from newly-discovered mines, and this percentage may be on a sliding scale, and may not be calculated on the first returns up to a stated amount. The whole question will be carefully considered and conclusions come to that will not interfere with prospectors, but rather encourage them, and yet will give the Province some part of the enormous wealth that is now believed to be in the territory affected by the order-in-Council. The result will be two-fold. First to encourage and protect the legitimate prospector, and secondly to safeguard the interests of the Province.

"The order-in-Council provides that it is not to interfere with the rights of anyone who has heretofore made application for mining lands in the territory mentioned."

Oppose the Royalty.

A. C. Boyce, M. P., for Sault Ste. Marie, and Mr. Hay of the same town, were at the Parliament Buildings yesterday arranging for the reception of a deputation from Cobalt and Haileybury, which will interview the Government to-day on mining matters. There is strong opposition in the mining region to the proposed royalty on minerals. Provincial assistance towards the establishment of a customs smelter will also be asked.

PARTICULARS OF PROTESTS.

Political Men of Rainy River District Charge Corruption.

Toronto, Aug. 29.—Particulars in the Port Arthur and Rainy River election petition were filed yesterday morning with the Registrar of the Court of Appeals by solicitor for Mr. W. C. Preston, the petitioner. At the same time particulars in the cross petition were filed on behalf of the respondent, Mr. H. W. Kennedy, M. P. P., who holds the seat by a majority of 14.

At Port Arthur on September 11 W. C. Preston, the defeated Conservative candidate, will attempt to prove that his opponent, H. W. Kennedy, made liberal promises of road grants, tavern licenses and that his agents were active in the distribution of liquor at one point in the riding. The charges also cover about 100 cases where illegal voting is alleged and several cases where foreigners were "rung in" for votes.

The cross-petition is quite as specific, and if anything more comprehensive. Mr. Preston is charged with having made liberal use of the Preston & Bell Lumber and Furniture Co., of which he is the manager, in securing votes for himself. It is alleged that the company paid money to some men and the expenses of others, to bring them from Winnipeg and other places to vote for Preston, and that this money was subsequently repaid by them.

Another allegation of serious import is that the company advanced to Mr. Preston, its manager, large sums of money to be spent corruptly on the understanding that these sums were to be repaid in the form of timber licenses and other legislative favors.

Unhappy Women!

No woman can be happy when her health is undermined. No woman can have good health while she suffers from female weakness, inflammation, ulceration or any disease of the delicate womanly organs. Nervous, sleepless, fretful, suffering in body and mind, she does not live but only exists.

More than a half a million such women have found a perfect and permanent cure for their diseased condition in the use of Doctor Pierce's Favorite Prescription. Women cured by this remedy say it is a "wonderful medicine," so perfectly does it restore them to health and comeliness.

There is no alcohol in "Favorite Prescription," neither does it contain opium, cocaine, nor any other harmful drug. It is in the strictest sense, an honest, temperance medicine. Its ingredients are purely vegetable, and it will agree with the most delicate constitution.

Don't be hypnotized, or over persuaded, into accepting a substitute. This medicine has a record that's worth far more than any difference in price.

Sick and ailing women are invited to consult Dr. Pierce, either personally or by letter, absolutely without charge or fee, thus avoiding the unpleasant questionings, offensive examinations and obnoxious local treatments considered necessary by many local practitioners. All correspondence treated as strictly private and sacredly confidential. Write without fear and without fee to Dr. R. V. Pierce, 663 Main Street, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets

These tiny, sugar-coated anti-bilious granules regulate Stomach, Liver and Bowels, cure Constipation and Bad Stomach, attended by foul breath. One or two for laxative, three or four for cathartic.

This great family Doctor Book Free on receipt of 21 one-cent postage stamps to cover cost of customs and mailing; or, in fine cloth binding 50 stamps. Address Dr. R. V. Pierce, 663 Main St., Buffalo, N.Y.

H. S. H. PRINCE LOUIS.

Received Hearty Welcome to the City of Toronto—Exhibitors' Day at the Exhibition.

Toronto, Aug. 29.—Mayor Urquhart, civic and legislative officials and a crowd of citizens extended the welcome of the city to Prince Louis of Battenberg, in the Council Chamber this morning. The ceremony constituted itself almost a record for brevity, occupying in all not more than fifteen minutes from the time the prince entered until he had gone away again. Shortly before 11.30, at which time the reception was scheduled to begin, the carriage containing Prince Louis, Lady Kirkpatrick, Capt. Pierce, and Lieut. Sowerby drove to the City Hall. At this time the gallery upstairs was filled with spectators, while on the main floor just enough stood and sat around to comfortable fill the room.

Mayor Urquhart read the civic address, to which H. S. H. Prince Louis made a very suitable response.

His Serene Highness' other engagements yesterday were: Luncheon at the Royal Canadian Yacht Club, followed by a garden party which occupied all the afternoon; in the evening he dined with His Honor the Lieutenant-Governor at Government House.

Sailors From Prince's Fleet.

Baggy bell-bottomed breeches are a strange sight in Toronto, particularly when so many pairs of them come along at once, and the novelty will be appreciated by citizens and fair visitors while the hornpipe experts are here. The sailors arrived at the North Parkdale Station yesterday morning on a C. P. R. special. Their band of 16 pieces is from the flagship Drake. Bandmaster Charles J. Risean is leader. There are also a dozen buglers with the party. The parade to the camp moved off from Parkdale with the band playing a stirring march followed by the gun crew of the Drake dragging a 12-pounder, and after them the representatives from the Essex, Berwick, Bedford, Cumberland and Cornwall, then the Royal Marines, carrying their rifles and rolled great coats. The parade was a novel treat to the spectators.

The camp was ready and the men after putting their guns away soon got to breakfast.

Commandant Ellerton of His Majesty's cruiser Berwick has charge of the brigade. The officers with him are Lieuts. Cameron and Walwyn of the Drake, Lieut. Armitage of the Bedford, Major Evans of the Royal Marines, Dr. Thompson of the Drake, Midshipmen Mortimer and Barrett of the Drake and Midshipmen Campbell and Bowelry of the Berwick.

The visitors were met at the station by Manager Orr.

Exhibitors' Day.

Seventeen hundred and seventy-one exhibitors, some of whom have five or more entries of goods, or prize animals, have already been officially recognized by the Canadian National Exhibition. According to the program yesterday was Exhibitors' Day and the exhibitors and their assistants made a strenuous endeavor to have their individual exhibits in readiness for the opening to the public at 9 o'clock this morning.

To-day at the Fair.

9 a. m.—Grounds open.
1 p. m.—Directors' luncheon and address to H. S. H. Prince Louis.
2 p. m.—Official opening by Premier Whitney, in Dairy Building.
2.30 p.m.—Sailors, Dragoons and specialties in front of grand stand.
4 p. m.—Irish Guards' Band in grounds.
7 p. m.—Civic banquet to H. S. H. Prince Louis.
7 p. m.—Specialties in front of grand stand, Fall of Port Arthur and fireworks.

Sailor Struck Officer.

London, Aug. 29.—(C. A. P.)—Able Seaman Holbrook of the cruiser Cornwall was at Quebec sentenced to two years' imprisonment with hard labor and ordered to be dismissed from the service for striking Lieut. F. Ford.

Edmonton Getting Ready.

Edmonton, Aug. 29.—Two hundred Mounted Police, under Commissioner Perry, have arrived here, and are camped on the exhibition grounds. The men are a picked lot, and present a fine appearance. The city's preparations for the inauguration are progressing well.

Yellow Fever Bulletin.

New Orleans, La., Aug. 29.—Yellow fever report to 6 p. m. yesterday: New cases, 45; total to date, 1,765; deaths, 5; total, 260; new foci, 13; total, 420. Remaining under treatment, 161.

TWENTY OF CREW DROWN

Terrible Marine Disaster Off the Florida Coast.

STRUCK BY ENORMOUS WAVE

Cargo of the American Steamship Peconic Was Thus Shifted and the Ship Began to Sink Rapidly—Two Men of the Crew Escaped In a Lifeboat To Tell of the Terrible Disaster to the Crew.

Jacksonville, Fla., Aug. 29.—The American steamship Peconic was lost during a fierce gale early yesterday off the coast of Florida, and twenty of the crew out of twenty-two were drowned. The steamer was struck by an enormous wave, which caused the cargo to shift and the vessel quickly sank.

About midnight of Sunday, during the heaviest part of the storm, which had raged all day, the officers of the deck gave the order to put farther out to sea, fearing they were approaching too near to the coast. In the endeavor to turn the ship was struck with a heavy sea, the cargo shifted and she began sinking rapidly. In less than 10 minutes after the alarm was sounded she had gone to the bottom.

Two of the crew, an Italian and a Spaniard, secured the lifeboat and landed on Amelia Beach at noon and told the story of the disaster. The Peconic was laden with coal from Philadelphia for New Orleans.

The Peconic was built at Liverpool, Eng., in 1881. She formerly sailed under the British flag, and ran on the Phelps Bros. & Co.'s line between New York and Mediterranean ports. B. H. E. Jones of the firm of J. W. Elwell & Co. of New York is her present owner.

Railway Fireman Killed.

Logansport, Ind., Aug. 29.—One man was killed, another fatally injured and a number of passengers seriously hurt in a collision on the Pennsylvania Railroad, about three miles from this city, early yesterday. Fireman Walter Every sole is dead, pinioned beneath the engine. Engineer Grady was thrown beneath his engine and both legs were severed. He cannot recover.

Was Seized With Cramps.

Toronto, Aug. 29.—The body of Lucius Cullen, who was drowned at Balmy Beach yesterday, was recovered late in the afternoon by Constable Tidsberry. In the morning Cullen with some friends had been in swimming, and when he was returning to shore was suddenly seized with cramps. A companion named Curtis, who was behind him, attempted a rescue, but unsuccessfully. The dead man was 19 years of age, and was employed as a clerk in the C. P. R. offices.

Suffocated In His Room.

Toronto, Aug. 29.—The third man suffocated by gas within six months in the old Imperial Hotel on Jarvis street was Charles J. Boyd, a farmer of Coldwater, who was found dead in bed yesterday. This is the second dead man found in the Imperial Hotel rooms in a fortnight. The deceased was a large property owner of Coldwater. He left there in February of the present year and came to Toronto. There may be an inquest.

Boy Loses a Leg.

Toronto, Aug. 29.—John King, aged 13, of 82 Yarmouth street, lost a leg yesterday morning through being struck by a C. P. R. engine at the head of Shaw street. The amputation took place at the Western Hospital.

Test the Kidneys.

Allow the urine to stand in a glass vessel for twenty-four hours, and if at the end of that it is clouded or has left a sediment in the bottom of the vessel you may be sure that your kidneys are diseased. As a means of invigorating the action of the kidneys and making them strong and healthy, there is no preparation so prompt and none so thorough as Dr. Chase's Kidney-Liver Pills.

Married by Fathers.

The ceremony attending a marriage at Southbroom, Devizes, Wilts, had a peculiar feature, inasmuch as the contracting parties were married by their respective fathers, who also gave the blessing.

Discord in Maiden's Club.

Discord has arisen in Blackburn Maidens' Club, and one of the committee, the lady who founded the club, has indignantly resigned because she was suspected of supplying information to the press. Two other ladies have resigned after one attendance at the club's skipping exercises.

Contribution to Charity.

An estimate of the yearly expenditures of London, Ont., in connection with charitable and other institutions of the kind, places the total at close on $15,000. The money is contributed in monthly payments for the maintenance of indigent persons in the different institutions of the city and separate allowances respectively to the Home for Incurables. Aged Men's home, Aged Women's home, House of Refuge, Strathroy, and for passes for relief, fuel and towards the hospitals.

Chamberlain's
COLIC, CHOLERA AND
Diarrhoea Remedy

A few doses of this remedy will invariably cure an ordinary attack of diarrhoea.

It has been used in nine epidemics of dysentery with perfect success.

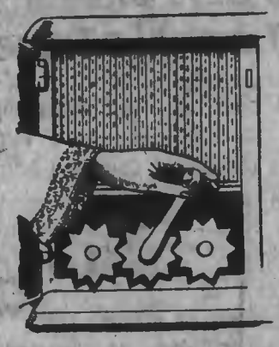
It can always be depended upon, even in the more severe attacks of cramp colic and cholera morbus.

It is equally successful for summer diarrhoea and cholera infantum in children, and is the means of saving the lives of many children each year.

When reduced with water and sweetened it is pleasant to take.

Every man of a family should keep this remedy in his home. Buy it now. It may save life.

PRICE, 35 CENTS



Easy to Shake Down the Pandora

The slightest pressure of the hand is all you need to shake the Pandora range.

With common ranges the air is full of dust and the house is full of noise when you shake them down.

But the Pandora, with its triple-geared shaker, works so easily, silently and effectively that shaking is the merest effort, which a small child can easily exert.

And this is only one reason why the Pandora is the very best range you can get.

What the Press Says of Dummer Township Tragedy

Many Editorial Comments Upon the Result of the Inquest —Demand Made in Many Quarters for Further Investigation--Opinions of Various Canadian Journals Upon its Public Significance.

Fatal Consequences.
(Montreal Daily Star.)

The verdict of the coroner's jury in the case of the shooting of the Hill boy at Dummer, Ont., is remarkable. It is evident, too, that they did not give any snap verdict, for we are told that they "were out for some minutes." Then they came in and announced that the little boy killed at night in his own father's house came to his death by accidental shooting, and exonerated of all blame Charles Gow, who confesses that he did the shooting. All that happened was that Gow and some companions were out driving at night. On their way home they decided to give the Hill family a scare, and, as they drove past the house they gave a few yells to bring the children to the window. Then Gow, who, having been in the South African war, probably knew that bullets sometimes kill, fired three shots from a Winchester rifle at the house. It was only meant as a boyish prank, as he had no animosity against the Hill boy, and was surprised next day when he heard that Tommy Hill was shot, and that his sister Mabel had been wounded.

Strange as it may appear, the Hill family express unhesitatingly their dissatisfaction with the verdict. The bereaved mother even told the jury that every one of them ought to be hanged. How far the verdict of the public will agree with the opinion of the mother it is hard to say, but this country has always prided itself on being one where the sanctity of human life was held high. We have seen ten thousand lives a year sacrificed in another country, murders, suicides, lynchings and other violent deaths—and have thanked Heaven that we lived in a Dominion where even the unofficial carrying of fire-arms was forbidden, where murders were infrequent and lynchings unknown.

While one may feel sorry for the young man who did the shooting—and he voluntarily gave himself up and confessed what he had done—the family are entitled to some sympathy. People who are awakened from their beds at night by what apparently was a yelling mob, and have rifle bullets rained upon their startled children, carrying death and wounds, can hardly be expected to feel that the whole thing should be passed off as a joke—a little unfortunate as it turned out, but merely a rough and ready kind of humour, intended to amuse them. Canadians cannot afford to allow such joking to go on.

The Dummer Tragedy.
(Toronto News.)

The Crown authorities cannot afford an hour's delay in enforcing the penalty for the Dummer murder. The action of the coroner's jury in returning a verdict of accidental death and the action of the coroner in accepting such a verdict constitute a serious miscarriage of justice. The law recognizes the deed as a murder, and unless we in Ontario are supine enough to permit the law to be openly and boldly set at defiance, prompt and decisive action is called for. There has been a tendency in more quarters than one to overlook serious crimes. A state of lawlessness in a district, whoever may be the offenders, cannot be allowed to perpetuate itself. If the authorities were to hesitate in setting all the machinery of the law in force in this case a paralysis of justice elsewhere would certainly result. All the circumstances of the Dummer tragedy call for a speedy vindication of the rights of the community and the punishment of the offender, whose callous explanation of the crime renders the intervention of the Crown officials the more necessary. It is painful to reflect upon such an instance of mental and moral irresponsibility. The menace to society involved in passing over the crime in of first importance, since no task seems to call at present for greater firmness and vigilance than the upholding of law and order in the rural districts.

The Dummer shooting case cannot be allowed to close with the verdict of the coroner's jury. The defence that the first shot came from the house is clearly inconsistent with the defence that the shots fired at the house were at random. Even if no malicious motive is proved, it is crime, not an accident, to fire a loaded rifle at a dwelling house; the plea that the offender did not mean to hit anybody in particular is allowable only as a plea of insanity. Human life is too sacred to be treated in this cavalier fashion. There must be a thorough investigation and a rigorous prosecution of the guilty persons.

Dummer Township Tragedy.
(Toronto Star.)

It is freely conceded that Charles Gow had no desire nor intention of shooting twelve-year-old Tommy Hill in Dummer Township the other night. The night was dark and the boy could not have been seen at the window from the point in the road from which the shot was fired—perhaps even the window could not have been seen from that point. Yet Gow, an expert rifleman, fired three shots from a powerful gun into an inhabited house, and however much he may now regret the killing of the boy, he cannot be exonerated from blame without injury being done to the cause of justice. Gow naturally tells the story in the way most favourable to himself—how he thought he heard a shot fired from the house, and merely pulled his lever and fired three shots at random while the rifle lay across his knee. But he is a practised shot, knew the great carrying power of his weapon, and his action was as dangerous as its results were fatal. If his crime was not a murder, clearly it was manslaughter.

The coroner's jury has found that Tommy Hill's death was accidental, but it is very improbable that the Attorney-General's department will be able to concur in this local estimate of the affair. The jury seems to have reflected the local feeling, that it would be a pity to punish a popular young man for having unintentionally killed a Hill. If Crown Attorney Wood is correctly reported in saying that in Dummer Township the careless use of firearms is considered a small thing, it becomes more than ever the duty of the authorities to take such action as will improve the state of opinion in that locality. Where a family feud occurs in a rural community, and where firearms begin to be used to frighten people into moving away, the tolerance of the authorities for such lawless acts will soon permit these feuds to progress to bloodshed. If the law overlooks the killing of this boy, the Hills may fall back on the loaded gun as a crude means of securing justice. There is this danger always where local feeling is allowed to palliate offences.

In the recent white-capping case in the western part of the Province there was exhibited the same local tendency to excuse lawlessness because of the unpopularity of the victim and the good repute of the white-cappers. It is precisely the same tendency as that which causes and condones lynching in many parts of the United States, and the only course, just and safe, is for the authorities to keep justice in their own hands and take no account of the local popularity or unpopularity of anybody.

The Dummer Outrage.
(Montreal Herald.)

The outrage at Dummer has a dangerous resemblance to murder, and public opinion is not likely to be satisfied to let the matter rest where the verdict of the coroner's jury left it. If one tithe is true of what is said regarding the local prejudice which existed against the Hill family, the hastily empanelled jury which, after a few minutes' deliberation, returned a verdict of accidental death, was totally unfit to express an opinion upon the case.

Canadians do not believe in vendettas, and no amount of even real and deliberate provocation could justify such an outrage as that which cost the life of an innocent lad. Even among the crimes committed by the lowest type of immigrant we receive from Europe there has rarely been one more revolting to the public conscience. The strictest and most impartial justice should be administered between citizens who are expected to set an example to the knife-carrying Greek and Italian who, occasionally, horrify us by taking the law into their own hands in a manner not very dissimilar to that by which it was sought to intimidate the Hill family at Norwood.

Many Tourists Still Arrive At the Lakes

Large Influx to Hotels and Cottages Last Week.

Arrivals at Various Hotels—Interesting Personal Notes.

Stony Lake, Aug. 29.—Mr. Willis Garrow, of Peterborough, spent the week's end at Victoria House.

Mr. J. S. Knapman came up to his cottage on Saturday.

Mr. Manse Cornstock and Mr. J. Gemmell, of Peterborough, were guests at Victoria House over Sunday.

Mr. and Mrs. H. H. Gray and Mr. Daniel Gray, of Indianapolis, Ind., are guests at Kimo.

Mr. Jas. Hawker and wife, of Toronto, and Dr. Frank D. Glass, of Pittsburgh, Pa., are guests at Bolleobasse Isle.

Mr. and Mrs. W. B. Wickens and Mr. Vincent E. Wickens are guests at Viamede.

Mr. J. Taylor Henderson, Engineer in U. S. army, is a guest at Burleigh Falls Inn.

Mrs. Victor McWilliams, of Keene, and Miss Florence B. Steiner, of Toronto, are guests at Tecumseh Lodge.

The following are the recent arrivals at Viamede: Mr. W. Kennedy, Toronto; Rev. Dr. Drummond and wife, Hamilton; Mrs. J. Park, Miss Ella Park, Toronto; Miss Reba E. Kittson, Hamilton; Miss M. L. Moore, Mrs. D. H. Moore, Peterborough; Miss Florence G. Sherin, Winnibago City, Minn.; Mr. F. S. Tully, Mr. Harold W. Shapely, Toronto; Mr. E. S. Ingersoll, Mrs. D. E. Kittridge, Miss Francis Kittridge, Mrs. J. C. Darry, Mr. J. C. Barry, Mr. Philip Barry, Mr. W. C. Sutherland, Rochester, N. Y.; Mrs. F. W. H. Baldwin, Mr. J. F. Baldwin, Moundsville, W. Va.; Dr. S. Anguson and wife, Buffalo, N. Y.; Mrs. H. Stover, Miss E. Stover, Pittsburgh, Pa.; Miss M. C. Williams, Miss E. M. Creelman, Rochester, N. Y.; Mr. and Mrs. A. S. Bixter; Miss I. B. Bixter, Miss R. B. Bixter, Pittsburgh, Pa.; Mr. and Mrs. W. K. Gillette, Miss Mary C. Gillette, Rochester; Mr. Jas. Hawker and wife, Toronto; Mr. R. H. Moore, Peterborough; Miss J. D. Maher, Rochester; Miss Geraldine Mooney, Buffalo, N. Y.; Dr. G. P. Doolittle and wife, Albion, N.Y.; Mr. and Mrs. G. W. Pound, Buffalo, N. Y.; Miss Whitney, Mr. J. Hancock, Miss Hancock, Miss Henderson, Niagara Falls, N. Y.; Mr. Cecil P. Sherin, Winnebago City, Minn.; Miss C. E. Lightfoot, Peterborough; Mr. A. O. Beatty and wife, Miss Helen Beatty, Welland; Miss M. Gill, Cuba, N. Y.; Mr. and Mrs. Edwin B. Jelley, Lockport, N. Y.; Mr. and Mrs. W. W. Broadbridge, Mr. and Mrs. F. E. Mason, Rochester, N. Y.; Mr. James Mauvern, Miss L. Mauvern, Fenelon Falls; Mr. and Mrs. W. E. Wickins, Mr. Vincent Wickins, of Brantford, Ont.; Mr. H. G. Carpenter, Ithaca; Miss Laura A. Edwards, Lakefield; Mr. and Mrs. E. W. Ely, Rochester; Mr. and Mrs. C. A. Miner, Buffalo, N. Y.

The arrivals at Burleigh Falls for the week past were—Mrs. Davidson, Peterborough; Miss M. Warner, Miss G. H. McNeilan and Mr. and Mrs. J. H. McNeilan, City; Mr. W. R. Meredith, Toronto; Mr. and Mrs. Allon, Lindsay, Troy, N.Y.; Mr. D. S. Hoover and Mr. E. M. Keough, Cleveland; Mr. G. W. Armstrong and wife, Buffalo, N.Y.; Miss M. Strickland, New York; Miss E. Strickland, Victoria, B.C.; Mr. H. M. Davidson, Aldieghany, Pa.; Mr. G. Emosher, Mr. J. M. Waunsby, Rochester, N.Y.; Miss R. Martin, New York; Miss Margaret Galbraith, Port Hope; Mr. J. R. Fisher, Greensburg, Pa.; Mr. N. W. Meneserger, Mr. Harry C. Blank, Mr. J. P. Schultz, Mr. J. Lawson, Latrobe, Pa.; Mr. Chas. J. A. Folger, Mr. T. G. Mentzel, Mr. F McIntyre, Mr. Chas. Walbourn, Mr. F. L. Dunsfaugh, Mr. G. McDowell, Greensburg, Pa.; Miss B. Thompson, Miss Georgina Davidson, Miss M. Scott, Mr. and Mrs. R. E. McKee, Miss Hazel Davidson, Mrs. Jas. Davidson, Peterborough; Mr. and Mrs. W. K. Greenwood, Toronto; Mr. M. C. Eldridge, Mr. C. F. Wolff, Mr. Harry Sherick, Cincinnati; Mr. and Mrs. J. W. Joyce, Buffalo; Mr. J. D. Bailey, Toronto; Mr. R. B. Baird, Oshawa.

The Cruelties Of The Check Rein

Correspondent Expresses His Opinion Regarding It.

Also Remarks Regarding Docked Tails, in no Uncertain Language.

To the Editor of the Examiner:

Dear Sir,—Now that fly time has come will you kindly allow one appeal in your popular paper to make a plea for those most willing slaves of man, "the horse" which we see every day driven on the streets with their tails docked or their heads checked up in such a manner that they can neither use nor to rub off those small but most worrying insects. It is certainly one of the most cruel habits that is practised in this 20th century and by people too, who consider themselves most highly civilized in the world.

I believe, sir, that this evil is practised more through thoughtlessness than from sheer wanton cruelty, and therefore very advisable that the matter should be brought before the minds of the people for consideration, especially before ladies and young men, with many of the former it is practised or at least countenanced and encouraged on account of the idea that it looks stylish, but we will hope without any consideration as to the horse's comfort.

Where any beauty is found in cutting short a horse's tail (which certainly is an ornamental as well as useful appendage) or in reigning back his head until his neck is cramped and distorted, it is not easy to imagine. Why should it be thought more becoming to a horse to have his head thus checked back than to a man or woman walking along the street with their heads tied back so that they could see nothing but the heavens above them? I rather think they would feel very foolish and unprepossessing to say nothing of the discomfort, but add to this the deprivation of their hands and clad only in a thin close fitting garment as is the case with horses at this season of the year, and compelled to work and you will have some idea of the torture inflicted on these poor dumb but patient animals.

I am sure there are many well-meaning people who would be glad to make a stand against an existing evil. Now here is a way in which, with little or no effort they might accomplish an immense amount of good. Let leaders of fashion who have their own private equipages see that their horses are allowed the free use of both their heads and their tails, and those who have to hire refuse to patronize a livery where such practices are allowed, and let young ladies who expect their gentleman friends to call and take them for a drive, ingenuously refuse to accompany them unless the horse is harnessed up in such a way that he can travel with some degree of comfort and freedom. If this were done, I believe the evil would soon disappear.

Yours truly,
HUMANITY.

Note.—The question of docking horses' tails was fully discussed in the local Legislature during the session of 1904, and Dr. Routledge's Bill was voted down. A properly cared for docked horse does not suffer as much as a long-tailed horse in less careful hands. Up-to-date carriage horses are not long in a gentleman's barn before they are docked and it has been said that these horses are carefully cared and properly looked after.

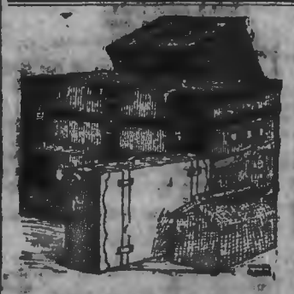
Relieves Itching Heals the Skin.

And Does These Two Things Better Than Any Other Preparation—Such is Dr. Chase's Ointment.

The difficulty of stopping the dreadful itching, burning sensations, and of healing the raw and irritated skin, is what has made eczema, salt rheum and running sores seem impossible to cure. But there is a cure for everyone who will persist in the use of Dr. Chase's Ointment.

There is scarcely a neighbourhood in this country where Dr. Chase's Ointment has not produced some remarkable cures, and for this reason we request you to ask your neighbours about it. We publish hundreds of testimonials in the papers, but may not happen to refer to anyone known to you personally.

By its antiseptic influences Dr. Chase's Ointment thoroughly cleanses the sore to which it is applied, then soothes the irritation and heals the skin. It is useful in scores of ways—wherever there is itching skin or a sore that refuses to heal. 60 cents a box at all dealers, or Edmanson, Bates & Co., Toronto.



Trunks!

You will soon be taking a holiday trip.....

Is your Valise, Suit Case, Satchel or Trunk presentable?

We have a large and varied stock, embracing all the latest styles—at exceptionally low prices

Buy one of our comfortable Hammocks and enjoy the summer.

Now is the time to purchase your Harness while it is cheap.
